How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the auplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for *less money* than foreign watches, but we do assert without fear of contradiction that for the *same money* our product is incomparably superior. All our watches, of whatever grade, are fully warranted and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

FREE TO EVERYBODY!
The Guide to Health and Beauty,
JUST PUBLISHED.

It teaches how to remove Tan, Freckles, Pimples, Blotches, Moth Patches, Sallowness, Eruptions, and all impurities of the skin; how to enamel the skin, leaving it white and clear as alabaster; how to produce the fullest development of the female form (as practised by the French), causing the bust to grow round and full, and if the form has been lost by padding, lacing, or maternity, restoring it to more than its original fullness, firmness and beauty. It teaches how to reduce in size the hands and feet; produce corpulency or the reverse; remove superfluous hair; cure Corns, Bunions, Warts, and Moles; renew your age; cure Drunkenness, Catarrh, Dyspepsia, Nervous Debility, &c., how to fascinate and gain the love and affection of any person you may choose, together with other useful and valuable information. No young Lady or Gentleman should fail to send their address to the undersigned and receive by return mail a copy of this valuable work in sealed envelope free of charge. Address

PURIFY THE BLOOD.—If the blood be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as if

Bereft by Lightning.

Now, this can be remedied.

BRANDRETH'S PILLS

take all impure matters from the circulation, and save the general health, soon curing local affections also. BRANDRETH'S PILLS protect from tedious times of sickness and often save life.—Sold by all Druggists. Je20dawlm

MANUFACTURERS OF
FIRE & BURGLAR-PROOF SAFES,
110 *Sudbury Street, Boston.*

☞ SECOND-HAND SAFES taken in exchange, and for sale low. Je28—3m

Local.

☞ Messrs. Marston, Randall & Co. know well enough that we couldn't keep Fourth o' July without Salmon for dinner; and so they sent as handsome, sweet and juicy a cut from one of the shining beauties as the tooth of epicure could desire.

And what with that basket of very handsome Chenango Potatoes, of full size, ripe and pink skinned, from the garden of Mr. Lowell Jenness of this city, (whence he dug a mess for dinner on the 28th of June,) and those fine Green Peas from Mail Agent Lane of Candia; with that box of most delicious Strawberries from the same, for desert,—and last and sweetest of all (*after* you have dined), that beautiful Boquet of Roses from the belle of Christian Shore—we did make out to "celebrate," to our own satisfaction at least. Hurrah for the Fourth of July!

☞ A correspondent wishes us to notice the absence of banners and mottoes in the procession of Wednesday, and thinks the projectors must have forgotten the occasion it was intended to commemorate, as beside neglecting these accessories toward awaking enthusiasm, there was but one American flag carried in the procession, a fire company furnishing that. He is in error, however, in supposing that no mottoes were exhibited upon the street decorations.

☞ We are informed that the alterations to the Catholic Church in this city will add a wing to each side the present building, and that the contract for labor on the same has been taken at $1800. This Church is also said to have made the largest contribution to the erection of the Cathedral at Portland, of any church in the diocese.

☞ Ten marines stole the boat of one of the lieutenants at the Navy Yard, on Wednesday night, and came over to this city. Information was sent our police, and on Thursday morning they were all arrested, returned to the Yard, and placed in double irons to await the action of a court martial on their case.

☞ *This Evening*, at 8 o'clock, if fair weather, KNIGHTS' CORNET BAND will give their Second Promenade Concert on Market Square.

NEW HAMPSHIRE ITEMS.

—— At Milton, on the 25th ult., Mr. James Berry was drowned while bathing in a mill-pond. His body was recovered after considerable exertion.

—— Chesley Drew, son of the late Hezekiah Drew of Dover, aged 13 years, fell from a tree on Saturday, June 30, and had both arms broken.

☞ A letter has been received in Washington from the rebel General Magruder, now in Mexico, who writes to a friend asking him to intercede with the Government that he may not be arrested. "I want permission," he says, "to return to the United States. The Imperial Government has gone to destruction and has no money, and we have to get away from here. Many have already left. Price and myself and some others are still here, but we are compelled to look out for some other place to go to. There is no hope for anything more here."

☞ At San Francisco, the negroes have been excluded from participating in celebrating the coming Fourth of July. [Starr King is not among the living; perhaps this fact may account for the foolish exclusion.]

— Open-air Sunday meetings, for those who won't go to church, were inaugurated last Sunday at Newark, N. J.

— General Sherman seem to have a very poor opinion of Canada; for on a recent visit to Sandusky, Ohio—the question of Canadian annexation being discussed—he said: "We don't want Canada; but if we should, a campaign of five days would bring it."

— The half a dozen Kansas men who were preparing to contest Senator Pomeroy's return to the United States Senate will now probably turn their attention to the vacancy caused by Mr. Lane's death, and Mr. Pomeroy may retain his place without difficulty.

— Mr. President,—I wish the friends in the forepart of the meeting would speak up, so that the friends in the back part of the meeting can hear what is going on in the front part of the meeting. Friends in the back part of the meeting feel as much interested as the friends in the forepart of the meeting; it is highly necessary that friends in the forepart of the meeting should speak up, so that friends in the backpart of the meeting can hear what is going on in the forepart of the meeting, especially if they are saying anything about the J. Monroe Taylor Gold Medal Soap, which every one says is so good. 91

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-crypot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for

Elegant Residence for Sale.

[On account of removal of owner.]

The well-known and beautifully situated CUTTS' HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath-room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.

The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.

The House is furnished with double windows (each with a sliding sash) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The house is fitted throughout with Straw Matting.

The outbuildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in ash and black walnut, with glass cases for harness; Cow House, &c.

If desirable, more land, adjoining, could doubtless be purchased.

The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery—and are situated so to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

THE BOLTERS' CONVENTION.—When the call of Messrs. Randall & Co. first appeared, though we knew that they were certain at last to find rest in the bosom of the Sham Democracy, we presumed that policy would dictate a brief affectation of coyness if not of coolness on the part of one or both of the predestined lovers, and that the Convention might be confined to the Bolters and to certain elements lying loosely around the Democratic camp. But our advices from Washington import that a Democratic *pronunciamento* is soon to be issued—foreshadowing the coming "fusion," and giving at least the wink to all the semi-Rebels and negro-haters to help the Bolters to the utmost, with a plain view of ultimate amalgamation. Messrs. Guthrie of Kentucky and Niblack of Indiana lead this movement; but it is expected to take in the entire Sham Democracy.

The Hon. Henry C. Murphy, late Senator from Brooklyn, is indicated as the fusion candidate for Governor of this State; the Hon. Orville H. Browning of Illinois is soon to be installed in the Cabinet—probably as Mr. Speed's successor. Mr. Harlan's place is likely to be given to Mr. Doolittle, which will be satisfactory to the people of Wisconsin, since it allows them to suit themselves better in a Senator. Judge Sharkey of Mississippi—who has made more atrocious Pro-Slavery decisions than any other man living—is in training for a seat in the Cabinet, but not quite ready yet. He goes in with the next batch. The ball is *rolling* on for Vallandigham and Raymond jointly to report the resolves of the next "conservative" National Convention. And, since it is agreed that the Lincoln platforms of 1860 and 1864 form a satisfactory basis for the next Democratic platform, why not?—*Tribune.*

UNIVERSITY OF VA.—At the Commencement of the University of Virginia on Friday last, the observed of all observers was Robert E. Lee, who was attired plainly, in his well worn suit of gray, and his home-made straw hat. Hon. A. H. H. Stuart, the orator of the day, spoke for two hours on "the causes and consequences of the recent war, and what duties it imposes upon us, especially the young men of the South." When the exercises were concluded, the band struck up "Dixie," which was of course greeted by tumultuous shouts, but it is stated that "there was no bad manners, no Yankeeism."

UNBECOMING.—The heir apparent to the throne of England does not behave in a way that excites sanguine hopes for the future. He is charged with being too intent upon his sports, and with absolute rudeness, by requesting, on a recent festive occasion, that nobleman would be brief in their speeches, as he wished to be off so soon as possible after the cloth was removed. Lord Derby rebuked the young man of 25 for his insolence to men old enough to be his grandfather.

THE ALPHABET.—The following verse contains all the letters of the alphabet, and may be used as an exercise for young children in tracing the letters:

"God gives the grazing ox his meat,
And quickly hears the sheep's low cry,
But man, who tastes his food without toil,
Should joy to lift his praises high."

CHOLERA
DISARMED!!!
The Chief Causes of Pestilence Destroyed.
DR. E. R. COURANET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 368, 370, and 372 Henry street, N. Y.—Office, 42 Cedar street.
This Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter-houses, offal and fat-boiling establishments; also, for manure (immensely increasing the value of the latter), and wherever poisonous and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words. They remove noxious gases and odors by chemical principles—leaving in their places *healthful air*; they are DEMONSTRABLE, and *warranty shorteats* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office.
DELAVAN HOUSE, Albany, March 30, 1866.
To the President of the New York Disinfecting Co.:
Dear Sir: It is all it is represented to be. We have used your liquid disinfectant, but now consider that we have found an article which surpasses all others as a remedy against all bad odors. T. ROGERS & CO.
NEW YORK, April 9, 1866.
To the President of the New York Disinfecting Co:
Dear Sir: We pronounce it without exception to be the best we have ever known. Its effect upon every matter is complete and instantaneous.

BELL'S TONIC PILLS
Are recommended as the most Efficacious, Rejuvenating and Invigorating Remedy in the world.
A Package, Price Five Dollars, will last a month, and is generally sufficient.
In extreme cases of Debility and Impotence,
BELL'S EXTERNAL REMEDY,
Price Two Dollars, sufficient for a month, can be used to good advantage.
It gives Strength to the Organs, and, with the Pills, will restore them to their normal condition.
A Pamphlet of 100 pages, on the ERRORS OF YOUTH, designed as a Lecture for Males, and to Young Men, Sent free. Ten cents required to pay postage.
CAUTION.
The above Remedies have now been before the Public many years, and their great success in the alleviation of human misery, has excited the cupidity of several parties, who use the name "Specific Pills," copy my labels, circulars and advertisements, and sometimes put up a base and worthless compounds that disappoint the just expectations of the purchaser.
If you cannot purchase BELL'S SPECIFIC REMEDIES of your Druggist, take no other, but send the money direct to

CHEROKEE CURE,
THE GREAT
INDIAN MEDICINE,
Cures all diseases caused by self-abuse, viz:—*Spermatorrhœa, Seminal Weakness, Night-Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Insanity, Consumption*, and all diseases that follow as a sequence of youthful indiscretions.
The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two pages pamphlet sent in a sealed envelope, free to any address.
Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.
Cherokee Remedy,
Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the
CHEROKEE INJECTION,
does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus or Whites in Females.* The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without benefit.
Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " " $2, " " $5.
The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all our regular drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us in *perfect confidence.* We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

AGREEMENT. — The Boston Herald's Washington correspondent says:

The President approves fully of the new Democratic address. He likes his conservative tendencies.

This is quite likely; for the Democratic address is merely an echo of the National (Johnson) Call. That is only an echo of "my policy,"—which Mr. Seward says is his policy; and the Washington correspondent of the Rochester Democrat says that the call for the Philadelphia National Convention was prepared by Secretary Seward. It is a mutual admiration society, composed of strange bed fellows, to meet in dog-days.

REPORT ON THE MISSISSIPPI LEVEES. In the U. S. Senate, Senator Clark concludes his able report on the propriety of making an appropriation to repair the Mississippi levees by saying: "It is the part of wisdom to restore the breaches and desolate places which wasting elements and civil war have made. Whose soever may have been the folly to pull down, let ours be the magnanimity and the effort to build up."

— The President's message, and the manner in which it has been received by Congress and the Union party throughout the country, reminds somebody of the lines:

"I can't marry you, my pretty maid,
Nobody axed you, sir, she said."

— Mr. James Parker of Springfield has just received from a friend an Indian relic of peculiar associations, viz: a red clay calumet, or pipe of peace. The donor says in his letter: "I am pleased to present you with this Indian relic, which I personally received from the renowned warrior Black Hawk. It was received on the banks of the Mississippi, June 25, 1836, thirty years ago." The calumet is about four inches in length, with a bowl two inches in depth, and it weighs half a pound.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street,
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twenty* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. Dow has now the gratification of presenting the unfortunate with remedies that have never, since the first introduced them, failed to cure the most stubborn cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, has confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

SATURDAY, JULY 7, 1866.

☞ The Worcester Palladium, a loyal paper, and able, fears the result of the Philadelphia convention, and says:

The Union party came out of the war a strong and united party. It may possibly be too strong now to be moved by a "ripple." But it is possible that consequences may come from this convention more serious than enter into the calculations of ardent men. Suppose that there shall be an irreparable break between the President and his friends and Congress and its friends; what will be likely to follow?

The Palladium fears the party may sink into a hopeless minority, unless the President and friends can be conciliated, &c.—But it would be a vain attempt to conciliate Tom Florence, and the old secesh of Washington. The President will, as the Palladium suggests, be President two years and a half longer.—and Congress and the People must make the best of him and of the situation. But let not Congress nor the people put darkness for light, to conciliate him or any body else. Avoid denunciation as far as may be, but pass all proper measures by a good two-thirds vote of both Houses, and send good men and true to Congress. That is the best style of conciliation, for it will command respect. Truckling insures contempt, and deserves it; but honesty should carry a bold front.

☞ In Brooklyn on the 4th a man named H. Voltz, a painter, deliberately fired a loaded musket into a group of children, killing one and wounding two. The child killed was William Lehman, aged six years. The wounded children were William Mantun and Charles Baget. Voltz was arrested.

There were 25 accidents from powder. A German named Folks deliberately shot a policeman dead in his (Folks') yard yesterday, while the officer was expostulating with him for threatening to shoot some ball players whose ball had been accidentally knocked into his premises. Folks and his wife were arrested.

The public fireworks there were postponed from last evening until next evening on account of the heavy rain squall.

☞ *The Boston* Herald's Washington of July 5th, says the pressure on the President on that day was almost without precedent. Politicians were there from nearly every portion of the country, relative to the changes which have been or are to be made in offices. From the West they come in delegations, and New England is already sending more than her quota.—Many important changes will not be made until after Congress adjourns.

FROM MEXICO.—Vera Cruz dates of the 22d ult. state that the yellow fever was raging there, and that the deaths are numerous.

It was believed that Santa Anna was working in the interests of the church party, in consideration of which he expected to be elevated to the Presidency, he promising to restore the church party their property.

Maximilian continues to reorganize and concentrate his army. The French troops, which evacuated Matamoras, had reached Vera Cruz. A Liberal movement on San Luis Potosi had compelled a reinforcement of that place by the Imperialists.

☞ Wheat harvesting has begun in various sections of Indiana, and the reports of the yield are more favorable than was anticipated. In the aggregate there will fully half an average crop, while the quality will be far superior to last year. The berry is plump and healthy, and will make the best flour.

The harvest is about completed in Southern Kansas. There has been an unusually large yield.

NEW HAMPSHIRE ITEMS.

—— Rev. A. M. Haskell, of Salem, Mass., has accepted the unanimous call of the Unitarian Society at Manchester.

—— On Saturday, June 30, as Horace Hicks, a boy about 16 years old, employed in the Scondegoda Mills, at Sanbornton Bridge, was swinging in a belt hanging from a shaft, being a rubber belt it adhered to the shaft and wound round taking the boy with it, carrying him to the shaft, and round it with each revolution, striking the timbers above and a stone pipe near, mutilating his face and head, and breaking nearly every limb. The shaft making 160 revolutions per minute, must have carried him round three or four hundred times, striking hard each time, and probably killing him at the first or second blow.

— The Richmond papers announce the death of Gen. John H. Cooke, in the 86th year of his age. He was a man of great wealth and influence. In the war of 1812 he was a Brigadier General of Virginia militia, commanding at Camp Carter near Savage Station. He was a great enemy to the use of ardent spirits and tobacco, and often declared the latter to be "the bane of Virginia husbandry."

THE PORTLAND FIRE, it appears, was an incident of the Fourth of July. It commenced in the boat shop on Commercial street, and was caused by a lad firing a cracker among some shavings on the outside of the building, which set them on fire. The flames quickly communicated to the interior of the building, which in a few moments was all a-blaze, and the adjoining building, corner of Maple and Commercial streets, also caught fire and rapidly burned. There was a high wind prevailing at the time, and the flames and cinders were blown directly upon the extensive buildings of the Portland Sugar House Company. Soon these were all on fire, and the large foundries of Messrs. C. Staples & Son and N. P. Richardson on Commercial street, caught, and thence the fire flew over the city. Of all the utterly useless and dangerous playthings, none can exceed India crackers. Their disuse or prohibition cannot restore Portland's loss, but it might save some other city.

Their water was scarce; for the tide soon began to fall as the fire increased, and the reservoirs (filled, we suppose, by the rains,) were speedily exhausted.

Loss of property, estimated at $10,000,000—some say $15,000,000. Insurance, $4,000,000 to $5,000,000.

The Portland Argus will be printed at Saco for the present, and the Press at Biddeford,—as there is not a power press left in Portland.

From Mr. Chamberlain, of the P. S. & P. Railroad, we got a little extra Portland Press of Friday, and copy the following items:

Eight Churches were destroyed: 1st Baptist, Federal street; St. Stephen's Episcopalian, Pearl street; 2d Parish, Middle street; Pearl Street Universalist, Pearl St.; Chapel of the Immaculate Conception, Catholic, Cumberland street; Swedenborgian, Congress street; Bethel, Fore street; 3d Parish, Congress street.

Seven Hotels were destroyed—Elm, International, American, Commercial, Franklin, Kingsbury House and Sturdevant House.

The unfinished marble hotel erected by the late Hon. John M. Wood was burned down. The beautiful mansion of Mrs. Wood shared the same fate.

The building occupied by the Custom House and Postoffice was considered fire-proof. But the flames crept into the upper part of the building, occupied as Court Room, and the interior was badly damaged. The Postoffice part was not so much damaged. Judge Clifford lost a part of his valuable law library, and Judge Fox lost the whole of his, which he had removed there but a few days previously.

Great fears were entertained that the U. S. Hotel would go, but active exertions prevented the fire from catching the building. Had that building been burned, the conflagration would have extended much farther.

IN WASHINGTON CITY the Fourth was ushered by the ringing of bells, national salutes, and a general discharge of firearms of every size and shape, from boat howitzers down to miniature cannon. At an early hour improvised companies of colored men, with colored officers and musicians, began to parade the streets, some of them showing by their marching and by the way in which they handled their muskets, that they were veterans who had defended the starry flag under which they marched.

The pupils of the colored Sunday Schools were also out with banners and music, and the different schools were escorted to Lafayette square. There all were united in a procession which marched to the East Capitol grounds, where there were suitable exercises.

The soldiers of the war of 1812 marched to the White House, headed by Gen. St. John Skinner, one of the chief clerks of the Post Office department, who made a regular "Silver Grey" speech, endorsing "the policy" and concluded by assuring the President that he was sustained by every true patriot, regardless of the assaults of corrupt presses and the designing schemes of politicians. The President said in reply:

"I would assure you that the sentiments you have expressed meet my most cordial co-operation, and coming in a day like this are all the more interesting and encouraging to me, especially now when we are engaged in the struggle for national harmony and unity. [i. e. now engaged in the struggle to put down Congress and the loyal people,—and put up rebels, traitors and their allies.] The approval of my official course which you have been pleased to announce is very encouraging."

A boy who was shot by an intoxicated man will probably die, and there were a dozen or more minor accidents resulting from the bursting of pistols.

N. H. LEGISLATURE.—On Thursday July 5, the House held three sessions, and a final adjournment is expected on Saturday morning.

The Agricultural College bill was further discussed in the House, and by a large majority the House decided to locate the institution at Hanover. The State will have five trustees and Dartmouth College four, while the State reserves the right to resume full control of the School after fifteen years.

The House, by a small majority, has voted it in expedient to call a Constitutional Convention at the present time.

The United States Constitutional Amendment question was held under discussion throughout the day in the Senate Chamber

SOUTH CAROLINA.—A Washington dispatch says Gen. Howard has received a letter from the headquarters of the Freedmen's Bureau in South Carolina, which stated that Gen. Sickles, Military Commander of that Department, had, after a consultation with Gov. Orr on the matter, disapproved of the issue of rations to white people in South Carolina, on the ground of exaggerated reports and the danger of promoting idleness.

GEN. GRANT'S OPINION. — General Grant is of the opinion that there should be at least one full regiment of cavalry in each Southern State, in order to prevent outrages, and to give proper protection to loyal citizens, white and black.

☞ New Orleans is becoming a city of sensations. Recently they had a midnight race between horses drawing fire engines. Now the sports are unusually excited over a contemplated goat race, "Eye Back" and "Black Bill" being the contestants against each other and the world. Five hundred dollars is staked on each goat for the distance of one mile. All comers, from whatever quarter of the globe, are challenged, and the backers of each are confident of winning.

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.00.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Sold by Druggists everywhere.

BEAUTIFUL TEETH are always fragile, and short-lived will be their whiteness, their lustre, their smoothness, without unscrupulous care; but if brushed daily with the pure and purifying SOZODONT, they will retain their beauty even when the brow is wrinkled and the hair is gray. 25

☞ In New York City on the 4th, at the Tammany Hall celebration, letters were read from the President, Secretary Welles and others. The President's letter says there can be no nobler work than the obliteration of passions and prejudices which retard conciliation and prevent reconstruction of all the States to constitutional relations with the Federal Government.

☞ At Washington, on the 4th, Hon. J. W. Patterson delivered an eloquent address, at the laying of the corner stone of a new public hospital on Capitol Hill; and F. A. Aiken, who was counsel for Mrs. Surratt, and is a prominent Democratic politician, was arrested to answer the charge of obtaining money by false pretences.

— Nearly all the property Senator Fessenden possessed was destroyed by the fire at Portland.

PERRY DAVIS' PAIN KILLER,
As an internal remedy, has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, Dysentery, and Asthma, it cures in one night, by taking it internally, and bathing with it freely. It is the best liniment in America. Its action is like magic when externally applied to bad sores, burns, scalds, and sprains. For the sick headache and toothache, don't fail to try it. In short, it is a Pain Killer.
PERRY DAVIS' PAIN KILLER.—This medicine has become an article of commerce, a thing no medicine ever became before. Pain Killer is as much an item in every bale of goods sent to country merchants as tea, coffee, or sugar. This speaks volumes in its favor.—GLENS FALLS MESSENGER. jy1—dawlm

REASONS WHY THE
AMERICAN WATCH,
MADE AT WALTHAM, MASS.
IS THE BEST.
It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made. The watch is what all watches should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "anceres," "lepines," and "English Patent Levers," are perfectly well aware of the truth of this statement.
At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of these foreign impositions—the refuse of foreign factories—which were entirely unsaleable at home and perfectly worthless everywhere.
How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for *less money* than foreign watches, but we do assert without fear of contradiction that for the *same money* our product is incomparably superior. All our watches, of whatever grade, are fully warranted and this warrantee is good at all times against us or our agents in all parts of the world.
CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

PURIFY THE BLOOD.—If the blood be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as it

☞ SECOND-HAND SAFES taken in exchange, and for sale low. Je26—6m

Local.

☞ Besides contributing to aid our general City Celebration of the Fourth of July; Messrs. Main & Winchester had a neat little private celebration of their own, at their home on Lafayette Road. And not so very little either; for their decorations were very tasteful, and their display of fireworks quite extensive, and brilliant. The fires of patriotism and public spirit will not go out, on old Lafayette Road, so long as these live Californians reside there.

☞ We regret to learn that Mr. Samuel F. Cobb, who came to this city from Portland several years ago, had arranged previously the great fire there, to remove his music and variety store to that city. Mr. Cobb has been one of our most pleasant and attentive storekeepers, so that his removal will be regretted by many. It will be seen that the fine store he now occupies, is advertised for rent.

☞ The Second Meeting of the Portsmouth Temperance Society will be held at North Church to-morrow (Saturday) evening, at half-past 7 o'clock. Addresses may be expected from a number of gentlemen. It is to be hoped that a large audience will be in attendance, for there is no subject that has a more important claim upon our feelings and energies than that of temperance. R.

ACCIDENTS.—A son of Cornelius Carey, aged two years, was drowned in Puddle Dock, on the afternoon of the Fourth.

On Friday morning, a son of Thomas Stevens, Cabot street was drowned in a privy. The child was two years of age.

☞ Granite State, No. 1, was the only hand engine in this city entitled to the credit of turning out on the 4th, while we inadvertently gave it to Gov. Langdon, No. 3, in our report of the procession.

☞ Mr. H. S. Bodge sent us over some palm leaf fans yesterday, because he fancied we might need them. Only 4 cents each. Cheap way of raising the wind.

☞ Mr. Hezekiah Lamprey of Hampton, informs us that he has recently sheared from a year old ewe, a fleece of thirteen and one-half pounds!

☞ The trip of the Pioneer offers a rare chance to to those who wish to visit the scene of the late disastrous fire at Portland.

☞ A small hump-back whale, or blackfish, fourteen feet in length and weighing 1800 pounds, came ashore on the new Navy Yard premises on Thursday, and was captured.

☞ On Friday, a son of George Hayes, on Prospect Street, accidentally discharged a small cannon, so that the powder was blown in his face, destroying the sight of his left eye. He was attended by Dr. Folsom.

☞ The alarm of fire at 2 P. M. Friday was caused by the ignition of some roofing composition, while boiling in a large kettle in a yard at the back of C. H. Mendum & Co.'s store. Inks says that "people who copper-bottom the tops of houses with tar, should be careful of their fires."

☞ On Thursday morning, just as steam fire engine "Sagamore" was on her way to the depot, to be sent to assist in staying the conflagration at Portland, the Mayor received a telegram announcing that the fire was out, and so the engine stayed at home.

☞ Mayor Bailey of this city went to Portland on Friday morning, with a donation of money and supplies, and handed Mayor Stevens a check for $1000. A collection will be taken in our churches tomorrow for the sufferers.

☞ Mr. Bodge has a map of Portland, with the burnt district marked upon it, at his jewelry store, for the inspection of those who wish to see the extent of that city's calamity.

☞ Maj. Hackett sells two valuable lots of Grass at auction to-day.

Auct. Morse offers a fine located dwelling on Badger's Island.

Mr. Wendell has a variety of housekeeping goods, &c., to dispose of, under the hammer.

Betton & Co. have their regular sale of miscellaneous goods.

☞ Messrs. Wm. C. Balch and others, Committee of the Board of Aldermen of Newburyport, went to Portland in the morning train on Friday, with liberal supplies from the City of Newburyport. While in P., Alderman Balch called on Mayor Stevens of Portland, and informed him of the action of the citizens of Newburyport in voting to recommend the City Government to send $10,000 to the relief of the sufferers of the Forest City. In 1811, when Newburyport was visited by a disastrous fire, the people of Portland generously contributed to their relief; and the broad then "east upon the waters" is now returning four-fold.

☞ Five car-loads of provisions from Boston arrived in Portland Thursday night, and supplies from various other places.

GOLD, Friday, 154 1-2.

HYGIENIC WINE!
HAS FOR ITS BASE
One of the Finest of Pure Wines.
A WINE grown on the sunny slopes of Spain—the genuine juice of the Grape in all its purity, as bestowed upon us by the beneficent GIVER, and such as is, alone, consistent with Christian teachings—*not intoxicating in the least*—will supply a want greatly felt in this country.
Such is HYGIENIC WINE,
A Bitter Aromatic.
It is conscientiously recommended to LADIES as a tonic which will soothe the nerves, renew the blood, and gently stimulate and invigorate the system.
☞ All persons of sedate habits—ministers, lawyers, and professional men, possessing constitutions more delicate than others of less confining labors—those who expend a great deal of vitality in brain work—will at once acknowledge the superiority of this restorative; for while it acts as a *nervine*, imparting a genial glow to the blood, it leaves behind none of the baneful influences of Alcholic preparations.
It stands unrivalled as a *Tonic* of the *Digestive Organs*, thereby creating a healthy appetite, and we warrant that upon trial HYGIENIC WINE will be found to be the *finest*, most *delicious*, and *healthful* Tonic known. Ask for it.

Elegant Residence for Sale.
[On account of removal of owner.]
This well known and beautifully situated CUTTS' HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath-room, billiard room, (containing a table in good order,) numerous closets, and all requisites for a properly arranged family mansion.
The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.
The House is furnished with double windows each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first class wine cellar. The house is fitted throughout with Straw Matting.
The out-buildings are nearly complete. A STABLE, with accommodations for three horses, CARRIAGE HOUSE, a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.
If desirable, more land, adjoining, could doubtless be purchased.
The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

Morning Chronicle.

—The Freedmen's Bureau have reports of terrible destitution in South Carolina. In Chesterfield District, *along* the track of Sherman's army, the *state* of affairs is said to be alarming, and *there* is neither grain sufficient to keep *the* population alive, nor money to purchase it with. The streets of Cheraw are *filled* with poor women begging for meal *or* corn to save their children from *starvation*.

And yet we are told that the President (who was himself a poor white) means to *veto* the bill continuing the Bureau which feeds these poor victims of rebellion, and thus give the cold shoulder to his old associates. Of all forms of aristocracy, the snob is the meanest and most heartless. Our President ought not to join this class.

— Senator Poland of Vermont writes to James M. Slade of Middlebury, to deny reports prevalent at Middlebury and vicinity that he (Poland) is a free trade Democrat. He says it is twenty years since he acted with the Democratic party, and when he did act with it he was not a free trade man.

CHOLERA
DISARMED!!!

The Chief Causes of Pestilence Destroyed.

DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, No. 298, 300, and 302 Henry street, N. Y.—Office, 42 Cedar street.

This Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish the PERMANENT FLUIDS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter-houses, offal and fat-boiling establishments; all kinds of manures (*immensely* increasing the value of the latter), and wherever poisonous and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words They remove noxious gases and odors by chemical principles—leaving in their places *health ful air;* they are DESTROYERS, and *not merely absorbents* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office

DELAVAN HOUSE, Albany, March 30, 1866.

To the President of the New York Disinfecting Co.:

Dear Sir: It is all it is represented to be. We have made many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors. T. ROESSEL & Co.

NEW YORK, April 9, 1866.

To the President of the New York Disinfecting Co.:

Dear Sir: We pronounce it without exception to be the best we have ever known. Its effect upon *every* matter is complete and instantaneous.

SUIT FOR SLANDER.—In the Superior Court of Massachusetts, at Fitchburg, on Thursday and Friday, June 27 and 28, before Judge Wilkinson, was tried the case of Ellen S. Barton against Dr. Thomas Palmer for slander. The parties reside in Fitchburg. The plaintiff, a young woman, of prepossessing appearance, was attended in court by a large number of female acquaintances—of the Baptist Church; and the slander consisted of opprobrious epithets, charging a want of chastity, uttered under these circumstances. Miss Barton called at the office of Dr. Palmer, who is a dentist, to ask what would be the price of a set of artificial teeth. Upon being told that it would be $15, she replied that she was then working in a shop for $2 a week, and could not afford to have them at that time. Dr. P. (as she testified,) urged her to have the teeth made; said that they would be a good advertisement for him; and that she might pay for them when she should be able to do so. The work was done; and soon he began to call for his pay, and to be persistent for it; telling her at length to bring back the teeth. Finally, in company with a young man who was attentive to her, she called at the Doctor's office, and returned the teeth. It was at that time that the alleged slander was uttered; in an excited and offensive manner, and in a voice so loud as to be heard by persons passing in the street.

In defense it was claimed that Dr. Palmer's language, although offensive and unjustifiable, did little or no harm to the plaintiff, as nobody believed it to be true;—even her lover continuing his attentions, and going from Dr. P.'s office to the Town Hall to attend some public meeting.

But there is no known rule by which to measure the effect of slanders upon young women,—especially those who labor for a living. Trevenna, in "Chandos," makes a good illustration when he says:—"Scandals are like dandelion seeds. A breath scatters them to the four winds of heaven; but they are arrow-headed, and stick where they fall, and bring forth and multiply four-fold.

The jury returned a verdict of $1000 for the plaintiff.—*Worcester Palladium.*

MONDAY, JULY 9, 1866.

☞ In Portland, it is said in one parish—the Swedenborgian—all but half a dozen families lost their homes or their places of business, and many both. Rev. Mr. Shailer of the First Baptist Society, lost his house, church, newspaper office (the Zion's Advocate), and his congregation were mostly burned out. Mr. Little, agent of the Phœnix, Merchants', North America, City and New England offices of Hartford, the Harmony of New York, Western, Massachusetts and Atlantic of Providence, and Atlantic Mutual of Exeter, estimates their total loss at $200,000. All these offices are reliable, and the agents are mostly there, ready to pay.

It is said a man seeing the flames spreading toward his own dwelling, rushed home to remove his furniture and household goods into the street. He was so excited that he mistook the house of a neighbor for his own, and with a few friends moved nearly everything it contained into a place of safety. When he had nearly completed his work the real owner entered and there ensued a scene which is more easily imagined than described. A few moments after, he saw his own house and all it contained rapidly swept away by the devouring elements.

☞ The insurance on the property destroyed by the great fire at Portland is variously estimated from three to five million dollars. One correspondent states that the losses in the Hartford, Ætna and Home Companies will reach $1,500,000. These staunch companies having a combined capital of about $10,000,000, will respond to this loss with their usual promptness, and it is a matter of congratulation to our Portland friends that they are in such good hands.

A dispatch to the papers on Saturday says the Ætna will lose the most of either company. Should this prove the case, it is all the better *for the insured*. The Ætna, with a capital of $3,000,000, which is the largest capital in cash of any fire company in the States, has a reserved fond over and and above capital and assets of $750,000, which places them in a splendid conditon to respond to all claims.

☞ The Fire King seems to have held high carnival on the 4th. Besides the terrible conflagration at Portland we have accounts of fires in New York, with a loss of a quarter of a million of dollars; in Brooklyn, loss from $20,000 to $30,000; in Lauenceburg, Ind., loss $60,000; in Newport, Ky., loss $10,000; in Utica, N. Y., loss $200,000; in New Orleans, loss $75,000; in Cherry Valley, N. Y., loss heavy; besides others of smaller amount. It is not certain that crackers and powder made all these fires:—but most of them probably arose from that cause.

TENNESSEE.—Major General C. B. Fisk, Assistant Commissioner of the Freedmen's Bureau in Tennessee, has reported to the Commissioner that the number of rations issued in that district during the month of June was as follows:

To white persons	23,000
To freedmen	4,686
	27,686

The number issued during the year ending June 1, 1866, was—

To white persons	955,546
To colored persons	410,851
Total	2,567,397

Let the fair, impartial reader look at these figures,—and then ask himself. Why is there such a clamor against the Bureau, down to the meanest traitor? And is he ready, for the sake of injuring 4000 poor blacks, to starve 20,000 poor whites? If not, don't let him swallow the nonsense of the traitor, nor that of the President,—but answer the fool according to his folly, lest he be wise in his own conceit. U.T.

☞ Mr. Seward's compliments to the Democratic party in his Fourth of July letter are not reciprocated by the New York World. It says:

We beg to assure him that his fulsome and Miss-Nancyish praise is appreciated at its true value. Democrats have seen too many specimens of his lacquered ware to mistake it even for gilt, much less for gold. They remember us, only the last Albany speech, in which they were abused, but the one preceding the last, in which certain other parties were praised; and they regard his abuse and his praise as equally hollow. They would as soon be the objects of the one as of the other, his fulsome praise being as nauseous as his unjust abuse is offensive.

— On Friday night, June 15, Sir. Bellingham Graham died in London at the age of seventy-six. He was regarded as one of the greatest fox hunters and hardest riders in England, it not in the world.

— Gen. Fisk recently sent a corporal and a squad of troops to Jackson county, Tenn., to liberate a colored boy, about 16 years old, whom a white man persisted in holding in slavery. This man maintains that since the abolition of the Freedmen's Courts, slavery has been restored in Tennessee.

NEW HAMPSHIRE ITEMS.

—— The vignette upon the letter envelopes used at the house opened by S. H. Dumas, at Boar's Head, represents the head of a wild boar.

—— The Laconia Democrat represents the fire deparment in that place as in a bad way, and about to disband, unless the citizens fly round some, pretty soon.

—— Snow fell on Mount Washington last Thursday night. They must have extracted all the cold from the atmosphere down this way in order to congeal that snow.

—— The Dover Gazette says a company of people of that town recently went upon a "moonlight excursion" to the Lake, which was like the play of Hamlet left out. The moon did not shine and it rained all the time.

—— The proposed amendment of the U. S. Constitution was ratified by the New Hampshire Senate, on Friday, by the regular party vote, 9 to 3. So New Hampshire is the second State to ratify, but should have been the *first*.

—— Hon. Joel Eastman, of Conway, was recently in town, and proceeded to Salisbury, to visit his mother, now several years along in her eleventh decade.—When on a visit to her a year or two ago, on leaving he said he might never see her again. Why! (was the interrogatory of the very aged lady), "you are not about to die, are you, Joel?"—*Statesman.*

—— The death of "Watchie," a dog well known in this village, and the honorable sepulture awarded him by his mistress, has formed the staple of village gossip for a few days past. "Watchie" was honored with a physician in his last sickness, and great lamentation was made over his death. His disease was lung fever.—*Lebanon Free Press.*

NOT SO.—We have not in the last year seen a more erroneous—indeed false—statement, even in the N. H. Patriot, than is contained in that paper of Wednesday last, in a paragraph regarding the attempted division of the town of Strafford. It said:

"The failure of the movement is the more unworthy on account of the outside influences enlisted in its faver—The Republican papers even having *earnestly* supported it."

Now the facts are, that very little "outside influence was enlisted in its favor," and as to Republican papers supporting it, we receive at the office of the Statesman every Republican journal published in New Hampshire, and read them regularly, and have no recollection of seeing a single article advocating the division of Strafford. The Republicans, in the Legislature and out of it, would gladly have punished the Copperheads of Strafford—undoubtedly one of the meanest set of men in the State—but they did not wish to sunder the town in order to make the Copperheads hiss. They did not wish to burn the barn to kill the rats.—*Statesman.*

☞ The New York Herald's Mexican correspondence says the Mexicans are becoming more and more united in the cause of independence. The Imperial forces have lately met with a number of defeats, some of which are important. The city of Tampico is closely besieged by the Liberals. There were large numbers of desertions from the imperial to the Liberal army.—The idea of annexation to the United States is widely fostered in the Liberal ranks. The fever has considerably abated in Vera Cruz. A letter from Gen. Almonte, Maximilian's Minister at Paris, states that the drafts for advance in Legations are not paid by the Financial Committee.

A SABBATH SCHOOL FOR ALL.—Rev. J. B. Simmons, pastor of the Fifth Baptist church, Philadelphia, has organized all the members of his church and congregation into a Sabbath school. They occupy the entire Sabbath afternoon for a Bible-school session, using all of the church edifice, even the pulpit platform, for this purpose. Mr. Simmons thus speaks of his work:

We have more than 900 names enrolled, and have had 800 present at a given session. Of these, between 300 and 400 are adults, ranging from fifteen to seventy years of age. Our adult classes are about twenty in number, some of them having a membership of from thirty to forty persons. We have truly a noble band of officers and teachers, who devote the entire Sabbath afternoon to this work; and the Bible-school session is considered one of the regular meetings of the congregation. It is so announced Sabbath by Sabbath from the pulpit.

The Christian Watchman says:

His success has been great, and we rejoice in the practical endorsement which his plans and labors have received. All our churches need a similar biblical training. We believe from facts which have come to our knowledge, that a majority of our church members would welcome expository preaching and an efficient system of adult Bible-classes. We need to recur to first principle.

☞ The Union papers are predicting large majorities for their State ticket in Ohio.—The Cincinnati Commercial claims 40,000 majority; the Cleveland papers 60,000, and the Toledo Blade, not to be outdone, says:

"With this platform there is no reason when the ticket nominated should not be elected by a majority of 60,000, and eighteen sound Unionists sent to the Fortieth Congress. It can be done. The party is united, and we believe fully appreciates the magnitude of the interests involved, and the necessity of vigorous action."

N. H. LEGISLATURE.—The Legislature have voted to raise six hundred and twenty-five thousand dollars the coming year, by a State tax. The salary of the Chief Justice of the Supreme Judicial Court has been raised from two thousand dollars to twenty-four hundred dollars, and that of the Associate Justices from eighteen hundred dollars to twenty-two hundred. The salaries of Registers of Probate and Deeds, together with those of Sheriffs and Jailors, have also been considerably increased.

A bill disfranchising deserters and those who fled from the State to escape the draft during the recent war, was passed by the House, but indefinitely postponed by the Senate. The resolution calling a Constitutional Convention was amended and passed by the Senate, but was again defeated in the House by a vote of 75 to 106.

The bill reducing the passenger and freight tariffs on the Concord, Manchester and Lawrence Railroad, which passed the House with only one opposing vote, has been by the Senate postponed to the next session of the Legislature. The resolution calling for an investigation of the affairs of the same railroad, which went through the House, passed the Senate by a vote of seven to five.

The charter for the Peterboro' Railroad was passed.

The members of the House have voted each one day's salary, or three dollars apiece for the Portland sufferers, which will make the handsome sum of nearly one thousand dollars.

BURNING A SHIP.—Capt. Wm. Grant, of Rockland, Me., is under arrest in Boston, on a complaint charging him with wilfully destroying the ship Young Mechanic, of which he was master, by fire, April 10th, off the coast of South America, in the Atlantic Ocean. It appears that the ship was loaded with ice by the Tudor Ice Company, who owned the cargo, and who insured it for $22,000, and that the ship sailed from Boston for Hong Kong March 5, the vessel and cargo being insured in quite a number of New York and Baltimore offices, as well as the Manufacturers' in Boston, one in Newburyport and one in Providence, for $32,000; and that the Underwriters, suspecting foul play when they heard of the burning, investigated the matter, and the crew made a statement that the vessel was set on fire by order of Capt. Grant; and a warrant having been issued for his arrest, he was apprehended in Boston, July 4. By agreement of counsel, the examination was postponed until Tuesday next, Capt. Grant being required to find sureties in $50,000 for his appearance then, and Mr. William McAloon, the owner of the ship, who is one of the witnesses, was required to furnish bail in $1000 for his appearance.

☞ In Boston there has been a seizure of fraudulent measures by the sealer of weights and measures, and the Herald says that the practice of selling short measure is very extensive, especially among grocers and provision dealers. Some use wine instead of dry measure in the sale of merchandise, which by law should be guaged by the latter standard, and thus they receive pay for 37 1-2 quarts instead of 32 quarts to the bushel.

This mercenary or fraudulent spirit is exhibited by dealers standing generally so high in the estimation of their patrons that they would feel a deep mortification and the community a great surprise at the public mention of their names. Others adopt the very convenient practice of knocking in the bottoms of tin measures or slightly jamming the sides in order to reduce their capacity, and various other fraudulent expedients are devised.

A SMART DODGE.—T. B. Florence's paper, (the Union,) one of the three papers of Washington cut off by act of Congress from receiving any government advertising on account of their limited circulation, has taken the word "Washington" from its head lines, and inserted "Georgetown," thus claiming to be a "country paper," and inserts the government advertising under an order from the President.

Tom is one of the President's pets:—men are sometimes known by the company they keep.

A DAUGHTER OF PROF. STOWE SHOT. At Hartford, on the 4th, Miss Eliza, eldest daughter of Prof. and Harriet Beecher Stowe, was on the way through the street, when a ball from a pistol discharged from a group of boys near by passed through her right arm. Yesterday morning her right side was paralyzed from the effect of the wound.

ANOTHER ANDERSONVILLE VICTIM.—Austin Hopkins, of Woonsocket, committed suicide Monday night by opening the large arteries of both arms. He was for a long time a prisoner at Andersonville, and never recovered either mentally or physically from the effects of the hardships he sustained there.

☞ In Boston the contributions in cash up to Friday night for the relief of the Portland sufferers amounted to nearly twenty five thousand dollars. This is exclusive of the provisions sent.

BE PREPARED. How often are people, both adults and children, attacked at the dead hour of night with cholera morbus, cramps, colic, vomiting and purging; a doctor cannot be obtained till morning; the case grows worse; perhaps death has already claimed its victim; a few doses of Coe's Dyspepsia Cure would have relieved the cramps and pains, and soon completely cured the sufferer of his troubles. Mothers, have it ready for your children! Fathers, provide it for your household!

Holloway's Pills and Ointment.—Palpitation of the heart is frequently caused by indigestion or relaxed state of the nervous system. A course of a few weeks of these invaluable medicines will diminish the irregular throbbing, and removing the source, restore its natural pulsation. To assist the functions, not to force them, is the true secret of success. Holloway's medicines and treatment are based on the simple laws of nature—by annihilating the cause the effect disappears. Sold by all Druggists. 3p

EXTORTION.—The Providence Press mentions a case of extortion in Newport, which equals anything which happens in New York city:

A gentleman came there from New York, and wishing to take a ride about the city, employed a carriage and driver for the purpose, not stipulating in regard to the price. The driver took him down Bellevue avenue and back, when the gentleman inquired for his bill and was told it was twenty-five dollars. He had but twenty dollars about him, which he paid, and that night took the boat for home."

— The Harrisburg (Penn.) Telegraph wants Ben Wade chosen President of the Senate and Vice President of the United States on the retirement of Mr. Foster from the Senate.

— Mrs. Sylvia Goodwin a female physician, who has attended 3686 births in Worcester during the last seventeen years, died in that city on the 12th ult., aged 58 years.

Ayer's Pills.

ARE you sick, feeble and complaining? Are you out of order, with your system deranged and your feelings uncomfortable? These symptoms are often the precursors to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, re-act upon themselves and the surrounding organs, producing quite an aggravating, suffering and derangement. While in this condition, take Ayer's Pills and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure.

For the Speedy and Certain Cure of *Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.*

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

PERRY DAVIS' PAIN KILLER,

As an internal remedy, has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, Dysentery, and Asthma, it cures in one night, by taking it internally, and bathing with it freely. It is the best liniment in America. Its action is like magic when externally applied to bad sores, burns, scalds, and sprains. For the sick headache and toothache, don't fail to try it. In short, it is a Pain Killer.

PERRY DAVIS' PAIN KILLER.—This medicine has become an article of commerce, a thing no medicine ever became before. Pain Killer is as much an item in every bale of goods sent to country merchants as tea, coffee, or sugar. This speaks volumes in its favor.—GLENS FALLS MESSENGER. Jy1—dawlm

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS:

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines," and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of these foreign impositions—the refuse of foreign factories—which were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for *less money* than foreign watches, but we do assert without fear of contradiction that for the *same money* our product is incomparably superior. All our watches, of whatever grade, are fully warranted and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION:—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

PURIFY THE BLOOD.—If the blood be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as if

☞ Our citizens had subscribed $1699.50 to the fund for the relief of the Portland sufferers, up to 8 P. M. Saturday. Further subscriptions will be received at the City Clerk's office, and it is hoped our citizens will greatly increase the sum already given, which though liberal has been donated by a small portion of the citizens. Contributions could not be made for a better cause, nor could better satisfaction be given the contributors than the knowledge of thus "casting their bread upon the water."

POLICE COURT, July 7th.—Alexander McPherson, for assault with intent to kill McPherson keeps a low groggery on Hanover street, nerr Bridge street, and the disturbance grew out of the arrest of a marine in McP.'s den, alleged to be a deserter from the House of Correction. McPherson followed Officer Pickering from the door, with a drawn cutlass in his hand; but "Pick" proved too many guns for him, and not only escaped being harmed himself, but left some tokens of remembrance upon his assailant's countenance. The offender was fined $10 and costs—a total of $18 56.

Peter McKelvey, deserter from the House of Correction, broke out of the Station House on Saturday afternoon, but was rearrested by Marshal Kent, and had a hearing before the Court, which resulted in a commitment to jail, in default of $200 bail to appear before the S. J. Court in October.

☞ The marines on duty at Portland having become worn out by their duties, a dispatch was sent to Gen. Hooker asking a relief, and in answer thereto Lieut. Henry J. Bishop left this city on Saturday evening for the scene of disaster, in command of sixty marines.

☞ The new steam frigate Piscataqua is receiving her machinery at this Navy Yard, and will be ready for her trial trip in the latter part of August. She is a splendid vessel of 3177 tons burthen, and when fitted for service will carry a battery of ten guns. There are eight of the same class of vessels now building for the government at the various navy yards.

☞ We were shown a dangerous counterfeit on the Highland National Bank of Newburgh, N. Y., on Saturday. The denomination was $10, and though the execution of the bill was coarse as compared with the genuine, the spurious is likely to deceive many an unwary person.

☞ We are ashamed to chronicle the misdemeanor of our thermometer. After all our showing of the virtues of temperance, the instrument got "high" on Saturday, the mercury in its glass touching 96° above, at 3:30 P. M., in the shade.

Communication.

Messrs. Editors :—The sad calamity that has befallen our sister city should be a warning to us to be prepared for any emergency. It is generally understood that there was a deficiency of water, the tide being out during a considerable portion of the conflagration. Although it is not more than half a mile across a portion of the city, from water to water at high tide; at low water the distance is much greater—the flats extending so far from the shore. No doubt they have what they suppose a sufficient number of reservoirs; but these steam fire engines throw an immense amount of water in a very short time, and if the supply is not very extensive, it must necessarily be soon exhausted.

At high water they could have drawn from both sides of the city, and so they might at low tide, had they had salt water reservoirs on each side of the city, for which they had as good or better chance than we have, although we have never availed ourselves of the opportunities offered us, and perhaps never shall, until we have been brought to a sense of our duty by a visitation like the one which Portland has been called to mourn over.

Last Friday we had an alarm of fire, false, we suppose; but had one actually taken place, commencing at the upper end State street, and had got well under way, with such a breeze blowing from the southwest, every particle of wood, excepting the trees (which, by the way, were all consumed in Portland,) as dry as it possibly could be, with no reservoir nearer than Austin street, and one on Haymarket Square, and both small ones, that can be drawn off in less than half an hour,—who among us supposes anything but a miracle could have prevented its finding its way to the Piscataqua, consuming all on its track, growing wider and wider from the starting point, until by the time it reached the water's edge, it would have embraced the whole water front of our city? Such a case is possible, therefore we should be prepared for any emergency; and that the city authorities will take all precautionary measures within their power to prevent such a calamity befalling us, is the desire of one at least who has at heart the

PUBLIC SAFETY.

☞ Letters for "A. B." at this office.

GOLD, Saturday, 154 to 154 3 8.

☞ Messrs. Neil, Tarlton & Co., started up their new steam grist mill on Saturday. It works like a charm, and the two sets of stones can grind one hundred bushels of corn in an hour.

☞ An order closing all the bar-rooms of the city was issued by the Mayor of Portland on Saturday. Ten thousand strangers are said to be in the city, to view the ruins, and among them a large crowd of thieves and pickpockets. Large contributions are being received, and the insurance offices exhibit a commendable desire to pay losses as soon as possible.

☞ We received the Portland Press, Argus and Advertiser on Saturday, and are glad to see that the energy which is to re-build the waste places of that suffering city, so promptly manifests itself in these journals.

THE MAINE UNIVERSALIST CONVENTION has just closed its annual session. The members passed a resolution urging upon our people the need of planting themselves upon the principle of total abstinence from all intoxicating drinks, and to lend their influence in suppressing both by moral means and the strong arm of the law, the tippling shops and drinking saloons of our State. This was passed *nem. con.*—They also passed the following:

Resolved, That when we recall the events of the last five years in our land, the armed rebellion which has threatened and jeopardized the life of the nation, carrying 250,000 of our patriot fellow-citizens to their graves, and filling our homes with weeping and lamentation, and burdening our government with a huge debt, we deem any attempt at reconstruction abortive, which, ignoring the crime of treason, surrenders the political power of our government into the hands of those who have sought its destruction, or overlooks the fundamental principles of political justice as expressed in the Declaration of Independence, by denying to any class of loyal citizens the exercise of impartial suffrage, or any of the inalienable rights of man.

This was passed 60 to 2. The negatives were 1 minister and 1 layman: the yeas were 25 ministers and 35 laymen.

One of the wags, Gen. Clark, introduced the following:

Resolved, That we have entire confidence in the purity, patriotism and wisdom of ANDREW JOHNSON, now President of the United States, believing him to be well qualified to finish the work so well begun by his noble predecessor, and that we extend to him our unqualified sympathy in his great responsibilities, and in his undoubted purpose to secure ultimate equality before the law, of all colors and conditions of men, assuring him that we shall ever pray that heaven may watch over and bless him and the works of his hands, till it be well and truly done.

Rev. A. R. Abbott moved to amend by striking out the name of Andrew Johnson, and inserting the Majority in Congress of the United States,—and after a very little debate, Gen. C. withdrew his resolution by unanimous consent.

The meeting was very large, and on one of the days occupied two churches, the Congregational and Universalist.

NOT DEAD YET.—A Leavenworth dispatch of July 6 says Gen. Lane's condition is favorable, and his friends are hopeful.

☞ Three judges of the New York Supreme Court have expressed opinions in favor of affirming the constitutionality of the new Excise law in that State. It is stated that many of the liquor sellers who have taken out licenses in the city of New York have procured injunctions against the Board of Excise, in order to sell on Sundays and after midnight. [These must be a vile set, who wish midnight orgies.]

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liverspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. HYGIENIC WINE!
HAS FOR ITS BASE
One of the Finest of Pure Wines.
A WINE grown on the sunny slopes of Spain—the genuine juice of the Grape in all its purity, as bestowed upon us by the beneficent GIVER, and such as is, alone, consistent with Christian teachings—*not intoxicating in the least*—will supply a want greatly felt in this country.
Such is HYGIENIC WINE,
A Bitter Aromatic.
It is conscientiously recommended to LADIES as a tonic which will soothe the nerves, renew the blood, and gently stimulate and invigorate the system.
☞ All persons of sedate habits—ministers, lawyers, and professional men, possessing constitutions more delicate than others of less confining labors—those who expend a great deal of vitality in brain work—will at once acknowledge the superiority of this restorative; for while it acts as a *nervine*, imparting a genial glow to the blood, it leaves behind none of the baneful influences of Alcholic preparations.
It stands unrivalled as a *Tonic* of the *Digestive Organs*, thereby creating a healthy appetite, and we warrant that upon trial HYGIENIC WINE will be found to be the *finest*, most *delicious*, and *healthful* Tonic known. *Ask for it.*

Elegant Residence for Sale.
[On account of removal of owner.]
The well known and beautifully situated CUTIS' HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath-room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.
The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.
The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The house is fitted throughout with Straw Matting.
The outbuildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a *splendid* Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.
If desirable, more land, adjoining, could doubtless be purchased.
The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

THE OTIS KNITTING MACHINE.—This great invention of the 19th century was conspicuously displayed on a wagon in the procession of the Fourth, tastefully decorated with flags and evergreen and the hosiery, etc. which was made by the knitting machine. The prominent features of the procession were the young ladies who represented 1776 and 1865.

The former, Miss Mary Fabin, who personated 1776, dressed in a complete suit made in "the fashion of ye olden time," with a large crowned hat and broad frilled cap on her head, and gazing serenely at her knitting through a pair of huge spectacles, plied her never ceasing knitting needles as vigorously as any dame of three-score-and-ten years could be expected to do, except an occasional stop that she might present to her younger friends and also regale herself with a pinch of "Larkin's best Macaboy Snuff," of which she appeared very fond.

Miss Susie Wiggin most creditably represented 1865, (when the machine was invented) and was very tastefully dressed in the prevailing fashions of the day; and the contrast was indeed very marked, and created much merriment along the route of the procession. We were pleased with the appearance of the ladies who "acted well their parts," and also with the machine, which Mr. Hanscom assured us would knit from the coarsest yarn to the finest silk, knitting four different colors at the same time, making coarse or fine, tight or loose, large or small, for adult or child, and all on the same machine. We were also surprised at the ease with which it did the work. Mr. Hall informed us that he has knit of cotton yarn, twenty seven inches in length of stocking leg in a minute, and can do it at any time.

Messrs. Betton and Hanscom have the machine on exhibition at No. 38 Congress St., and cordially invite the public to call and see it operate.

"Drift" in the Manchester Mirror, in his sketches of prominent men in the Legislature, thus comments one of the Portsmouth delegation:

That tall, spare gentleman who sits in No. 30, in dress and manner unpretending, represents the Seventh of New Hampshire Democracy,—Ward 3, Portsmouth,—but which, a year ago last March, struck its colors to the irresistible assault of the Union Republicans, under the leadership of WILLIAM H. ROLLINS, a native of Portsmouth, and 44 years of age. Mr. ROLLINS is a Harvard graduate, of the class of '41. He read law with RICHARD BARRETT, was admitted in '44, and has since been settled in the shore city. Mr. ROLLINS is an agreeable, earnest, able man, and it is devoutly to be wished that he may long represent Sevastopol in the New Hampshire Legislature.

KEENE.—Half of the burnt side of Central Square is building up this season; three spacious Stores; and the Cheshire Rail Road is erecting permanent and substantial buildings in place of the temporary work-shops and car and engine accommodations, erected twenty years ago; at an outlay of some $40,000: under the management of the present deservedly popular President and Superintendant, the prospects of ere long realizing satisfactory dividends, are annually improving.

The Vermont Annual Democratic State Convention, held last week, was comparatively attended. No use! So they re-nominated last year's candidates, and went home. They Resolved, however, that Democratic principles were quite correct, and approved of the President's plan of reconstruction.

NEW HAMPSHIRE LEGISLATURE.

FRIDAY, June 29.

The Judiciary Committee of the House reported the following important resolution in reference to the calling of a Constitutional Convention;

Resolved, That a convention be called to revise the Constitution of New Hampshire, agreeable to the terms and conditions of the act of August 19, 1864, to be holden on the first Tuesday of November next, and that his Excellency the Governor be requested to call meetings of the citizens qualified to vote in the several towns, cities and places of New Hampshire, to elect members of this convention, equal to the number of members to which they are entitled in the Legislature, such meetings to be notified and holden in the same manner as meetings for the choice of members of the Legislature, such meetings to be holden on the first Tuesday of October next.

The Act of 1864 provided that the sense of the qualified voters should be taken on the following questions, to wit;

"Is it expedient that a convention be called to revise the Constitution? The said Convention to be limited in its compensation to that now allowed members of the Legislature for travel and ten days attendance, and to be limited in its action to the following particulars:

1st, To enable the qualified voters of this State engaged in the military or naval service of the country in time of war, insurrection or rebellion, to exercise the right of suffrage while absent from the State.

2d. To abolish all religious tests as qualifications for office.

3d, To diminish the number of members of the House of Representatives.

4th, to increase the number of members of the Senate.

5th, To make provisions for future amendments of the Constitution."

After a lengthy, varied and sharp debate, the House adopted the resolution reported by the Military Committee, that it is expedient to legislate on the matter of allowing towns to equalize the bounties of soldiers.

MONDAY, July 2.

The following bills among others passed the House:

Bill empowering executors and administrators appointed under laws of other States to transfer the shares of their testators or intestates in the capital stock of corporations in this State.

Bill to amend chap. 42, R. S., in relation to the taxation of land owners by selectmen.

Bill in amendment of the act enrolling the militia of the State.

Bill to render competent the testimony of husband and wife for or against each other.

Bill to promote the propagation of bass and land-locked salmon.

Bill in relation to the adulteration of milk.

Bill of certain taxes.

Bill to protect certain fish in the Piscataqua river and its tributaries.

An act to prevent the catching of certain fish during the spawning season.

An act repealing an act authorizing cities and towns to aid families of persons in the U. S. service, in the army or navy.

An act to incorporate the Mechanics Protective Union of Portsmouth.

An act to empower executors and administrators appointed in other States to transfer shares of testator or intestates, in the capital stock of corporations in this State.

TUESDAY, July 3.

The House spent considerable time in discussing the resolution in reference to calling a State Convention. At noon the yeas and nays were called, but the House adjourning they were not thus taken.

The afternoon was mostly taken up in considering and amending the bill relating to the Agricultural colleges. Sunday amendments were passed, but the House adjourned before the final question was taken. If the bill passes, the College will probably be appended to Dartmouth College at Hanover, according to the terms of the bill as it stands.

CHOLERA

DISARMED!!!

The Chief Causes of Pestilence Destroyed.

DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 225, 301, and 303 Henry street, N. Y.—Office, 42 Cedar street.

This Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, hospitals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, daughter-houses, stables and the general establishments; all kinds of manures (immediately increasing the value of the latter), and wherever poisonous and offensive effluvia exists. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words. They remove noxious gases and odors by chemical principles—leaving in their places healthful air; they are DESTROYERS, and not merely absorbents of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these discoveries. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office

CHEROKEE CURE,

THE GREAT

INDIAN MEDICINE,

Cures all diseases caused by self-abuse, viz:—Spermatorrhœa, Seminal Weakness, Night Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Insanity, Consumption, and all diseases that follow as a sequence of youthful indiscretions.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits, and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure Gonorrhea, Gleet and all Mucous Discharges in Male or Female, during recent cases in from one to three days, and is especially recommended in those cases of Fluor Albus or Whites in Females. The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " " $2, " " $5.

The Cherokee "Cure," "Remedy," and "Injection" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. Be not deceived. If the druggists will not buy them for you, write to us and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies in peculiar circumstances can address us in perfect confidence. We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

FRENCH SELF FASTENING BUTTONS

(ENGGENBER'S PATENT.)

PUT ON AND TAKEN OFF in a MOMENT by any one, without sewing, eyelet, screw, rivet, or cut in the cloth. First premium awarded by American Institute in September, 1863. They can be changed from one garment to another in an instant, and as they never pull off nor tear the cloth, they are MORE RELIABLE BUTTONS FOR MEN'S AND BOYS' CLOTHING; the most convenient BUTTONS FOR LADIES, as by their use the appearance of the garment can be altered to suit the taste or occasion. For the ARMY AND NAVY they are invaluable, as they can in an instant be exchanged for a new set removed from a deadman, and ready for plain covered buttons when desired. They have been adopted by tailors and clothiers, and those who have used them will have no other. TROUBLE IN A SPIRITUAL CIRCLE.—Considerable excitement was occasioned at a spiritual seance held in New York recently, presided over by the notorious "Col." Goodwin. A young lady named Miss Ellen Van Wie, a medium, agreed to give an exhibition similar to those of the Davenport Brothers, and by a committee of ladies was securely bound and locked up in a cabinet. After a while the audience began to grow impatient, and then excited, and after the lapse of three-quarters of an hour called in a policeman to open the cabinet and release the girl. It was found that she had fainted and was found lying on the bottom of the box. Great excitement followed; a crowd rushed upon the stage and assaulted the "Col." giving him a severe beating, and to be protected from further violence he was taken to the station house. The young lady was removed to her residence and up to midnight had not been restored to consciousness. Goodwin insists that she is merely in a state of mesmeric sleep.

SOAP SUDS AND POCKET PICKING.—One William Jones was sentenced in the New York Court of Sessions, Saturday, to four years' imprisonment for picking pockets. The prisoner used to be the chief operator of a gang of pickpockets, and where there was a chance to gather a sympathetic crowd, he with a piece of soap in his mouth would fall in a fit, and the soap suds foaming from his lips would bring a host of helpers to his release, while his "pals" would jump into the crowd crying, "Let the poor man have air," and causing general confusion, while operations were going on upon the pockets of unwary sympathizers.

— In Greenville, Pa., a young man named Cunningham fell from the tower of the new Lutheran church, sixty-five feet, without sustaining any material injury.

Portsmouth N. H.

TUESDAY, JULY 10, 1866.

☞ At Augusta, Ga., a writ of habeas corpus has been served on Gen. Sickles by the U. S. District Court at Charleston, requiring him to produce the body of Francis G. Stowers and others under sentence of death at Castle Pinckney. Gen. Sickles refused to comply, on the ground that the prisoners were convicted by court martial of the murder of three Federal soldiers, and that the privileges of the writ are still suspended in South Carolina. Judge Byron ordered an attachment to be issued against Gen. Sickles for contempt of court. It is made returnable on the 10th.

Gov. Orr has issued an address to the people of South Carolina, in which he heartily approves the object of the proposed Philadelphia Convention, and urges the immediate election of delegates to a State Convention at Columbia on the 1st of August to appoint delegates. The Governor says: "There is not one principle of the address to which South Carolina cannot subscribe in honor and with sincerity."

[No doubt every rebel and traitor will approve it.]

NEW HAMPSHIRE ITEMS.

—— Surgeon A. J. H. Buzzell, 3d N. H. Volunteers has been brevetted Lieut. Col. of U. S. Volunteers, for gallant and meritorious conduct at the storming of Fort Fisher, to date from March 13, 1865.

—— A Mr. Osborn, of New York city, who is spending the summer at Littleton, N. H., on the 4th of July had his right hand injured so badly by the explosion of a Roman candle, at Thayer's Hotel, that amputation was necessary.

☞ Our solid men who, despite the heated term, go to Boston to collect and invest their July dividends, will appreciate the following which we take from the Traveller:

The brokers, as a class, are a set of capitally good fellows, and one of the best of them is John E. M. Gilley, Esq., who has removed his stock and exchange office from Merchants's Exchange to *No. 5 Devonshire street, a few doors* from State street. There is not a member of the Brokers' Board (of which he was once the Vice President) who will execute orders in his line with more judgment, fidelity, and promptitude. Mr. Gilley deservedly enjoys the confidence of his patrons, among whom are many of "the solid men of Boston." Mr. G. received a thorough financial education in the office of the late Mr. Degrand.

☞ About 1500 men are at work among the ruins in Portland, clearing away the rubbish; lumber and bricks are arriving on the ground; and rebuilding will go on speedily. Middle street will be largely rebuilt this year. Brown's sugar house is to be rebuilt as soon as possible. Mr. and Mrs. Zebulon Chickering were burned in their house, and their remains have been found.

The Bank vaults have all been opened, and the contents found all right. Most of the safes were failures.

☞ A telegram from the oil region of Pennsylvania says that on Sunday night there was a great fire on the Bennehoff Run. During a thunder storm the lightning struck a gas pipe in the Western Union Telegraph Well. The fire quickly communicated to the tank, which exploded, and the oil ran down the Run, causing the flames to communicate with several other tanks, which in turn exploded and caused one of the heaviest conflagrations in the oil regions ever experienced. Between 18 and 20 large producing wells were burned up, including two or three large flowing wells. 20,000 barrels of oil were destroyed. The oil was a foot deep as it ran down the Run to Oil Creek. The loss is very heavy.

☞ IN CUBA there is a serious insurrection, revolt or revolution. "The independence of Cuba from Spain" is declared by the insurgents. Five companies of Spanish soldiers were sent out against them, but three of them joined the insurgents, who now numbered 7000. Four steamers from Chili brought 200 men, who reinforced the insurgents, and the disaffected from all parts of the island were gathering into the insurgents' camp among the mountains.

☞ The masculine tilt against tilting hoops has provoked a reminder from a lady correspondent of the Hudson Register, who pronounces against tight pantaloons and skirtless coats. She says:

As to the present ridiculous short coats, I can only say that they present to a person at all belligerent, a temptation scarcely to be overlooked.

GOLD, Monday, from 153 to 151 1-2. The California steamer that day brought $1,500,000.

— The gaming houses at Wiesbaden are shut up in consequence of the Prussian invasion, and the frequenters of the German watering places are flocking to Paris.

— The New Bedford Standard announces the arrival of a cargo of seal oil at that port, the first time for many years that a cargo of that kind of merchandise has been brought there.

Correspondence of the Chronicle.

BOSTON, July 7.

Editors Chronicle:—If "F." has not already cleared the field, your correspondent would be pleased to write a few jottings made during a visit to the city of Portland to-day, the scene of the terrible fire of the 4th inst.

The extent of the destruction is hardly realized at the first glance; but as you pass back and forth through the ruins, and see the piles of brick and mortar, of twisted iron and prostrate columns—all that remain of once handsome and commodious stores and houses—the mind begins to realize the extent and terrible form of a fire, the sight of which was enough to send terror and gloom to the heart of any people less courageous and enterprising than the citizens of Portland. Thanks to the prompt response from all sections to the call for help, there was little real suffering, and there has been no lack of food for the homeless thousands. Money and building material are needed now, and should be sent direct to the Mayor. The hotels and eating houses appeared to be well prepared for the crowds that benevolence, business and curiosity had drawn there; and as none of the railroad or wharf property was injured, there has been no interruption to travel.

So far as known Saturday night, there had been no loss of life, and no serious injury to anybody.

It has been stated that some of the Engines were out of the city, but a member of the department stated that they were all there,—but unfortunately the "Dirigo," ("I guide," or "I direct,") a Steamer that cost the city $5000, was slightly out of repair, and was burned in its house.

The fire began at 4 P. M. on the 4th, and burned until 7 A. M. on the 5th: soon after the fire started, the high wind blew sparks into two houses a mile and a quarter away, burning them to the ground; and just there the fire stopped the next morning, after burning everything between.

The thanks of a party of four from Portsmouth are tendered ex-Alderman S. L. Carleton of Portland, whose courtesy and kindness we shall long *remember*. The cool *well water*, and the fine view from the cupola of his house, were very acceptable

☞ "The Galaxy," for July 15th, has articles by Mrs. Edwards, Richard H. Stoddard, Eugene Benson, J. M. Binckley, Anne M. Crane, William Winter, Julius Wilcox, Charles Astor Bristed, Anthony Trollope, &c. Published fortnightly at 25 cents a number; $5 for the year, by W. C. & F. P. Church, No. 39 Park Row, New York.

— Letters have been received from freedmen in South Carolina complaining of cruel treatment received from the Freedmen's office, and sanctioned by General Sickles.

— General Fisk, Assistant Commissioner of the Freedmen's Bureau in Tennessee, says he has closed all the medical establishments of the Bureau in that State, and intends to cease the issue of rations except in the most urgent cases of necessity.

— The Secretary of the Treasury has issued an order that before admitting to entry any importations under the provisions of the act to protect American citizens engaged in lumbering on the St. Croix river in the State of Maine, customs officers will require the presentation of a manifest accompanied by necessary oaths.

AT PORTLAND on Sunday afternoon there was quite a furious but refreshing thunder shower at about half-past four, which came near resulting in the destruction by lightning and fire of the beautiful Congregational Church on State street. A flash struck and shattered the steeple and set the belfrey on fire. The bottom of the belfrey was fortunately floored with iron, and when the fiery fluid reached that it glanced and passed away without doing further injury. The steeple burned briskly until one of the steamers arrived, which quickly extinguished the flames. It was at one time thought the church would be destroyed, and the residents in the neighborhood commenced packing their goods.

At the above fire there came near being a riot between some rowdies and the Portsmouth Marines. One of the roughs refused to make way for firemen when asked to do so by one of the Marines, and the latter stabbed him slightly in the throat with his bayonet. The two then clinched and were having a hand to hand fight when one of the Sergeants of the Marines struck the rough on the head with his sword and inflicted a severe wound. Some one in the crowd then cried, "Cut the firemen's hose!" whereupon the officers in charge of the Marines ordered them to load their pieces. This being done the order was given to get ready to fire. The Marines cocked their pieces and then the officer announced to the crowd of roughs that if there was any further attempt at disorder he should give the order to fire upon them. This had the effect to check their demonstrations, and the crowd dispersed immediately.

☞ A meeting was held in Portland, last Saturday of the Insurance Agents from most of the large Companies, who

Resolved, That, as the rates of insurance for some time past have been entirely inadequate to the risk assumed, the local agents of the companies represented in the city of Portland be instructed to form immediately a Board of Underwriters to adopt a tariff of rates to be approved by a committee of five chosen from the companies here represented, and that *agents strictly adhere to* said *tariff, and* until said tariff be adopted, an advance of at least fifty per cent. be charged upon all risks, and that no merchandise risks be taken at less than 70 cents.

Resolved, That the underwriters here, representing the insurance capital of the country, in view of the continued destruction of property, by the use of fire crackers recommend to their respective companies to take immediate measures to secure the passage of laws against the use of them under any and all circumstances where they issue policies.

PORTLAND ITEMS.—Messrs. Lowell & Senter, jewelers, deposited all the most valuable of their stock, including their chronometers, in the city fire-proof vaults. When the upper vault was opened, the contents were found in a perfect state of preservation, and the thermometers and watches moving regularly. A self-registering thermometer indicated 130 degrees. The lower vault has not been opened, but it will probably be found all right. The contents of the bank safes have also been found to be in a good state of preservation.

It may be interesting to many to know that all the houses which were spared at the time of the burning of Portland in 1775 have been swept away by the conflagration of July 4, 1866.

THE N. H. LEGISLATURE adjourned on Saturday.—On Friday in the Senate the Distranchising bill was passed by a strict party vote of nine to three.

☞ As usual, you get a dollar's worth of fun in Frank Leslie's Budget for August, by going to Batchelder's and paying him ten cents.

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. BE PREPARED. How often are people, both adults and children, attacked at the dead hour of night with cholera morbus, cramps, colic, vomiting and purging; a doctor cannot be obtained till morning; the case grows worse; perhaps death has already claimed its victim; a few doses of Coe's Dyspepsia Cure would have relieved the cramps and pains, and soon completely cured the sufferer of his troubles. Mothers, have it ready for your children! Fathers, provide it for your household!

Holloway's Pills and Ointment.—Palpitation of the heart is frequently caused by indigestion or relaxed state of the nervous system. A course of a few weeks of these invaluable medicines will diminish the irregular throbbing, and removing the source, restore its natural pulsation. To assist the functions, not to force them, is the true secret of success. Holloway's medicines and treatment are based on the simple laws of nature—by annihilating the cause the effect disappears. Sold by all Druggists. jy

Elegant Residence for Sale.

[On account of removal of owner.]

The well known and beautifully situated CUTTS' HOUSE, on North Road, Portsmouth, recently occupied by Chas. Cutts, Esq. The house contains eighteen rooms, with elegant bath room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.

The House is in excellent repair, having been thoroughly refitted a year or two since, while its proximity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.

The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first class wine cellar. The house is fitted throughout with Straw Matting.

The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass case for harness; Cow House, &c.

If desirable, more land, adjoining, could doubtless be purchased.

The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

Ayer's Pills.

ARE you sick, feeble and complaining? Are you out of order, with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, re-act upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure.

For the Speedy and Certain Cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS:

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "sucres," "lepines," and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of these foreign impositions—the refuse of foreign factories—which were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the unplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for *less money* than foreign watches, but we do assert without fear of contradiction that for the *same money* our product is incomparably superior. All our watches, of whatever grade, are fully warranted and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

PURIFY THE BLOOD.—If the blood be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as if

Local.

Among the Portsmouth boys who came home to spend the Fourth,—we were glad to greet our old friends and correspondents "Manning" of Boston, and "Newington" of New York. Mr. Thomas M. Jackson is now Treasurer of the Boston Chair Company, manufacturers of fine cane seat chairs, in Way Street; of which Haley, Morse & Boyden, the great furniture dealers, are Agents and managers.

Among the great furniture manufacturers of Boston, are Messrs. Beal & Hooper; and Mr. Hooper also was in our office on the Fourth, with Mr. Sam'l. A. Badger, who is employed with him in business. We notice by the Transcript, that Mr. Hooper's income last year was $21,024,—quite comfortable for a young man who began without a dollar; but who had, and yet has, what is far better than inherited wealth, indomitable perseverance and industry combined with good habits and great business talent.

Among the most active and busy firms in old Merchants' Row, Market Street, are Messrs. Neil, Tarlton & Co, whose excellent and extensive new arrangements for grinding grain, &c. by steam we have before referred to; and whose enterprise in introducing or extending a new and useful branch of manufactures among us, is worthy of all commendation and imitation. There is only one reason why Portsmouth is not one of the greatest manufacturing places in the country—and we need not state what that reason is, for everybody knows it.

Also Messrs. Goodwin, Sweetser & Co., of the new Agricultural Warehouse, are truly among our live business firms; and especially in the very important particular of advertising, (a great requisite, especially for a *new* business man) there are few if any in the city who are able to cope with them.

GOOD TIME.—The Portland train over the Eastern Railroad made the distance from this city to Boston, 56 miles, in one hour and 40 minutes, a short time since. The train left here at 50 minutes behind time, made 14 stops and arrived on time at Boston. The usual running time is two hours and thirty minutes. The trains have to be run slow and kept back, standing at stations, in order that by the agreement with the Maine Road, the trains should enter Boston at a stipulated time. The Eastern being the shorter road, with easier grades and straight lines, of course has to keep its trains back to wait the arrival of trains on the Maine.

The Summer Hotels are all open, of course. The Ocean House at Rye Beach has been much enlarged, and the dining room will now seat 400 persons.

Among the visitors at the Atlantic House, Rye, last week, were R. L. Spofford and wife (Miss Harriet Prescott) and Miss Anna Dickinson the strong-minded oratress, who though a lioness in public, is said to be a loveable pet in social life. "Uncle Dick" Spofford will long be remembered by the boys and girls of Rye, whom he delighted to take, and mutually by taking, to treat on candy, &c., at "Buggins's" new and neat Saloon not far from the Atlantic.

Mr. George H. Jenness has just built and opened, on the corner of the North Hampton road, half a mile this side the Atlantic House, a good Saloon, where may be had at all times, ice cream, beer, mineral water, fruits, cakes, candies and other refreshments. Visitors may depend on being well served and courteously treated, and we think the new Saloon will be popular and successful.

Dumas, at the Boar's Head Hotel, is entertaining the cream of the State, at his newly and nicely-fitted hostelry.

John G. Whittier is at the Appledore House, Shoals.

Little Boar's Head is getting to be a favorite location for cottage residents, and a hotel is talked of there. It is situated in North Hampton, just beyond the Atlantic House at Rye; has a magnificent prospect, with fine groves, and is approached by sea side roads as well as a direct road from Hampton Station, three miles distance. A mooth hard beach extends towards great Boar's Head.

The Notice of Messrs. Somerby & Son is equally applicable to all other business men, and should be generally heeded. "Old Sherb" is well known as one of the promptest and most attentive business men: and as we entered their yard yesterday, and found the old whip engaged in the futile task of trying to pump the old aqueduct dry, while the junior was employing himself in the hardly less endless job of keeping the carriages clean; we could but think that they who thus both hold *and* drive their own plow, certainly ought to thrive by it.

The gentleman who "lifted" our paper-cutter has our warmest wishes for his future welfare.

POLICE COURT, July 9.—Mary Rogers, for being drunk, was fined $3 and costs. She paid up and went her way.

Thos. McGraw, for the same offence, received a like sentence, and not being in funds, went to House of Correction.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is prompt and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world. for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, accompany each bottle. Without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.00 per bottle.**

Perry's Moth and Freckle Lotion.

Chloasma, or Mothpatch, (also called Liverspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

HYGIENIC WINE!

HAS FOR ITS BASE

One of the Finest of Pure Wines.

A WINE grown on the sunny slopes of Spain—the genuine juice of the Grape in all its purity, as bestowed upon us by the beneficent GIVER, and such as is, alone, consistent with Christian teachings—*not intoxicating in the least*—will supply a want greatly felt in this country.

Such is HYGIENIC WINE,
A Bitter Aromatic.

It is conscientiously recommended to LADIES as a tonic which will soothe the nerves, renew the blood, and gently stimulate and invigorate the system.

All persons of sedate habits—ministers, lawyers, and professional men, possessing constitutions more delicate than others of less confining labors—those who expend a great deal of vitality in brain work—will at once acknowledge the superiority of this restorative; for while it acts as a *nervine*, imparting a genial glow to the blood, it leaves behind none of the baneful influences of Alcholic preparations.

It stands unrivalled as a *Tonic* of the *Digestive Organs*, thereby creating a healthy appetite, and we warrant that upon trial HYGIENIC WINE will be found to be the *finest*, most *delicious*, and *healthful* Tonic known. Ask for it.

Address orders for this superior article to

N. B.—Hygienic Wine is an imported Tonic; has the approval of the "IMPERIAL SCHOOL OF MEDICINE of PARIS," and was tested by the Committee on Chemistry of the American Medical Association, which assembled in Baltimore May 1st, 1866, and *endorsed by 56 prominent members with their signatures.*

Morning Chronicle.

A ROMANTIC EPISODE IN THE LIFE OF THE LATE SENATOR LANE.—The following episode in the life of U. S. Senator Lane of Kansas, whose suicide has been previously mentioned, is narrated by an exchange:

Mr. Lane was married in 1842 to Miss Mary E. Baldridge, a granddaughter of Gen. Arthur St. Clair, and a very accomplished lady. She accompanied him from Washington city in 1855, to Kansas, and "squatted" with him on a claim adjoining Lawrence, where Lane built a log cabin.

Accustomed to the conveniences and refinements of a city life, Mrs. Lane found it difficult to endure the hardships, annoyances and inconveniences of a pioneer's lot. She desired to return, and went to her home in Indiana. Lane was interested in Kansas, had determined to remain, and so Mrs. Lane went back alone. She did not like her lonely lot, and so she wrote to Lane, demanding his return to Indiana. He wrote back that it was impossible to return. His wife waited a little while, and then wrote declaring that unless he returned by a stated time she would sue for a divorce. The Senator made no reply, but gave a glowing account of the "patriotic" movement in which he bore a conspicuous part. The next letter he received was from the clerk of a court in Indiana, informing him that his wife had filed a bill, with another from a lawyer offering to defend him. The Senator wrote back to the lawyer as follows:

DEAR SIR:—Yours to hand. My wife says she will not stand my long absence. If I were she I would not stand it either. I shall offer no opposition to her suit.

Yours, &c., J. H. LANE.

Two years later, when the divorce had long been granted, Mr. Lane returned to Washington from Kansas, visited his old home in Indiana, and found his wife still blooming and handsome and surrounded by admirers. With the rest of them he visited her from time, became presently the accepted lover, and was eventually remarried to her.

☞ The traveling Commissioners have began to wade in troubled waters. In Virginia, North Carolina and South Carolina, the planters were right and the Bureau was wrong; but in Mississippi, Gen. Steedman has ventured so far, or trouble some things have come so near, that he has seen with his own eyes that a freedman who "bore on his person indisputable evidence of the most atrocious crime." So writes a correspondent in the interest of Gens. Fullerton and Steedman, not long before whose arrival in Mississippi the Bureau headquarters at Meridian were broken up, officers shot at, and an Assistant Commissioner, Lieut. J. B. Blanding, decoyed and murdered. Shall we be told that good and pious citizens deplore such unwise murders, but that the Bureau is a constant cause of irritation; that these outrages are committed by outlaws and desperadoes whom the law condemns—or must the Bureau be continued for a few years longer to the defeat of rogues and assassins, and to the strengthening of laws and law-givers? *Tribune.*

— The Chicago Tribune, in noticing the disastrous results of a strike in that city, says: If any other power than a "workingmen's protective union" had discharged from employment the three hundred stone-cutters of Chicago, who since the first of June have lost $1200 per day, or about $23,000 in all, the police of Chicago would be hardly able to protect the discharger from the fury of the discharged."

CHOLERA
DISARMED!!!
The Chief Causes of Pestilence Destroyed.

DR. E. R. COURANT'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 398, 400, and 402 Henry street, N. Y.—Office, 42 Cedar street.

This Company organized on a permanent basis, with Courtiers, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter-houses, stables, and all public establishments; all kinds of manures (*immensely* increasing the value of the latter), and wherever poisonous and offensive gases exist. These agents are deodorisers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words. They remove noxious gases and odors by chemical principles—leaving in their places *healthful air*; they are DESTROYERS, and *not merely absorbers* of poisonous gases—and injurious to utensils in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office

DELAVAN HOUSE, Albany, March 30, 1866.
To the President of the New York Disinfecting Co.:
Dear Sir: It is all it is represented to be. We have made many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors. T. ROBBSKL & CO.

TO LADIES.
If you require a reliable remedy to restore you and remove Irregularities and Obstructions,
WHY NOT USE THE BEST?
Every Lady knows the slightest irregularity of nature is liable to bring on Headache, Giddiness, Nervous Fainting, Hysterics, &c.; then the bloom of health fades, the appetite fails, and other symptoms more distressing commence, as—Weakness, Spinal Complaint, the Whites, Prolapsus, &c., &c.
A NEVER FAILING REMEDY will be found in
Dr. Harvey's Female Pills.
The experience of thirty years has proved they have no equal for removing Obstructions and Irregularities, no matter FROM WHAT CAUSE THEY ARISE.—They are Safe and Sure in every case. Upwards of 50,000 Boxes are sold annually and no complaint of their efficacy is ever heard, for they accomplish what they are represented to do.
Sold in Boxes, *containing Sixty Pills.* Price One Dollar.
Dr. Harvey's Golden Pills
Is a remedy four degrees stronger than the above, and intended for special cases of long standing. Price Five Dollars per Box.

FRENCH SELF FASTENING BUTTONS
(GENGEMBER'S PATENT.)
PUT ON AND TAKEN OFF in a MOMENT by any one, without sewing, eyelet, screw, rivet, or cut in the cloth. First premium awarded by American Institute in September, 1865. They can be changed from one garment to another in an instant, and as they never pull off nor tear the cloth, they are the only reliable BUTTONS FOR MEN'S AND BOYS' CLOTHING; the most convenient BUTTONS FOR LADIES, as by their use the appearance of the garment can be altered to suit the taste or occasion. For the ARMY AND NAVY they are invaluable, as they can in an instant be exchanged for a new set removed for cleaning, or changed for plain covered buttons when desired. They have been adopted by tailors and clothiers, and those who have used them will have no other. In order to let the public at once see the great advantages of these goods we offer to send by return mail, postage prepaid, on receipt of price, one set SLEEVE BUTTONS, Ladies' or Gents' Plain, 30c; Fancy, 50c per set; 1 doz. Suspender Buttons, 40c; or one ASSORTED BOOK containing 1 doz. each, for coats, vests, pants, and overcoats at $1.75 per box. A full descriptive list, from which any style of Button can be ordered, will be sent by mail on application. Call and address W. B. WATKINS, Sole Agent, No. 416 Broadway, corner Canal st., New York. P. O. Box 6583. Please state where you saw the advertisement. Show this to your friends.

NEWSPAPERS AND THEIR READERS.—Most people stick to their newspaper for years, just as old ladies stick to their parson for years, and declare that he is the best of possible parsons. It requires a great deal to shake this extraordinary allegiance. Who can wonder that this should be so? People who are not accustomed to it cannot guess what huge comfort it is to know beforehand, with full assurance, and with a nice precision, the particular line which your paper will take up on any given question. It saves a world of mental wear and tear. One can easily and heartily sympathize with the man in the story who took up, without recognizing his mistake, the "reptile contemporary" of his favorite journal, and thought he must be standing on his head, or else that the editor had been struck with temporary delirium, when he found the minister who was usually extolled up to heaven thrust down to the nethermost hell. *Saturday Review.*

HOW TO GET UP REFRESHED.—As almost every one in this heated weather feels more or less dull on getting up of mornings, we publish the following advice, which we find in an exchange:

Every person who toils daily at any kind of labor, requiring great physical or mental exertion, should be extremely careful to practice a regular system of ablution at the close of each day's work. Sometimes a person may be so completely exhausted as to render this anything but an inviting performance; yet by its omission a great deal of the refreshment which the hours of repose are designed to impart is lost. To be cleanly is a strictly religious duty and is absolutely essential to sound and refreshing slumber; hence the labor of keeping one's person clean is amply repaid by the elasticity which follows from nightly ablutions before retiring. Heed this advice, and the reader will sleep soundly; disregard it—go to bed unwashed, and you will rise in the morning unrefreshed, with feelings of lassitude which the exertions of the day will hardly be able to remove.

— A hypocrite may spin so fair a thread as to deceive his own eye. He may admire the cobweb and not know himself to be the spider.

WEDNESDAY, JULY 11, 1866.

☞ Imposing funeral services over the remains of the *late* Captain Charles E. Rand, of the *First* Massachusetts regiment, who was *killed* at the battle of Chancellorsville, May 2, 1863, and whose body has been recovered by his brother from the field where it was interred, were held in the Old South Church, Boston, on Sunday afternoon. The former members of the First Regiment attended in a body, with Co. E 7th Mass. Infantry for military escort, and Gilmore's and Hall's Bands—Brig. Gen. Cowdin heading the sad procession from City Hall to the church.

The church was filled by the friends of the deceased, and those others anxious to pay their tribute of respect to the memory of one who had fallen in the service of his country, whether a friend or stranger. The remains were brought into the church by the pall bearers, the audience rising as they entered, and were deposited in front of the pulpit, at the foot of the magnificent portrait of the deceased wreathed with crape, which forms a part of the Boston "*Gallery of Fallen Heroes.*" Around the casket was wrapped the stars and stripes, interwreathed with crape. Upon either end of it were wreaths of beautiful white flowers, and in the centre the side arms of the deceased. The plate bore the inscription: "Capt. Charles E. Rand, Co. I, First Regt. Mass. Infantry, killed at Chancellosville, May 2d, 1863, aged 30 years. *Pro Patria.*"

The religious services of the occasion were prayer by Rev. Dr. Blagden, singing by the choir, selections of Scripture, a beautiful dirge by Hall's Band, after which an appropriate and feeling discourse was delivered by Rev. W. H. Cudworth, formerly Chaplain of the 1st Mass. Infantry. Prayer was then offered by Rev. Dr. Blagden, and a solemn strain of music performed by Gilmore's band, the religious services closing with the benediction by Rev. Mr. Cudworth.

The remains were then conveyed from the church to *the hearse, which was appropriately* decorated with the American flag draped with black.

The members of the 1st Mass. Infantry Association wore the diamond, the old familiar badge of the Third Corps, in which they fought, and crape upon their arms in memory of their late comrade.

The cortege moved slowly on its way to the final resting place of the deceased. At Roxbury the escort took a formal and affecting leave of the remains; the pall-bearers only proceeded to the place of interment at Forest Hill.

This is the last of earth, of their old comrade and our old friend. Capt. Rand, as is well known, was a native of this city, and a brave soldier and gallant officer, and lost—no, gave his life for his country while endeavoring to recover ground lost by the rout of the 11th Corps. Kind friend, old playmate, true patriot, hail and farewell.

☞ All the papers and all the people are now beginning to see how foolish it is to burn up cities, or endanger them, or kill or maim men and boys, in "celebrating" 4th July, by firing off gunpowder in all sorts of shapes, among buildings made in the best manner for burning, and packed as closely as they can be. Well, we always thought so—and to us, the whole gunpowder *play* is absurd; and the firing of civil salutes, like all sorts of noisy applause at concerts, &c., always seemed barbaric and ridiculous.

☞ The citizens of Lawrence, Mass., held a meeting, very recently, and advised the City Government to appropriate $10,000 for the relief of sufferers in Portland. The City Council did so,—and a committee went down on Tuesday.

NEW HAMPSHIRE ITEMS.

—— David Hardy was killed by lightning in Danbury on the 4th. His wife, who was in the same room, was uninjured.

—— At Concord, Monday, the Concord and Claremont Railroad, now open to Bradford, twenty-six miles, was sold at auction by Oscar F. Fowler, for one hundred thousand dollars, subject to mortgages. It was bid off by Hon. Josiah Minot.

—— John D. Patterson, a highly respected and esteemed citizen of Manchester, was thrown from a wagon by a frightened horse on Saturday evening: his thigh is broken near the hip, and he is dreadfully jarred. The horse had always been a very steady one, until the 4th of July, when he was scared by a fiery serpent which was thrown at him. Every city and every State should take the fireworks in hand, and extinguish them. What can be more useless? What can be more dangerous? than *celebrations* of gunpowder, crackers, serpents, torpedoes, &c.

— The burnt district of Portland measures 327 acres. It is said that 70 children have been born on Munjoy Hill since the fire.

— Five hundred bank clerks have been thrown out of employment by the recent bank failures in London.

Local.

☞ Since the Portland fire-cracker conflagration, the policy of our Mayor Bailey and the Board of Aldermen, which forbade the exhibition of fireworks on Market Square on the Fourth, both on account of lack of room for spectators, and the danger from fire, is commended by all discreet people, as highly as the West End location was praised by the great crowds who so comfortably enjoyed its superior advantages. We predict that no more large fireworks will be let off on Market Square; and several correspondents have desired us to urge the City or citizens to purchase the Randlett's Mountain for such public and general uses as fireworks, balloon ascensions, base ball, &c. There certainly ought to be a public park or open spot somewhere in that part of the city; but though the fields there would afford good advantages, still we rather incline to "Elwyn Park" across the South Pond. Can't we have it?

☞ The advertisement of the Newton House, at the Sh—Smith's Isles, and the fact that by the recent fire on those Isles of the sea, Gosport lost fully $20,000, or one half the value of the town—and the best portion of it at that; leads us to think—what we hope we are not unkind or uncharitable in saying—that inasmuch as charity should begin at home, and nobody that we hear of has sent any aid to the Shoals, while everybody is most commendably rushing to the aid of Portland,—we think that true benevolence, not to mention policy, should lead Portsmouth at least, to do something for Smith's Isles, which are to all intents and purposes a part of our city, and which has suffered a far greater proportionate loss than our beautiful eastern neighbor city mourns.

☞ If the weather be favorable, the postponed ascension of the balloon "Fairy" will be made at 2 o'clock this (Wednesday) afternoon, from the field south of the Universalist Church.

THE CHAMPION'S BELT.—*Robinson, the* celebrated *circus-rider, has* recently been *presented with* the champion's belt, bearing an inscription proclaiming him the best rider in the world. This belt was got up for Mr. Robinson by a number of his professional as well as personal friends, who are competent to judge of his merits. The girdle of the belt is wrought of pure silver, elaborately chased, and the plate bearing the inscription is made of solid gold of the first quality. The plate is three inches by four in size, nearly a quarter of an inch thick, weighs twenty ounces, and is ornamented with a large brilliant diamond of great value. The intrinsic worth of the belt and diamond is estimated to be upwards of two thousand dollars. This beautiful and costly testimonial Mr. Robinson will be compelled to surrender to the first rider that can surpass him in feats of bareback horsemanship.

Mr. Robinson appears here with the great New York Circus, on Thursday, 19th inst.

WASHINGTON ITEMS.—President Johnson has been indisposed to-day [Monday], and has even declined to see those Senators with whom he made appointments. Cooler weather and rest will probably restore his health.

The friends of the Constitutional Amendment hope that the absent members of the Tennessee Legislature may be hunted up, so that body may concur with the Senate in the passage of the resolution.

It is rumored that the President disapproved the imprisonment of Paymaster Paulding, and has ordered his immediate release.

Major John Tyler, a son of President Tyler, delivered the annual address last week at Commencement exercises of William and Mary College at Williamsburg, Va. His subject was—"Virginia and the destinies of the American people under the providences of God;" and after showing how much greater Virginia has been than New England, he declared that we are now entering upon a new era, and that Empire is the solution of history. His address was throughout abusive of New England, eulogistic of Virginia, and destitute of a loyal sentiment.

[President Tyler was a weak man—and the Major is a chip of the old block.]

On Monday, in the House, the Committee on Elections reported that Charles D. Poston has no testimony to support his claim to the seat of delegate from Arizona, now occupied by John N. Goodwin, and and also that W. H. Koontz of Pennsylvania is entitled to the seat now occupied by Mr. Coffroth.

Mr. Scofield of Pennsylvania introduced a bill to change the time of the annual meeting of Congress from the first Monday in December to the first Monday in November, which was referred, and will probably be enacted.

Mr. Bromwell of Illinois offered a resolution, which the House after some skirmishing adopted, calling on the Secretary of War for a statement of the whole number of rations furnished since the close of the war to white or black persons, the number in each State, the cost, etc.

FROM EUROPE we have advices, via Liverpool, to June 27. The Prussians have been defeated in Bohemia.

All that day, a fire of artillery was kept up by the Austrian and Prussian forces between Neustadt and Nachoo in Bohemia. The Prussians were repulsed near Skalitz, when the cavalry took part in the action.

At six o'clock in the evening the Prussians were beaten and in full retreat, leaving their dead and wounded on the field.

Twelve men of war, comprising the Austrian fleet, appeared in sight of Ancona, but are leaving. The Italian squadron are preparing to follow and attack them.

The army of the Elbe had a successful engagement near Turnam, taking 7 Austrian officers and 500 men prisoners.

The Austrians have ventured to the first station upon the Steliro. The Italians have taken up a position near the Port du Diable.

The Prussians have destroyed the railroad bridge between Werdan and Groswitz at Altenberg. The people resisted the Prussians.

Fifteen thousand Baden troops are now stationed near Heidelberg and Wamrcheim will occupy a position between Damarstadt and Frankfort, and will be reinforced by available Federal forces.

At the battle of Custozza, the Austrian forces numbered 60,000. The 1st army corps reserve on the heights to the left of Valezzio held in check the overwhelming number of Austrians, before which Gen. Crane had been forced to retire. Bixios' division and cavalry line protected the retreat of the army, which was effected in good order.

— The journeymen plasterers of Memphis, Tenn., demand six dollars a day after the 10th of July.

— Why, Missus, just look at these nice white clothes. I never had such soap to wash with before, and as long as you are my mistress, I hope you will never buy any other but the Gold Medal Soap, it is so nice and pure, and washes so easy—just think of it—I am three hours ahead of the usual time, my clothes never began to look half so well before, and thanks *to the J.* Monroe Taylor *Gold Medal* Soap. Tell all your friends to try it, and they will never use any other.—Most all the grocers have it to sell. 2

IF YOU DESIRE TO WEAR the prettiest and most comfortable fitting boot or slipper, go to T. E. MOSELEY & CO.'S, Summer street, Boston. 37

☞ Read carefully the remarks about HYGIENIC WINE, on third page.

BE PREPARED. How often are people, both adults and children, attacked at the dead hour of night with cholera morbus, crampe, colic, vomiting and purging; a doctor cannot be obtained till morning; the case grows worse; perhaps death has already claimed its victim; a few doses of Coe's Dyspepsia Cure would have relieved the cramps and pains, and soon completely cured the sufferer of his troubles. Mothers, have it ready for your children! Fathers, provide it for your household!

Holloway's Pills and Ointment.—Palpitation of the heart is frequently caused by indigestion or relaxed state of the nervous system. A course of a few weeks of these invaluable medicines will diminish the irregular throbbing, and removing the source, restore its natural pulsation. To assist the functions, not to force them, is the true secret of success. Holloway's medicines and treatment are based on the simple laws of nature—by annihilating the cause the effect disappears. Sold by all Druggists. j9

IN NEW YORK CITY on Sunday the thermometer again reached 98 deg. 33 cases of sunstroke are reported, part on Saturday, and additional to those before mentioned, 27 resulting in death. Copious rains fell Sunday night.

Nearly all the bar rooms were open, Superintendent Kennedy having issued orders to make no more arrests for violation of the excise law, the constitutionality of which will be determined by the Court of Appeals.

There were two deaths from cholera.

A collection was made in Beecher's church for the Portland sufferers.

☞ On Sunday evening, as the heavy storm passed over Hudson, Mass., a young lady, Miss Emma Fairbanks, while engaged in the pantry after tea, was struck by lightning, and killed instantly. Other members of the family received a severe shock, but it is thought will recover. As the shower passed to the east, a yoke of oxen and a cow were destroyed.

Elegant Residence for Sale.

[On account of removal of owner.]

The well known and beautifully situated CUTIS' HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath-room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.

The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.

The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first class wine cellar. The house is fitted throughout with Straw Matting.

The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.

If desirable, more land, adjoining, could doubtless be purchased.

The grounds comprise about four acres, with terraced lawn, fine old trees and thrifty shrubbery—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS:

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "anores," "lepines," and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of these foreign impositions—the refuse of foreign factories—which were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for *less money* than foreign watches, but we do assert without fear of contradiction that for the *same money* our product is incomparably superior. All our watches, of whatever grade, are fully warranted and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

PURIFY THE BLOOD.—If the blood be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as it

Local.

☞ It is well known that the new yacht Alice, recently built in this city by Mr. John E. Townsend, was awarded the 2nd premium to the Edwin Forrest, in a regetta at Boston on the Fourth of July. But a correspondent of the Transcript broadly hints that the Alice fairly won the first prize, thus:

The Alice is 50 tons, old measurement, and rated at 27.44 tons new. The Edwin Forrest is 83 tons old measurement, and was entered as rating 36.16 tons new. It will be seen that while the Alice measured *over* one-half as much by new measurement as by the old, the Edwin Forrest, by some process, (how we have not learned) was made to measure considerably *less* than one half. We understand that, although the Edwin Forrest was duly entered in the race, her tonnage was not given until a few hours before it.

The Forrest led the Alice 13 minutes in the late regetta. By the rules which have governed yacht racing in Boston harbor for the past thirty years—namely, an allowance of one-half a minute per ton on the old measurement—it will be seen that the Alice would have been allowed 16 1-2 minutes by the Forrest, and would have received the first prize with 2 1-2 minutes to spare.

It must be admitted the Transcript writer adds that the Alice, by her performance on the Fourth, has shown herself to be one of the ablest yachts of her size ever seen in Boston.

She sails for the Isle of Wight on Tuesday, there to join her owner, Mr. T. E. Appleton of Boston. She will be taken across under command of Captain Arthur H. Clark, one of our youngest and most successful East India Captains. Mr. Chas. Longfellow, son of Prof. Longfellow of Cambridge, and Mr. Stanfield, also sail in her. We feel sure that should she contend with English yachts, she will reflect credit upon the country from which she goes.

PORTSMOUTH, July 7, 1866.

To the Public:—Whereas, the Boston Traveller of this date represents that I am not a reporter or correspondent of that paper; I feel myself called upon to state that I have for some time past been a regular compensated correspondent of the Traveller; have been requested to report therefor, and being in Portland after the late conflagration took place, I gathered many facts and figures concerning the fire, which were published in the Traveller of the 6th and 7th inst.; and the aforesaid causeless public announcement is the first intimation I have received that this connection was dissolved. E. P. NOWELL.

☞ We were very sorry to know that our friends of the Boston Traveller saw fit to publicly censure and denounce our other friend Mr. E. P. Nowell of this city, as an imposter, pretended correspondent, and sponger on hotels and railroads. It will be seen by Mr. Nowell's Card, above, that there are two sides to this story, as there are to most such stories. We have not seen Mr. N., or received a word from him, further than this; nor do we know anything of the causes, real or supposed, which led the Traveller to give this severe public kick—but we do know that Mr. Nowell is a quiet and inoffensive gentleman, who has had much rather creditable connection with the newspaper press, and done no little gratuitous labor therefor;—and if he has claimed or received more privileges than are usually awarded to reporters or correspondents for the press, we are sure a private hint would have had as good effect.

We say this all the more readily, as correspondents and reporters for this Chronicle, have often asked (and generally received) far more "perquisites" than the editors or publishers ever thought of soliciting. We doubt if any similar paper in the land, has been run clearer of the "deadhead" system, than ours, whether you take it in a business, social or political line.

☞ About 5 o'clock Tuesday afternoon, Mrs. Wilson and sister obtained a passage in a small boat from navy landing to the island oposite, and after being comfortably seated and a short distance from the shore the boat capsized and the ladies were precipated into the water, owing to the negligence of the man in charge. Mr. D. H. Holman, and Mr. Anderson, police at the landing, exerted every effort to save them, and by the assistance of the crew of one of the vessels near by, managed to get them safely on shore, but in quite an exhausted condition, and with a loss of a few valuables.

☞ At Manchester, July 9, James W. Tuttle was arrested by City Marshal Kent of this city, for passing ten dollar counterfeit bills on the Highland Bank of Newburgh, N. Y. He is a notorious counterfeiter.

GOLD, Tuesday, 149 1-4.

— The grand Jury at Canandaigua, N. Y., found indictments against fifteen Fenians captured at Buffalo by the steamer Michigan Gen. O' Neil being among the number and also against Gen. Murphy and five others arrested at Malone.

A Card.

The Officers and Members of S. F. Engine Co. No. 3, desire to return their thanks to KNIGHTS' CORNET BAND, for their visit and for the excellent music furnished at their flag raising on morning of the Fourth. Also, to the PORTSMOUTH CORNET BAND, for their escort to the wharf on the same afternoon. The Company have to apologize for this late acknowledgement, the communication having been mislaid.

Per order. N. CATE, Clerk.
Portsmouth, July 10, 1866.

A Card.

The Officers and Members of "GRANITE STATE" Engine Co., No. 4, hereby tender a vote of thanks to those Ladies of West End who rendered such efficient service in trimming that Engine on the morning of the Fourth.

Per order.

Card.

The Officers and Members of the CUSHING GUARD, of Newburyport, hereby tender their sincere thanks to the citizens of Portsmouth for the kind invitation to participate in their parade on the 4th inst.

Also to the Ladies of that city for the magnificent and bountiful Dinner furnished us, by them, while on our visit there.

Also, to those Gentlemen who so carefully attended to our wants while at the table.

And last, though not least, to our fellow townsman, ROBERT HARROWER, Esq., for his promptness to supply our wants on our return to Newburyport on the evening of the 4th.

Such kind treatment will long be cherished in our hearts. Per Order:

CHAS. H. GOODWIN, Clerk.
Newburyport, July 6th, 1866.

Notice.

Afternoon and Evening.
On Middle Street, opposite Anthony St.

This is an ENTIRELY NEW ESTABLISHMENT, upon which an enormous amount of capital has been lavished with an unsparing hand, to make it what it claims and is acknowledged by all to be, the first Exhibition of the Age. The one that has identified with it the

Champion of the World,

MR. JAMES ROBINSON,

The Bold and Intrepid Horseman, whose wonderful and startling **Bare Back Riding** has created the most profound sensation throughout the civilized world. He will at each entertainment introduce in a series of CLASSIC LIVING PICTURES, his infant son, **Master Clarence,** (only five years of age). The youngest, Smallest and Prettiest Rider in the world, who largely inherits the wonderful boldness and extraordinary nerve of his father.

Another chief attraction of the NEW YORK CIRCUS is the specially gifted Artiste,

M'lle Carlotta De Berg,

The most Dashing and Daring Equestrienne the World has ever produced, *from the* CIRQUE NAPOLEON, Paris. The exquisite grace and peerless skill of M'LLE DE BERG, combined with an irresistible *abandon* and a fearless dash, incomparably surpasses every species of Female Equestrianism hitherto seen on this Continent. This lady made her debut in New York, April 23, 1866, and achieved a success unprecedentedly brilliant.

Her fresh and spirited style fairly electrified the amusement world of New York. Possessing superior artistic genius, allied to rare personal fascination, M'LLE DE BERG will not permit the possibility of rivalry in her peculiar and elegant School of Equitation, which she surrounds with an affluence of Beauties, and embellishes with a halo of Radiance, captivating by their perfection and dazzling by their splendors.

Our space will only permit the names of the other leading performers, who are unequalled for their special talents, among the most widely famed, are:

Mr. James E. Cooke, Mr. Charles E. Madigan, Mr. Wm. Ducrow, the Levantine Brothers, Mr. J. Messenger, Mr. S. Stickney, Mr. Francisco Lee, Mr. James H. Madigan, Mr. W. A. Donovan, M'lle Josephine LeRoux, Mr. Hubert Forrest, Sig. Jose Montevarde, the Motley Brothers, Mr. J. S. Strickland.

Four Great Clowns,

Mr. Joe Pentland, the People's Clown; Mons. Francois Louiset, the French Grotesque; Mr. E. Cronette, the Shakespearean Orator; Mr W Donovan, Funny Philosopher.

The Leaping Buffaloes

From the Prairies of the Far West, are not the least of our attractions.

The Stud of Horses and Ponies comprises the

Finest Specimens of Horseflesh

ever collected together on either Continent.

Everything is New. New Waterproof Pavilion. New Carriages. New Harness. New Seats. New Wardrobe. New Properties, and New Ideas without number.

The GRAND CORTEGE will be headed by the New and Beautiful BAND CHARIOT, containing PROF. CHAS BOSWOLD'S Full Opera Band, from New York.

The New Waterproof Pavilion will be BRILLIANTLY LIGHTED With Reichmann's New Patent Chandelier.

Notwithstanding the incalculable expense attendant upon the enormous combination of Novelties, the PRICE OF ADMISSION Will be only.....50 Cents. Children, under 10 years of age,.....25 Cents. To all parts of the Mammoth Pavilion. NO STANDING ROOM. SEATS FOR ALL.

AFTERNOON AND EVENING.

Doors open at 2 and 7½ o'clock. Commence at 2½ and 8 P. M.

Morning Chronicle.

—The St. Louis train stopped as usual at Carlinville, a few days ago, to enable the passengers to obtain refreshments. Two ladies stepped from the car to the platform, and inquired of a gentlemen the name of the place. He told them. "Is this the Carlinville where Gen. Palmer resides?" asked they. They were told it was, and the gentleman offered to point out the General's residence. To this offer the females responded: "No sir, I have no desire to see his house. I am a Kentucky lady, sir, and I spit (suiting the action to the word) upon Carlinville." Carlinville still exists.

— A man, recognized as Thomas Quinn, was found on Thursday hanging in a tree in the Wild Cat Woods in Milford, on the road to Hopkinton. He was suspended by a pair of reins, and is supposed to have been hanging for about five weeks. Circumstances indicate that there was foul play in the matter.

— On Tuesday night some rascal or rascals found no better divertisement than to destroy a number of gas lamps in New Haven. From College to High streets, on Chapel, there was not a whole pane of glass left. The work appeared to have been done by placing a pack of fire-crackers within the frame and then igniting them.

— In many towns in Mississippi the freedmen who are able to get along without assistance from the Freedmen's Bureau have organized mutual relief associations for their own benefit and to protect and assist the needy of their own color. They are also organized into fire companies in some of the larger towns.

— A rare conversion was witnessed in one of the Jewish synagogues in Memphis last week. Mrs. Lewis, a Christian lady, who had married a Hebrew, openly embraced the Hebrew faith in church. The lady was remarried afterward according to the Jewish rite.

— Chauncey Beers of Roxbury, N. Y., has fourteen living children, ten sons and four daughters. The eldest is twenty-four years old, and the youngest five years of age. They are the children of the same mother and were born at single births.

— Some young men, while bathing in Mobile (Ala.) bay, were attacked by sharks. One was bitten in two, and then devoured. The others succeeded in escaping.

— An English physician states that while marriages in the city are three times as many as in the country, population for population, country marriages are two and a half times more prolific, and the death rate of the city is one-third greater than that of the country.

— The Collector of the port of Charleston took possession on Monday of the schooner Aid and cargo, recently arrived from Matanzas, on the charge of smuggling. The cargo is very valuable, having been invoiced at $10,000 in gold.

— A newspaper writer says a native California horse is tough and hardy, and can live on the photograph of a bunch of grass.

— Some enthusiastic hero-worshiper has discovered a typographical error in the Scriptures. "There were giants in those days," should read, "there were Grants in those days."

— Not a few seek to accommodate truth to their views and feelings: it is wiser to accommodate our views and feelings to truth.

— A new mineral has been discovered in Chili, containing 10 per cent. of iodine. A cargo of it will represent a fortune.

— If a toper and a gallon of whiskey were left together, which would be drunk first?

— If you wish that your own merit should be recognized, recognize the merits of others.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on diseases of a PRIVATE AND DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, universally acknowledged the best preventive. Order by mail. Three or six and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

DISARMED!!!

The Chief Causes of Pestilence Destroyed.

DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 293, 295, and 301 Henry street, N. Y.—Office, 42 Cedar street.

This Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter-houses, oil and fat-boiling establishments; all kinds of manures (*immensely* increasing the value of the latter), and wherever poisonous and offensive gases need to be neutralized, deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words. They remove noxious gases and odors by chemical principles—leaving in their places *healthful air*; they are DESTROYERS, and *not merely absorbents* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office

The Use of this Column

Has been bought and paid for for three months, by

C. A. RICHARDS & CO.,

99 Washington Street, - - Boston,

the largest Wine Merchants in New England. Their object for this outlay is to

TELL THE PEOPLE

that they have the most extensive variety of

PURE WINES AND SPIRITS

of all kinds, which they sell in any required quantity, and warrant them to be just as represented,—and also to *arouse public attention to the fact* that the three great leading articles in their business are these,—

EXTRACT OF RYE,
DUNSTER'S LONDON CORDIAL GIN,
GOLDEN SHEAF WHISKEY.

EXTRACT OF RYE;

WHAT IS IT?

Ask the thousands who are using it. Make the enquiry anywhere from one end of this glorious country to the other. Some people call it

The Very Best

OLD RYE BEVERAGE

THEY EVER TASTED.

Perhaps they are right. Try it and see.

IT IS MADE FROM

RYE,

AND NOTHING ELSE,

and from the best Rye at that.

None of your musty, mouldy, heated stuff, but the

Very Best of Rye

that grows in the Cumberland Valley.

It is enough to do a man's soul good to taste it, and see how different it is from the strong, fiery stuff that people use for Rye Whiskey.

It is Made Different.

It retains, by a peculiar mode of distillation, the very

MEDICINAL QUALITIES

that have made it so popular. If you want to use

A Pure, Genuine Article of Spirit,

to stimulate a Weak stomach, or to give you renewed health and long life, use the

EXTRACT OF RYE.

It is put up in large square bottles, which contain the name of

C. A. RICHARDS & CO.,

blown in the glass. He is the General Agent, yet you can find it all over the country at the principal Drug and Grocery stores.

DUNSTER'S

London Cordial Gin.

THE

GREAT DIURETIC REMEDY

OF THE AGE.

An Effective Medicine

AND

A PLEASANT BEVERAGE.

Celebrated in England for half a century,—spreading its popularity all over America.

DISTILLED FROM

Malted Grain and Juniper Berries.

FLAVORED WITH

Aromatic Seeds and Perfumed Flowers.

Health giving and pungent with its delicious cordial flavor.

IT ACTS DIRECTLY ON THE KIDNEYS,

Removing disorder and imparting

HEALTH AND VIGOR.

EXCELLENT AS A

Household Medicine.

Aged people, or those with weak constitutions find it a blessing.

Put up full strength, in all its natural purity, in large square bottles, with the name of

THE KING

OF ALL THE BOURBONS!

This Venerable Rich Old Patentate, Crowned with a Golden Sheaf of

Wheat!

Banishing and driving away all the worthless deceptions which have stolen his name, and ruling alone, the

Purest, Oldest, Mildest,

—and—

BEST BOURBON

That ever could date back to a Grain-field.

—

Go where you will, in any city, town or village, and you will find somebody that has got a little of the

GOLDEN SHEAF WHISKEY,

that they keep for the stomach's sake, and the reason is because it is

PURE AND GOOD.

It is not sold everywhere where spirits are retailed, but openly and fairly by the most respectable

Druggists, Town Agents and Grocers,

ALL OVER THE COUNTRY.

It is put up in large bottles, and its

PURITY IS GUARANTEED

By the Sole Proprietors and their Agents everywhere.

CHEROKEE PILLS,

Or Female Regulator,

Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Side, Headache, Coldness*, and all diseases that spring from irregularity, by removing the cause and all the effects that arise from it. They are perfectly safe in all cases, *except when prohibited by directions*, and are easy to administer, as they are nicely *sugar coated*. They should be in the hands of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to the sex. Send for our 32 page pamphlet, in a sealed envelope, free.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

N. B.—Cherokee Pills No. 2 are prepared for *special cases* when milder medicine fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S

REJUVENATING ELIXIR,

Or, Essence of Life,

"As the Phenix rises from the ashes of its fire, renovated with new life"—so does this Elixir restore Debility, restoring Manliness at the system and cast fall vigor, thus proving a *wonderful* perfect *"Elixir of Life,"* removing *Mortality* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

Price, one bottle $2; three bottles $5; sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe—some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease of Ovary or Generative organs of the afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

☞ On Saturday, the U. S. Senate received a bill, reported by Mr. Trumbull of Illinois, which is to deprive the President of the power to make removals of officials during the recess of the Senate, or to make any appointments during the recess, unless where vacancies have occurred by death, resignation or expiration of term.

While there is a general desire at the Capitol to prevent the action of the political guillotine during the approaching recess, it is not certain (says Perley) that the bill can be passed over the first veto, as many regard it as depriving the President of a power conferred by the Constitution.

Any plain reader can see *all the power* of that sort which the Constitution gives the President. It is in the following words:

The President shall have power to fill up all vacancies that may happen during the recess of the Senate, by granting commissions, which shall expire at the end of their next session.

This gives him power to *fill* vacancies, but not to *make* them! Such a power has sometimes been *usurped:* But the Constitution, in the above words, certainly gives it no countenance. Senator Trumbull's bill *ought* to be passed by a good two thirds, and then re-passed over the veto. No decent man, who desires fair play, should heed such a snivelling objection as Perley alludes to. There is no ambiguity on this question in the Constitution. It was *never* misunderstood: it was only *perverted* by designing men. Read it for yourself. U. T.

☞ Near Taunton, Mass., Saturday evening, Mrs. Mary H. Williams, the young bride of Mr. L. Allen Williams, went in bathing with a party consisting of her husband and a couple of neighbors. She stepped into a deep hole, and being unable to swim, sunk to the bottom. Her disappearance was not noticed for some minutes, the rest of the party being at some little distance, and Mr. Williams having swum to the opposite shore. When missed, she was dived for several times before she could be brought to the surface. Although seemingly under water but a comparatively short time, all efforts to resuscitate her were unavailing. She had been married but about six weeks.

NOT TRUE.—An article has been extensively circulated in the Southern papers stating that "Miss Sarah Jones, a New England 'school marm,' was recently married in Mobile to a wealthy nigger named Samuel Jones," &c. The matter has been investigated by the officers of the Freedmen's Bureau, and Mr. E. C. Branch, State Superintendent of Education for Alabama, denies the whole affair, stating that there are no such persons connected with the Freedmen's schools there; and that after the most diligent inquiry he cannot find that any persons of that name have been residing in that city. The whole story is a sensational falsehood. When it met our eye, our only remark was, What of it? And now, What of the denial? It only shows that some great liars are also great fools,—to invent a story that could do neither good nor harm.

SOUTH CAROLINA.—There was a riot in the market at Charleston on Saturday night. Some negro soldiers were blocking up the passage, and were requested to desist by the police. The party of negroes then left but returned reinforced, and fired into the police, dangerously wounding one or two colored bystanders. Forty policemen charged and routed the mob.

In reply to the charge that he is interested in a cotton plantation, Gen. Tillson says: "I certify upon my honor that I am not interested directly or indirectly in this or any other State."

The President will direct General Sickles to surrender the four murderers of a non-commissioned officer and two soldiers under the writ of habeas corpus served on him by the District Court of Charleston.

CONNECTICUT BLUE LAWS.—Once in seven or ten years, somebody strings out an old story about the Connecticut Blue Laws. The Boston Journal has just copied such a thing from the Northamptonshire Spy of 1787, introducing a small list of the so-called laws,—among them that "no woman shall kiss her child on the Sabbath—no one shall make beds, sweep house, cook victuals, &c., on the Sabbath.

Let us say,—not for the first or second time—that the volume, called Blue Laws of Connecticut was a mere humbug—and that most of the "laws" therein contained, were never enacted or proposed, either in Connecticut or any where else. U. T.

COALITION.—The Washington correspondent of the Boston Herald says:

The Democratic and Johnson clubs have consolidated here, and in future will act as one, under the name of the National Union Club. New officers will be chosen. Gov. Randall was president of one and Montgomery Blair of the other. It was found that by uniting there could be more concert of action.

Exactly so: and here is a new coalition, *approved* by the South Carolina school of politicians, and by every ex-rebel at the the South, and every traitor and sneak at the North. Whatever mask there was in "my policy," there is none now! Every person who reads the papers can understand the question—Shall the country be ruled by the ex-rebels? The new "National Union" coalition means Yes! The loyal people, contra-minded, will please to say No!

☞ A Nashville, Tenn., dispatch of July 10, says:

The Metropolitan Police bill came up in the Senate this afternoon. Gov. Brownlow's nominees were elected, 18 against 2. It is known that there will be a quorum in the House to-morrow.

FROM CUBA, a letter has been received in Baltimore, denying the news of an insurrection at Puerto Principe, and *treating* the affair as *substantially* a canard. The news of the uprising of the blacks, as well as the arrival of the Chilian fleet with 2000 men, is also pronounced false by the same party, who attributes the rumor to a gathering of a few hundred Cubans upon one of the squares of Puerto Principe for the purpose of protesting against the present Cabinet, and associating themselves in feeling with the revolutionists of Spain.

☞ A few days since, in the town of Shirley, Mass., a little boy met with an untimely end in the following manner: He, with others, was attending school, near which was a sand bank into which the children dug holes; into one of these holes they thoughtlessly caused this boy to enter, when they closed or filled up the entrance and left him. The teacher soon after made inquiries for the missing boy, when she was informed by those knowing the cause of his absence, that they had buried him in the sand bank, and which proved but too true; for upon removing the sand and dirt, the little fellow was found really dead, being actually buried alive.

☞ At Greensboro', Ala., on the 22d ult., three men named Duggen, Williams and Williamson were engaged in a joccse conversation, when Williamson was too sharp in joking Duggen, who became angry and knocked him down. A son of Williamson interfered and shot Duggen twice in the neck. Duggen then procured a double-barreled gun and shot a brother of Williamson, although he had nothing to do with the matter, inflicting a fatal wound, and then searched for and shot Williamson himself. He then fell from the effects of his own wounds, and died in half an hour. Williamson is expected to recover.

NEW HAMPSHIRE ITEMS.

—— The Sullivan Railroad was sold at auction at Claremont on Tuesday, being bid off by the trustees of the first mortgage bonds, for two hundred and fifty thousand dollars.

—— The wheelwright's shop of Messrs. Marston & Son in Warren, was destroyed by fire on Sunday night. There was no insurance. It is supposed that the fire caught from a lighted candle being carried into the shop.

—— Among the the patents for the month previous to July 3, we notice:

Charles H. Drew of Great Falls, for design for a paper collar.

Daniel M. Cummings of Enfield, for heating stoves.

H. L. Folsom of Upper Gilmanton, for improvement in tether.

——Mayor Abbott and Nathaniel White, Esq., left Concord Wednesday morning for Portland, carrying three thousand dollars in money and a car-load of clothing and bedding. Hon. Josiah Minot sent to Portland a draft for one thousand dollars, being a contribution from St. Paul's Episcopal Society.

— Gentleman—A manual of good manners, bound in cloth.

☞ The Portland Press says that during the revolutionary war, when Mowatt burned Portland, an infant but a few weeks old was removed from a house on Fore St., below India street, in that town, and taken out of town for safety. The house was burned down. During the conflagration last Wednesday night that same infant was removed from a house erected on the spot where stood the one burned by Mowatt, from which ninety years ago she had been removed, and she was once more taken to a place of safety. She was the venerable Miss Hannah Thorlo, the daughter of Capt. Peter Thorlo. She is now ninety-one years of age, of infirm health, but possessing a remarkably bright mind. Fortunately the house of her childhood was untouched by the fire.

AN UNCOMFORTABLE SITUATION.—Wednesday afternoon a man was committed to the lockup in the City building, Portland. In the excitement of the fire the poor fellow was forgotten and be remained in his cell all night, while the building over his head was on fire. But he slept soundly unconscious of his danger, and in the morning was found bright and sober. A hearty breakfast was furnished him and he was discharged. The lockup was not injured in the least degree by the fire overhead.—*Press.*

INGRATITUDE.—One of the mechanics employed in the planing mills of Messrs. Winslow & Doten Brothers, Portland, and who had been in their employ for a year and a half, absolutely refused, when the fire was raging and that establishment was in great danger, to assist his employers in carrying water to save the building—saying that he "did not hire out to work on the 4th of July or to lug water on holidays," and marched off. The building was saved, and on Saturday this brave fellow went to the establishment to work as usual. He was met with the information that he could no longer work in that establishment. Served him right is the verdict of the public.—*Press.*

AN UNEVIABLE SITUATION. — Z. K. Harmon, his son, and two seamen, were in the Portland Custom House building during the whole progress of the fire on those premises. They were busily engaged in removing property to that place and storing it away, and when they attempted to leave found the doors closed! *They went* up stairs and *fought the fire* which was *making its way* into the Court room. Finally it got too hot for them and they retreated to the cellar, where they remained until the fire had passed that point and the door could be open, when they came out of the fiery furnance like Shadrach, Meshach and Abednego, of whom we read in the book of Daniel, without the smell of fire upon their garments.—*Press.*

NARROW ESCAPE.—During a severe thunder storm, Sunday afternoon, 8th inst., Mrs. Joseph W. Wallace of Hudson, N. H., had an almost miraculous escape from death by a flash of lightning which stripped a kid shoe from her right foot, split the unfortunate specimen of the cordwainer's handiwork completely open from instep to toe, and otherwise essentially demolished it, without materially injuring the wearer, who was in her kitchen engaged in rocking a cradle containing an infant. A little girl stood by her side. Neither of the children were hurt. Mr. Wallace was absent attending church. Although Mrs. W. was not stunned in the least, she felt the effects of this sudden visitation for about an hour. A blood blister was raised on one of her little fingers, and her stocking and skirts were somewhat scorched.

The electric fluid descended a lightning rod attached to the body of the house, struck the ground and nearly covered one side of the building to the eaves with mud, ascended through the kitchen floor (tearing up two boards), splintered a beam, along which it ran through the shed, and ended its devastating career in the barn, which afforded strong evidence that it had been entered "with force and violence." House, shed and barn were all directly connected together. The casings of two windows in the house were torn off, six lights of glass in a shop window adjoining the kitchen broken out, and last, but not least, three chickens were killed in the barn cellar. Notwithstanding the marks of scorching left behind, nothing took fire.—*Boston Journal.*

LIGHTNING FREAKS. During the heavy thunder shower of last Sunday afternoon, the house of Patrick Reagan of West Boylston was struck and considerably injured. The fluid tore one boot nearly off his foot, and passed to the other foot, splitting one of his toes and injuring the others. Mrs. Reagan was also struck, receiving a wound in the leg. Both were insensible for a time and Mr. Reagan was thought to be dead, but they are now likely to recover. The house of Mr. Harper and several trees in the vicinity were struck, but no serious damage was done.

The house of S. S. Hartban in Princeton was struck by lightning and burned during the same shower. A dwelling-house in Sutton was also considerably injured, and a woman was affected.—*Worcester Spy.*

A LESSON FOR CHIEF MARSHALS.—The Philadelphia Gazette states that as a foot note to every order issued by Gen. Hancock on the Fourth, concerning the movements of the grand parade, were the simple words—"The line will move at the hour above named, whether you are ready or not." The result was palpable. The signal gun for the movement of the line fired while the clock was striking ten, and the whole line was in position and ready to move. The like promptness was never before seen in these parts under similar circumstances.

—Mrs. Lincoln has presented the walking-stick commonly used by her late husband to Frederick Douglass.

IN THE U. S. SENATE, July 10, the House bill to fix the number of Judges of the Supreme Court of the United States, and to change certain judicial circuits, was passed. It provides that no vacancy in the office of Associate Justices be filled until the the number of Asso. Justices shall be reduced to six, and makes certain changes in places of holding the Circuit Court of the United States. This bill, if it becomes a law, cuts off the President's nomination, made some time ago, of Henry Stansbury for the then vacant Judgeship.

In the House, a Tariff bill was passed, 94 to 53. The three N. H. Representatives voted yes. The bill goes to the Senate, where an effort will be made to postpone it, but its *friends* claim that it will be acted upon, as a canvass of the Senate shows that 22 are in favor of its present consideration, while 20 advocate postponement. If it goes to the Finance Committee some of the duties will be scaled down.

VIRGINIA.—Judge Sheffey, of the Cir. cuit Court of Nelson county, Va., has decided that slavery was not abolished in Virginia till the 10th of April, 1865, when the Confederate and State governments were superseded by the military power of the United States, and the Alexandria government and constitution extended over the State. He holds that President Lincoln's emancipation proclamation abolishing slavery after Jan. 1, 1863, was a mere *brutum fulmen.* The case arose out of a question of contract in which a slave woman was exchanged for other property March 11, 1865. One side contended that she was a free woman at the time of the contract, which the other denied.

☞ At West Poultney, Vt., on the 4th, a youth named John Livingston, aged 18 years, was killed while engaged in firing a morning salute. It appears that a strife was existing between the boys of the East and West villages of that town as to who would fire their cannon quickest, and without sponging *or thumbing* the piece young Livingstone endeavored to ram the cartridge down, when it ignited, causing the ramrod to pass through his hip, tearing off both his hands and otherwise horribly mangling him. He lived but about an hour after the accident.

☞ Governor Hamilton of Texas, who with other loyal Southern men has issued a call for a convention of Union men at Washington in September, calls the Philadelphia Convention "another rebel invasion of the North, to form an alliance with the Democratic party for the reinstatement of the rebel leaders in their former political power, to the utter exclusion of the Union men who have been persecuted, oppressed, and ignored for the last few years." He probably is not far from right.

☞ George A. Mitchell of Turner, Me., the inventor of the copper tip for children's shoes, and his son, 6 or 8 years of age, were drowned in Twenty Mile river, near his residence, last Thursday. Two of his boys had gone in to bathe, when one of them got beyond his depth. The father rushed into the water to save his child, but both were drowned. The bodies were found in half an hour afterwards, but all attempts at resuscitation were unavailing. Mr. Mitchell was in possession of an independent fortune through his invention.

— A man appeared before an army surgeon at Philadelphia last week, as an applicant for a pension, having upon his body the scars of twenty-two wounds received in the late war.

— Col. James L. Fraser, who was shot in the abdomen by James Mallady, during a disturbance in Fraser's saloon in Fulton street, New York, on Friday, died at the New York Hospital at midnight of Saturday from the effects of the wound so received.

— Charles H. Warriner, a lad of 11 years, was drowned while bathing in the Connecticut river at Springfield on Sunday, and the same day William C. Hodsdon was drowned by the upsetting of a boat while sailing in the pond at the Water Shops of the United States Armory.

— The carelessness of people in regard to the use of firearms is almost incredible. On the morning of July 5th, in Brooklyn, a child of seven years was allowed to play with a loaded revolver, when one barrel went off, the bullet from which lodged in the brain of her grandmother, causing death in two hours.

— A fiendish outrage was perpetrated on the 2d instant upon a discharged Federal soldier living near Galveston, Texas. Three ruffians, wearing masks, entered his house, took him out of bed, and, with knives, hacked off his fingers and toes; then built a log fire in the fireplace and threw him on it, and held him there until insensible. His housekeeper found him burnt to a crisp. No clue to the murderers has been obtained.

— Herrick Allen's Gold Medal Saleratus is Manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomacks and cure dyspeptic persons. Use it with cream tarter instead of soda. Try it. Grocers and Druggists sell it.

SPECIAL NOTICES.

☞ The HYGIENIC WINE introduced into United States by Messrs. Lambert & Kamping, New York, is a fine imported Tonic used throughout Europe. This Tonic is unlike the common Bitters manufactured in this country, being prepared in PARIS, from pure Sherry, and has the approval of Physicians everywhere. Containing *no alcohol or any liquor whatever, it is not intoxicating in the least.* Its taste is *delicious*, and for Ladies, to whom it is especially recommended, it is a delightful substitute for the various tonics which have an alcoholic body.

"MUSCAT PERLE" is a fine delicious Table Wine, the pure juice of a most rich and generous grape, and has no superior in imported wines.

Hygienic Wine and Muscat Perle are recommended to every family, as possessing that rare virtue, *purity.*

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world. for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, accompany each package. Not to be used without producing effects contrary to nature's chosen laws. will be found carefully folded around each bottle, with the signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS:

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines," and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of those foreign impositions—the refuse of foreign factories—which were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for *less money* than foreign watches, but we do assert without fear of contradiction that for the *same money* our product is incomparably superior. All our watches, of whatever grade, are fully warranted and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

PURIFY THE BLOOD.—If the blood be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as if

We should not have omitted to chronicle the fact, that Sagamore Steam Fire Engine Company, on the morning of the Fourth, flung to the breeze, a splendid new and large edition of the stars and stripes, at the peak of their flag-staff at their House on Court St. The new Number Twos, like the old, are enterprising and public spirited, and always ready to do their part, whether at fires, or serving the public in other capacity, at celebrations, or what not. We have heard that this Company have expended, of their own private funds, no less than $1300 in the past ten years, in uniforms, adornments to their rooms, &c.

Mr. Charles W. Gerrish advertises his regular annual closing-out sale of Thin Clothing for gents and boys; and while it is unnecessary for us to say a word in commendation of his courtesy and fair dealing, to those who know him or have visited his well-stocked clothing-house—we will just hint to all, that they may depend on getting good bargains now at Nos. 33 and 37 Market Street.

James W. Tuttle, a noted counterfeiter, who was arrested in Manchester on Monday by Marshal Kent of this city, for passing counterfeits on bills of the Highland Bank, of Newburgh, N. Y., had an examination on Tuesday, and in default of $2000 bail was committed to Manchester Jail. It does us good to see the tenacity with which our efficient Chief of Police holds a trail to any rascality, as well as the celerity with which he finds it.

The Portsmouth Cornet Band's outdoor Concerts are highly enjoyed by great audiences; and as will be seen by the Band's Card, a musical gentleman—who if not exactly a son of Portsmouth, is the next best things to it, having married one of our city's fair daughters—has evinced his appreciation of the fine performances in a most agreeable and fitting manner.

The Balloon, which "didn't go up," again, yesterday afternoon, is expected to rise this morning.

The remainder of the marines attached to the Yard arrived from Portland Wednesday afternoon.

The Portsmouth City Guards were out Wednesday afternoon, looking well in their new uniform of the State Militia.

OUR FOURTH.—A correspondent or reporter of the Boston Commercial, visiting here on the 4th of July, writes thus:

A pleasant ride of some sixty miles, over the cool and diversified route of the Eastern railway, brings the tourist escaping from metropolitan dust and turmoil, to this ancient city (Portsmouth), which, except in name and numbers, is the veritable representative of quietude and repose.

That a magnificent harbor, combined with perfect facilities for interior communication, should not within an interval of nearly three centuries have built up a flourishing emporium here, or at the least have staved off commercial inanition, is at first sight matter of surprise, and is explicable only when we examine the geographical nature of the back-country, and the too close vicinage of other seaports. But the mere pleasure seeker rests satisfied with the beauty and picturesqueness of the region. In this respect the city and its environs are unsurpassed.

* * * Under auspices so favorable, a highly successful celebration was anticipated. But to say that this anticipation was realized would be stating an untruth.

He also states (what we didn't know before) that "the fire-works displayed in the evening were not generally satisfactory."

During this pyrotechnic display, a good specular point revealed to us just above a certain point of the horizon, a continuous ruddy glare, which, as we subsequently ascertained, marked the direction of that tremendous conflagration which was then raging at a distance of fifty miles.

Portsmouth herself has suffered much by disastrous fires. By some strange coincidence these fearful calamities have all befallen her at the unfavorable season of midwinter. In December, 1802, 182 buildings were destroyed; in December, 1806, 14 were consumed, including St. John's Church; and in December, 1813, fifteen acres of the town were burned over, destroying 397 buildings.

The Boston and Providence Railroad Company is constructing strong railings on the sides of the high viaduct in Canton, which will be sufficient, if a train should run off from the track at the slow rate the cars are run over that giddy hight, to restrain it from falling down the precipice.

Notwithstanding the disgusting toadyism of Boswell Craven's book about "Jeff. Davis at Fortress Monroe," that distinguished gentleman, it is said, considers himself insulted by its publication, and speaks in no very complimentary terms of the breach of confidence by the author.

The Portland papers say that if one thing is needed more than another for the sufferers, it is bedding and clothes. Many escaped with only what they had on.

A dogma is defined as an opinion laid down with a snarl.

Our vanity is incessantly the enemy of our self-love.

No matter how long you have been married, never neglect to court your wife.

A man was arrested in Portland on Saturday who is identified as one of the Bowdoinham robbers. A considerable quantity of the missing bonds and money was found on him.

The house of John C. Whiting, at Forestville, Conn., was struck by lightning on Sunday evening, and Mr. W. and his sons four years old, were killed. Mrs. W. was stunned, but recovered.

The San Francisco Bulletin of the 15th June ultimo, says that Rev. Dr. Stone was installed pastor of the First Congregational Church there on the previous evening. The large church edifice was filled.

An exchange states that the underwriters of New York city are seriously inclined to institute legal proceedings against the city for damages by fires which were occasioned by the fire-crackers and other fireworks on the Fourth of July.

A building in Galveston, Texas, occupied as a grocery store, was torn to pieces by the explosion of a keg of gunpowder on the 2d. A negro was carelessly smoking his pipe near the open keg, when a spark dropped, and the negro was blown to atoms.

Elegant Residence for Sale.

[On account of removal of owner.]

The well known and beautifully situated CUTTS' HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant ball-room, billiard-room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.

The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.

The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first class wine cellar. The house is fitted throughout with Straw Matting.

The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a spiéndid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.

If desirable, more land, adjoining, could doubtless be purchased.

The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery—and is so situated as to command a delightful view of forests, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

NEW YORK CIRCUS,

Nos. 86, 88, 90, 92 and 94 Fourteenth St., opposite Academy of Music, New York.

L. B. LENT - - - Director.

IN PORTSMOUTH,

THURSDAY, JULY 19th, 1866,

Afternoon and Evening.

On Middle Street, opposite Anthony St.

This is an ENTIRELY NEW ESTABLISHMENT, upon which an enormous amount of capital has been lavished with an unsparing hand, to make it what it claims and is acknowledged by all to be, the First Exhibition of the Age. The one that has identified with it the

Champion of the World,

MR. JAMES ROBINSON,

The Bold and Intrepid Horseman, whose wonderful and startling **Bare Back Riding** has created the most profound sensation throughout the civilized world. He will at each entertainment introduce in a series of CLASSIC LIVING PICTURES, his infant son, **Master Clarence,** (only five years of age). The Youngest, Smallest and Prettiest Rider in the world, who largely inherits the wonderful boldness and extraordinary nerve of his father.

Another chief attraction of the NEW YORK CIRCUS is the specially gifted Artiste,

M'lle Carlotta De Berg,

The most Dashing and Daring Equestrienne the World has ever produced, from the CIRQUE NAPOLEON, PARIS. The exquisite grace and peerless skill of M'LLE DE BERG, combined with an *irresistible abandon* and a fearless *dash*, incomparably surpasses every species of female equestrianism hitherto seen on this Continent. This lady made her debut in New York, April 23, 1866, and achieved a success unprecedentedly brilliant.

Her graceful and spirited style fairly electrified the amusement world of New York. Possessing superior artistic genius, allied to rare personal fascination, M'LLE DE BERG will not permit the possibility of rivalry in her peculiar and elegant School of Equitation, which she surrounds with an effluence of Beauty, and embellishes with a halo of Radiance, captivating by their perfection and dazzling by their splendors.

Our space will only permit the names of the other leading performers, who are unequalled for their special talents, among the most widely famed, are:

Mr. James E. Cooke, Mr. Charles E. Madigan, Mr. Wm. Ducrow, the Levantine Brothers, Mr. J. Messenger, Mr. S. Stickney, Mr. Francisco Lee, Mr. James H. Madigan, Mr. W. A. Donovan, M'lle Josephine LeRoux, Mr. Hubert Forrest, Sig. Jose Mouteverde, the Motley Brothers, Mr. J. S. Strickland.

Four Great Clowns.

Mr. Joe Pentland, the People's Clown; Mons. Francis Loaiset, the French Grotesque; Mr. E. Croposte, the Shakespearean Orator; Mr W Donovan, Funny Philosopher.

The Leaping Buffaloes

From the Prairies of the Far West, are not the least of our attractions.

The Stud of Horses and Ponies comprises the **Finest Specimens of Horseflesh** ever collected together on either Continent.

Everything is New. New Waterproof Pavilion. New Carriages. New Harness. New Seats. New Wardrobe. New Properties, and New Ideas without number.

The GRAND CORTEGE will be headed by the New and Beautiful BAND CHARIOT, containing Prof. CHAS BOSWOLD'S Full Opera Band, from New York.

The New Waterproof Pavilion will be BRILLIANTLY LIGHTED With Reichmann's New Patent Chandelier.

Notwithstanding the incalculable expense attendant upon the enormous combination of Novelties, the

CHOLERA

DISARMED!!!

The Chief Causes of Pestilence Destroyed.

DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 298, 300, and 302 Henry street, N. Y.—Office, 42 Cedar street.

This Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTANTS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, asylums, institutions of all kinds, slaughter-houses, offal and fat-boiling establishments; all kinds of manures (immensely increasing the value of the latter), and wherever poisonous and offensive gases exist. These agents are deodorizers, antiseptics, antipurrescents, and disinfectants in the scientific meaning of the words. They remove noxious gases and odors by chemical principles—leaving in their places *healthful* ones; they are DESTROYERS, and not merely absorbents of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office

DELAWARE HOUSE, Albany, March 30, 1866.

To the President of the New York Disinfecting Co.:

Dear Sir: It is all it is represented to be. We have made many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors. T. HOWARD & CO.

NEW YORK, April 9, 1866.

To the President of the New York Disinfecting Co:

Dear Sir: We pronounce it without exception to be the best we have ever known. Its effect upon every matter is complete and instantaneous.

GLAD NEWS

FOR THE UNFORTUNATE.

BELL'S SPECIFIC REMEDIES

Are warranted in all cases, for the SPEEDY and PERMANENT CURE of all diseases arising from sexual excesses or

YOUTHFUL INDISCRETION,

Seminal Loss, Nightly Emissions, and Sensual Dreams; Genital, Physical and Nervous Debility, Impotence, Gleet, Sexual Diseases, &c.

No Change of Diet is Necessary.

They can be used without detection, and never fail to effect a Cure, if used according to the instructions.

BELL'S SPECIFIC PILLS,

Price One Dollar per Box; or Six Boxes for Five Dollars; also Large Boxes, containing Four Small, Price Three Dollars.

From four to six boxes are generally required to cure ordinary cases of Seminal Weakness and Emissions, though benefit is derived from using a single box.

In Chronic Cases, and particularly when Impotence or Genital Debility with Nervous Prostration has affected the System,

BELL'S TONIC PILLS

Are recommended as the most Efficacious, Rejuvenating and Invigorating Remedy in the world.

A Package, Price Five Dollars, will last a month, and is generally sufficient.

In extreme cases of Debility and Impotence,

BELL'S EXTERNAL REMEDY,

Price Two Dollars, sufficient for a month, can be used to good advantage.

It gives Strength to the Organs, and, with the Pills, will restore them to their normal condition.

A Pamphlet of 100 pages, on the ERRORS OF YOUTH, designed as a Lecture and Caution to Young Men, Sent free. Ten cents required to pay postage.

CAUTION.

The above Remedies have now been before the Public many years, and their great success in the alleviation of human misery, has excited the cupidity of several parties, who use the name "Specific Pills," copy my labels, circulars and advertisements, sometimes word for word, and put up worthless compounds that disappoint the just expectations of the purchaser.

If you cannot purchase BELL'S SPECIFIC REMEDIES of your Druggist, take no other, but send the money direct to

DR. JAMES BRYAN,
CONSULTING PHYSICIAN,
319 Broadway, New York,

and you will receive them by return mail, postpaid and free from observation. Je30-eodeow-ly

And they will be sent by return of mail, postpaid.

TO LADIES.

If you require a reliable remedy to restore you and remove Irregularities and Obstructions,

WHY NOT USE THE BEST!

Every Lady knows the slightest irregularity of nature is liable to bring on Headache, Giddiness, Low Spirits, Fainting, Hysterics, &c.; then the bloom of health fades, the appetite fails, and other symptoms more distressing commence, as—Weakness, Spinal Complaint, the Whites, Prolapsus, &c., &c.

A NEVER FAILING REMEDY will be found in

Dr. Harvey's Female Pills.

The experience of thirty years has proved they have no equal for removing Obstructions and Irregularities, NO MATTER FROM WHAT CAUSE THEY ARISE. They are Safe and Sure in every case. Upwards of 50,000 Boxes are sold annually and no complaint of their efficacy is ever heard, for they accomplish what they are represented to do.

Sold in Boxes, *containing Sixty Pills.* Price One Dollar.

Dr. Harvey's Golden Pills

Is a remedy four degrees stronger than the above, and intended for obstinate cases of long standing. Price Five Dollars per Box.

A PRIVATE CIRCULAR to Ladies, with fine Anatomical Engravings, sent free on receipt of directed envelope and stamp.

Send for DR. HARVEY'S PRIVATE MEDICAL ADVISER, addressed to Females—64 pages—giving full instructions and information. 10 cents required for postage.

If you cannot purchase the Pills of your Druggist, they will be sent by mail, *post paid*, secure from observation, on receipt of money, by

FRENCH SELF FASTENING BUTTONS

(ENGEMMEN'S PATENT.)

PUT ON AND TAKEN OFF in a MOMENT by any one, without sewing, eyelet, screw, rivet, or cut in the cloth. First premium awarded by American Institute in September, 1865. They can be changed from one garment to another in an instant, and as they never rail off nor tear the cloth, they are the only reliable BUTTONS FOR MEN'S AND BOYS' CLOTHING; the most convenient BUTTONS FOR LADIES, as by their use the appearance of the garment can be altered to suit the taste or occasion. For the ARMY AND NAVY they are invaluable, as they can in an instant be exchanged for a new set removed for cleaning, or changed for plain covered buttons when desired. They have been adopted by tailors and clothiers, and those who have used them will have no other. In order to let the public at once see the great advantages of these goods we offer to send by return mail, postage prepaid, on receipt of price, one set SLEEVE BUTTONS, Ladies' or Gents' Plain, 40c; Fancy, 50c per set. 1 doz. Suspender Buttons, 40c; or one ASSORTED BOOK containing 1 doz. each, for coats, vests, pants, and overcoats at $1.75 per box. A full descriptive list, from which any style of button can be ordered, will be sent by mail on application. Call or address W. B. WATKINS, Sole Agent, No. 416 Broadway, corner Canal st., New York. P. O. Box 6868. Please state where you saw the advertisement. Show this to your friends.

CHEROKEE PILLS,

Or Female Regulator,

Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-Headache, Giddiness*, and all diseases that spring from irregularity, by removing the cause and all the effects that arise from it. They are perfectly safe in all cases, *except when forbidden by directions*, and are easy to administer, as they are nicely *sugar coated*. They should be in the hands of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints and prepare Medicines suitable for all diseases to which they are subject. Thirty-two page pamphlet, in a sealed envelope, free.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of charge, on receipt of an ordinary letter, free from observation, by addressing the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

N. B.—Cherokee Pills No. 2 are prepared for *special cases*, when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S

REJUVENATING ELIXIR,

Or, Essence of Life,

Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course the veins, restoring the *Organs of Generation, removing Impotency and Debility, restoring Manliness to the system and full vigor*, thus proving a *overcome disease.* perfect *"Elixir of Love,"* removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

Price, one bottle $2; three bottles $5; sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

THE GOVERNORS OF CUBA.—A Havana correspondent gives some interesting items of the way the governors of Cuba make money. Gen. Dulce, when he left recently, had made a fortune of upward a million. On his departure he was presented with $25,000 in cash. Concha is said to have carried away $3,000,000. Serrano, who was almost a bankrupt, but a favorite of the Queen, was appointed Captain General with the sole object of recuperating his fortunes. Besides an annual salary twice that of our President, the pickings are immense. A state carriage and four horses are furnished at the public expense, and each Captain General has three palaces to live in, and the authority which he exercises is almost unlimited.

— It is reported that a marked change in the Horse Shoe Falls at Niagara has occurred within a few days. Large portions of rock have given way in the centre of the shoe, giving the fall now more of a triangular appearance, which is said to add to its beauty. It has been demonstrated that the Falls recede ten or twelve inches a year.

— Eight hundred pounds weight is the fashionable quota of baggage at Newport. Anything under that is second class.

— In the midst of a stormy discussion a weakling majestically began—"Gentlemen, all I want is common sense." "Exactly," Jerrold interrupted; "that is precisely what you do want!" The discussion was lost in a burst of laughter.

— A clergyman of Brooklyn, in repeating a discourse, contrary to his usual custom recently, apologized by saying that "a majority of the congregation, being in delicate health," were detained by unfavor ble weather on the occasion of its first delivery.

— Thackeray's nose was almost a broken-bridge. Jerrold being told that the wit's religious opinions were unsettled, and that a lady of his acquaintance was doing her best to convert him to Romanism, exclaimed, "To Romanism? Let us hope she'll begin with his nose."

— The "Red Man's" eloquence: — "Brother, my shirt, you see, is in rags. When I return to my tribe, and say to them, 'I have been among friends,' they will not believe me, if I return in this ragged shirt. My wife and daughter will ask, 'Where is the calico your friends gave you?' Brother, what shall I say about that when I return to my people?"

Portsmouth N. H.

FRIDAY, JULY 13, 1866.

☞ A Washington item says, the amount expended by the National Government for public buildings since 1860 was $28,464,000. The sum of $1,358,864 was spent for the Capitol extension, $458,459 for the new dome. The amount expended in Maine was $1,716,441, New Hampshire $1,207,683, Vermont $15,765, Connecticut $14,778, Massachusetts $2,569,816, Rhode Island $106,864, New York $3,178,738. The expense in New Hampshire we suppose must include Fort Constitution.

Since writing the above, we observe, by the Washington correspondence of the Boston Advertiser, that the above figures show the expenditures by the government in the New England States, from July 1, 1860, to June 1, 1865, for Navy Yards, Custom Houses, Court Houses and other public buildings, for the improvement of rivers and harbors, and for the construction of forts, arsenals and armories,—and he copies from the Treasury Report, the following items of expenditure for New Hampshire.

Custom House, Portsmouth	$5,779 02
Light-house, Whale's Back	1,000 00
Navy Yard, Portsmouth	651,584 66
Marine Barracks	22,000 00
Fort Constitution	131,000 00
Fort McClary	100,000 00
Temporary works in Portsmouth harbor	295,600 00
Total	$1,207,683 68

A clamor has been raised sometimes, when *Portsmouth* Navy Yard has been mentioned, and *Kittery* has been suggested. Very well: the Yard is undoubtedly in Maine, although the island it stands on is in Portsmouth harbor, and so either name is well enough. Now, when appropriations are set forth by States, the $658,000 on the Navy Yard, the $22,000 on the Marine Barracks, and the almost $300,000 on temporary works, together almost a Million! are set down to New Hampshire! No great matter, to be sure. But by what kind of *hocus pocus* Fort McClary, or Kittery Point, gets into New Hampshire, we do not see.

OPINIONS OF THE PRESS.—The opinions of the press on the proposed Randall-Niblack Convention at Philadelphia, are collated and presented in the N. Y. Tribune of Monday, June 9, which has extracts from 107 papers, North, South, Middle and West. Those of the journals which wished success to the rebellion very generally favor it; the other sort quite as generally condemn it. Beside the N. Y. Times and the Buffalo Commercial (says the Tribune) "we have no journal in our State which supported Lincoln and Hamlin in 1860 or Lincoln and Johnson 1864, now favor the Randall Convention. Of the thousand and more journals which supported Lincoln's re-election, not more than ten favor this bolt; while the implacably rebel press almost unanimously commend it. This suffices to show that the Bolters' Convention will neither reorganize nor disorganize the Union party."

It seems to be rather a *reconstruction* of the Democratic Party, with a *new name*, "National Union"—and some new recruits, rather in the line of officers than soldiers. Some old line democrats may be loth to lose their favorite name—but they must stand back, and let the Seward and Doolittle policy have full swing.

☞ News from Europe, is *via* London, June 29, the war news is conflicting, both sides claiming to have had the advantage in the encounter on the 27th inst. at Skalicz. No engagement is reported to have taken place since.

Earl Derby is endeavoring to form a coalition Ministry, including whigs and some of the late government.

A proclamation of neutrality in Continental affairs has been published.

There are indications that the strike of the seamen in the port of London is about to cease.

☞ European advices, via Queenstown, July 1, say that the Hanoverian Army had surrendered to the Prussians, and the men were dismissed to go to their homes; that the Italian plans were changed somewhat; that France is about to intervene; that Lord Derby in England had been compelled to form a tory ministry; and American 5-20s had slightly advanced.

☞ From the L. Scott Publishing Co., of New York, we have their reprint of Blackwood's Magazine for June. Contents: Ginevra da Siena, Sir Brooke Fossbrooke, Life of Steele, Memoirs of Confederate War, A Man's a Man for a' That, The Permissive Bill, The Political Crisis.

☞ President Johnson's request that his Cabinet indorse the call for the Philadelphia Convention, is not acceptable to some of them, and we have the report that Post Master Dennison has resigned.

☞ The report of P. M. G. Dennison's resignation is confirmed,—and it is probable Secretary Harlan will also resign.

— John Sawyer of Monmouth, Me., lost six oxen, valued at $750, Sunday afternoon, by lightning. They were grazing in a pasture.

—— Prof. Charles G. Burnham of Haverhill, Mass., formerly a well known teacher at Pembroke, N. H., and other places, died in Montgomery, Ala., June 29, after a short illness of chills and fever, at the age of sixty-two years. He was the author of "Burnham's School Arithmetic."

—— Charles L. Flint, Esq., Secretary of the Massachusetts Board of Agriculture, has received and accepted an invitation to deliver the annual address before the Merrimack County Agricultural Society, at its approaching exhibition to be held in Concord on the 25th, 26th and 27th of September. Col. Charles H. Clough of Concord has been appointed Chief Marshal for this Fair.

—— The dwelling house and outbuildings of Mr. Asa R. Baker, near the Upper Factory, Dover, were destroyed by fire on Tuesday forenoon, July 10. The furniture of the house, and contents of the barn, were mostly saved. The Fire Department could render but little assistance in extinguishing the fire from the scarcity of water. There was an insurance of $2500, on the property.

—— On Wednesday morning, July 11, the house, barns, &c., of James Dodge, at Pembroke, were destroyed by fire, caused by India crackers. A few days before, a house and two barns, near Haverhill, Mass., were destroyed by fire kindled by an India cracker, thrown by a little girl, who had been told not to burn it in the barn. She obeyed, and threw it the other way, but the wind took it into the building, with the above result.

APPOINTMENTS.—Governor Smyth and Executive Council of New Hampshire have appointed Rev. N. Bouton, D.D., to collate and prepare for publication the Colonial Records of this State; Hon. Orrin Perkins of Winchester, to report upon the subject of a State Normal School; Hon. Chas. A. Tufts of Dover, to be a Trustee of the Asylum for the Insane; Col. David A. Warde, Hon. Moses Humphrey, Joseph B. Walker, Esq., Nathaniel White, Esq., and Hon. N. G. Upham, a Committee to put the capitol grounds in order.

FIRE CRACKERS, AGAIN.—Prohibit their use, and the whole gunpowder nonsense of the 4th,—or keep on having cracker fires! Which do you choose?—The Gloucester Telegraph says:

A gentleman was absent from town on the 4th, and and reccollecting that a pile of shavings had been put out in front of a carpenter's shop which stood near to his own place of business, began to grow a little nervous about it, fearing that some thoughtless child might fire a cracker among these shavings. He came home in the last train, and proceded immediately to his place of business. Just as he turned into the street a young lad lit a cracker and throwing it up it fell among the shavings and exploded. With the assistance of one or two who happened to be near, the gentleman succeded in preventing the shavings from being burnt, and thus saved our town from what might have proved a serious disaster, with the wind blowing as it did.—Persons cannot be too careful in the use of fire; and it is a matter of surprise that there were not more conflagrations on the recent 4th, when we consider the high wind which prevailed in the afternoon, and the careless use of crackers and serpents by children of larger as well as smaller growth.

☞ The Massachusetts Legislature, at its last session, passed a law allowing all persons charged with crime of any kind to give in their own testimony at their trial, and the law has just gone into effect. It is said, a similar law has been adoped in Maine with good results. The testimony of the alleged criminal is submitted to the jury and court, and they give it whatever weight they think it worth.

☞ Via Havana, we have accounts of some Imperial successes in Mexico. But *via* San Francisco, a letter from President Juarez to Consul Godey confirms the statement that the Liberal Government is about to be re-established at Chihuahua, and adds that no French or traitor forces are nearer there than Durango, and no apprehension is felt of the return of the Imperialists.

☞ The Right Way urges the two Houses of Congress to make provision, before adjourning, for being called together by a Joint Committee, if necessary, at any time during the recess,—and at any proper place at the discretion of said committee:—and suggests, that treachery in high places may show this to be only a needful precaution.

BUTTER.—The St. Albans (Vt.) Messenger of July 10 says: "The ruling price of butter in this market to-day was the same as on Tuesday last—40 cents per pound.—As was the case last week, some got a little more, and some sold for less. The prices are very high for this season of the year.

THE EDUCATED PARROT.—Of a breezy afternoon, when we had been disappointed in the balloon ascension,—to compensate the children, we took them down the river. The breeze still seemed as unwilling that our boat should *go down*, as that the balloon should *go up*. So we were obliged to compromise, and made a landing upon Seavey's Island, to the great delight of the children, who roamed at will, gathering the wild flowers and snuffing the air loaded with the perfume of new mown hay. Wandering in the direction of the forsaken Fort Sullivan, we ascended its steep sides, and came to a small tenement, formerly the barracks for freedmen, now occupied by a family of four, viz., a Scotchman and his wife, a dog, and last though not least, an enormous parrot, whose tin apartment hung outside the open cottage door. The size and brilliant plumage of the bird at once attracted the attention of the little ones in our company, and from the eager glance of his bright intelligent eye, the parrot made manifest his delight to hear their prattling,—but their reservoir of mirth burst forth when suddenly, on the appearance of the mistress—who called herself "his dear own mother"—he commenced in a clear and musical voice singing, "Glory to God," "Glory Hallelujah." We were somewhat astonished, and much interested; and as soon as we could gain a hearing through the shouts of the delighted group around us, we made some inquiries of the mistress and owner of the bird, as to its history, education and accomplishments—a theme on which she was as ready to talk, as the fondest mother of her only darling. She informed us that his vocabulary was really very extensive in quantity, although not always so select in the quality as the words of his song indicated,—showing that he had, like most children, been subjected to various grades of association; and his notions of good and bad were *by no means* as clear as his enunciation. Through some of the influences which had fallen to his lot, he had imbibed the vulgar habit of an occasional oath, which, whilst it gave pungency to his remarks, by no means accorded with the high religious character of his songs. His mistress informed us that the officer who has charge of the fort and the implements of war remaining there, recently made them a visit of inspection, and remarking at the door of the cottage the object of his visit, says Poll: "Oh, that's played out!" "You're a liar, and you know it!" "Clear out! clear out!" It was with difficulty that we prevailed on the children to leave the fascinations of his varied conversational powers; but finally he bid us a hearty "good-bye," adding his Glory Hallelujah to end it off,—and we felt that the parrot had fully compensated the failure of the parachute.

A SCREW LOOSE SOMEWHERE.—A letter containing a check on Boston was sent through our post-office to New York, dated May 17th. It has not yet reached its destination; and by inquiry at our Banks we were surprised to find that it is no uncommon thing to have money and letters abstracted from the offices somewhere on this route. A bad state of things, if a letter with money cannot be sent safely through our post-offices. C.

IN THE U. S. SENATE, July 11, the bill to regulate the time and manner of elections for Senators in Congress was considered.

Mr. Fessenden moved to strike out the provision for *viva voce vote* in the election of Senators. Disagreed to. The bill passed—yeas 25, nays 11.

The bill reannexing Alexandria to Virginia was debated and lost—13 against 17.

A Conference Committee was appointed on the diplomatic appropriation bill.

In the House, Mr. Alley, from the Post Office Committee, reported back the Senate Telegraph bill. After considerable discussion it was passed—yeas 72, nays 61.

The joint resolution recommending the organization and instruction of the militia by the several States, and providing for the distribution of ordnance and ordnance stores was passed.

— The proof of the pudding is not in chewing the string, but in eating and testing. The same rule will apply to the J. Monroe Taylor Gold Medal Soap. Our better half says it has no equal, and will do much better work and go much further, besides leaving clothes in a much better state after washing. We do not hesitate to pronounce it far superior to any soap in the market. Go get a bar and try it—most all the merchants sell it. 3

Holloway's Pills and Ointment.—Palpitation of the heart is frequently caused by indigestion or relaxed state of the nervous system. A course of a few weeks of these invaluable medicines will diminish the irregular throbbing, and removing the source, restore its natural pulsation. To assist the functions, not to force them, is the true secret of success. Holloway's medicines and treatment are based on the simple laws of nature—by annihilating the cause the effect disappears. Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION. Sold by all Druggists in Portsmouth and elsewhere. 1ysndaw—oct19

PERRY DAVIS' PAIN KILLER,

As an internal remedy, has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, Dysentery, and Asthma, it cures in one night, by taking it internally, and bathing with it freely. In short, it is a Pain Killer.

PERRY DAVIS' PAIN KILLER.—This medicine has become an article of commerce, a thing no medicine ever became before. Pain Killer is as much an item in every bale of goods sent to country merchants as tea, coffee, or sugar. This speaks volumes in its favor.—GLENS FALLS MESSENGER. Jy1—dawlm

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS.

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines," and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of these foreign impositions—the refuse of foreign factories—which were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for *less money* than foreign watches, but we do assert without fear of contradiction that for the *same money* our product is incomparably superior. All our watches, of whatever grade, are fully warranted and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

PURIFY THE BLOOD.—If the blood be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as if

☞ At a meeting of the Mayor and the Board of Aldermen, on Thursday evening, the following communication was received from Marshal Kent:

CITY MARSHAL'S OFFICE,
PORTSMOUTH, N. H., July 12, 1866.

To the Hon. Mayor and Board of Aldermen:

GENTLEMEN:—It has been the pleasure of the Solicitor of the U. S. Treasury to appoint me to a position in his Department, and my exclusive time and attention will be necessary to the proper discharge of the duties thereof, therefore I very respectfully resign the office of City Marshal—which I hold by your appointment—to take effect from date. Thanking you, gentlemen, for the many acts of kindness shown me while an officer of the City, and hoping that the same good feeling which I trust now exists between myself and your Hon. Body may continue, I have the honor to remain, very respectfully, your obedient servant,

J. HORACE KENT.

Assistant Marshal Frank B. Johnson was elected City Marshal, with but one dissenting vote.

☞ It will be seen that Marshal Kent has resigned his position under our municipal government, in consequence of an appointment in the service of the U. S. Treasury Department. Mr. Kent has proved himself an efficient and valuable officer, reflecting credit upon the city as well as himself by the energy with which he has performed his duty as Chief of Police, and we wish him success in his future field of operations.

☞ The City Marshalship being vacant by the resignation of J. Horace Kent, Esq., the Mayor and Board of Aldermen have appointed Frank B. Johnson to fill the vacancy. Mr. Johnson has been thoroughly tried as an Assistant Marshal, and from his past experience and skill as a detective, will doubtless win new honors in the field to which he is called.

RAILROAD MEETINGS.—At the annual meeting of the stockholders in the Eastern Railroad of New Hampshire, held in this city on Tuesday, the Board of last year were reelected directors, viz: Benj. T. Reed, Geo. M. Browne, Robt. W. Hooper, W. H. Y. Hackett, and Wm. M. Shackford.

At the meeting of the stockholders of the Portsmouth, Great Falls and Conway Railroad, on the same day, Messrs. Geo. M Browne, Nathaniel Hooper of Boston, Ichabod Goodwin, and W. H. Y. Hackett of Portsmouth, and George W. Burleigh of Great Falls were elected directors. The recent acts of the Legislatures of Maine and New Hampshire in relation to the corporation were accepted by the stockholders, and the directors were empowered to take measures to construct the road in accordance with the terms of its charter. The Legislature of New Hampshire has recently given this road authority to increase its capital stock to a million and a half dollars, and to extend its track to the Atlantic and St. Lawrence Railroad in Gorham, N. H. The directors have elected the officers of last year, viz: G. M. Browne of Boston, Pres. John B. Parker, Salem, Treasurer, and W. H. Hackett of Portsmouth, Clerk.

☞ That Balloon, which has twice been prevented from going up, by fear of striking the church or tall trees near—*didn't* go off, for the third time, on Thursday morning, on account of non preparation of the proper quality of gas—a poorer, lighter article—as the Gas Co. Supt. did not in season know of the desire to go up at that time.

☞ Owing to absence of the record book from the Customhouse, we have been without ship news for some days.

☞ A young lady was much bruised by being thrown from a buggy on Thursday morning, on Congress street, caused by the horse taking fright and running against a a post. We are informed that her name was Miss Bella Moran.

STRIKE.—Labor being plenty, the laborers in Portland have struck for higher wages. Most of the strikers have been receiving daily supplies from the city, but these have been ordered to be cut off.

— Upon a beam of one of the houses recently pulled down near Notre Dame, Paris, the following inscription was found cut in the wood: "I was placed here in the year 1450, and was 6000 years old when they took me from the forest."

— Thurlow Weed is represented as recently saying that he was in favor of removing all Federal officers who did not support the President's policy and putting administration men in their places, and that it was the intention to secure the election of administration men in the place of the present radical members of Congress.

— A fortnight ago there was a freshet in the Cuyahoga river, Ohio, which flows into Lake Erie at Cleveland. A great crowd of people stood on the wharves of the town, watching the masses of debris swept down by the turbulent waters, and the Cleveland Plaindealer says a floating cradle was soon discovered. After some exertions it was drawn to the shore, and found to contain an infant, fast asleep and happily unconscious of the perils that surrounded it. Where the child came from, or who its parents may be, are unknown.

— Senator Jim Lane of Kansas, died on the 11th of July.

— Perhaps the most remarkable wedding anniversary on record has just been celebrated at Olmutz, Bavaria. A landed proprietor of that place gave a *fete* in honor of his golden wedding, and and the united ages of husband and wife amounted to two hundred years. He was one hundred and three and she ninety-seven, and they were married in 1791.

— The office of the Boonsboro' (Md.) Odd Fellow, a strong Union paper, was attacked Thursday night by a party of men led by one whom that journal stigmatizes as a rebel. A good deal of damage was done. The editor invites his assailants to another attack, promising them a warm reception.

— A few evenings ago the train bearing Gen. Grant stopped at Mattoon. A lawyer of that place took Gen. Grant for a brakeman, and asked him to step aside so he could pass in and see the General. This the brakeman politely did, when a staff officer pointed out the man on the platform as Gen. Grant.

Elegant Residence for Sale.

[On account of removal of owner.]

The well known and beautifully situated CUTTS' HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.

The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure seeking, render it one of the most desirable estates in the market.

The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The house is fitted throughout with Straw Matting.

The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.

If desirable, more land, adjoining, could doubtless be purchased.

The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

CARLYLE'S WIFE.—Thomas Carlyle has composed the following inscription to be placed on a tombstone over the grave of his wife: "Here likewise now rests Jane Welsh Carlyle, spouse of Thomas Carlyle, Chelsea, London. She was born at Haddington 14th July, 1801; only child of the above John Welsh and of Grace Welsh, Caplegill, Dumfriesshire, his wife. In her bright existence she had more sorrows than are common, but also a soft invincibility, a clearness of discernment, and a noble loyalty of heart which are rare. For forty years she was the true and loving helpmate of her husband, and by act and word unweariedly forwarded him as none else could in all of worthy that he did or attempted. She died at London, 21st April, 1866, suddenly snatched away from him, and the light of his life is as if gone out."

☞ The La Crosse Democrat, one of the leading papers of the Democratic party in Wisconsin, illustrates its principles by the following attack on Gen. Grant:

Ah, but old dog of Galena, your teeth are gone, and as the age of miracles has passed away, you are not likely to grow a new set right away. What an aspiration for a man by whose orders the torch swept the fair land and beautiful Shenandoah! Nero fiddling, dancing and reveling over the wreck of Rome burning, did not ask another Rome to satiate his passions; but General Grant, who planned deeds and caused, by his agents, horrors at which the civilized world stood aghast, is dissatisfied because the war did not last a year longer, that he might have used the persuasive agencies of the torch, rope, pillage and murder upon portions of the South still unvisited.

These people don't choose to honor Gen. Grant,—but rather Jeff. D. and Vallandigham, McClellan, Pendleton, Pierce and Buchanan.

— A young lady in England, 18 years of age, saw fit to break off an engagement to marry, when the discarded suitor became angry and threatened to publish the lady's letters. The lady appealed to the Master of the Rolls, and it was decided that the suitor had no right to publish, and an injunction was granted restraining him.

— A house in Cleveland, from which the family had moved on a visit, and which was occupied only at night by a gentleman, was "cleaned out" by robbers a day or two since, who took their booty in broad daylight, and came the second day for what they had at first been unable to carry. The affair was so open and impudent that though many persons saw the operation no one thought of interfering.

CHOLERA
DISARMED!!!

The Chief Causes of Pestilence Destroyed.

DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 283, 309, and 303 Henry street, N. Y.—Office, 42 Cedar street.

This Company organized on a permanent basis, with Courraret, the celebrated Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter-houses, offal and fat-boiling establishments; all kinds of manures (immensely increasing the value of the latter), and wherever poisonous and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words. They remove noxious gases and odors by chemical principles—leaving no "their place scented air; they are DESTROYERS, and not merely absorbents of poisonous gases—they are as injurious to stenchs in which they are used. The testimonials of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office.

DELAVAN HOUSE, Albany, March 30, 1866.
To the President of the New York Disinfecting Co.:
Dear Sir: It is all it is represented to be. We have made many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors. T. ROBERTS & CO.

The Use of this Column

Has been bought and paid for for three months, by

C. A. RICHARDS & CO.,

99 Washington Street, - - Boston,

the largest Wine Merchants in New England. Their object for this outlay is to

TELL THE PEOPLE

that they have the most extensive variety of

PURE WINES AND SPIRITS

of all kinds, which they sell in any required quantity, and warrant them to be just as represented,—and also to *arouse public attention to the fact* that the three great leading articles in their business are these,—

EXTRACT OF RYE,
DUNSTER'S LONDON CORDIAL GIN,
GOLDEN SHEAF WHISKEY.

EXTRACT OF RYE;

WHAT IS IT?

Ask the thousands who are using it. Make the enquiry anywhere from one end of this glorious country to the other. Some people call it

The Very Best
OLD RYE BEVERAGE
THEY EVER TASTED.

Perhaps they are right. Try it and see.

IT IS MADE FROM

RYE,

AND NOTHING ELSE,

and from the best Rye at that.
None of your musty, mouldy, bested stuff, but the

Very Best of Rye

that grows in the Cumberland Valley.

It is enough to do a man's soul good to taste it, and see how different it is from the strong, fiery stuff that people use for Rye Whiskey.

It is Made Different.

It retains, by a peculiar mode of distillation, the very

MEDICINAL QUALITIES

that have made it so popular. If you want to use

A Pure, Genuine Article of Spirit,

to stimulate a Weak stomach, or to give you renewed health and long life, use the

EXTRACT OF RYE.

It is put up in large square bottles, which contain the name of

C. A. RICHARDS & CO.,
99 Washington Street, Boston,

blown in the glass. It is the General Agent, yet you can find it all over the country at the principal Drug and Grocery stores.

DUNSTER'S
London Cordial Gin.

THE
GREAT DIURETIC REMEDY
OF THE AGE,
An Effective Medicine
AND
A PLEASANT BEVERAGE.

Celebrated in England for half a century,—spreading its popularity all over America.

DISTILLED FROM
Malted Grain and Juniper Berries.
FLAVORED WITH
Aromatic Seeds and Perfumed Flowers.

Health giving and pungent with its delicious cordial flavor.

IT ACTS DIRECTLY ON THE KIDNEYS,
Removing disorder and imparting
HEALTH AND VIGOR.

EXCELLENT AS A
Household Medicine.

Aged people, or those with weak constitutions find it a blessing.

Put up full strength, in all its natural purity, in large square bottles, with the name of

J. & R. DUNSTER,
LONDON,
BLOWN IN THE GLASS.
PRINCIPAL DEPOT AT
C. A. RICHARDS & CO.'S,
No. 99 Washington Street, Boston,

To be found in most all Drug and Grocery Stores, all over America.

THE KING
OF ALL THE BOURBONS!

The Venerable Rich Old Potentate, Crowned with a Golden Sheaf of

Wheat!

Banishing and driving away all the worthless deceptions which have stolen his name, and ruling alone, the

Purest, Oldest, Mildest,
—and—
BEST BOURBON

That ever could date back to a Grain-field.

Go where you will, in any city, town or village, and you will find somebody that has got a little of the

GOLDEN SHEAF WHISKEY,

that they keep for the stomach's sake, and the reason is because it is

PURE AND GOOD.

It is not sold everywhere where spirits are retailed, but openly and fairly by the most respectable

Druggists, Town Agents and Grocers,
ALL OVER THE COUNTRY.

It is put up in large bottles, and its

PURITY IS GUARANTEED

By the Sole Proprietors and their Agents everywhere.

C. A. RICHARDS & CO.,
99 WASHINGTON ST., - - - BOSTON

Now go and ask your grocer or apothecary for a bottle of any one of these three articles, if you conclude to try them; and if he has not got it, tell him he is behind the times, for it is sold by all grocers and druggists who do not care so much for working off goods of their own getting up, as they do to give their customers what they call for and want.

THE
NEW YORK CIRCUS,

Nos 86, 88, 90, 92 and 94 Fourteenth St., opposite Academy of Music, New York.
L. B. LENT - - - Director.

IN PORTSMOUTH,
THURSDAY, JULY 19th, 1866,

Afternoon and Evening.

On Middle Street, opposite Anthony St.

MR. JAMES ROBINSON,

The Bold and Intrepid Horseman, whose wonderful and startling Bare Back Riding has created the most profound sensation throughout the civilized world. He will at each entertainment introduce in a series of CLASSIC LIVING PICTURES, his infant son, Master Clarence, (only five years of age). The Youngest, Smallest and Prettiest Rider in the world, who largely inherits the wonderful boldness and extraordinary nerve of his father.

Another chief attraction of the NEW YORK CIRCUS is the specially gifted Artiste,

M'lle Carlotta De Berg,

The most Dashing and Daring Equestrienne the World has ever produced, from the CIRQUE NAPOLEON, PARIS. The exquisite grace and peerless skill of M'LLE DE BERG, combined with an irresistible *abandon* and a fearless *dash*, incomparably surpasses every species of Female Equestrianism hitherto seen on this Continent. This lady made her debut in New York, April 23, 1866, and achieved a success unprecedentedly brilliant.

Her fearless and style fairly electrified the amusement world of New York. Possessing superior artistic genius, allied to rare personal fascination, M'LLE DE BERG will not permit the possibility of rivalry in her peculiar and elegant School of Equitation, which she surrounds with an affluence of Beauties, and embellishes with a halo of Radiance, captivating by their perfection and dazzling by their splendors.

Our space will only permit the names of the other leading performers, who are unequalled for their special talents, among the most widely famed, are:

Mr. James E. Cooke, Mr. Charles E. Madigan, Mr. Wm. Ducrow, the Levantine Brothers, Mr. J. Messenger, Mr. S. Stickney, Mr. Francisco Lee, Mr. James H. Madigan, Mr. W. A. Donovan, M'lle Josephine Leltoux, Mr. Robert Forrest, Sig. Joe Monteverde, the Motley Brothers, Mr. J. S. Strickland.

Four Great Clowns,

Mr. Joe Pentland, the People's Clown; Mons. Francois Lonzet, the French Grotesque; Mr. E. Cronette, the Shakespearean Orator; Mr W Donovan, Funny Philosopher.

The Leaping Buffaloes

From the Prairies of the Far West, are not the least of our attractions.

The Stud of Horses and Ponies comprises the

Finest Specimens of Horseflesh

ever collected together on either Continent.

Everything is New. New Waterproof Pavilion. New Carriages. New Harness. New Scenery. New Wardrobe. New Properties, and New Ideas without number.

The GRAND CORTEGE will be headed by the New and Beautiful BAND CHARIOT, containing PROF. CHAS. BOSWOLD'S Full Opera Band, from New York.

The New Waterproof Pavilion will be

BRILLIANTLY LIGHTED

With Reichmann's New Patent Chandelier.

Notwithstanding the inexhaustible expense attendant upon the enormous combination of Novelties, the

PRICE OF ADMISSION

Will be only.....50 Cents.
Children, under 10 years of age,.....25 Cents.
To all parts of the Mammoth Pavilion.
NO STANDING ROOM. SEATS FOR ALL.
AFTERNOON AND EVENING.
Doors open at 2 and 7½ o'clock. Commence at 2½ and 8 P. M.

(GENGEMBRE'S PATENT.)

PUT ON AND TAKEN OFF in a MOMENT by any one, without sewing, scissors, needle, pin, rivet, or cut in the cloth. First premium awarded by American Institute in Sep. tember, 1865. They can be changed from one garment to another in an instant, and as they never pull off nor tear the cloth, they are the only reliable BUTTONS FOR MEN'S AND BOYS' CLOTHING; the most convenient BUTTONS FOR LADIES, as by their use the appearance of the garment can be altered to suit the taste or occasion. For the ARMY AND NAVY they are invaluable, as they can in an instant be exchanged for a new set removed for cleaning, or changed for plain covered buttons when desired. They have been adopted by tailors and clothiers, and those who have used them will have no other. In order to let the public at once see the great advantages of these goods we offer to send by return mail, postage prepaid, on receipt of price, one set SLEEVE BUTTONS, Ladies' or Gents'. Ulster, 40c; Fancy, 50c per set; 1 doz. Suspender Buttons, 40c; or one ASSORTED BOOK containing 1 doz. each, for coats, vests, pants, and overcoats at $1.75 per box. A full descriptive list, from which any style of Button can be ordered, will be sent by mail on application. Call or address W. B. WATKINS, Sole Agent, No. 426 Broadway, corner Canal st., New York. P. O Box 6268. Please state where you saw the advertisement. Show this to your friends.

Six sizes. A perfect trap; springs open in the fish's mouth; best ever offered; everybody wants them. Agents wanted.—a clergyman or agent in every town to sell them. Send 30 cents and stamp for two hooks and trade prices, or $1.25 for 1 doz., to Joseph Briggs, 335 Broadway, (Room 35.) New York, who is also agent for the *New Patent Animal Fetters*, for horses, mules, and cattle; just what every farmer needs; light, strong and durable. Price $3 each; $18 per doz.

CHEROKEE PILLS,

Or Female Regulator,

Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-Headache, Giddiness*, and all diseases that spring from irregularity, by removing the cause and not the effects that arise from it. They are perfectly safe in all cases, *except when forbidden by directions*, and are easy to administer, as they are nicely *sugar coated*. They should be in the hands of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a wrapper, free.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

N. B.—Cherokee Pills No. 2 are prepared for *special cases*, when milder medicines fail; these are sent by mail, free of postage, on receipt of $3, *the price of each box.*

DR. WRIGHT'S
REJUVENATING ELIXIR,

Or, Essence of Life,

Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course the veins, restoring the *Organs of Generation, removing Impotency and this Elixir refutes Debility, restoring Manliness ate the system, and full vigor*, thus proving a *overwise discoverer*, perfect *"Elixir of Love,"* removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

Price, one bottle $2; three bottles $5; sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

☞ The Sheffield (England) Independent relates a case of canine fidelity, from which it appears that even bull-dogs, trained to fight, have tender hearts:—"The well known champion bull dog 'King Dick' has paid the debt of nature under rather peculiar and interesting circumstances. On Easter Tuesday, Mr. Lamphier, of Handsworth, the owner of the dog, died. After that event, Dick exhibited the most profound grief for the loss of his master. He would not rest any where except on the chair upon which his master used to sit, and whenever he could get into the room in which he died he gave expression to his feelings in the most vehement howlings, broken by low growls and other vocal signs of sorrow. He refused his food, and on Sunday last he followed his much-loved master. The faithful animal may be said to have died of grief. A rarer instance of canine affection and fidelity has seldom, if ever been recorded."

VIRGINIA COAL MINES.—When the people of Virginia come to find out how much mineral wealth there is in that State, and take measures to have it properly developed, they will have a little better reason for their alleged superiority than when they turned their attention mainly to slave breeding. One of the latest and most important discoveries is a large bed of Bituminous coal on the Appomattox river, and by the establishment of the necessary mining improvements it could be put on board vessels drawing fifteen feet of water at a cost not exceding $2.25 or $3 per ton. The merits of this coal have been tested for twenty years in the manufactories of Lynchburg, Petersburg, Richmond and also those of New York, and although it is not quite as good for gas as the Nova Scotia coal, it answers very well for manufacturing purposes. It New England manufacturers would combine together and purchase these mines they would be able to snap their fingers at Pennsylvania and England, and the high rates which now prevail.

—"The eternal fitness of things was never better illustrated," says the Salt Lake Vedette, "than when we saw the other evening, a retail whiskey saloon established in front of and in the same building with the city calaboose."

CHOLERA
DISARMED!!!
The Chief Causes of Pestilence Destroyed.
DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 296, 298, and 302 Henry street, N. Y.—Office, 42 Cedar street.
This Company organized on a permanent basis, with Contract, the celebrated French Chemist, in charge of its Labor tory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter houses, offal and fat-boiling establishments, all kinds of manures (*immensely* increasing the value of the latter), and wherever poisonous and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words. They remove noxious gases and odors by chemical principles—leaving in their places *healthful air*; they are DESTROYERS, and *not merely absorbents* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office
DELAVAN HOUSE, Albany, March 30, 1866.
To the President of the New York Disinfecting Co.:
Dear Sir: It is all it is represented to be. We have made many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors. T. ROESSEL & CO.

Morning Chronicle.

Portsmouth N. H.

SATURDAY, JULY 14, 1866.

☞ Pres. Johnson has accepted Post Master General Dennison's resignation, which was in writing. The reason, as stated by Dennison himself, is a difference of political views.

It will be recollected that he was President of the Union Republican Convention which nominated Mr. Lincoln,—never intending otherwise than to adhere to the party whose principles it represented; and as the call for a National Convention at Philadelphia is in antagonism to that organization there is no other course left to him but to retire from the Cabinet, while his personal relations with the President are undisturbed and friendly. The separation is entirely because of the conflict of political views, and it is said he will earnestly oppose the new Confederacy of copperheads and Presidents, secretaries and rebels.

— The house and two barns of Capt. N. Sparks of Bowdoinham, Me., were struck by lightning and burned during a thunder shower last week, and two of his daughters were killed.—*Exchange.*

The above item is "*all a mistake;*"—so says Mr. Sparks himself, in a second letter to the Gospel Banner. Such a report, however, was put into circulation (no one seems to know how); and Mr. S. wrote a letter to the Gospel Banner of last week, in which he meant to *contradict* the report; but by the singular blunder of omitting a single word, he confirmed it. Now the second letter shows that his house and barns are all right, and his daughters ditto.

☞ Gen. Grant has issued the following order: Department, district and past commanders in the States lately in rebellion are hereby directed to arrest all persons who have been or may hereafter be charged with the commission of crimes and offenses against officers, agents, citizens and inhabitants of the United States, irrespective of color, *in cases where the civil authorities have failed,* neglected or are unable to arrest and bring such parties to trial, and to detain them in military confinement until such time as the proper judicial tribunal may be ready and willing to try them.

☞ Twenty-seven Republican Representatives voted against the Tariff bill. There were three from Iowa; three from Missouri; nine from Illinois; one from Wisconsin; four from Indiana; two from Minnesota; one from Ohio; two from Maryland, and one from Kentucky. On the other hand, seven Democrats, all Pennsylvanians, voted for it. So the vote was not wholly partisan, but rather sectional or local.

☞ Gen. Sickles, commanding the Department of the Carolinas, having insisted that the district commandants should report directly to him on the Freedmen's Bureau as well as military affairs, General Scott demurred to this supervision and appealed. His appeal has been sustained by Generals Grant and Howard.

☞ A fire broke out at 11 o'clock Thursday night, in the Academy of Music, Cincinnati, caused by the janitor's dropping an oil lamp. The audience had just left. Loss $25,000.—Another fire same night; loss $20,000.

☞ Secretary Wells (of the Navy) has written a letter to Br. Doolittle, by request of the President, endorsing "my policy,"—and rejoicing over the call for the Johnson Convention in Philadelphia.

☞ Rev. Dr. Huntington of Boston has been unanimously elected Bishop of the Episcopal Church in Maine.

☞ The Philadelphia Bulletin's special Washington dispatch says Attorney Gen. Speed has resigned.

GOLD, Friday, 152.

—— Geo. Robinson, the man missing from Manchester, was not drowned, but has turned up at Thetford, Vt. where he belonged, in a deranged condition.

— A Baltimore court has just decided that no title can be legally acquired in property won in a raffle. This is one of the gift enterprise businesses.

— The Indian Council at Fort Laramie has broken up. It was a complete farce, the Indians refusing to make peace unless all the troops and travel are withdrawn from their hunting grounds.

— The Albany Journal says the investigations into the conduct of General Kilpatrick, Minister to Chili, shows that there is no truth in the shameful charges made by the newspapers against him.

— At New York, Fenian Roberts has been indicted by the Grand Jury for violation of the neutrality laws, and gave bail in $5000.

Three more cases of cholera are reported in N. Y. city Thursday, none of which are fatal. Three are also reported in Brooklyn, two of which have proved fatal.

— At Lawrence, Mass., a woman named Rogers is arrested for murdering a child by starvation; and the child's parents are held as accessories.

Local.

☞ We regret to hear that Mr. John C. Philbrick, of Rye Beach, owner and formerly landlord of the Atlantic House there, had several of the fingers of one hand cut off or seriously damaged by a steam circular saw in use at the new house he is building near the old hotel, on Friday morning. In the absence of authentic information, we hope the extent of the injury reported, is exaggerated.

☞ To Messrs. Foster & Burley, of the old High Street Confectionery Establishment, we are indebted for half a dozen of their Champion Pop Beer—a nice article of the sort, and we think it a pretty good sort too. Since it is all gone up, or down, we Chroniclers have found out that the weather is hot.

SMART OLD MAN. — Capt. Thomas Card, living at Dover Point, is now 93 years old. On the 4th inst. he rowed his boat from the Point to Portsmouth, a distance of five or six miles, carrying some potatoes to market; which having disposed of, he attended the celebration, and rowed back in the afternoon.

☞ Squint-oh thinks that all lovers of the beautiful in nature (and art), ought to be satisfied with the legacy (leg-l-see) of a tilting skirt, though it does not afford the swelling lovelorn "calf" much of a chance to *hide.*

☞ The Exhibitions of the Boys' and Girls' High Schools, on Wednesday and Thursday, were largely attended, and as attractive and satisfactory as ever.

THE ALLEGHANIANS.—Every one of our music loving citizens will be pleased to learn that the Alleghanians Vocalists and Swiss Bell Ringers, lately returned from Europe, are to appear at the Temple in this city on Wednesday Evening, July 18th. Mr. Waldron, their Manager, has reduced the price of admission to 35 cents in his *own* town. So every one can go and take their families. Children in arms admitted on the payment of *$5.00* each, in *gold. Mr. W. says* that he had rather the *dear little ones* would not come unless they can read (music.) The Alleghanians will have a full house.

SECOND GRAND EXCURSION TO PORTLAND.—The steamer Pioneer, Capt. Amazeen, will leave Railroad Wharf, Saturday evening, July 14, if fair weather, at 8 o'clock, for an excursion to Portland, to see the ruins of the great fire, returning Sunday afternoon. Number of tickets limited at 150. Tickets for the trip $2.00. For sale at Thacher's and at Steamer Landing.

☞ Rev. Moses How will preach at the Christian Church to-morrow.

☞ The Planters' Banner, published at Franklin, La., says the crops in that region look as well as could be expected. Notwithstanding the bad seed, the planters, by patience and replanting, generally have a good stand of cotton, and the plant in most cases has attained a very good size. In most fields the grass has been conquered, and the planters expected to lay their crops by clear and in good order by the first of July. Quite a number of white men have taken hold of their own plows. They outwork the negroes, and can stand the sun as well as the blackest Africans. In the parish of St. Martin there is considerable white labor employed in agricultural pursuits.—Many farmers follow their own plows and cultivate their own fields. They stand the sun and field labor as well as the negroes, and perform their work usually better and more of it. But some planters who have hired white laborers have not succeeded very well, while others prefer them to any other kind.

CROPS IN TEXAS.—Under date of Galveston, Texas, June 18th, Inspector General Gregory says: "Owing to the heavy rains of April and May and inundations of the cotton lands, a deduction must be made of at least 20 per cent. of the estimated yield of cotton, but in the western portion of the State, where the grazing interests have suffered in past years from drouth, the stock will be materially improved. The cotton crop is large, nearly ripened and in prime order. The wheat crop which has been harvested is abundant and of the best quality. There is enough on hand to feed the entire population for two years.

— One of our exchanges says that the "Royal Society of Grocers in London are in ecstasies because Prince Alfred has accepted a membership. They say he is the first princely member. This is a mistake; the Prince of Wales, who became George IV., was grocer than the whole body of them;" and another adds that Prince Alfred is a little wild as well as young, and his mother was anxious he should join the grocers, under the impression that it would make him gro-cerious.

— On Thursday evening a wood-shed 200 feet long, and containing 600 cords of wood, at North Ashburnham, belonging to the Cheshire Railroad Company, took fire from the sparks of a passing engine, and was entirely consumed.

— The old seventy-four gunship Delaware, one of the vessels sunk at Gosport Navy Yard at the outbreak of the rebellion, has been got afloat. She will be cut up for the purpose of obtaining the immense amount of copper and iron contained in her.

☞ The N. Y. Tribune's Washington correspondent gives the following additional items respecting the proceedings of the Congressional Republican caucus of last Wednesday evening:

"The question of adjournment then came up. Senator Lane of Indiana spoke warmly and excitedly. While he favored an early adjournment, he hoped something would be done to prevent the threatened displacement of Unionoffice-holders, and the substitution of Copperheads in their place. Senators Conness and Wilson also spoke on this subject. The latter said he had tried hard to keep from believing that his worst fears were being realized.

A resolution was offered that no Union member of Congress would countenance the Philadelphia Convention. The yeas and nays were demanded and recorded, and the result was the unanimous passage of the resolution.

It was stated by several getlemen that Mr. Seward had recently expressed the opinion that the President ought to and would call the Southern members and Senators elect together, and recognize them as the Constitutional Congress."

A GREAT FIRE occurred in Philadelphia, Thursday afternoon, commencing on the corner of Orchard and Tacony streets in Briggs' Dye works, which totally consumed, and the Trenton Railroad Bridge, over Frankford Creek, was slightly damaged. The Dye works employed several hundred hands. The fire was incendiary. A man was caught setting fire to another mill in the vicinity.

The loss will reach $2,000,000. The mill was known as the Tacony Print Works—covering 2 1-2 acres and employing 300 persons.

The entire works comprised from 12 to 15 buildings. The main building in which the fire originated was 350 feet long by 50 feet wide. The amount of insurance not yet ascertained.

Two previous attemps had been made to fire this mill. The establishment was the largest south of New England. Among the stock were large quantities *of goods belonging to New York* firms, sent to bo printed, none of which were saved.

THE U. S. SENATE, July 12, referred the House Tariff bill to the Committee on Finance, to report in December, 23 to 17.

In the House the joint resolution authorizing the President of the United States to place at the disposal of the people of Portland, Me., tents, camp and hospital furniture belonging to the United States was agreed to.

— Over $50,000 in gold had been subscribed to the Portland fund in Montreal on the evening of the 10th inst.

— Gen. Francis Fessenden has been assigned as Assistant Commissioner of the Freedmen's Bureau in Maryland, vice Gen. J. H. Stannard, resigned, and confirmed Collector of Burlington, Vt.

PEOPLE WHO HAVE cut their wise teeth use the SOZODONT, and all who do are willing to declare to all who don't use it, that 'tis the most perfect and delightful thing for the teeth they ever dipped a brush into.

— He is the hapiest who does the most to make others happy. The inventor of Herrick Allen's Gold Medal Saleratus must be the happiest man in existence, for we hazard nothing in saying, that the use of the Gold Medal Saleratus cannot fail to make a happy household. Our better half says she does not fear of our ever frowning, as long as she can get the genuing Herrick Allen's. We say success to the inventor, and if everybody knew how good it is, no other would be used. A good many of our Merchants have it.—Their depot is 112 Liberty Street, New York.

PERRY DAVIS' PAIN KILLER,

As an internal remedy, has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, Dysentery, and Asthma, it cures in one night, by taking it internally, and bathing with it freely. It is the best liniment in America. Its action is like magic when externally applied to bad sores, burns, scalds, and sprains. For the sick headache and toothache, don't fail to try it. In short, it is a Pain Killer.

PERRY DAVIS' PAIN KILLER.—This medicine has become an article of commerce, a thing no medicine ever became before. Pain Killer is as much an item in every bale of goods sent to country merchants as tea, coffee, or sugar. This speaks volumes in its favor.—GLOBE PALLS MESSENGER. Jy1—dawlm

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid, superior to and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the relief of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world. for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, our could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

PURIFY THE BLOOD.—If the blood be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as if

Bereft by Lightning,

Now, this can be remedied.

IN BOARD OF ALDERMEN, Thursday evening, a petition of Wm. P. Jones and others, for a law prohibiting the use of fireworks in the compact part of the city, was received and accepted, and it was

Voted, that the City Marshal be directed to strictly enforce Sec. 6 of Ordinance No. 10.

The Bonds of Thos. E. Rand, watchman, constable and police officer, were accepted.

The Com. on City Lands and Buildings reported that alterations of Academy for school purposes would cost $1500. The report was accepted.

A resolution providing for the purchase of the Academy, at a cost not to exceed $7600, was rejected: Ayes—Ald. Foster, Henderson, Martin and Ham, 4; Nays—Ald. Davis, Hodgdon, Wilson, Ayers, and the Mayor, 5.

The resignation of City Marshal, J. Horace Kent, was received and accepted, and Frank B. Johnson was appointed to the vacancy. Adjourned.

MORE SUFFERERS BY FIRE.—The house of Mr. Aurin Otis, on Banfield Road, was consumed by fire, on the afternoon of the 4th of July, together with nearly all the contents,—furniture, bedding, clothing, &c., leaving the family destitute of almost everything save the clothes they wore. Mr. Otis' went home from the celebration, and kindled a fire to get dinner, and no doubt a spark from the low chimney of the L of the house set fire to the building. He had no insurance, though he held a policy in the late Piscataqua Co., having been induced to exchange one in the Exeter Mutual therefor. We understand that Mr. Andrew Gardner, a neighbor of Mr. Otis, is presenting the case to those charitably disposed, as one worthy of sympathy and aid.

Communication.

Messrs. Editors:—I notice the frequent items in the papers concerning the dangers from fire crackers. Would it not be well enough, while preventing the use of crackers, to prohibit throwing large quantities of shavings into the street? I noticed some days since quite a large pile of shavings thrown into Chestnut street, from a new building near the Temple, which remained there several days, until blown away. A dangerous spot, as many of the visitors at the Temple throw their cigar stumps, on entering the building, just at this place. The pile of shavings outside the carpenter's shop at Portland had just as much to do with starting the fire as did the cracker that ignited them. —— SQUIB.

[All true—and anybody who throws any rubbish into street or yard is a sloven; and if the stuff be burnable, he is an enemy to the public safety as well as decency. Yet how many storekeepers there are, who no doubt consider themselves decent men, yet allow their stupid and dirty clerks to sweep piles and piles of litter into the street, to the disgust of their neighbors and the public annoyance. Even some lady shopkeepers allow this. Why?—*Eds. Chron.*]

Communication.

☞ A correspondent of the Chronicle complains that letters with money cannot be sent safely through the Post Office. The Post Office Department have established a money order system which is safety itself, and if persons take the risk of sending money by mail, they must be sure that they have done all that should be done before they complain, Nashby-like, of the "Post Offis." One of the troubles of the present day is that postage stamps are so poorly gummed that they come off from letters before being stamped in the offices. The letter, by a regulation of the Department, goes to the Dead Letter Office, and comes back after a week or so to the sender, who begins to believe that Government envelopes are the kind to use.

95 per cent. of the cases of missing letters are most surely the fault of the persons who direct the letters, rather than of the P. O. Department. Recently a great noise was made about a missing letter containing a check; and all sorts of investigation and detective operations were started, when, after a while, the missing letter was found in a coat of the writer's clerk, that had for some time been laid aside by the wearer.

☞ Mr. Leach of Portland, has taken the old dry goods stand No. 29 Market St., (late Mr. Cobb's music store,) and will occupy to sell off his large stock saved from the Portland fire, while his store is rebuilding. Mr. Leach appears to be a live trader—judging from his advertisement and himself—and the Portland papers speak well of him. The Argus says:

The store of A. Q. Leach, dry goods dealer, on Middle street, is to be rebuilt as soon as possible, and will be made forty feet deeper and improved in many respects. Meanwhile Mr. Leach will engage in the dry goods business in the neighboring city of Portsmouth, and we can assure the people there that he is just the man for them to trade with. Quick turns and small profits are his rules of business.

☞ Although we lose Mr. Kent as an officer, we are pleased to learn that he will still remain one of our citizens, making his home in Portsmouth.

Elegant Residence for Sale.

[On account of removal of owner.]

The well known and beautifully situated CUTIS' HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath-room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.

The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.

The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have elegant marble mantels and grates. In addition to the superior cellar, there is a first class wine cellar. The house is fitted throughout with Straw Matting.

The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.

If desirable, more land, adjoining, could doubtless be purchased.

The grounds comprise about four acres, with terraced lawn, fine old trees and thrifty shrubbery—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

☞ The Southern Unionists, eminent men, have issued a call for a convention of Southern Unionists, to be held at Philadelphia, in Independence Hall, on the 1st Monday of September, 1866. They say:

We demand and ask you to concur in demanding protection to every citizen of the great Republic on the basis of equality before the law, and, further, that no State government should be recognized as legitimate under the Constitution, in so far as it does not by its organic law make impartial protection full and complete.

Under the doctrine of State sovereignty, with rebels in the foreground controlling Southern Legislatures, and embittered by disappointment in their schemes to destroy the Union, there will be no safety for the loyal element of the South. Our reliance for protection is now on Congress and the great Union party that has stood and is standing by the Nationality, by the Constitutional rights of the citizens and by the beneficent principles of free government.

* * * It is proposed that we should meet at that time to recommend measures for the establishment of such government in the South as accords with and protects the rights of all citizens.

— The editor of Peoria National Democrat says he had an interview with President Johnson, and that the call for the Philadelphia Convention has his (Johnson's) "hearty indorsement and thorough approval."

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases attended by a second military habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotins, so celebrated the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all disease incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE
NEW YORK CIRCUS,

Nos 86, 88, 90, 92 and 94 Fourteenth St., opposite Academy of Music, New York.

L. B. LENT - - - Director.

IN PORTSMOUTH,
THURSDAY, JULY 19th, 1866,
Afternoon and Evening.

On Middle Street, opposite Anthony St.

This is an ENTIRELY NEW ESTABLISHMENT, upon which an enormous amount of capital has been lavished with an unsparing hand, to make it what it claims and is acknowledged by all to be, the First Exhibition of the Age. The one that has identified with it the

Champion of the World,

MR. JAMES ROBINSON,

The Bold and Intrepid Horseman, whose wonderful and startling **Bare Back Riding** has created the most profound sensation throughout the civilized world. He will at each entertainment introduce in a series of CLASSIC LIVING TROPHIES, his infant son, **Master Clarence,** aged five years of age, The Youngest, Smallest and Prettiest Rider in the world, who largely inherits the wonderful boldness and extraordinary nerve of his father.

Another chief attraction of the NEW YORK CIRCUS is the specially gifted Artiste,

M'lle Carlotta De Berg,

The most Dashing and Daring Equestrienne the World has ever produced, from the CIRQUE NAPOLEON, PARIS. Her exquisite grace and peerless skill of M'LLE DE BERG, combined with an irresistible *abandon* and a fearless *dash*, incom parably place her in the very species of female Equestrianism hitherto seen on this Continent. This lady made her debut in New York, April 23, 1866, and achieved a success unprecedentedly brilliant.

Her fresh and spirited style fairly electrified the amusement world of New York. Possessing superior artistic genius, allied to rare personal fascination, M'LLE DE BERG will not permit the possibility of rivalry in her peculiar and elegant school of Equitation, which she surrounds with an affluence of Beauties, and embellishes with a halo of Radiance, captivating by their perfection and dazzling by their splendors.

Our space will only permit the names of the other leading performers, who are unequalled for their special talents, among the most widely famed, are:

Mr. James E. Cooke, Mr. Charles E. Madigan, Mr. Wm. Ducrow, the Levantine Brothers, Mr. J. Messenger, Mr. S. Stickney, Mr. Francisco Lee, Mr. James H. Madigan, Mr. W. A. Donovan, M'lle Josephine LeRoux, Mr. Hubert Forrest, Sig. Jose Monteverde, the Motley Brothers, Mr. J. S. Strickland.

Four Great Clowns,

Mr. Joe Pentland, the People's Favorite; Mons. Francois Louizet, the French Grotesque; Mr. E. Cronesis, the Shakespearean Orator; Mr W Donovan, Funny Philosopher.

The Leaping Buffaloes

From the Prairies of the Far West, are not the least of our attractions.

The Stud of Horses and Ponies comprises the **Finest Specimens of Horseflesh** ever collected together on either Continent.

Everything is New. New Waterproof Pavilion. New Carriages. New Harness. New Seats. New Wardrobe. New Properties, and New Ideas without number.

The GRAND CORTEGE will be headed by the New and Beautiful BAND CHARIOT, containing Prof. CHAS ROSWOLD'S Full Opera Band, from New York.

The New Waterproof Pavilion will be **BRILLIANTLY LIGHTED** With Reighmann's New Patent Chandelier.

Notwithstanding the incalculable expense attendant upon the enormous combination of Novelties, the

PRICE OF ADMISSION

Will be only.....50 Cents.
Children, under 10 years of age.....25 Cents.
To all parts of the Mammoth Pavilion.
No STANDING ROOM. SEATS FOR ALL.
AFTERNOON AND EVENING.

FRENCH SELF FASTENING BUTTONS

(ENGEMBER'S PATENT.)

PUT ON AND TAKEN OFF in a MOMENT by any one, without sewing, cutting or tearing, rivet, or cut in the cloth. First premium awarded by American Institute in September, 1865. They are universally preferred to the common button in an instant, and as they never pull off nor tear the cloth, they are the only reliable BUTTONS FOR MENS AND BOYS CLOTHING; the most convenient BUTTONS FOR LADIES, as by their use the appearance of the garment can be altered to suit the taste or occasion. For the ARMY AND NAVY they are invaluable, as they can in an instant be exchanged for a new set, removed for cleaning, or changed for plain covered buttons when desired. They have been adopted by tailors and clothiers, and those who have used them will have no other. In order to let the public at once see the great advantages of these goods we offer to send by return mail, postage paid, on receipt of price, one set SLEEVE BUTTONS, Ladies' or Gents' Plain, 40c; Fancy, 50c per set; 1 doz. Suspender Buttons, 60c; or one ASSORTED BOOK containing 1 doz. each, for coats, vests, pants, and sleeves, at $1.75 per box. A full descriptive list, from which any style of Button can be ordered, will be sent by mail on receipt of Circular. Address W. B. WATKINS, Sole Agent, No. 416 Broadway, corner Canal st., New York. P. O. Box 5583. Please state where you saw the advertisement. Show this to your friends.

BOOK SET — *Patent Snap and Catch-em Fish Hooks.*

Six sizes. A perfect trap; springs open in the fish's mouth; best ever offered; everybody wants them. WANTED—A dealer or agent in every town to sell them. Send 30 cents and stamp for two hooks and trade prices, or $1.25 for 1 doz. to **Joseph Bridge,** 336 Broadway, (Room 35.) New York, who is also agent for the *New Patent Animal Fetters,* for horses, mules, and cattle; just what every farmer needs; light, strong and durable. Price $2 each; $18 per doz.

CHEROKEE PILLS,

Or Female Regulator,

Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Hysterics in Females, Affections, Pains in the Back, Sick-Headache, Giddiness,* and all diseases that spring from irregularity, by removing the cause and all the effects that arise from it. They are perfectly safe in all cases, *except when forbidden by directions,* and are easy to administer, as they are *sugar coated.* They should be in the hands of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints and prepare Medicines suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a sealed envelope, free.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in ordinary letter, free from observation, by addressing the sole proprietor,

Dr. W. R. MEERWIN, 37 Walker St., N. Y.

N. B.—Cherokee Pills No. 2 are prepared for *special cases,* when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S
REJUVENATING ELIXIR,

Or, Essence of Life,

Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores youthful life and vigor to the aged, causing the hot blood of youth to course the veins, restoring the *Organs of Generation, removing Impotency and Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

"As the Phenix rises from the ashes of its fire, animated with new life"—so does this Elixir restore Debility, restoring Manliness to the system and add full vigor, thus proving a *concrete disease.* perfect *"Elixir of Love,"* removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

Price, one bottle $3; three bottles $5; sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

Dr. W. R. MEERWIN, 37 Walker St., N. Y.

THE JOHNSON CONVENTION.—The New York correspondent of the Boston Journal says:

This new candidate for public patronge will not find the road quite as smooth as was anticipated. A third party in this country has never been successful for any length of time. The Democratic party in this city have no idea of abandoning their principles or their organization. They are willing to accept any aid that can be tendered to them. They will accept letters from Mr. Johnson, Mr. Seward or Mr. Welles. They will cheer their sentiments to the echo when they accord with their own. They will go into the proposed Johnson Convention just as far as they can control it or use it, but no farther. On the other hand the Union party are as consolidated as an army corps. The few men who have been disaffected are without a party and without influence. They have not been able to break the ranks of the party nor to rally a corps of the disaffected. And the party will stand shoulder to shoulder in defense of the principles which called the party into being, and so far have given it success. Those who have sought to introduce a new order of things find themselves in mortifying alliance with men who have opposed the Federal arms and Federal success and have given their sympathy to the rebels. Call a meeting in New York to-day to "sustain the President" as it is called, and Tammany Hall will send forth her scores, Mackerelville will turn out its unwashed hundreds, and the bloody Six and kindred localities will be largely represented. Such a constituency has a very dampening effect on a loyal people who have spent treasure and blood in fighting rebels abroad and copperheads at home.

FOWLER TO COME BACK.—The N. Y. Tribune says that Isaac V. Fowler was long a leading Democratic politician in New York City, and for several years its Postmaster. In that position, he ran heavily in debt to the Government, and at last had to run away. His bondsmen were sued; but they beat the Government by proving that its high functionaries who renominated and kept him in office knew he was a defaulter when they signed his bond, which *they* did not. So Mr. Fowler has for years been an involuntary exile, under the ban of the law.

The Government has at length withdrawn the prosecution so as to enable him to come home; when, it is understood, that he will be able to collect from his debtors enough to pay the amount of his defalcation. Against this, a clamor is raised—we must think an unwise one. We never knew Mr. Fowler; but many responsible persons who knew him intimately assure us that he never did nor could mean to defraud his country of a dollar. He was surrounded by vampires who sucked him dry, partly to defray the expense of running the Tammany machine—he all the time expecting and believing that he would be able to make all right by *next* quarter-day. If only to annoy those who ruined him by borrowing and mean never to pay him, we hope he will be allowed to come home and try to settle up. There are culprits on whom the law should bear hardly; but he is of another class.—Give him a chance."

— The Knoxville (Tenn.) Whig says of the Philadelphia Convention: "Let all truly loyal men keep out of that meeting. It is a Rebel-Southern-Democratic-Conservative-Constitutional President-making Conclave, that loyal men, North and South, will keep out of, and stubbornly avoid."

— John Minor Botts, in his Fourth of July oration at Baltimore, made the following shrewd remark: "We are all Johnson men; the difference is that one goes for what Johnson says, and the other for what he does!

MONDAY, JULY 16, 1866.

☞ Mayor Monroe of *New* Orleans, on the Fourth, in introducing the reader of the Declaration of *Independence*, took occasion to say that he *differed* from one expression of opinion in *that* document, to the effect that all *men* were created equal. The nigger *could not* be considered the equal of the *white* man; and as the writer of the Declaration, Mr. Jefferson, was a slave-holder, it stood to reason that he never could have meant to include the nigger in that assertion.

Mayor Monroe seems to be as ignorant of what Jefferson said and wrote, as he is of what reason teaches, or what justice demands. No doubt he *differs* from the Declaration, for he supports "My Policy"! and these two things are directly opposed to each other.

TARIFF.—The postponement of the Tariff Bill by the Senate until December, will, we believe, with few exceptions, meet with the general approval of the mercantile community. As it passed the House it was satisfactory to no section of the country, if we may believe the speeches made by leading members of Congress in both branches—and would soon have been before Congress again for revision and material modification. What is really needed now is the appointment of an able commission, which shall take the several tariffs, or fragments of tariffs which are in existence—we believe there are eight or nine of them in all—and make a judicious codification of them which shall be adapted to the present industrial interests of the country—giving that protection which is needed for the development of American labor, and harmonizing the claims of the different sections of the country. Such a commission appointed now, with instructions to report at the commencement of the long session, a year from December, could mature an tariff which ought to be, and we believe, could be made to be, satisfactory. We wish that such a commission might be appointed before Congress adjourns.

GEN. SHERMAN is visiting New England on the occasion of Dartmouth College Commencement, and *his presence there will be* a great attraction. Possibly some persons may remember that a nameless partisan sheet some months ago advised all true democrats not to honor the General with their attendance.

In singular contrast to this advice, please to read the Boston Herald of July 14:

The enthusiastic reception of Gen. Sherman in Boston streets last evening was but a faint expression of the admiration in which he is held in this section of the country. * * * He has won a place in the hearts of his countrymen, as well as in the history of his country, which he will always retain. * * * And among the great leaders who were raised up out of our early defeats to lead the soldiers of the Union to victory, none have won more applause or deserved more credit than the distinguished General who is now the guest of our city.

NEW YORK JUDICIARY.—The new Excise law has received its quietus for the present under the *rulings* of city judges.—The *law* has been pronounced unconstitutional by Recorder *Hackett*. He was a subordinate criminal officer and was appointed to the Recordership a few weeks ago by the ring which has so long ruled and disgraced our city. Though a Judge he practices frequently at the *bar*. But whatever may be his character or habits, as a judicial officer his *dicta* has to be observed. All barriers for the present are broken down.—The vilest dens in New York are reopened, and liquor flows freely as of old. Concert saloons with *girls for* waiters, lager beer gardens and saloons, and shops, licensed and unlicensed, were in full blast on Sunday. In the meanwhile the police keep a strict account of all these violations of the law, and should the statute be sustained those men will have a heavy retribution upon them. Should it not be sustained the immense sums taken under the license law will all have to be refunded. Of course there is great exultation among the enemies of the law at their temporary triumph.—*Burleigh.*

[Let the rerder remember that this law is not prohibitory, but only a *license* and excise law.—And so, when he hears a great clatter of tin trumpets against the prohibitory, accompanying a brazen nosed orator praising the license, let him pronounce them a band of humbugs, who will do or say any thing to keep back the temperance reform.]

SARATOGA IN '97.—Professor Silliman in his diary speaks of a visit he made to Saratoga in 1797. It was rather in contrast with the Saratoga of our times. He says:

"We mounted our horses one day and rode seven or eight miles through the pine forest, with its delightful fragrance, and arrived at a place where they said there were some mineral springs. There was not even a village, but only two or three log houses, standing among the pine trees. The people were civil, and provided hay for our horses, and for ourselves bacon and eggs. They piloted us into a morass where nature was unsubdued, and stepping cautiously from bog to bog, we soon arrived at a spring which they called the Congress Spring, which tasted as it does now."

— Our information from different portions of the country, says the Huntsville, Ala., Independent, is that the yield of wheat the present harvest is much better than was anticipated.

NEW HAMPSHIRE ITEMS.

—— Mary Reardon, an Irishwoman, employed as sweeper of the Manchester Print Works, has been arrested for stealing goods from the Works.

—— A calf four weeks old is now on exhibition at Manchester. It was born at Allenstown, and is perfect every way except that it lacks one fore leg. This "tripod" hops about as lively, on three legs, as if it were a real quadruped.

—— At Derry, Sunday morning, Miss Sallie Humphrey, aged 72, called upon her sister for water to drink before she rose from her bed, and when her sister returned a moment after, she found her dead.

—— The property-holders in the central part of Enfield village are about forming an association for protection against fire, by purchasing 950 feet of hose to attach to the force pump in the grist mill, each man to pay according to his taxable property, to be appraised by three disinterested men.

—— We learn from Hon. Charles H. Bell, who recently made a journey to Georgia in the matter of the bequest of Mr. Robinson, that the town of Exeter will obtain $200,000 under the will. The gift is to found an establishment in Exeter for the education of young ladies.

—— Ex-President Pierce gave $300 to the Portland sufferers.

☞ A great fire took place in Concord on Friday afternoon, destroying property to the value of fifty thousand dollars, and throwing fifty laborers out of employment. Ford & Kimball's extensive iron foundry, with all the outbuildings connected therewith, B. F. Dunklee & Co.'s large machine shop, three dwelling-houses, together with stock, machinery, moldings and wood, were swept away.

The property was located on the east side of Main street, nearly opposite the freight depots.

The fire was discovered at half-past 3 on the roof of the machine shop, close by the large chimney. Men were quickly at work to subdue the flames, but unfortunately the main ladder broke, and the fire soon became unmanageable, and in about an *hour* the above *property was* destroyed. The *firemen* and citizens did well, to stop the fire so soon as they did.

The furniture of the dwelling houses burned was mostly saved, but from the machine shop and the foundry establishment scarcely anything could be removed, on account of the rapid progress of the flames.

The entire loss of property is estimated at $50,000—$40,000 of which falls upon the foundry and machine shops. The insurance is light—not over $20,000.

☞ Friday forenoon, on the Railroad between Salem and South Danvers, the truck frame of a car of the freight train gave away, swinging the platform of the car around so as to crash into a building occupied by workmen on that section, instantly killing two of the number and severely injuring three others.

A boy about twelve years of age, named *Patrick Hoey*, whose parents reside in Chelsea, was thrown from the track on which he was standing by the inward bound train on the Eastern Railroad about five o'clock Friday afternoon, between Chelsea and South Malden, and so severely injured that he lived but a short time. He was watching the outward bound train which was approaching, and did not notice the other, the engine of which precipitated him quite a distance, bruising him in a fearful manner.

☞ In view of the increasing interest attending the threatened hostilities in the East, Messrs. G. W. & C. B. Colton & Co., New York, have prepared, on a large scale, and just published, a new map of Central Europe, 21 by 30 inches, showing all that part of the Continent likely to be directly affected by the war, now believed to be inevitable, embracing London and Paris on the west; Denmark and the Duchies on the north; Constantinople and Russian Poland on the east: and Turkey and Italy on the south. To put this map within the reach of all who may desire to possess it, the publishers propose to send by mail, postage paid, a copy on good paper, and colored, to any one who will remit 50 cents.

THEN AND NOW.—The National Intelligencer says: "Andrew Johnson stands before the country as opposed to all constitutional amendments at the present time." To which the Knoxville Whig replies: "There was once a member of Congress by the name of Andrew Johnson, who proposed *eleven* amendments to the National Constitution during *one* session. Many persons are of the opinion that he is the same who is now President of the United States."

— The Rhode Island Democratic State Central Committee issues a call for a State Convention to meet the 2d of August for electing delegates to the Philadelphia Union Convention. No public movement in that direction has been made by any other party in the State.

—Samuel Welles, a nephew of the Secretary of the Navy, was killed at Mare Island on Tuesday last by the explosion of a portable steam engine.

NEW ENGLAND CLIMATE.—"Take the New England climate in summer," said Rufus Choate, "you would think the world was coming to an end. Certain recent heresies on that subject may have had a natural origin there. Cold to-day; hot to-morrow; mercury at 80 degrees in the morning, with wind at southeast,—and in three hours more a sea-turn, wind at east, a thick fog from the very bottom of the ocean, and a fall of forty degrees of Fahrenheit. Now so dry as to kill all the beans in New Hampshire; then floods carrying off the bridges of the Penobscot and Connecticut; snow in Portsmouth in July, and the next day a man and a yoke of oxen killed by lightning in Rhode Island. You would think the world was twenty times coming to an end. But I don't know how it is; we go along; the early and the later rain falls each in its season; seed time and harvest do not fail; the sixty days of hot corn weather are pretty sure to be measured out to us. The Indian summer, with its bland southeast and mitigated sunshine, brings all up; and on the 25th of November, or thereabouts, being Thursday, three millions of grateful people in meeting-houses, or around the family board, give thanks for a year of health, plenty and happiness."

FIRE-CRACKERS, &c.—Chapter 119 of the Compiled Statutes of New-Hampshire is entitled, "Of Offences against the Police of Towns." The fifth section reads thus:

"No person, shall within the compact part of any town, fire or discharge any cannon, gun, pistol, or other fire-arms, or beat any drum (except by the command of a military officer having authority therefor); or fire or discharge any rockets, squibs, crackers, or any preparation of gunpowder, (except by permission of a majority of the police officers, or selectmen, in writing,) or shall make any bonfires, or improperly use or expose any friction matches, or knowingly raise or repeat any false cry of fire."

The sixteen first sections of the act consist of as many prohibitions against various offences against the police of towns, and the 17th is as follows:

"Any person convicted of any offence in this chapter mentioned, shall be punished by fine not exceeding ten dollars nor less than one dollar, shall pay costs of prosecution, and stand committed until the same be paid; or by imprisonment for a term not less than five days nor more than thirty days in the common jail, or in the bridewell of such town, or by confinement to hard labor the like term in the house of correction, at the discretion of the justice of the court before whom such conviction shall be had."

AMERICAN NEWSPAPERS IN ENGLAND. John Bright, in the course of a recent speech, made this statement, in substance, as follows:

"He had recently seen a letter from one of the largest cotton spinners and manufacturers and merchants in Lancashire, in which he expressed his regret to find that among his workmen there was growing up a much greater interest in American politics than in the politics of their own country. This gentleman afterward informed him, in corroboration of this statement, which he asserted to be literally true, that in his mill there were nearly as many American newspapers to be found as there were newspapers of their own country."

☞ The Univesalist Society in Pawtucket, R. I., of which Rev. Massena Goodrich is pastor, have voted to dispose of their present edifice, and contracts have been made for the erection of a large and elegant structure in the Lombardic style of architecture. A very eligible lot has been purchased from which the buildings are to be removed. The new building is to be erected from designs and under the superintendence of Mr. T. W. Silloway, church architect, of Boston, and is to be ready for dedication the first day of March next.

SECEDING MORMONS.—Fifteen wagons have passed through Cottonwood, Kansas, eastward bound, carrying seventeen families, making about eighty persons, big and little, who have deserted Brigham Young's quarters. Among the pilgrims was one Dr. Bates, a man of considerable notority, who has served Mormondon for thirty-two years. He has been Chief Clerk of the Twelve Apostles at Nauvoo, Ill., and while at Salt Lake he was one of Brigham Young's secretaries.

— Mr. Spurgeon, in a speech at the recent anniversary of the Baptist Union in London, made the rather astounding statement that "you could get about one good preacher out of every eight students, and that nothing could change the proportion." It is doubtful whether other professions secure a greater proportion of really "good" material.

— Hosea Morrill of Pittsfield was married last week, aged 82 years. He gave his bride $30,000, she being somewhat younger than he. He was unable to get out of his carriage, and the ceremony was performed while the parties were sitting in the carriage.

— The Savannah Board of Aldermen has adopted an ordinance prohibiting colored persons from entering the public park, unless nurses having white children with them. Policemen at the gates will enforce the order.

— The New Bedford Standard says that ship repairing goes on there extensively.

GOLD, Friday, 152 1-2.

☞ Governor Eyre, of Jamaica, is destined to a place in history like that of Haynau. He has been convicted of atrocities almost without parallel in civilized records —butchery of men who never were tried; outrage of women; desolation of whole communities. The proof of his guilt was so great that a court, composed of aristocratic sympathizers, was forced to condemn him, and the Queen to relieve him from the position he disgraced.

PERRY DAVIS' PAIN KILLER.

As an internal remedy, has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, Dysentery, and Asthma, it cures in one night, by taking it internally, and bathing with it freely. It is the best liniment in America. Its action is like magic when externally applied to bad sores, burns, squalds, and sprains. For the sick headache and toothache, don't fail to try it. In short, it is a Pain Killer.

PERRY DAVIS' PAIN KILLER.—This medicine has become an article of commerce, a thing no medicine ever became before. Pain Killer is as much an item in every bale of goods sent to country merchants as tea, coffee, or sugar. This speaks volumes in its favor.—GLENS FALLS MESSENGER. Jy1—dawlm

Elegant Residence for Sale.

[On account of removal of owner.]

The well known and beautifully situated CUTTS' HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath-room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.

The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.

The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first class wine cellar. The house is fitted throughout with Straw Matting.

The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.

If desirable, more land, adjoining, could doubtless be purchased.

The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

PURIFY THE BLOOD.—If the blood be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as if

Bereft by Lightning.

Now, this can be remedied.

BRANDRETH'S PILLS

take all impure matters from the circulation, and save the general health, soon curing local affections also. BRANDRETH'S PILLS protect from tedious times of sickness and often save life.—Sold by all Druggists. Je29dawlm

MADAME REMINGTON, the world-renowned Astrologist and Somnambulistic Clairvoyant, while in a clairvoyant state, delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a perfect and life-like picture of the future husband or wife of the applicant, with date of marriage, occupation, leading traits of character, &c. This is no imposition, as testimonials without number can assert. By stating place of birth, age, disposition, color of eyes and hair, and enclosing fifty cents, and stamped envelope addressed to yourself, you will receive the picture by return mail, together with desired information.

GEN. SHERMAN, we learn, will visit this city and the Navy Yard, today. He is expected to arrive from Boston this (Monday) morning at 10 o'clock; and will be received at the Eastern depot by the City Government, and escorted (through Vaughan and Market streets) to the Navy Yard. On Market Square, if practicable, the carriages will be halted, and the General introduced to the public by Mayor Bailey. Gen. Sherman, we believe, is to attend Commencement at Dartmouth, but whether he will proceed thither by way of Concord this afternoon, we are not informed.

POLICE COURT, July 14.—The attendants on this perpetual motion arrangement, both lookers on and prisoners at the bar, came in this morning looking disconsolate and decidedly home sick on account of the absence of ex-City Marshal Kent, whose genial manners and kindness of heart have made him hosts of friends who regret his resignation as an officer of the city while they congratulate him on his appointment to an office much more remunerative and less irksome in its details. "He who is faithful in little is also faithful in much," is well exemplified in the promotion of Mr. Kent to a more responsible position, and also by the promotion of Mr. Johnson to the office left vacant by Mr. Kent's resignation.

Judge Bufford had but three cases brought before him this morning which were speedily disposed of.

William Nolan arrested for brawl and tumult was found guilty, and fined $3.00 and costs, taxed at $4.03, making a total increase of revenue to the city of $7.03.

Patrick Maguire,—being afflicted with deliquescence in the first degree, on account of his extreme disappointment occasioned by the balloon at its third trial remaining very nearly in the same position for 15 minutes, at an elevation of 200 feet instead of rising, as a sensible balloon should do, as many miles, (more or less) absorbed too much "whiskey straight" and became howling drunk. Found guilty, and introduced to Superintendent Philbrick of the City Farm, whose guest he will be for 30 days or during haying, and sentenced to pay costs of prosecution, $3.86.

Wm. Clow, found guilty of an assault on his "better half"—the brute—was fined $5, and costs $3.86, and ordered to recognize with sureties in the sum of $50, to keep the peace until the October term of the S. J. Court.

☞ The keepers of those fruit shops which permit the decayed fruit, orange and other fruit peelings, to remain on the public walks, ought to know that they are liable for damages if any limbs are injured by those who are passing. We this week saw an old gentleman prostrate on the walk in front of Varney's store, slipping on the filth around the door.—*Journal.*

To the Public:—We are very sorry for the accident that happened on the sidewalk before our Store, on Thursday evening, and hope the Senior Editor of the Journal received no serious injury. We shall endeavor for the future to remove the fruit peelings so that persons can pass without the risk of life or limbs. VARNEY.

☞ The subscription for the relief of the Portland sufferers amounted to $3008,01 on Saturday evening, in this city.

☞ All persons doing a business requiring a license, should observe the Collector's Notice in another column.

☞ A gentleman who has traveled over a large part of Indiana, some northern parts of Kentucky, and made some trips into Michigan and Illinois, reports the corn crop as exceeding in the prospect of a large yield, anything within his observation for several years. Oats are everywhere good. Fruits, especially apples, are very promising. Considerable spring wheat has been sown, which also looks well. Winter wheat is better than was anticipated in the spring, although there will scarcely be half a usual crop.

— An English correspondent in the Italian army remarks that it is difficult, indeed almost impossible, for a "correspondent to give any really trustworthy account of events in a country where the press says nothing, the country people know nothing, and you are not allowed to go about and see anything for yourself."

— A correspondent of the Milwaukee News says that "Minnesota is about to yield another of her bountiful harvests. People only fear now that the wheat crop will be too luxuriant. I have known as much as fifty-five bushels to the acre raised here."

— In reply to sundry rumors, the Albany Evening Journal states that no pardon has been granted to young Ketchum by Gov. Fenton, and that there is no probability one will be granted.

— The reports from all sections of the country have greatly improved within a few weeks, and there is a fair prospect now for good harvests.

— The Aroostook (Me.) Pioneer reports crops in that section as looking finely, especially grass.

☞ In Ohio the Democratic State Central Committee have voted to send four delegates to the Philadelphia Johnson Convention, and also to recommend County Committees to send delegates.

— William Morrison of Lawrence died on Monday night from the effect of the injury received by him in the leg from a rocket, July 4, mortification and secondary hemorrhage having occurred.

IN CONGRESS, the Niagara Ship Canal bill has shared the fate of the tariff bill, and will not be further considered by the Senate until next winter, by a vote of 25 to 13.

— A panic prevails amoug the colored whortleberry pickers of Savannah, Several have been fatally bitten by venomous snakes.

— The people of Philadelphia are following the example of Boston, in constructing free public baths.

— Parties at St. Louis from Denver report meeting about five thousand teams on their way to Colorado.

— In New York city, the total collection in aid of the Portland sufferers amounts to $80,000.

— The J Monroe Taylor Gold Medal Soap is one of those articles which should be in every household, and the lady who neglects to furnish herself or domestics with it, loses a boon which it will be impossible to find a substitute for it. It takes less in quantity, and washes as no other soap can do. It makes rough hands smooth, and softens and whitens the skin, as well as making clothes look so white. Try it. 4

A NEW ENTERPRISE.—The store of Messrs. Nell, Tarlton & Co. on Market St. presents at this time an aspect which is suggestive of the more extensive corn operations of western cities. Their new building, in addition to the old store, constitutes a large establishment for grinding corn, and has or will become the great depot of corn meal for this vicinity. The building extends to the end of the wharf in the rear, with accommodations for discharging vessels within a few feet of the hopper which feeds the elevator. The motive power is a large steam engine, carrying two of Holmes & Blanchard's mills, which are at present kept in constant operation, turning out about forty bushels of meal per hour. The power is also applied to two elevators. By means of these elevators the corn as discharged from a vessel is at once carried to any part of the building and deposited in large bins, as well as to an adjoining store, so that in a comparatively short time 40,000 bushels of corn could be deposited in the store. The hopper which feeds the mills is also supplied by an elevator. We understand that already it is difficult to fill orders, the trade embracing all up river and other neighboring places.

Gov. SMYTH.—The published income of Gov. Smyth is over $6000 a year. Many of his friends are glad to know this fact, for they are desirous to see him again re-nominated, and were fearful if dependent on his salary, that he could not afford the pecuniary sacrifice. We hear in this section of the State but one opinion expressed, and that is, our State, if possible, should secure his services for another term. He is able to stand it, and the people are able to elect him.

FOURTH OF JULY TALK BY GEN. SHERMAN.—At a celebration at Salem, in Southern Illinois, on the Fourth, Gen. Sherman made one of his characteristic speeches. He dwelt upon the early history of the country, the causes of the recent conflict, and defended his Atlanta campaign We quote:

"I know that all the world over, there are parties that denounce me as being inhuman. ('That's so'—can't see it.') I appeal to you to say if I have not always been kind and considerate to you. ('That' so.') I care not what they say. ('That's right.') I care not what they say, but I say that it ceased to be our duty to guard their cities any longer, and had I gone on stringing out our column, little by little, little by little, some of your Illinois regiments would have never got back home, and you would have been crushed. Therefore, I let go the whole country; took one army myself and gave my friend George H Thomas one, and we whaled them both. (Great applause.)

Therefore, if Atlanta were destroyed, and Columbia and Savannah, and all the cities of the South had been destroyed, I say it would have been right, because it was necessary to produce the results in view. It did produce the results; and now, ladies, you see your young friends returned to you; wives see their husbands, and all are reunited here in this handsome grove in Illinois, and God knows I hope you may never go forth again; but if you are called forth, I know you will respond quicker than you did before, if possible. (Cheers.)

* * * It is unnecessary for me even to refer to the position in which national affairs are placed, though I do not pretend to comprehend or understand them. It is not my task. My task is to use the force that is placed at my disposal to put down opposition to the laws, quickly and forever. (Applause.) Whenever the United States Marshal comes to me and tells me that he has not civil power enough to execute those laws, if I have soldiers I will go and make his laws and decrees enforced; and, my friends, if that rule is enforced throughout the land, if the laws of Congress are enforced wherever this flag floats, then are we in truth a nation, a nation to all intents and purposes at home and abroad. (Cheers.)"

— The Oswego, N. Y. millers have sent 100 barrels of flour to Portland.

— A returned Californian, named Streeter, deposited $1000 in a barrel of beans, and hid it in a barn in Ellington Township, about six miles from Quincy, Ill., fearing it would be stolen. The barn took fire and 1500 bushels of corn burned, and the money went with it, the barrel of beans being a rather poor bank of deposit.

Morning Chronicle.

Portsmouth N. H.

TUESDAY, JULY 17, 1866.

☞ A smart octogenarian is the venerable Samuel Batchelder of Cambridge, who is now treasurer and head of the York Mills at Saco and the Everett Mills at Lawrence, two of the most successful cotton mills in the country. He was born at Jaffrey, N. H., in 1784, five years before the first cotton mill was established in the United States; soon removed with his parents to New Ipswich, the home of the Appletons and many other enterprising men, and in 1807 helped establish and then took charge of a cotton mill in that village, of five hundred spindles.

☞ The new British Cabinet is on its legs. Lord Derby has returned with the Queen and submitted the following names, which were approved: Derby, Premier and leader in the House of Lords; Disraeli, Chancellor of the Exchequer and leader in the House of Commons; Stanley, Foreign Secretary; Walpole, Home Secretary; Gen. Peel, War Secretary; Pakington, Admiralty; Northcote, Board of Trade; Duke of Buckingham, President of Council.

HAY.—A Maine paper says that abundant showers and intense hot weather have brought up the grass in a surprising and unexpected manner, and farmers are rejoicing in the hope of a fully average hay crop.

A Connecticut paper says that although the farmers talk about it as being a poor one, the hay crop is said to be exceedingly good.

LAWRENCE STARVATION CASE.—The Jury of inquest in the case of the child alleged to have been starved to death by Mrs. Betsey B. Rogers of Lawrence returned the following verdict:

"The jurors, on their oaths, do say that Charles Keating, or Caton, came to his death on Saturday, July 7, at 7 P. M., at the house of Mrs. Betsey B. Rogers, in Lawrence, by reason of wanton and gross negligence on the part of the parents and Mrs. Betsey B. Rogers, and willful neglect of them to provide proper nourishment for the said child, *Charles Keating or Caton.*"

On Friday Mrs. Rogers was locked up. She had disposed of all the children left to her mismanagement, and was apparently about to leave the city. She has led a rough life for several days, as a crowd has been hooting and reviling day and night. The Marshal proceeded to Lowell, and arrested James Caton, the father, and Susan Caton, the mother of the child. Caton admitted that he knew the condition of his child, and said he had been told of it several times. The woman also said she knew of it, and asked the officers "What the —— they were going to do about it? She is about eighteen years of age, and a hard case. The husband about twenty. A respectable physician will testify that the children were starved. Mrs. Rogers is charged with murder, and the mother and father with being accessories.

NEW HAMPSHIRE ITEMS.

—— Cornelius O'Brien, a stone-cutter at work in Concord, was drowned at Horse Shoe pond Saturday afternoon, while bathing. He was an expert swimmer, but was supposed to have been seized with cramp. His age was 19 years, and his parents reside in Rockland, Me.

—— A man calling his name Albert Dudley Wiggin Emerson, is in jail in Manchester, for stealing a horse from Hill & James.

☞ Clipper ship Hornet, from New York to San Francisco, was burnt at sea, May 8: she carried Kerosene, and burnt like a torch. The people took to the boats; one boat, with 15 persons, has safely landed: two boats, with 20, are yet to be heard from.

☞ We learn that the Etna, Hartford and Home Insurance Companies have paid every dollar of their losses by the recent fire in Portland, amounting to $417,000 in the aggregate. This will give additional feeling of security to persons insured.

☞ A town called Lower Canning, N. Y., containing 50 houses and stores, was mostly destroyed by fire last Saturday night.

☞ President Johnson has reappointed J. B. Upham Collector of Customs at this port.

☞ A house in Westbrook, Me. occupied by Maurice Dearborn, was burnt on the 4th at noon, supposed by fire crackers.

GOLD, Monday, 148 3-4 to 149 1-4. A fall of three per cent. or more from Saturday, occasioned by news from Europe.

— Secretary Fessenden in December, 1864, estimated the receipts for customs for the fiscal year at 70 millions, whereas they have actually exceeded 170 millions. His total estimates for revenue were about 156 millions below the actual receipts.

— Up to Friday evening the Mayor of Portland had received contributions amounting to $147,055.72. The erection of wooden buildings has been prohibited on the sites of the burnt streets.

Local.

☞ Gen. Sherman, accompanied by Mayor Lincoln of Boston, arrived in this city by the morning train from Boston, in a special car provided by the E. R. R. Co., and was received by Admiral Bailey, Ex-Gov. Goodwin and Mayor Bailey, with whom he rode through some of the streets to Market Square, where he was addressed by the Mayor as follows:

Mayor General Sherman.—Although you visit Portsmouth as the special guest of Admiral Bailey, it affords me great pleasure to give you a hearty welcome in behalf of the City Government and people of Portsmouth. We are glad to embrace the opportunity offered by this momentary visit to present our thanks and acknowledge our obligations to the Hero of Atlanta.

To which he replied in substance as follows; addressing himself to the assemblage which had gathered to greet him:

Mr. Mayor, Ladies and Gentlemen: I am proud to meet you; I feel thoroughly acquainted with you, and have no doubt you have heard of me. I think we understand each other, and thank you for this welcome.

The General then visited the Navy Yard as the guest of Admiral Bailey, where he received the customary salute. In the evening he was serenaded by the Portsmouth Cornet Band. We learn that the party will proceed to Concord in the early train this morning.

Work was suspended on the Yard on Monday afternoon, the men being informed at noon that there would be no second muster on account of the heat.

☞ Our community were startled and shocked on Monday morning, to hear of the very sudden death of Mr. Augustus W. Simpson, one of our prominent merchants, in the full vigor of health and middle life. He had been suffering with headache, &c., for a day or two, but no severe sickness was feared, and he walked out on Sunday morning. On that evening he was rather worse, and in the night his sicknes developed into congestion of the brain; and without recovering consciousness again, he died at early morn. Mr. Simpson presented in himself the picture of health, and *seemed destined for a long life; and* never was the *fact that* "in the midst of life we are in death," brought home to us more closely, than by his unexpected decease.

To a very large number of acquaintances and friends, this will be a sad bereavement; and to his family—one of the most cheerful and united we ever had the pleasure of meeting—words cannot express the effect of the stunning blow. Death is indeed the tremendous necessity for all of us; but rarely does it come in more crushing form than this, or one better calculated to show the utter impotence and helplessness of even the strongest mortal. Our very long, intimate and pleasant acquaintance with the deceased, causes us to feel almost as if one of our own had gone. Peace to his memory.

We understand that the place of business will be closed throughout the city at the hour appointed for Mr. Simpson's funeral—4 o'clock this afternoon.

☞ On Monday a telegraph was received in this city, from Constable Tarbox of Biddeford, for the arrest of a noted female, name Hyde, *alias* Johnson, for a theft of money and jewelry. She was arrested by Marshal Johnson on Monday afternoon, in a house of ill-fame, with a portion of the stolen jewelry upon her person. Constable Tarbox was sent for, came to this city, and left on the freight train for Biddeford, with the prisoner, the same night.

☞ We can hardly imagine a greater contrast, than that between the streets which *are* sprinkled and those which are not, about town. Mr. Plaisted is a benefactor, and does the work better than a thunder shower, inasmuch as he dispenses salt water. To say nothing about the comfort and decency of the thing, for yourselves and passers; sprinkling must save in the paint of a house, more than its costs.

☞ Mr. Sewell W. Webber of this city, will close his livery stable here for the summer, and carry on the Ocean House stables at Rye Beach for the season. Messrs. Job Jenness & Son want a live man to take care of their horse department, and we think Mr. Webber will suit them and their customers.

☞ The city article of the London Times has the following significant statement:

"The advices from Frankfort dated the 25th inst., state that from the day of the commencement of hostilities the Bourse, like the London Stock Exchange, became more firm. Notwithstanding the start Prussia has gained by having been allowed to take the offensive, confidence in the success of Austria and the Diet is said to be unimpaired. Very little business is transacted, but the few investors that came forward were sufficient to send up Austrian stocks between four and five per cent; *while American bonds were not depressed even by the high quotations of gold received from New York.*"

☞ The latest "strike" of the season is that of the colored washerwomen of Jackson, Mississippi. Well, they'd better *not* "strike while the (flat) iron's hot," we think.

THE NEWS FROM EUROPE comes via Liverpool July 5, and Queenstown, July 6. A great battle took place on the 3d near Sadowa, resulting in the Prussians obtaining a great and complete victory. The Prussians took 14,000 prisoners. There were great losses in killed and wounded, but no estimate is given of the numbers. The Austrians sent in a flag of truce.

Austria has agreed to cede Venetia to the Emperor Napoleon and accept his mediation. Napoleon immediately communicated with the belligerents.

The Prussian and Italian reply to the proposed armistice has not transpired.—There are rumors that the Prussian reply is not favorable.

The Morning Post thinks that a Congress will shortly assemble, and that the French Government will propose a general disarmament.

In the commercial circles of London peace is regarded as virtually concluded.

American Securities have advanced in London.

☞ The Fair of the New England and Vermont State Agricultural Societies will be held on the grounds of the Windham County Park Association at Brattleboro, Vermont, September 4th, 5th, 6th and 7th, 1866. The grounds are pleasantly located, on the bank of the Connecticut River, and are ample for the purposes of the Exhibition. Premiums amounting to over $6000 will be offered in the various departments. Arrangements have been made with nearly all the New England Railroads for the transportation of stock and articles free, and conveyance of passengers attending for fare one way. Enquiries may be addressed to Henry Clark, Poultney, Vermont; David Goodale, Brattleboro, Vermont, or Daniel Needham, Boston, Massachusetts.

THE FIRE AT THE TACONY PRINTWORKS, PHILADELPHIA.—The loss by this conflagration it is difficult to estimate. The goods on hand belonged to parties in New York, who sent them to be printed, and the foreman states *that the value* of the goods *in the* "gray room" would reach over $200,000; drugs and chemicals, $100,000; the printed goods, $100,000; and the loss in other departments, including machinery, &c., will amount to more than $500,000. The amount of insurance on the goods is not known. It is estimated that the loss on real estate will reach near $700,000, about one-third of which is covered by insurance in New England companies. The fire was undoubtedly the work of an incendiary. Two previous attempts have been made to destroy the property.

EXTRAORDINARY DECLINE IN WHEAT. Within the past twenty-four hours the wheat market in this city has experienced a most extraordinary decline of 22 cents to 27 cents per bushel. On Tuesday No. 1 regular Spring wheat was sold at $1.88 a $1.90, and yesterday it fell as low as $1.60, closing dull and nominal at $1.65. This decline in prices is the result wholly of excessive speculation. A prominent operator some time since purchased the entire stock of wheat, and two or three hundred thousand bushels beside for future delivery. In order completely to "corner" the sellers, he adopted the somewhat novel expedient of selling cargoes "free on board" to shippers at ten cents to thirteen cents below the market price, for lots in store. In this way the stock was reduced quite materially, and the sellers were forced to settle at the buyer's own price. This being accomplished, he threw the balance of his wheat upon the market and broke it down.—*Chicago Tribune, 12th.*

☞ In the U. S. House of Representatives, Saturday, the Special Committee on the charges against Mr. Conkling reported, entirely exonerating that gentleman and state that the charges in General Fry's letter are not only unfounded in fact but maliciously untrue. Adjourned.

☞ The Portland Transcript says the portion of the City, burned in the late fire, was nearly the same which was burnt by the British in 1775; when 414 buildings were destroyed, of which 136 were dwelling houses,—and only 100 houses were then left standing, several of which still survive.

But the woman who said that Herrick Allen's Gold Medal Saleratus is the best in the world, and makes better Bread, Biscuit, Cakes or Puddings, out of the same sack of flour, than can be made with any other Saleratus or soda, spoke it with her eyes and mouth wide open, and does not fear contradiction. PERRY DAVIS' PAIN KILLER,

As an internal remedy, has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, Dysentery, and Asthma, it cures in one night, by taking it internally, and bathing with it freely. It is the best liniment in America. Its action is like magic when externally applied to bad sores, burns, scalds, and sprains. For the sick headache and toothache, don't fail to try it. In short, it is a Pain Killer.

PERRY DAVIS' PAIN KILLER.—This medicine has become an article of commerce, a thing no medicine ever became before. Pain Killer is as much an item in every bale of goods sent to country merchants as tea, coffee, or sugar. This speaks volumes in its favor.—GLENS FALLS MESSENGER. Jy1—dawlm

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, accompany each bottle. Will without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of Mrs. L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

PURIFY THE BLOOD.—If the blood is pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and choker up the fine blood vessels which supply the brain with vitality, and life ceases as if

Bereft by Lightning.

Now, this can be remedied.

Local.

☞ We congratulate our citizens,—taxpayers, parents, teachers, and especially the children—that the Board of Aldermen decided, though only by the Mayor's vote, not to purchase the old Academy building for the proposed new schoolhouse. $7600 would have been a very great price to pay for such a lot for this use; and the land would be about all the City would get, inasmuch as the old building is entirely unfit for a public schoolhouse, and neither it or the lot is large enough. Then the location is not good, being too much exposed to outside noises, dust and heat, and nearer other houses than it need be or should be.

What *is* the use of crowding all our public buildings in where there is no room for them? Why not have ample grounds, trees, &c., around our schoolhouses? How much more beautiful, comfortable, healthful, and safer from great fires! The High School would be worth a great deal more than now, if it had been located somewhere—no matter where—so that an acre or two of land could go with it. Haymarket Square is perhaps as near the actual, practical centre of the city as can be named; and although there is not any spare land here, there are good lots on Middle Street, not far above it.

And on some of these,—that now occupied by the residence of Mr. J. J. Pickering, or Mr. Tarlton and Mayor Bailey, it was proposed to locate the High School; but some old grannies thought this was "too far out of town." As if it was any objection to a schoolhouse, that boys and girls must walk a few rods further to it! What nonsense! And then this is *not* out of town at all, even now; and whoever lives to see Portsmouth twenty years hence, will find more population above than below this point.

And there is still another fine lot just here, yet open for the location of this new schoolhouse, and which we have heard suggested by a prominent city officer. We mean that directly in front of the Rockhill mansion; (of course for a schoolhouse or highway, the City can take any unoccupied premises,) and it would be all the better to set the house back on the hill, and have an open lot or park in front, with Summer Street continued down to reach it. If there is any better place or plan than this, we shall be glad to advocate it; but we are tired of seeing one good building pulled down to make room for a new one, when there is plenty of unoccupied land, better for public or private use, which may be had for half or quarter of the expense of the old. We deem any man who destroys a decent building, in so far the injurer of the community, and we don't believe it "pays" to do it, although it is so fashionable all over this young country.

U. S. COMMISSIONER'S COURT.—Two men named respectively Albra F. Elden of Buxton, Me., and Jerry L. Gray of Greenland, N. H., were arrested on Saturday by U. S. Deputy Marshal Morse, upon a complaint made by J. Horace Kent, for taking letters from the Post Office in this city not belonging to them and appropriating the contents thereof. City Marshal Skinner, of Salem, Mass., wrote to Mr. Kent some days since, that he suspected that parties were engaged in swindling the community by "Lottery Schemes," and that the Post Offices there and here, he thought, were used for their base purposes, and requested the co-operation of Mr. K. in ferreting out the rogues. A trap was set for them, and on Friday City Marshal Johnson sprung it on the first of the above named. Mr. Kent telegraphed to Mr. Skinner, and after his arrival, it was determined that another of the parties, and the principal one, was a laborer at Col. March's, in Greenland. Deputy Sheriff Joy proceeded there with a process for the arrest of Gray, and brought him to the city. When confronted by the officer, he stoutly denied all knowledge of any transactions of the kind, and even when identified by Postmaster Adams and his clerk as the person who had taken letters from the Post Office addressed to H. B. Stone and P. H. Long, and taken money therefrom, he still persisted that they were mistaken. Upon his counsel's (Mr. Frink) advice, he "acknowledged the corn," but would not divulge the whereabouts or any knowledge of Stone or Long, whereupon the prosecution changed their base, and the complaint as above described was made by Mr. Kent in the U. S. Court. Gray was held to bail in the sum of $500 to appear before the Grand Jury in October next, and Elden was discharged. We do not have much sympathy with people who are "gulled" by these Lottery Sharpers, and we have less with the Sharpers. An order has been lately issued by the P. M. General that they shall not have boxes in the Post Offices, and the Department seems determined to break them up if possible.

MARINE CORPS.—First Lieutenant Lyman P. French is on special duty at Washington, as Judge Advocate of a Marine General Court Martial.

☞ Read Mr. Wendell's advertisement of fine oil paintings.

Communication.

☞ The screw that was supposed to be loose in the Post Office between Portsmouth and New York, turns out to be loose in the store where the letter was directed enclosing Bank check. The mistake of Boston instead of New York, sent the letter back to Portsmouth by way of Washington, all safe. By the carelessness of the writer the blame was placed on other shoulders; rather a hard case, but so it ever was and we suppose it ever will be, those standing in responsible positions have to bear and suffer for the mistake and short coming of the rear rank. It is justly due, however, to our efficient Postmaster and his assistants to say that we do not believe a better conducted office can be found in the country. C.

NAVAL.—Lieut. Com. J. M. Bradford has been ordered to take command of the Resaca while removing her from the Washington Navy Yard to this naval station. The following officers have also been ordered for this temporary duty, and on its completion will return to their present stations:

Act. Vol. Lieut, J. H. Eldredge, Act. Masters Alexander V. McIntosh, Gideon E. Holloway and Wm. H. Summers, Act. Passed Asst. Surgeon F. V. Green, Asst. Paymaster Geo R. Martin, 2d Asst. Engineer Philip Miller, and 3d Asst. Engineers Thos. Fitch and Jas. E. Watts.

BEFORE THE NOBILITY.—The Alleghanians, who have just returned from their European tour, appeared before Queen Victoria and the Royal Family, at Windsor Castle, in January last. The Alleghanians are the only troupe who had this honor conferred since the death of the Prince Consort. The troupe will sing in the Temple on Wednesday (to-morrow) evening, positively one occasion only, owing to other engagements. Every one should go and hear them.

Ayer's Pills.

ARE you sick, feeble and complaining? Are you out of order, with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, re-act upon themselves and the surrounding organs, producing a general aggravation, suffering and derangement. While in this condition, take Ayer's Pills and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the dangerous and fatal diseases distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure.

For the Speedy and Certain Cure of *Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; induced, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.*

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Elegant Residence for Sale.
[On account of removal of owner.]

The well known and beautifully situated CUTTS' HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath-room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.

The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.

The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The house is fitted throughout with Straw Matting.

The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass case for harness; Cow House, &c.

If desirable, more land, adjoining, could doubtless be purchased.

The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

Morning Chronicle.

PLAGUE AND FIRE in London, 200 years ago.—The great fire, as it is still called in London, took place Sept. 2, 1666. It broke out in a baker's shop in Pudding Lane, East Cheap, and continued burning three days together, during which it consumed 13,200 houses, St. Paul's Cathedral, 87 parish churches, 6 chapels, the Custom House, the Royal Exchange, Guildhall, and many other stately halls, several hospitals, colleges, schools, and other public edifices, and yet, it is said, there were but eight persons burnt. Of 26 wards, it utterly destroyed 15 and left 8 others shattered and half burnt. The ruins of the city were 436 acres, including 400 streets. A contemporary writer says: "To the estates and fortunes of the citizens it was merciless, but to their lives very favorable, that it might in all things resemble the last conflagration of the world. The destruction was sudden, for in a small space of time the same city was seen most flourishing, and reduced to nothing. Three days after, when this fatal fire had baffled all human councils and endeavors, in the opinion of all, it stopped, as it were, by a command from Heaven, and was on every side extinguished."

"The loss to the citizens," an account says, "was incredible; the most moderate compute it at nine millions sterling." Measures were immediately taken for rebuilding the city, and it was ordered that no man should delay building beyond the space of seven years. The work was carried on with diligence, and London was soon restored. At three years' time the world saw that finished which was supposed to be the business of an age. A monument of Portland stone, 200 feet high, was erected near where the fire began, to perpetuate the event. The year previous to this terrible fire, the great plague raged in London, which in the course of a few months swept away upwards of ninety thousand persons, and yet, says an old writer, after the excitement attending it was over, the number of inhabitants was not perceptibly lessened. The population of London in 1666 was between 700,000 and 800,000.—*Boston Transcript.*

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1836.
78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters relating to the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, and for establishing the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges so reasonable or the service as moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved to inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on twelve rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

THE
NEW YORK CIRCUS,
Nos 36, 38, 40, 92 and 94 Fourteenth St., opposite Academy of Music, New York.
L. B. LENT - - - Director.

IN PORTSMOUTH,
THURSDAY, JULY 19th, 1866,
Afternoon and Evening.
On Middle Street, opposite Anthony St.

This is an ENTIRELY NEW ESTABLISHMENT, upon which an enormous amount of capital has been invested with an unsparing hand, to make it what it claims and is acknowledged by all to be, the First Exhibition of the Age. The one that has identified with it the
Champion of the World,

MR. JAMES ROBINSON,
The Bold and Intrepid Horseman, whose wonderful and startling Bare Back Riding has created the most profound sensation throughout the civilized world. He will at each entertainment have the great Equestrian feat, incomparably surpassed by his pupil, the Infant Prodigy, MASTER CLARENCE, (only five years of age). The Youngest, Smallest and Prettiest Rider in the world, who largely inherits the wonderful boldness and extraordinary nerve of his father.

Another chief attraction of the NEW YORK CIRCUS is the specially gifted Artiste,
M'lle Carlotta De Berg,

The most Dashing and Daring Equestrienne the World has ever produced, from Cirque Napoleon, Paris. The exquisite grace and peerless skill of M'LLE DE BERG, combined with an irresistible charm and a fearless dash, incomparably surpasses every species of Female Equestrianism hitherto seen on this Continent. This lady made her debut in New York, April 23, 1866, and achieved a success unprecedentedly brilliant.

Her fresh and spirited style fairly electrified the amusement world of New York. Possessing superior artistic genius, allied to rare personal fascination, M'LLE DE BERG will not permit the possibility of rivalry in her peculiar and elegant School of Equitation, which she surrounds with an affluence of Beauties, and embellishes with a halo of Radiance, captivating by their perfection and dazzling by their splendors.

Our space will only permit the names of the other leading performers, who are unequalled for their special talents, among the most widely famed, are:

Mr. James E. Cooke, Mr. Charles E. Madigan, Mr. Wm. Decrow, the Levantine Brothers, Mr. J. Messenger, Mr. S. Stickney, Mr. Francisco Lee, Mr. James H. Madigan, Mr. W. A. Donovan, M'lle Josephine LeKoux, Mr. Hubert Forrest, Sig. Jose Monteverde, the Motley Brothers, Mr. J. S. Strickland.

Four Great Clowns.
Mr. Joe Pentland, the Couple's Clown; Mons. Francois Louiset, the French Grotesque; Mr. E. Crouette, the Shakespearean Orator; Mr W Donovan, Funny Philosopher.

The Leaping Buffaloes
From the Prairies of the Far West, are not the least of our attractions.

The Stud of Horses and Ponies comprises the
Finest Specimens of Horseflesh
ever collected together on either Continent.
Everything is New. New Waterproof Pavilion. New Carriages. New Harness. New Seats. New Wardrobe. New Properties, and New Ideas without number.

The GRAND CORTEGE will be headed by the New and Beautiful BAND CHARIOT, containing PROF. CHAS DOSWOLD'S Full Opera Band, from New York.

The New Waterproof Pavilion will be
BRILLIANTLY LIGHTED
With Reichmann's New Patent Chandelier.

Notwithstanding the inescalculable expense attendant upon the enormous combination of Novelties, the
PRICE OF ADMISSION
Will be only.....50 Cents.
Children, under 9 years of age.....25 Cents.
To all parts of the Mammoth Pavilion.
NO STANDING ROOM. SEATS FOR ALL.

BELL'S EXTERNAL REMEDY,
Price Two Dollars, sufficient for a month, can be used to good advantage.
It gives Strength to the Organs, and, with the Pills, will restore them to their normal condition.
A Pamphlet of 100 pages, on the ERRORS OF YOUTH, designed as a Lecture and Caution to Young Men, Sent Free. Ten cents required to pay postage.

CAUTION.
The above Remedies have now been before the Public many years, and their great success in the alleviation of human misery, has excited the cupidity of several parties, who use the name "Specific Pills," copy my labels, circulars and advertisements, sometimes word for word, and put up worthless compounds that disappoint the just expectations of the purchaser.

If you cannot purchase BELL'S SPECIFIC REMEDIES of your Druggist, take no other, but send the money direct to
DR. JAMES BRYAN,
CONSULTING PHYSICIAN,
819 Broadway, New York,
and you will receive them by return mail, postpaid and free from observation. Je30-eodeow-ly

TO LADIES.
If you require a reliable remedy to restore you and remove Irregularities and Obstructions,
WHY NOT USE THE BEST!
Every Lady knows the slightest irregularity of nature is liable to bring on Headache, Giddiness, Low Spirits, Fainting, Hysterics, &c.; then the bloom of health fades, the appetite fails, and other symptoms more distressing commence, as—Weakness, Spinal Complaint, the Whites, Prolapsus, &c., &c.
A NEVER FAILING REMEDY will be found in
Dr. Harvey's Female Pills.
The experience of thirty years has proved they have no equal for removing Obstructions and Irregularities, NO MATTER FROM WHAT CAUSE THEY ARISE. They are Safe and Sure in every case. Upwards of 60,000 Boxes are sold annually and no complaint of their efficacy is ever heard, for they accomplish what they are represented to do.
Sold in Boxes, *containing Sixty Pills.* Price One Dollar.

Dr. Harvey's Golden Pills
Is a remedy four degrees stronger than the above, and intended for special cases of long standing.
Price Five Dollars per Box.

A PRIVATE CIRCULAR to Ladies, with fine Anatomical Engravings, sent free on receipt of directed envelope and stamp.
Send for DR. HARVEY'S PRIVATE MEDICAL ADVISER, addressed to Females—64 pages—giving full instructions and information. 10 cents required for postage.

If you cannot purchase the Pills of your Druggist, they will be sent by mail, *post paid*, secure from observation, on receipt of money, by

GREEN'S
SELF-FASTENING
BUTTONS
(GENGEMER'S PATENT.)
PUT ON AND TAKEN OFF in a MOMENT by any one, without sewing, eyelet, screw, rivet, or cut in the cloth. First premium awarded by American Institute in September, 1865. They can be changed from one garment to another in an instant, and as they never rull off nor tear the cloth, they are the only reliable BUTTONS FOR MEN'S AND BOYS' CLOTHING; the most convenient BUTTONS FOR LADIES, as by their use the appearance of the garment can be altered to suit the taste on occasion. For the ARMY AND NAVY they are invaluable, as they can in an instant be exchanged for a new set removed for cleaning, or changed for plain covered buttons when desired. They have been adopted by tailors and clothiers, and those who have used them will have no other. In order to let the public at once see the great advantages of these goods we offer to send by return mail, postage prepaid, on receipt of price, one set SLEEVE BUTTONS, Ladies' or Gents', Plain, 40c; Fancy, 50c per set; 1 doz. Suspender Buttons, 40c; or one ASSORTED BOOK containing 1 doz. Shirt, Pantaloon, vest, pants, and overcoats at $1.75 per box. A full descriptive list, from which any style of Button can be ordered, will be sent by mail on application. Call or address W. B. WATKINS, Sole Agent, No. 416 Broadway, corner Canal st., New York. P. O. Box 6585. Please state where you saw the advertisement. Show this to your friends.

CHEROKEE CURE,
THE GREAT
INDIAN MEDICINE,
Cures all diseases caused by self-abuse, viz:—*Gonorrhœa, Seminal Weakness, Night-Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Insanity, Consumption,* and all diseases that follow as a sequence of youthful indiscretions.
The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.
Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,
Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits,* and all diseases that require a diuretic, and when used in conjunction with the
CHEROKEE INJECTION,
does not fail to cure *Gonorrhea, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days,* and is especially recommended in those cases of *Fluor Albus or Whites in Females.* The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.
Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " $3, " $8.
The Cherokee "*Cure,*" "*Remedy,*" and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money on the strength of this popular name.
Be not deceived. If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us *in perfect confidence.* We choose to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

The Chronicle.

☞ A man living at a village near Mobile, on Monday night attempted to frighten some girls by wrapping a white cloth round his body and personating a ghost.—All ran but one, who pulled out a revolver and deliberately fired six balls into the head and body. At the first shot the ghost fell, but she continued firing. She then went home and related the circumstances, and parties returning to the spot found life completely extinct, two balls having penetrated the forehead and the other four the region of the heart. The sympathy of the people favored the girl, and she has not been arrested.

A REMINISCENCE.—After one of the large fires in Portsmouth, N. H., early in this century, Rev. Joseph Buckminster preached a sermon in which he spoke of the calamity as a visitation of Providence, showing the divine displeasure because a Universalist minister had been allowed to officiate in the town! This exclusive interpreter of the counsels of the Almighty, as he understood them, was the father of the gifted Rev. Joseph E. Buckminster of the Brattle Square Church in Boston, a young divine of unsurpassed eloquence, who was foremost among earliest advocates, in New England, of a liberal theology not far removed from that which met with the denunciation of his immediate progenitor.—Still the scholarly apostacy of the son is not, we suppose, to be deemed a retribution upon the narrowness of the father,—who was, in his day, a man of marked abilities.—*Transcript.*

— "Cholera bullets" is the fit name given by the Philadelphia Ledger to unripe green apples just coming to market.

— The Lynchburg Virginian says there are vast numbers of young men living in idleness at the South, who are poor and must come down to manual labor for a living.

— A balloon that escaped from Hartford on the Fourth of July, was caught in Stratford, N. H., two hours and forty minutes afterwards, having in that time travelled between two and three hundred miles.

— The Rev. Hamilton Paul, a Scotch clergyman, on receiving the presentation to the church and parish of Broughton, near Edinburg, recently preached a farewell sermon to the ladies of Ayr; and not a little to the surprise of his audience, gave out his text: "And they fell upon Paul's neck and kissed him."

WEDNESDAY, JULY 18, 1866.

PRESIDENT JOHNSON *sent* to the House of Representatives, *July* 16, his Veto of the new and *very mild* bill entitled, "An Act to continue *in* force and to amend an *act* to establish a Bureau for the Relief of the Freedmen and Refugees, and for other purposes."

The veto message is a rehash of "my policy," with verbal variations.

After the veto message had been read in the House, Mr. Eliot moved to make it the special order of the day to-morrow, but Mr. LeBlond, democrat, cried out to-morrow may be too late, and moved that it be voted on at once. The vote was ordered, check lists were in demand, and it was soon evident that the ayes had it; and they had, for Mr. Speaker Colfax announced that *one hundred and thirty* Representatives had voted that the bill should become a law notwithstanding, while only *three and thirty* had voted nay.

No time was lost in sending the bill to the Senate, where the Pacific Railroad bill was promptly laid one side that the veto message might be read and condemned. In vain did Senators Saulsbury and Hendricks point out the misconduct of some of the Bureau officers, and endeavor to show that the bill was unconstitutional. They were listened to patiently—with the thermometer at 92 in the Senate Chamber—and it soon became evident that the Union men meant to remain in session until they could vote, if they sweltered all night. At half-past 5 the vote was taken with the following result:—

Yeas—Messrs. Anthony, Brown, Chandler, Clark, Conness, Cragin, Creswell, Edmunds, Fessenden, Foster, Grimes, Harris, Henderson, Howard, Howe, Kirkwood, Lane, Morgan, Morrill, Nye, Poland, Pomeroy, Ramsay, Sherman, Sprague, Stuart, Sumner, Trumbull, Wade, Willey, Williams, Wilson and Yates—33

Nays—Messrs. Buckalew, Davis, Doolittle, Guthrie, Hendricks, Johnson, McDougal, Nesmith, Norton, Riddle, Saulsbury and Van Winkle—12.

Mr. *Foster*, President of the Senate *pro tem*, then announced that the bill having received a two-thirds vote of both Houses, the President's objections notwithstanding, it was now a law.

☞ A Washington dispatch says:

Gen. Ould, late rebel Commissioner of Exchange, is in Washington. He says the people of the South will send none but those who took part in the rebellion to the Philadelphia Convention, for the reason that there are none others in the South who have an ounce of brains. The South, he says, will soon resume control of the country, as before the war.

Exactly so: if that Convention (endorsed by Doolittle, Seward, Niblack & Co.,) could assume the powers of Congress. But we have heard sometimes of counting chickens before they were hatched; and it is possible that some of the eggs in this new basket may be addled or broken, as the old hen is rather nervous and fussy, cackling and stepping round.

☞ Attorney General Speed has resigned his place, in a very brief note to the President. In a letter to brother Doolittle, he defines his position—in which he does not agree with Doolittle nor Niblack, nor the rebels and their allies.

CABINET RUMORS.—The Tribune says Mr. Stansbury of Ohio, it is rumored, will succeed Mr. Speed, and Gen. Sharkey of Mississippi will probably be Mr. Harlan's successor.

☞ Rebels and traitors generally are pinning their hopes on the Philadelphia Bolters' Convention: it is to them a galvanic revival of the defunct Confederacy.

NEWS FROM EUROPE comes via Brest, July 6. Prussia and Italy have refused the armistice; the Italians have crossed the Po. The Austrians are increasing the fortifications of Vienna, and have 500 cannon in position; they have evacuated Lombardy, and retired across the Mincio. A Prussian army has entered Bavaria.

ROBBERS ARRESTED.—In New York city, John Lynch, a pawn broker, doing business at 78 Grand street, and Denis Ferguson, his former clerk, have been arrested on suspicion of being concerned in the great bond robbery last March, of Rufus L. Lord, banker, in Exchange place, by which $1,700,000 in government and railroad bonds, were abstracted. One of the bonds for $5000 was found on the person of Ferguson, and two of them for the same amount which were disposed of by Lynch to a gentleman in Detroit, who makes affidavit to having purchased them and others of the pawnbrokers.

MISSING SHIP.—The N. Y. Herald says the emigrant ship Monarch of the Seas, which left Liverpool for New York on the afternoon of March 19th, with a valuable cargo and 674 passengers, is now four months at sea and as yet nothing has been heard of her. It is feared some disaster must have occurred to the vessel and she has gone down with all on board.

THE SINGLE QUESTION.—We have before us a paper—which supports "My Policy," and which is ably edited by a man who holds a good office in a Custom House,—containing the following item:

The real issue in politics is fairly stated by the Boston Post, when it says—"There is really but one question now, whatever may be said for tariffs, freedmen's bureaus, neutrality laws; claims against England, or anything else. That question is, whether the eleven States, formerly insurgent through their population, but now *ready* to perform their *rightful* duties again in the Union, shall be allowed legal representation in Congress and participation in national affairs.* That is the *sole issue* on which the candidates for the national legislature will go before the people this fall. It is not negro suffrage; it is not the payment of the public debt; it is not, in fact, any one of those other questions of prime importance ordinarily, which must wait now upon this. We are come at length to a point beyond which we cannot proceed in the direction marked out by the revolutionists, and still remain a nation.† The issue is a plain one, and *presented* by the *radicals* themselves.‡ It will be answered in every school district where voters are called on to give their ballots this fall.§

NOTES: *Never could a question be more unfairly stated than this. It is exactly the Johnsonian statement, worthy of the father of big stories himself. It assumes, as its basis, a downright falsehood, viz: that the eleven States are "*ready* to perform their *rightful duties*,"—but the very opposite is true, viz. that the ex-rebels who now bear rule there now are only *ready* to resume the *power* which they forfeited by secession and lost by rebellion and civil war, and do what they please as sovereigns:—ready to rule the Nation, by a most *unequal and unfair representation*, aided by their old allies and servants, the doc faces of the north. And the true question is, *Shall they do it?* The snobs say Yes:—but the people say No:—and their Representatives say No: by a three fourths vote.

†What does the writer mean by this? and what does his echo mean? Do they intend to raise a new rebellion, or to revive the one just quelled by the *terrible war, of* which Gen. Grant *said, it ought* to have *gone on* one year more, to subdue the rebels more thoroughly? It sounds exactly like the crack of the old plantation whip, as we heard it in Frank Pierce's time, from C bb, and Orr, and Lane, when they began their great talk by telling us,—We are not going to discuss the right and wrong of slavery—but to hold you to the duty—[of returning fugitives, swallowing the Kansas swindle, &c.,] and if you don't, Georgia will go out of the Union! But we don't believe Georgia will go out again; and perhaps the Boston Post may conclude to stay with us, even should the people of Massachusetts not send "my policy"-men to Congress.

‡The Radicals have made a plain *issue*, to be sure,—but not such an one as is here suggested. The writer who makes the suggestion knows full well, that by one of the most unjust and unequal provisions of our Constitution, three-fifths of all slaves were added to the numbers of freemen, in apportioning representatives—and that the freeing of all those, by the war which was waged to preserve and extend slavery, would increase the representation of the *eleven* States, beyond all due proportion,—unless some change were made. Congress proposes to make to make this change, so that New Hampshire and Massachusetts shall have as many Representatives in proportion to their voters, as South Carolina and Mississippi. No one *can* say this is *unjust!* Mr. Johnson says it would be fair—but—but—better not make the change now:—wait till all the States are represented and then! Then what? Then he knows that the ex-rebels and their northern *tools* would combine together to preserve and perpetuate the *inequality*. And to this, men calling themselves democrats, say Amen. But the people have some voice in it, and they will say No.

In place of any argument of ours, we copy a few lines, from a letter of Speaker Colfax, who has just been nominated for re-election as a Representative in Congress, from Indiana.

The contest before us is of as vital importance to the truest and best interests of the nation as the exciting contests of 1860 and 1864, and the issues should be clearly and distinctly before the people. They can be condensed into a single question: "*Which shall govern in the councils of the Nation, Loyalty or Disloyalty?*" * * * If the President could rightfully require their ratification of one amendment, changing their whole system of labor, and destroying what they regarded as vested rights of property, proposed by a Congress in which they were unrepresented, and in conflict, as it was, with their life-long prejudices, why cannot the Congress elected as the law-making power of the country, by the same voters as himself, require the ratification of another amendment, preventing the rebel States from wielding increased power in Congress hereafter, because of the war, which, against their desires, had lifted their slaves into the full stature of Freemen?

That this amendment is in accordance with the wishes of the loyal millions who won the brilliant political victory of 1864, is proven by the unanimity with which it was supported in the House of Representatives. Every man elected as a Union member, whether from the North or the South, from the East or the West, gave it his vote, not barely the two-thirds required by the Constitution, but nearly four-fifths. On this amendment, as a security for the future, the Union party of the Nation have planted themselves and I shall stand with them most cordially, vindicating its justice, wisdom and necessity, and willing on it to stand or fall.

For one, I do not doubt the result. Shall rebels settle their own terms of coming back to govern us? Shall they reascend to enlarged and increased power, using as steps the graves of the Union dead?

§Exactly so: it will be answered. U. T.

☞ Post-Master Gen. Dennison's letter of resignation to the President, reads thus:—

Sir: I have the honor to tender you herewith my resignation of the office of Postmaster General, to take effect upon your notifying me of its acceptance. In thus withdrawing from your Cabinet it is proper to say that I do so chiefly because of the difference of opinion between us in regard to the proposed Amendment of the Constitution, which I approve, and the movement for the Convention to be held at Philadelphia on the 14th proximo, to which I am opposed. My confidence in the patriotism of the Union Republican party, and conviction that upon its permanent control of the government depends in a large measure the peace and happiness of the country, will not permit of my holding an equivocal attitude in respect to it. Assuring you of my personal regard and appreciation of the uniform courtesy I have received from you, I am very respectfully, yours, &c.

CONGRESS AND THE PORTLAND SUFFERERS.—The bill reported in the United States Senate on Saturday, and ordered to be printed, authorizes the President to cause to be purchased such provisions and clothing, and such other articles as he shall deem advisable, and to tender the same in the name of the Government of the United States to the State of Maine for the relief of the citizens who have suffered by the late fire in the city of Portland. It appropriates a sum not exceeding fifty thousand dollars.

NEW HAMPSHIRE ITEMS.

—— George S. Chase of *Chester*, graduated *lately* at Newton Theological Seminary. The subject of his oration was "The fellowship of the Churches."

—— Rev. J. M. Coburn, has closed his pastorate with the Baptist Church in Brentwood.

—— Wm. B. Small, Esq., of Newmarket, has been appointed Solicitor for Rockingham Co.

—— Woodbury L. Melcher, of Laconia, has been reappointed Register of Probate for Belknap Co.

ORDINATION.—Mr. Theodore Moses, a member of the Free Baptist church in Danville, was ordained in that place as an evangelist a short time since. Prayer by Rev. W. Stewart of Sandown; Sermon by Rev. J. Mariner, of Haverhill; Prayer of Consecration by Rev. J. Fullonton, of Raymond; Charge, by Rev. P. S. Burbank, of Danville; —Right Hand of fellowship, by Rev. E. Manson, of Newmarket.

☞ Gen. Dix has written a letter to brother Doolittle, endorsing the Philadelphia Convention.

— Isaiah Freeman (colored) baggage-master of one of the Portland and Kennebec railroad trains, fell between two cars while in motion on Saturday and was killed.

— It is understood that the Supreme Court of Kings County, Brooklyn, will give a decision in favor of the constitutionality of the Excise law. This will compel its enforcement in Kings County, while it is disregarded in New York, awaiting the action of the Court of Appeals in September.

ONE OF THE GREATEST causes of ill health is costiveness, or indigestion. It has for its offspring, dyspepsia, with all its attendant miseries, such as sick headache, sour stomach, no appetite, no energy, in fact, complete prostration. Coe's Dyspepsia Cure is a sovereign remedy; why do not you who are suffering make the experiment of the trial of a single bottle; it costs but a trifle to taste it, and will surely bring you relief.

Holloway's Pills.—Bilious Fever.—This dangerous disease is immediately nipped in the bud by a timely use of these anti-febrile and corrective medicines; they purify the secretions of the liver, renovate the stomach, and cleanse the blood. Thousands who would have sunk beneath the violence of this fever, have been restored to health by the use of these remedies, after all other means had failed. Sold by all Druggists.

— Sarah Duckley, four years old, was burned to death at her father's residence in Providence, Wednesday night. Playing with matches did it.

— Three girls, 7, 9, and 11 years old, respectively, were drowned at Haverhill, Mass., on Friday, while bathing. Two were sisters.

— James Lynch, Jr., of Lowell, was killed on Saturday afternoon near that city. He jumped off a freight train just as the regular passenger train passed along, and was knocked down and so severely injured that he lived but a short time. He was twelve years of age.

— The greatest discovery of the age is the new soap just come out, and known as the J. Monroe Taylor Gold Medal Soap; it not only saves time in washing, but does the work in a much superior manner to all other soaps before the people. The makers claim it is manufactured on an entirely different principle, and that it is a great labor-saving article, besides going much further than any other soap. Our experience confirms all the Inventor claims for it. Try it and we think all will be convinced of the fact, and will ever have the Gold Medal or none.

PERRY DAVIS' PAIN KILLER,
As an internal remedy, has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, Dysentery, and Asthma, it cures in one night, by taking it internally, and bathing with it freely. It is the best liniment in America. Its action is like magic when externally applied to bad sores, burns, scalds, and sprains. For the sick headache and toothache, don't fail to try it. In short, it is a Pain Killer.
PERRY DAVIS' PAIN KILLER.—This medicine has become an article of commerce, a thing no medicine ever became before. Pain Killer is as much an item in every bale of goods sent to country merchants as tea, coffee, or sugar. This speaks volumes in its favor.—GLENS FALLS MESSENGER. Jy1—dawlm

PURIFY THE BLOOD.—If the blood be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, it shows a taint in the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as if

Bereft by Lightning.

Now, this can be remedied.

BRANDRETH'S PILLS

Local.

☞ We got almost a dollar's worth (of heat) yesterday. The thermometer told of 98 in the shade, and we *heard* of those that marked 100; but ours ran high enough for us, and we didn't seek further.

A joiner named Edward Bowman, from Kittery, who was at work on a roof in Cabot street, was severely sunstruck on Monday morning. There was also a report of a young man in Greenland being similarly affected, but we learn that his case was only slight faintness.

☞ We were in error, the other day, in stating that the proposed extension of Anthony Street across Middle, toward South Street, through the new premises of Messrs. Odion, Peyser and others, was to be called by the same name, "Anthony." We learn that it will be called Union Street, and that it will be laid out as soon as circumstances and the heat will allow; as will also, as far as may be, the new Lincoln Avenue, which is to cross it, running parallel and between Middle and South Streets. Union street will be a good place to secure a nice lot; and now, if other business be dull, is just the time to build houses and roads.

By the way, how comes on that bridge across the North Mill Pond? Don't let that "fall through" before it is built.

☞ Our old correspondent "B." wants to know why the Indian Corn and Rye Meal carts stopped circulating, which we used to have years ago? and he thinks that inasmuch as these coarse meals are better, cheaper and more healthful than so much fine flour (of which there is no doubt), it would be a benefit to the community for a cart with good corn meal and *pure* rye, to go round; and he further thinks a good man would make a good business of it.

THE ALLEGHANIANS TONIGHT.—This famous company of vocalists and Swiss bellringers, whose reputation as finished artistes is a household word among the admirers of music all over America, no less than in Europe, whence they have but just now returned after a most successful tour, in which they have delighted all classes from the royalty down;—or *up*, as our republican readers choose,—appear at the Temple this Evening. It will be the most pleasing entertainment of the kind that our citizens will have enjoyed since this incomparable company were here last.

☞ To the "cant-get-aways" the Saturday evening trips of the steamer Pioneer, prove quite a treat. Her second trip to Portland on Saturday evening last was enjoyed principally by a jolly crowd from Concord, who bore away a mass of trophies from the ruins of the great fire, and contributed liberally to the support of indigent fishes on the route. "Perkins" caters for the boat, so there is no danger of hunger or thirst. We hear a trip to Gloucester and Boston is contemplated.

☞ Adm. Bailey and a number of other officials and friends made a trip in the Port Fire on Tuesday.

OUR SUMMER RESORTS.—Mary W. Janvrin, in a long article on watering places, in the Philadelphia Home Weekly, continues from Saratoga and Newport, and "with the *freshest of salt* water breezes, we flit northward to the Granite State."

New Hampshire can boast but a short extent of seaboard, but it has two of the finest beaches in New England. That at Hampton presents a splendid line of sands for driving and walking; and from "Great Boar's Head"—a bold, abrupt promontory—can be obtained a wide view of sea and sky, the offing dotted with white sails, and, in the distance, "the Shoals," a group of islands which attract hosts of visitors, who put ten miles between them and the main land.

Rye Beach, however, seems destined to bear away the palm, as *the* resort, *par excellence*, of style and fashion. First-class hotels, with shade-trees and gardens—drives to the neighboring rural towns of Greenland and Stratham, Portsmouth with its Navy Yard, and elm-shaded classic Exeter—cannot fail to render Rye a most attractive summer home for those of quiet tastes; while hops at the "Ocean House," the "Atlantic," and the "Surf," and the usual sprinkling of the *creme de la creme* and celebrities, hold out a bait to those who float "with the tide."

Wells Beach, in Maine, some thirty miles down the coast, claims its share of friends, and the seaboard of the large Pine Tree State gives as many crowded summer resorts.

But, turning from the salt breezes, what say you, reader, to an inland trip, in search of a *fresh* watering-place?

You have trodden the pilgrimage haunts of the Old World, perhaps—lingered by Como, Lucerne, and Killarney—crossed the Hellespont, the Grecian Archipelago, and sailed down the Rhine; but have you ever glided over the bosom of the blue, island-studded Winnipiseogee, in the Switzerland of your own America?

"A thing of beauty is a joy forever." So is a recollection of some pleasant experience of travel—a fair picture hung in memory's halls, to be gazed upon throughout all our after years. And thus we think of that first sail over that lovely lake, with the blue, cloud-flecked sky mirrored in the translucent depths below, the green wooded isles on either hand, the hilly vista opening at Alton Bay, the bold Ossipee range on the right, growing ever bolder as you sailed into the heart of the country, and at length a glimpse of Mount Washington, lifting his snowy peak against the northern sky.

☞ The steamer Speedwell, under command of Capt. Thornton, started on a trial trip of a hundred miles, on Tuesday.

☞ In consequence of the extreme heat, work was suspended at the Navy Yard on Tuesday.

POLICE COURT, July 17.—Geo. Mitch, charged with an assault, was discharged, the complainant not appearing.

☞ We learn that a friendly game will be played by the Base Ball Clubs of this city and Kittery, on Saturday next, at the Plains.

☞ Thanks to C. V. Dearborn, one of the Bank Commissioners, for a copy of the very interesting and valuable Annual Report of the Banks in New Hampshire.

☞ A Chicago dispatch of Monday says a fire that day destroyed all the frame buildings on State street, south of Polk street, for half a block, and south of Peck court the same distance. Thirty frame buildings, occupied as stores and saloons below and tenements above, were consumed. Two hundred and fifty families are houseless. Loss $100,000.

☞ The large iron safe of the Portland Gas Company was opened on Friday of last week, and its contents—all the records and books of the company and about twelve hundred dollars in money—were found burned to cinders.

The safe in the Portland Advertiser office—an ordinary and an old one—went through the great fire and came out all right, its contents not being injured in the least.

☞ In New York city, on Monday, no cases of cholera were reported by the Board of Health, though the police say there have been several cases. There were 820 deaths from all causes last week, being an increase of over 100 cent. in five weeks.

— Last Sunday evening two men, named Jenkins and Cunningham, of East Burke, went to a vile place in East Haven, Vt., where they found two men, one named Pierce, and the other named Bean. A quarrel ensued, in which Pierce and Bean were so badly beaten that Bean died in about an hour, and Pierce could not be removed.

— A telegram from Augusta, Ga., says the Equal Rights Assocation, of Georgia, under the conduct of Gen. Tilson, have endorsed the course of Capt. Bryant of the Loyal Georgian in defending the loyal living and dead.

— A telegraphic special states that a report is circulated in Washington that Gen. McClellan has been invited home to succeed Mr. Stanton in the War Department.

— Many cases of sickness, and some of death, by sunstroke, are reported in the cities.

Ayer's Pills.

ARE you sick, feeble and complaining? Are you out of order, with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, and by their action on obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, re-act upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure.

For the Speedy and Certain Cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by all Dealers in Medicines everywhere. Jy2

Elegant Residence for Sale.

[On account of removal of owner.]

The well known and beautifully situated CUTTS' HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, *Esq.* The House contains eighteen rooms, with elegant bath-room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.

The House is in excellent repair, having been thoroughly refitted a year or two since, while its proprinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.

The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first class wine cellar. The house is fitted throughout with Straw Matting.

The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.

If desirable, more land, adjoining, could doubtless be purchased.

The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is undrained with stone, and laid with shells.

THURSDAY, JULY 18, 1866.

PORTLAND WATER WORKS.—Six years ago Hon. F. O. J. Smith, of Westbrook, *offered* to bring the water of Sebago lake *into* this city at his own expense, running his water pipes through all the principle streets, and supplying the city and all the citizens with a bountiful supply of water at the same rates charged in Boston and New York. And yet the city government refused to grant him the legal power to do so. What consummate foolishness and suicide. Look at your ash heaps to-day, as the result.—*Portland Advertiser*, 6th inst.

We suppose the city government rejected this good offer because they distrusted Mr. Smith, and feared some sinister design on his part. This reminds us of a good proposition mad by Amos Kendall, when he was Post Master General. The British Government had introduced the Money Order System,—at the end of a year it was found to have worked well: and Kendall recommended the same process here: but Congress, distrusting him, threw out the plan at once; and so our country was denied this privilege for 25 or 30 years.—Yet every sane man must see that the order system, while it profits the government, is a great favor to the people;—and that plenty of good water would be a great blessing to the people of Portland, tho' it might also put much money into the already well filled purse of Mr. Smith. U.T.

GEN. SHERMAN, on his way to Hanover, Tuesday, encountered at Franklin a large crowd assembled at the depot, who cheered lustily. On the arrival of the train the General stepped to the platform, when the inevitable hand-shaking followed.

At Enfield there was a similar demonstration, and with a very agreeable addition in the shape of a large and tastefully arranged boquet, to which were attached two streamers of white ribbon with the words "Gen. Sherman, Enfield, N. H.," worked upon them in red and blue silk. The bouquet was presented to the General by two young ladies, and handsomely acknowledged by him at length.

At Hanover the General and his party are the guests of Dr. Dixi Crosby. In the evening the Address before the Theological Society was given by Rev. E. N. Kirk, D. D., of Boston; and as it closed, the students and the public, accompanied by the Germania Band, repaired to the residence of Professor Dixi Crosby to serenade and call out Gen. Sherman. The house was decorated with flags and the grounds about it were finely illuminated with Chinese lanterns. The band played several patriotic airs with fine effect. A young man then crowded up near the doorway and proposed three cheers for "the hero of Atlanta, the defender of the nation and the terror of all its enemies." The cheers were given in a most enthusiastic manner. Soon afterward Gen. Sherman appeared, and the usual civilities were interchanged. The presence of Gen. Sherman is the marked feature of the Commencement, and gives an unusual interest to all the exercises.

Mr. Chief Justice Chase is the guest of Hon. Mr. Patterson, Senator elect. Gov. Smyth and lady are stopping with President Smith. Judge Nesmith of Franklin, Hon. J. A. Eastman of Concord, Hon. Amos Tuck of Exeter, and Rev. A. H. Quint of New Bedford are among the noted persons present.

NEW HAMPSHIRE ITEMS.

—— Tuftonboro, it is said, has no resident lawyer, and no dram shop.

—— Walter Willard, Ossipee, attempted suicide on the 4th of July, wounding his throat with a razor; but lingered till the 14th, when he died. He lost all his possessions by fire, last December, and brooded over the loss in a gloomy way, till he died.

☞ The Second Parish in Portland, (formerly Dr. Payson's, now Dr. Carruther's) have resolved to keep together, and build a new meeting-house in a better place.

☞ A Humpback Whale has been in Portland harbor, and passed up beyond the bridges, almost on dry land; was attacked and wounded, but got to sea again, alive and active.

FATAL RESULT.—Mrs. McDermott, who was struck several times with a hoe and otherwise injured by her husband, while working in a field near the Town Farm, in Waltham, on Wednesday, is said to have died from the injuries she received.

— Valuable gold discoveries in Georgia are reported.

— Some scamps are swindling the servant girls in New York, by stating that the Pope intends to present each of the faithful with a Bible, and that the binding can be at the choice of the recipient by paying from $1 to $2.

— When General Gregory went to Texas he visited a lawyer at his office and asked him for a copy of the laws of Texas. The lawyer opened a drawer, took out a large and handsome bowie knife, and gave it to the General.

For the Chronicle.

SALT WATER BATHS.—Is it not a burning shame, that Portsmouth, surrounded as she is with ocean water, has not a single place where the citizens may with impunity and legal rights—enjoy its cooling effect during this hot weather? We have blushed more than once at the very thought, during our late heated term. Here we are with the pure sparkling water on every side of us, and yet without the power to avail ourselves of it. In Boston the city authorities have felt the need of this sanitary and pleasant luxury, and appropriated ten thousand dollars for public baths, of which they have completed six upon the turbid waters of Charles river; and thousands of its citizens are now daily enjoying the benefits thereof.

Shall we not at least have one upon our blue river: if not public, at least open to those who are willing to pay for its use? A subscription paper may be found at the store of J. Hiller Foster. Already the sum of five hundred dollars has been subscribed, in shares at ten dollars each, but it is necessary to have double that amount, in order to make such an establishment as is needed, of which the ladies shall have a share, who will appreciate the luxury to its fullest extent. There is no reason why every person should not be able to swim, and it is a far more desirable accomplishment than flying. It is positively embarrassing to hear a lubberly young man confess that he *can't swim*, especially one who has lived thirty years within splashing distance of the water. Whoever is interested in this matter, old or young, male or female,—now is the time to secure this blessing for the next summer. Call at once and subscribe for shares in the new bath house, which will be located somewhere within easy reach upon our river, if a sufficient sum is subscribed to obtain it.

THE NEW YORK CIRCUS.—The famous equestrian establishment, hailing from the New York Hippotheatron, opposite the Academy of Music, is to perform in this city today (Thursday), afternoon and evening, on Middle street.

There is no form of amusement that gives more general delight than the circus. Agility and brilliant equestrianism are admired every where. The ancient Greeks recognized these achievements as of special merit, and the winner of a prize at the Olympic games felt his consequence, and was approved in that feeling as much as a successful candidate for Congress with us. Human nature is the same now, and the performance of which we speak, if common report may be relied upon, is really of the highest order, and introduces many new and wonderful feats. The company has been performing in New York for a season of ten months, previous to its setting out upon the eastern tour, before the most fashionable audiences.

The following eulogistic notice is copied from the Boston Evening Gazette:

First comes the imposing, glittering, spirit-stirring "grand entree" of men and horses, costumed and caparisoned in the most gorgeous manner. Then follow athletic feats on the horizontal bar by a half dozen gymnasts, some of whom display very remarkable muscular power and practice, swinging their well-formed bodies over and around the bar (to which their hands cling) with such rapidity that the eye can hardly follow the whirl.

Then Mr. James Madigan shows his skill as a rider on one of the broad-platformed saddles—Mr. Crossete (the clown) accompanying the performance with many original and timely witticisms, freshened by a choice selection of language and a lively delivery. Then Mr. Ducrow goes through any number of feats on the slack rope, in excellent shape.—After that, two acrobats of the grotesque order—Messrs. C. Madigan and W. A. Donovan—perform prodigies of skill and strength, upon the ground, in the gymnastic art. Then one of the two chief stars of the company, M'lle De Berg, flashes upon the sawdust horizon, and dazzles the spectators into enthusiasm with some very daring exhibitions of horsewomanship, made none the less interesting by one or two failures in the first attempts at critical points, which show that even to her the achievements are by no means easy.

The Levantine Brothers go through their trapeze act, made doubly dangerous by the presence of a blazing gas fixture directly in the way of a fall. After the Olympian wrestlers' scene on two horses, very finely done by Messrs. Cooke and Madigan, and the display of a very beautiful little Arabian horse which has been taught the familiar tricks, and some clever fooling by the ancient clown Joe Pentland, come rapid series of interesting lofty leaps from a spring-board by the gymnasts of the company, three of them managing to vault over seven horses placed side by side, and Mr. Cooke accomplishing a clear leap over nine horses.

The next act is the chief point of interest in the programme, introducing the great rider, Mr. James Robinson, on his bare-backed horse. Mr. Robinson certainly surpasses all others that we have ever seen in his difficult business, and is accompanied during a part of his ride by a very little and very pretty child, apparently utterly ignorant of fear. But we will not attempt to describe the different feats of this truly great horseman, but would advise every admirer of the noble art to go and see for themselves.

— Gen. Sheridan says the United States troops ought not yet to be removed from the South.

— Louisiana will probably send two sets of delegates to the Philadelphia Convention, one composed of original Johnson men and the other of Democrats.

— Mary Lines, an operative in the Massasoit mill, at Fall River, who recently came from Ireland, died suddenly on Friday from congestion of the brain, supposed to have been caused by drinking too much water.

THE U. S. SENATE on Tuesday, passed a bill to revive the grade of General in the army. It provides that he shall have the pay of $400 per month, with $300 per month for fuel and quarters while stationed at Washington, and the other allowances now drawn by the Lieut. General. The aids on the General's staff are not to exceed six in number, and are to recieve the pay and emoluments of Colonels of cavalry.

Before adjourning for dinner, the Senate had a brief executive session, in which they confirmed two Western revenue officers and rejected five.

The evening session of the Senate, from 7 until half past 8, was well attended, considering that the thermometer marked 95 degrees of heat in the Senate Chamber.

Senator Clark presented his bills for the payment of private claims, and they were successively passed, such is the confidence in him.

IN THE U. S. HOUSE OF REPRESENTATIVES, on Tuesday, the case of Rousseau for assault on Grinnell, was brought to a vote. In the investigation of the case by the committee, so much was found in Grinnell's favor, that the House would not censure him at all, only nine members rising to call for yeas and nays. A motion to expel Rousseau, failed,—not getting two-thirds. The House then voted, 89 to 30, that Rousseau be brought to the Bar of the House, and reprimanded by the Speaker.

Just before the resolution passed, Gen. Rousseau left the Hall, so the Speaker had no opportunity to execute the order of the House. It is understood that Rousseau will tender his resignation.

Some excitement was created during the debate, by an assault committed in one of the halls of the Capitol, on one of the clerks of the House, who is also the correspondent of the Philadelphia Inquirer. The House immediately ordered a special committee to investigate the assault.

Plantation manners in the Capitol, are the natural produce of "my policy."

ONE DAY LATER FROM EUROPE, *via* Liverpool, 6th July:—the very latest advices state that Prussia and Italy have accepted the proposal for an armistic. The Prussians, however, had advanced further into Bohemia. Heavy cannonading had been heard on the afternoon of the 7th, in the direction of Konigratz. It was supposed that the Prussians were attacking the Fortress.

Prussia is to retain her present possessions and the troops to be supported by the countries occupied. Austria is not to increase her armies in the field. Italy is to occupy one Fortrees in the Quadrilateral. Italy in reply demanded the occupation of two Fortresses in the Quadrilateral.

The general opinion is that Napoleon will receive Sardinia in exchange for Venetia, and will either give that island to the Pope or keep it himself. Public sentiment approves of the transaction.

ITALY, FRANCE AND VENETIA.—The Paris La Presse of the 7th has the following:

"King Victor Emmanuel has not at once acceded to the armistice proposed through France. He alleges as a reason that he has to consult with his ally, the King of Prussia. In consequence, the Italian government has been advised that it will have to cease immediately every act of hostility against Venetia, it being French territory.

A French commissioner is going at once to Venice to assume its government in the name of the Emperor. Orders have been issued to the French squadron in the Mediterranean immediately to repair to Venice, and hoist the French flag instead of the Austrian upon all the fortified posts on the Venetian coast.

The cession of Venice to France is complete and definite, and without any other condition on the part of Austria except to withdraw the guns and all munitions of war in fortified places within forty-eight hours. The whole of Venetia will be French territory, and it will depend upon the good will of France either to keep or to part with it.

It is the intention of Austria to continue the war against Prussia if she perseveres in her pretensions as asserted in her project of Federal reform communicated to the Governments of northern Germany. The Austrian Emperor declares his resolution to transfer his capital to Pesth should he be unable to defend Vienna, and to call to arms the whole population of his States.

TUESDAY was called the hottest day ever known in New York city. Thermometer stood at 104 in the shade. There were 43 cases of sunstroke, 23 of which proved fatal. There were nine fatal cases out of sixteen in Brooklyn.

The total subscriptions for the Portland sufferers amount to $109,553.

Seven counterfeiters of National currency were arrested, and a large amount of bogus money, plates, &c., secured. The parties arrested are believed to be leaders of an extensive gang.

One hundred and fifty-eight burial permits were issued, eighty of which were made out and recorded as burial permits for persons deceased after short diarrheal diseases.

— Herrick Allen's Gold Medal Saleratus is clarified and concentrated in such a manner as to render its use much more economical and healthy than any other. For culinary purposes it cannot be equalled in the world. A lady who has tested its merits, refuses to try any other. It is much better than soda, and is perfectly healthy. Try it. PERRY DAVIS' PAIN KILLER,
As an internal remedy, has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, Dysentery, and Asthma, it cures in one night, by taking it internally, and bathing with it freely. It is the best liniment in America. Its action is like magic when externally applied to bad sores, burns, scalds, and sprains. For the sick headache and toothache, don't fail to try it. In short, it is a Pain Killer.
PERRY DAVIS' PAIN KILLER.—This medicine has become an article of commerce, a thing no medicine ever became before. Pain Killer is as much an item in every bale of goods sent to country merchants as tea, coffee, or sugar. This speaks volumes in its favor.—GLENS FALLS MESSENGER. Jy1—dawlm

Perry's Moth and Freckle Lotion.
☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Freckles, or Freckle-face, are very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the skin or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these disagreeable blemishes, which is at once prompt, infallible and harmless.
Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price 82 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.
These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. Price $1.50.
Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. Price $1.50 per bottle.

PURIFY THE BLOOD.—If the blood be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as if

FREE TO EVERYBODY!
The Guide to Health and Beauty,
JUST PUBLISHED.
It teaches how to remove Tan, Freckles, Pimples, Blotches, Moth Patches, Sallowness, Eruptions, and all impurities of the skin; how to enamel the skin, leaving it white and clear as alabaster; how to produce the fullest development of the female form (as practised by the French,) causing the bust to grow round and full, and if the form has been lost by padding, lacing, or maternity, restoring it to more than its original fullness, firmness and beauty. It teaches how to reduce in size the hands and feet; produce corpulency or the reverse; remove superfluous hair; cure Corns, Bunions, Warts and Moles; renew your age; cure Drunkenness, Catarrh, Dyspepsia, Nervous Debility, &c., how to fascinate and gain the love and affection of any person you may choose, together with other useful and valuable information. ☞ Early on Tuesday evening a drunken fracas occurred at the Shamrock House on Fleet street, which attracted quite a crowd and was ended by the appearance of the police. This Shamrock House is a rum hole of the lowest order; a disgrace to the name it bears, and through it an insult to every decent Irishman; a nuisance to the neighborhood, and a foul spot on the face of our city. In the space of thirteen days this reporter has witnessed two rows there, and would hazard no conjecture as to the number that have taken place without his knowledge. On Wednesday the den was closed, the keeper thereof resolving to "receive no more company," and we trust the police will see that the resolve is adhered to.

☞ The Festival Fair of the new Episcopal Church of Exeter,—to be held at Mr. March's beautiful seat in Greenland next Tuesday, will doubtless be one of the most attractive rural gatherings of the season. Admirers of nature and art, beauty and fashion; devotees of the church, and citizens of the world, will each and all find something to interest them: the beautiful spot will be enlivened by the crowd of visitors: and the object will receive a substantial benefit, from an individual fee so light as to burden no one.

Reported for the Chronicle.

POLICE COURT, July 18. — In these hot days which try men's gizzards, people will perspire and become thirsty; thirsty men will drink water, ginger pop, lemonade, ale or vile rum—and the choice of either of these beverages depends a great deal on the nearest place afforded for refreshment, Economically considered, it may be thought shrewd financiering on the part of the city to place no temptation in the shape of drinking fountains in the way of thirsty humanity, for the purpose of keeping men away from drinking saloons. Economical in one sense, perhaps, as the absence of pure cold water tends to increase the consumption of ardent spirits, increases intemperance, and intemperance increases the revenue of the city to the extent of \$6.86 for every poor individual sinner who is found guilty. And just at this time it is peculiarly economical to have the hitheto liberal supply of water furnished at dwelling houses down town, and at the pump back of the City Hall, fall short. Its decidedly economical, for is it not needed to make ale to supply the deficiency of water?

Three street drunks occupied the attention of the court this morning. Dan'l Hennessy, Owen Coleman and Thomas Armstrong, victims of the above mentioned economical arrangement, appeared in court after a thorough elutriation, and severally plead guilty to the charge of being drunk. The inevitable \$6.86 fine was administered to each, and the necessary stamps being furnished, the trio made their exit from public life and once more became private citizens, with demoralized pocket books.

FINE PAINTINGS AT 70 STATE STREET. Our citizens are being treated to an agreeable and unusual sight at No. 70 State Street, in the fine exhibition of upwards of one hundred and twenty-five fine Oil Paintings, which have been recently imported from Europe by L. A. Tolman, Boston. Wherever these paintings have been exhibited they have received very flattering notices from the press, which a visit to them will fully endorse and sustain. Our readers are invited to visit the collection, as by so doing they may realize all the enjoyment of attending an exhibition of beautiful works of art, free of cost, as well as avail themselves of the opportunity such a visit will afford to make selections for their drawing rooms. Open during the day, and in the evening from 7 to 9. The sale will commence at 2 this P. M. and 7 1-2 in the evening. q

☞ U. S. Steamer Resacca, Capt. J. M. Bradford, arrived at this Navy Yard from Washington, on Wednesday afternoon.
Steamer Speedwell also returned from her 100 mile trial trip. We have no particulars.

☞ The hot weather of Tuesday induced a great many mechanics and laborers to quit work, in city, village, and factory.

☞ "Sherbrooke," a good stout Novel, by the author of Madge, is just issued by D. Appleton & Co., New York, and may be had of J. H. Foster. It appears on cursory examination, as if it would read well; and we like the author's mottoes, at any rate: "There is a perennial nobleness in work;" and "Through wisdom is a house builded, and by understanding is it established, and by knowledge shall the chambers be filled with all pleasant and precious riches."

— Governor Boutwell will make his much talked of report on the complicity of Jeff. Davis with the assassination of President Lincoln before the close of the present session.

☞ Reports from Apalachicola, Florida, state that a schooner containing eighty-five negroes, enticed from various parts of the State, has been seized by the United States authorities. The vessel was about to sail for Cuba, where the blacks would be sold. The commander gave his name as John F. Bonner, from Cincinnati. He was arrested and placed under military guard.—The negroes had been told by Bonner that they were going to Texas to work on cotton plantations at \$25 per month in gold, and one-third interest in the crop. They will be sent back by the authorities to where they come from.

☞ The Freedmen's Bureau Commissioner in Arkansas, Missouri and the Indian Territory, estimates that 16,000 rations to the whites and 15,000 to freedmen will be necessary during August.

[And yet the President vetoed the bill for its continuance:—but Congress buried the veto,—and the people say, peace to its ashes, and those of its author.]

☞ At Great Falls, Tuesday evening, two young girls, named Stone and Maddox, were drowned while bathing in the river, stepping off beyond their depth. The mother of Miss Maddox, going to the rescue, was drowned also: she leaves a family.

— The War Department has ordered, at the instance of the President, that all persons undergoing sentence by military courts, and who have been imprisoned six months, except those under sentence for murder, arson or rape, and excepting those under sentence at Tortugas, be discharged from imprisonment, and the residue of their sentence be remitted.

Those who belong to the military service, and their term of service is unexpired will be returned to their command, if it is still in service, and their release is conditioned upon their serving their full term, and being of good behavior.

GOLD, Wednesday, 150.

— A popular life of Abraham Lincoln in Italian has been published in Florence, and is being sold for the benefit of the freedmen.

— "What are you looking after, daughter?" said an old man at a Christmas party. "Looking after a son-in-law for you, father" was the reply.

— It is known that if the Senate reject the nomination of Gov. Randall as Postmaster General the President will appoint Montgomery Blair.

— President Johnson has telegraphed to Judge Stansberry of Ohio, offering him the position of Attorney General, but the friends of that gentleman here think that he will not accept.

— There is an immense restaurant in Paris called "La Californie," near the Barriere du Maine, capable of accommodating 18,000 persons daily with cooked meals.—There are sixteen cooks and thirty-five waiters. It caters to the wants of the lower classes.

— The Auburn (N. Y.) Union and Advertiser, which has always been called the "home organ" of Mr. Seward, does not support the Tammany-smitten Secretary in his present position at all. It speaks of the proposed Philadelphia Convention with bitter contempt, exclaiming: "Composed of Northern and Southern rebels, what a reliable body that Convention will be to promote the prosperity of the Nation and the harmony of opposing sections!"

Elegant Residence for Sale.
[On account of removal of owner.]
The well known and beautifully situated CUTTS' HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath-room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.
The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.
The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first class wine cellar. The house is fitted throughout with Straw Matting.
The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.
If desirable, more land, adjoining, could doubtless be purchased.
The grounds comprise about four acres, with terraced lawn, fine old trees and thrifty shrubbery—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

Morning Chronicle.

THE OLD GAME OF CHESS.

"A mate—a mate!" a maiden cried,
One pleasant summer's day,
When, with her lover by her side,
They joined in the play.
In trivial play in glorious chess,
The noblest of all games,
Whose ivory images express
Each very loyal names.

"A mate! a mate!" she wildly said,
As, with impetuous haste,
Her Queen across the board she sped,
And by his monarch placed.
So confident she seemed to be,
Such boldness in her mein,
As did not for a moment see
His King could take her Queen.

"A mate! a mate!" at last he cried,
"Yes, 'tis a mate I see,
But only such, my darling pride,
As I would have from thee!"
He said, and round her lovely form
His manly arm he pressed.
Till she unto his passion warm
An answering love confessed.

"A mate? a mate!" young Cupid sang,
As through the room he flew,
"This may be chess, but yet I guess,
The nothing very new!"
The olden game, whate'er its name,
Is still the same, I ween—
When woman sweet and man compete,
There's sure a mate to be."

SMUGGLING.—The smuggling business isn't dead yet. Recently the captain of a vessel at Detroit took out a manifest for twenty-five barrels of whiskey, to be shipped to Vermillion, Ohio. The vessel cleared from Detroit during the night, and crossed the river to Winthrop, C. W., where the water, with which the barrels had been filled was drawn off, and they were refilled with whiskey. The vessel then sailed for Vermillion, where the manifest was exhibited and found to be correct. Within a short time the custom house officers received information of this sharp practice, and immediately seized the vessel and eight barrels of whiskey which remained on board. The owner was tried at Cleaveland, and fined $1000 for smuggling liquor into the United States without having paid the established license.

AMERICAN AND FOREIGN PATENTS

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent-Office, Washington, under the Act of 1836,

78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office in the Union are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable* and *successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on the business, and at very reasonable charges." JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor by the Commissioner of Patents. R. H. EDDY.

THE

NEW YORK CIRCUS,

Nos 86, 88, 90, 92 and 94 Fourteenth St., opposite Academy of Music, New York.

L. B. LENT - - - Director.

IN PORTSMOUTH,

THURSDAY, JULY 19th, 1866,

Afternoon and Evening.

On Middle Street, opposite Anthony St.

This is an ENTIRELY NEW ESTABLISHMENT, upon which an enormous amount of capital has been invested with an unsparing hand, to make it what it claims and is acknowledged by all to be, the First Exhibition of the Age. The one that has identified with it the

Champion of the World,

MR. JAMES ROBINSON,

The Bold and Intrepid Horseman, whose wonderful and startling **Bare Back Riding** has created the most profound sensation throughout the civilized world. He will at each entertainment introduce in a series of CLASSIC LIVING PICTURES, his infant son, **Master Clarence,** (only five years of age). The Youngest, Smallest and Prettiest Rider in the world, who largely inherits the wonderful boldness and extraordinary nerve of his father.

Another chief attraction of the NEW YORK CIRCUS is the specially gilted Artiste.

M'lle Carlotta De Berg,

The most Dashing and Daring Equestrienne the World has ever produced, from the CIRQUE NAPOLEON, PARIS. The exquisite grace and peerless skill of M'LLE DE BERG, combined with an irresistible *abandon* and a fearless *dash*, incomparably surpasses every species of Female Equestrianism hitherto seen on this Continent. This lady made her debut in New York, April 23, 1866, and achieved a success unprecedentedly brilliant.

Her Pluck and spirited style fairly electrified the amusement world of New York. Possessing superior artistic genius, allied to rare personal fascination, M'LLE DE BERG will not permit the possibility of rivalry in her peculiar and elegant School of Equitation, which she surrounds with an effulgence of Beauties, and embellishes with a halo of Radiance, captivating by their perfection and dazzling by their splendors.

Our space will only permit the names of the other leading performers, who are unequalled for their special talents, among the most widely famed, are:

Mr. James E. Cooke, Mr. Charles E. Madigan, Mr. Wm. Ducrow, the Levantine Brothers, Mr. J. Messenger, Mr. S. Stickney, Mr. Francisco Lee, Mr. James H. Madigan, Mr. W. A. Donovan, M'lle Josephine Leltoux, Mr. Hubert Forrest, Sig. Jose Monterverde, the Motley Brothers, Mr. J. S. Strickland.

MORGE

Four Great Clowns,

Mr. Joe Pentland, the People's Clown; Mons. Francois Loulet, the French Grotesque; Mr. E. Crowere, the Shakespearean Orator; Mr W Donovan, Funny Philosopher.

The Leaping Buffaloes

From the Prairies of the Far West, are not the least of our attractions.

The Stud of Horses and Ponies comprises the

Finest Specimens of Horseflesh

ever collected together on either Continent.

Everything is New. New Waterproof Pavilion. New Hangings. New Harness. New Seats. New Wardrobe. New Properties, and New Ideas without number.

The GRAND CORTEGE will be headed by the New and Beautiful BAND CHARIOT, containing Prof. CHAS. BOSWOLD'S Full Opera Band, from New York.

The New Waterproof Pavilion will be

BRILLIANTLY LIGHTED

With Reichmann's New Patent Chandelier.

CHEROKEE CURE,

THE GREAT

INDIAN MEDICINE,

Cures all diseases caused by self-abuse, viz:—*Spermatorrhea, Seminal - Weakness, Night - Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Insanity, Consumption*, and all diseases that follow as a sequence of youthful indiscretions.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gonorrhea, Gleet, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Tropical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhea, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus or Whites in Females.* The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " " $2, " " $3.

The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us in perfect confidence. We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

RESULTS OF ADVERTISING.—Among the three or four hundred London houses which must soon be cleared away in the neighborhood of Temple Bar—the site being required for the new Temple of Justice—is that in which "Holloway," of pill and ointment celebrity, carries on his operations. A return has just been furnished to the city authorities as the foundation of a claim for compensation, from which it appears that the profits of the business for the last three years amounts to between £30,000 and £40,000. The sum paid for advertising is over £25,000 per annum, and the staff of the establishment includes two hundred women, whose sole duty is to look after the advertisements, and see that they are inserted as ordered.

— A colored girl in Georgia has brought a suit for breach of promise of marriage against a negro man. It is the first case of the kind known in Georgia.

— A German newspaper states that a young man recently married a widow twice his age, and be ascertained subsequently that his wife had once been his wet nurse.

— Wm. Zimmerman, a well-known and wealthy citizen of Lawrence, Kansas, recently went to Germany on a pleasure trip. It seems that he owed Prussia some service, and the authorities arrested him and placed him in the army. He is now amusing himself carrying a musket.

— Seamen on the Lakes have been suffering from cold, while landsmen have been sweltering with heat. The helmsman of a schooner which left Toledo on the 5th inst., had to wear thick mittens to keep his hands from freezing.

—On the 8th, at a place thirty miles from Memphis, a gang of freebooters made an attempt to get possession of two persons who had served in the Union army. The latter, assisted by some citizens, repelled the assailants. During the fight three persons were killed and five wounded.

— A decision has been rendered in New Orleans against a person bringing suit against his debtor, who, when confederate money was good, agreed to pay for value received, seven thousand dollars Confederate States currency. The note became due a few days ago, and on presentation, it was paid in rebel money.

NAMES—AND PRINCIPLES.—We find this item in an exchange:

The Southern journals are earnestly urging their Northern Democratic friends to change their party name, as its identification which the cause of rebellion has rendered it so odious to the mass of Northern people as to render it incapable hereafter of political victory.

Perhaps this may be all true: but the *name* is a good one; and we think it would be better to cherish and act upon the democratic *principle*, of liberty, equality, and fraternity,—than to be very fastidious about names. Perhaps no party, in its action, ever departed more widely from the meaning of its name, than the late Democratic party. And in the attempt to revive it, by whatever name, we find its leaders, papers, and representatives, opposing with all their might, the two Amendments, which are destined to establish Liberty and Equality. Surely it is a great misnomer to call such a party democratic.

WHAT BUSINESS HAVE CONGRESSMEN WITH OFFICE-HOLDERS?—A Johnsonian print puts the following questions so plainly that it may be worth while to answer them:

What business have Congressmen with office holders? Is it a part of the official duty of a member of Congress to look after office-holders and office seekers?

We answer, much, every way. The Senate is directly concerned in all important appointments. "The President shall nominate (says the Constitution), and by and with the consent of the Senate, shall appoint" all officers, &c. All officers, from the President downwards, may be removed by impeachment, and the Senate is the tribunal to try all such cases. It is well understood, we suppose, that public officers are to be removed, and others appointed, by the President, in the recess of the Senate, to please his new friends, to break up and defeat, if he can, the organization that elected him Vice *President! and to throw the power away from the loyal* masses and loyal States, into the hands that rebelled against the United States, and tried, in vain, to establish a Slave Empire. If Congress cannot fight against this, we don't see how they can "provide for the defence and general welfare of the U. S.," as the Constitution says they have power to do.

FROM MEXICO.—The N. Y. Herald's Mexico correspondence of the 5th says the new naturalization law has been promulgated, foreigners can become citizens in twenty four hours after arrival in Mexico by renouncing allegiance to their native country and having visible means of support.

An American, named Jackson, and formerly a captain in the 24th New York Infantry, has been ordered to leave the country by the Liberals. His stock was stolen and crops destroyed.

The Emperor and Marshal Bazaine are at loggerheads, not speaking to each other.

The Liberals claim that Tampico and Tuxpan are both in their hands, the Imperial General Lamadud having turned Tampico over to the Liberals and hoisting the Liberal flag.

☞ Gen. Jordan, chief editor of the Memphis Appeal, has challenged M. A. Galloway, of the Avalanche, to mortal combat. The challenge was accepted, and the parties repaired to Hernando, Mississippi, where both were arrested and placed under bonds. It is thought the parties will go to Arkansas to settle the difficulty. The challenge originated from Galloway's publishing a severe attack upon Jordon, on account of an article contributed by the latter to Harper's Monthly, in which Jordon blamed Jeff. Davis for the failure of the confederacy.

☞ At New Orleans, Gen Baird has issued an order in accordance with Gen. Grant's order, for military arrests only upon proper affidavits, and advises that actual arrests be deferred untill properly invstigated, unless there is manifest danger of escape.

Gen. Sheridan has issued an order prohibiting the organization of confederate batteries, brigades, &c., for any purpose whatever.

THE CHARLESTON PRISONS.—A Charleston dispatch says the prisoners confined in Castle Pinckney have not yet been surrendered to the civil authorities, and military law, therefore, continues supreme. This is regarded as most surprising in view of the fact that assurances had been given that the President would see that the writ of *habeas corpus* issued by Judge Bryan would be obeyed.

☞ On Wednesday, there were 20 deaths from heat and sun in Baltimore; 22 in New York: 12 in Brooklyn and Jersey City; 4 in Philadelphia; 2 in Boston.

ROUSSEAU, the Kentuckian Congressman, who assaulted Grinnell, has resigned, rather than be reprimanded.

NEW HAMPSHIRE ITEMS.

—— Michael Flynn, a young Irishman, only a few weeks in this country, died of sunstroke, on Tuesday night, at Manchester.

—— Rev. W. H. Fenn, of Manchester, was dismissed from being pastor of Franklin St. Church, by a Council, on Tuesday; he is to be pastor of High Street (congregational) Church, Portland.

—— John Conners, an Irishman, was killed at Salmon Falls, on Friday, July 13. It appears he had been drinking—got up in the night and by some means fell from the attic window—a distance of thirty-six feet.

—— The Manchester Mirror says that there is in Brookline, N.H., a house built in 1801 by a young man then unmarried. He afterward took to himself a wife, moved into his new house, and has dwelt there ever since, both himself and wife being now alive at a hale old age. They had four sons named Europe, Asia, Africa and America; and then, having run out their list of male names, they brought up a couple of daughters. These six children all married, and the old people became grand parents of a very large family. The six children have died, and a great number of the grand-children, and yet the old house, sixty-five years old, has never been the scene of a marriage, death or funeral.

GOOD SPEED.—Attorney General Speed's reply to Mr. Doolittle's letter, inclosing the call of the Philadelphia Convention of August 15, is very explicit. He says he cannot regard the authors of the call as the organs of the great Union party of the country. The Movement is not so much to sustain the government entire as a department of the government. He observes that the call fails to take any notice of the constitutional amendment, which he cannot but regard as a sign of hostility to a grand measure dear to him. He repudiates the notion that the rights of the State need doctoring, and he closes as follows:—

"The American theory culminates properly in the sacredness of the rights of individuals—of each single individual. That after all is what Washington carved out with the sword and Jefferson filtering it through his subtle and free mind drew up and put on record with the pen. It is well known that in the political and legal history of the United States, the only departures or compromises of the kind alluded to have been those in the interests of slavery and of its manifold incidents. I do not, of course, propose to go over the thousand times told tale of the past sixty years; today slavery, as a confessed legality, is, as we all know, no more: but some of the most important of its incidents or compromises still remain, blots and incongruities upon the law. What equitable reason can be given why these incidents also should not be erased? 'Time was that when the brains were out the man would die,' but now we see the limbs demanding to live and move, as if the nervous system still existed. The persistent attempt to keep in the Constitution the rule of an unequal and unfair basis of representation is perilous to the future peace of the country, and will surely cause a chafing sense of injustice as long as it continues.

Furthermore, the high mission of the Union party, as avowed in the Baltimore Convention—to extirpate slavery—includes the removal of all the hateful and anti-popular excrescences engrafted by that institution for its own selfish aggrandizement upon our free national laws and policy. That high mission and obligation cannot be accomplished until all which slavery has so engrafted is cut out, for until then slavery is not extirpated. Earnestly sympathizing with the men who look to a law of equal representation as the only guarantee both for popular rights and acquiescence, I would feel myself out of place in a party that favors a basis of representation giving peculiar and unrightcous advantages to a portion of the body politic, to the detriment and dissatisfaction of the whole.

COUNTERFEITERS.—A very extensive haul of counterfeiters, and of the implements which they used to carry on their nefarious work, was made near New York on Monday night last, in which some sixty thousand dollars of bogus currency was secured. For some weeks efforts have been made in Washington and New York to find out who were flooding the country, and especially the Southern States, with false currency, and finally an extensive party was discovered at Rossville, on Staten Island. On Monday evening the house was suddenly entered, and the government agents and the Deputy Marshal burst into the rooms and captured the whole party, with all their machinery and implements for carrying on the business.

GREAT BRITAIN.—The Princess Helena was married to Prince Christian of Agustenburg at Windsor on the 5th inst., in the presence of the Queen, the King and Queen of the Belgians and other distinguished company, but the affair was comparatively private.

The Marquis of Lansdown, who had been named for office in the Derby Ministry, died suddenly on the 5th from paralysis.

In the House of Commons, on the 6th, Mr. Mill presented a petition from Mrs. Gordon, complaining of the illegal trial and execution of her husband in Jamaica, stating that in consequence she has been reduced to a state of destitution, and praying for redress.

Correspondence of the Chronicle.

NEW YORK, July 18.

Taylor's International Hotel and Saloon, on Broadway, has been sold to a consolidated Express Company for $450,000.

The handsome gothic edifice well known as Chapin's Church, on Broadway, just above the St. Nicholas, is being demolished.

The noon temperature for several days has been over 100° in the shade,—135 and 140 in the sun.

Eight hundred and fifty people died in this city last week.

The "Old Colony and Fall River" line to Boston will also run a tri-weekly line of steamers via Fall River, as formerly daily.

The Newport Line is in excellent trim this season, and the boats make their arrivals in New York prompt and early.

The new line via Bristol, ninety minutes by rail from Boston, will be ready about Sept. 1st. N.

THE U. S. SENATE, Wednesday, adopted a resolution authorizing the employment of a practical landscape gardener and topographical engineer, to aid the Committee on Public Buildings and Grounds in the selection of a park and site for a Presidential mansion. It will be remembered that Downing was employed by Government for some time, and laid out some of the public grounds.

A report in the Senate from the Special Committee on the Ventilation of the Senate Chamber shows that Gen. Meigs, when he assumed the direction of the construction of the Capitol extension, changed the architect's plans, and that it is to him the Senate is indebted for the flat-iron and glass ceiling of its chamber, over which is a glass roof, leaving a space between, in which the air becomes heated. The report recommends raising another story over the Senate Chamber, with windows on every side for light and ventilation.

The House passed a bill reconstructing the Supreme Court of the United States. It provides that no vacancies in the office of Associate Justice of that Court shall be filled until the remaining Associate Justices are reduced in number to less than six. Thus the Supreme Court will be composed eventually of a Chief Justice and six Associate Justices, and the bill recasts the Circuits accordingly. Many are of the opinion that President Johnson will veto the bill. He need not do that: he can put it in his pocket if he chooses—if Congress adjourns on the 25th.

A majority of the House of Representatives decided that Congress can adjourn on Wednesday, the 25th, and the Senate will undoubtedly concur.

About sixty members of the House are absent—either by sickness or leave—and the daily diminution continues.

The Committee of Ways and Mans have only one more bill to report, viz., that reorganizing the Treasury Department.—Three only of the general appropriation bills remain undisposed of, and two of them are in committees of conference.

"GRAND ARMY OF THE REPUBLIC."—The convention of the "Grand Army of the Republic," Department of Illinois, was held at Springfield, beginning on the 12th inst. The proceedings were strictly private. A series of resolutions were reported by General S. A. Hurlbut and adopted. They declare and pledge the members of the organization that they will render all mutual aid and assistance in supplying the wants of the widows and the fatherless, furnishing employment to the poor; that as we have stood by the government at the perils of our lives in war, so will we make it ever our constant care that no known enemy of our country shall wield power in the Republic, but the same arms which defended its sanctity against open violence will protect it unflinchingly against all secret machinations, and we will never lay down our weapons until peace, based on the principles of universal liberty, shall be attained; that treason committed in rebellion is a crime of the most malignant nature, and that every posible guaranty should be demanded by all branches of the government against the rash admission to places of power of those who were active participants in the rebellion, and thereby forfeited the rights of American citizens; and that we, soldiers of the nation, who fought for the supremacy of the national authority, have a right to demand that the safety of the Republic should be held paramount to all other considerations by the Executive and by Congress.

Officers for the Department of Illinois were elected as follows: Department Commander, Major General John M. Palmer; Assistant Commander, Brigadier General John Cook; Adjutant General, Colonel J. C. Weber; Assistant Adjutant General, Major R. M. Wood; Quartermaster General, J. M. Snyder; Surgeon General, Dr. Davis; Chaplain, Rev. E. Tuttle.

— A soft or green Quaker would be as great a curiosity as a dissipated Hebrew, but not so great a one after all as to find the woman who did not prefer the J. Monroe Taylor Gold Medal Soap to any other the world can produce. Wife says it makes old clothes look as well as new, and a cross man the pleasantest and most lovely creature on the globe. Try it, and, our word for it, you will always patronise the Gold Medal Soap. 6

PERRY DAVIS' PAIN KILLER,
As an internal remedy, has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, Dysentery, and Asthma, it cures in one night, by taking it internally, and bathing with it freely. It is the best liniment in America. Its action is like magic when externally applied to bad sores, burns, scalds, and sprains. For the sick headache and toothache, don't fail to try it. In short, it is a Pain Killer.
PERRY DAVIS' PAIN KILLER.—This medicine has become an article of commerce, a thing no medicine ever became before. Pain Killer is as much an item in every bale of goods sent to country merchants as tea, coffee, or sugar. This speaks volumes in its favor.—GLENS FALLS MESSENGER. Jy1—dawlm

PURIFY THE BLOOD.—If the blood be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as if

Subscribers will please inform us if their papers are not properly delivered before 7 o'clock.

☞ We hear an Excursion to the Lake is talked of—one of that old-fashioned kind, you know, by way of Manchester and Concord, when they had to print notices that the "tickets were all sold," as the steamboat captain sent down word that he could carry only six hundred. There never was anything here which took like that, before or since; and the people would jump at a similar chance now.

☞ Visitors at the new Boar's Head Hotel, report that Dumas has got everything fixed up in good shape, as of course he would have it. He will bring Hampton Beach back to something like its old popularity yet. And all who never have done so, should try what a charming drive it is from Rye Beach to Hampton, along the sea road.

☞ The fine rain of Wednesday evening has refreshed vegetation, cooled the air, and given new hopes in this neighborhood, for all the crops of planted vegetables. The rains visited a large tract of country on Wednesday.

☞ The Portland Press of Wednesday contains the following acknowledgment from the Mayor:

Two boxes of valuable clothing, received from the ladies of Portsmouth last week, have been distributed among the suffering families of our city, and we heartily thank them for the promptness and liberality with which they came to our aid.

☞ Twenty-six paymasters have just been discharged from the U. S. Army, among whom are Lieut. Col. Albert H. Hoyt, formerly of this city, and Major A. H. Young; both appointed from this State.

☞ The highest amount of State tax paid by any Savings Banks in New Hampshire was $7,829.65, paid by the Portsmouth Savings Bank. Of this sum, $3,769.69 was paid to Portsmouth, as the amount of tax on sums deposited by her residents.

POLICE COURT, July 19.—Either the warm weather or the rain filled the court with swelled heads. The long array has deprived our reporter of any desire to romance on any particular case.

Jane Brown, wife of John C. Fremont, accused of being a common drunkard, was discharged.

Michael Buckley, for assault on Jeremiah Long, was discharged.

Ann Moulton, common drunkard, received four months at House of Correction, and was sentenced to pay costs, $6.86.

Patrick McCarthy, drunk on Hanover street—inevitable $6.86—sent to H. of C.

Charles Abrams, drunk, same sentence.

Chas. W. Moulton, common drunk, fined $6.86.

James Gilchrist, assault upon Joseph Akerman, fined $5, and costs $6.86.

Michael O'Hearne, drunk and riotous, fined $3, and costs $4.80.

Wm. H. Horne, drunk on Market street, $6.86.

John Smith, drunk on Hanover street, fine and costs amounted to $6.86.

For the Chronicle.

THE BEAUTIFUL PARLOR PICTURES, now on exhibition at 70 State street, have been visited by a large number of our citizens, and all speak in the highest terms of these beautiful pictures. No claim is allowed by the proprietor to works of art by Murrillo, Claude, or Salvator Rosa—paintings that command fortunes on the other side of the water—but a direct claim is laid to beautifully finished pictures, by celebrated European artists of the present day. The proprietor of these pictures has no connection with any other house; neither are these pictures a portion of those exposed here for sale a few weeks since, as is supposed by many of our citizens. Call and see them, and be satisfied of the fact. They speak for themselves. The sale to be continued at 2 1-2 and 7 1-2 to-day.

A COMPLIMENT TO B. P. SHILLABER. "Spiridion," the able Paris correspondent of the Boston Saturday Evening Gazette—pleasantly says that:

"Our good friend 'Mrs. Partington' has—as I suppose she would say—become denationalized an European. She goes at her good old easy gait, with spectacles on her nose, surprised at nothing, full of humor, through the columns of all the European newspapers. English, French, Swiss, German, Spanish and Italian newspapers all copy or translate Mrs. Partington's last speeches, and I assure you they contribute no little to the merriment of Europe. To think a Chelsea man should be able to make the old world and the new laugh whenever he so pleases! Well done Chelsea!"

— When a party of four have devoured two pints of strawberries, what term should we apply to them? We should say, there's a quartet.

THE LIGHTNING of Wednesday, was sharp and somewhat destructive in New York and vicinity. The rope factory of Henry Lawrence & Sons at Williamsburg, was struck by lightning. Four boilers exploded and were driven through the brick wall to a distance of 600 feet, destroying several large trees in their course. Two others passed through a brick stable, which was completely destroyed, and finally burned the rope walk of Wall & Sons. One man was killed. Damage $30,000.

The Presbyterian Church on Franklin Avenue, Brooklyn, was slightly damaged by lightning. Two persons were killed in the streets of Brooklyn. The ship Cynosure, at the foot of Rosevelt street, New York, was struck and slightly damaged.

The cotton seed oil factory of the New York oil company in 19th street, and the primary school house adjoining, were destroyed by fire. Loss $50,000; insured.

A PARADISE IN PENNSYLVANIA.—Mrs. Elois Hunt, of Heiner's Run, Clinton county, Pa., writes thus:

"My home has been for six years in a little rocky basin, shut in on every side by the Alleghanies, without a neighbor, a church or a school, seeing no human face for weeks—aye, even months sometimes—except those of my husband and child.—Living thus I have come to love in a strange, all-absorbing way, all that nature has thrown around me. Earth, with its varied growth of trees and shrubs, plants and mosses, rocks and water, the clouds, blue sky and stars, everything is beautiful to me; even the dead leaves, the old decayed trees and bare rocks are beloved. Think, then, how inexpressibly dear the living trees and flowers and moving water.

I have tame trout, six yards from the door, that leap above the water to catch bits of meat from my fingers. The pheasants make their nests in sight of the house, and sometimes the male bird is seen drumming on an old log only a few rods up the mountain side. I have planted wild flowers round my door, and in summer the humming-birds go through the open house on their visits to the flowers. Strangers from the world have said: 'How can you exist in this dreary place?'

Their eyes cannot see as mine; nor can they hear any of the pleasant voices I hear, and so I simply tell them what they comprehend: 'it is my necessity.' My place, which is so lonely to others, is so pleasant to me that I have named it Paradise, and here I will teach my son a love of truth, purity and beauty."

☞ In New York city, the total number of cases of sunstroke, this summer, number 258, of which 135 proved fatal.

— An unknown woman, who said she was from Lowell, died in the lock-up at Lawrence on Monday, having been taken there on account of being very much intoxicated.

— The policy men counted on having Gov. Clifford at the head of the Massachusetts delegation at their Philadelphia Convention, but they have learned that the Governor does not train in that company.

— The Massasoit Insurance Company, of Springfield, voted, on Tuesday to cease issuing policies, and will wind up its affairs, being led to this by the heavy losses recently sustained by the Portland fire.

— Anonymous circulars are being sent to the Union men of Louisiana, warning them that longer to remain in that State than a given period will subject them to the danger of assassination. Gen Sheridan is endeavoring to ferret out the authors.

— The United States marine hospital buildings and grounds at Burlington, Vermont, were sold for $7000 on Monday.—They will be converted into a home for destitute children. The original cost of the property was $41,000.

Elegant Residence for Sale.
[On account of removal of owner.]
The well known and beautifully situated CUTTS' HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath-room, billiard room, containing a table in good order, nursery, and all requisites for a properly arranged family mansion.
The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.
The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The house is fitted throughout with Straw Matting.
The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.
If desirable, more land, adjoining, could doubtless be purchased.
The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

Morning Chronicle.

THE PURSUIT OF JACKSON UNDER DIFFICULTIES.—In his article on John Randolph, in the last North American, Mr. Parton says: "During the reign of Andrew Jackson, Congress was little more than a board of registry for the formal recording of his edicts. There are those who think, at the present moment, that what a President hath done a President may do again." This hits President Johnson exactly. He demands to have his edicts registered by Congress, not discussed, and much less rejected. Opposition enrages him, especially when it comes from statesmen abler and more experienced than himself; he answers an argument against one of his assertions by calling its proposer a radical, and when the argument is pushed with unanswerable force, he discovers that the logician must be a disunionist. His motto should be, "Difference from me is the measure of incapacity." *Transcript.*

BRAZIL.—At the close of the rebellion many dissatisfied Southerners proposed to emigrate to Brazil. Some went. One of them writes to the New Orleans Picayune, and represents that going to Brazil "is not what it is cracked up to be." He says: "I am a man seventy years old, and came out here to explore the country, and see the chances for emigration, and have no object in deceiving my people. A true state of affairs should be known, and not have Americans come out here and be reduced to pauperism, which is the case in most instances. Dr. Blue is the only one on 'his own settlement,' and is a laughing stock here. He is in a state of starvation.

— The New Bedford Mercury in noticing the use of ex-Gov. Clifford's name in connection with the Philadelphia Convention, says:

"The simple fact is, that the announcement of his name in connection with the movement was a piece of gratuitous impertinence, which those who know his political opinions thought it needless to notice."

—A letter from Niagara to a Richmond paper says: "James M. Mason has arrived in Niagara with his family. I hear that Mr. Mason is unsubdued and unconquered, a true lover of his grand old State, and an open admirer of her war record."

Perhaps he will attend the Philadelphia Convention. He would be loudly cheered.

— A young lady in Meade township, Pa., recently killed a young man whom she loved, but who did not love her, by placing "love powders" in his food.

— An interesting experiment has been for some time past on trial at the Royal Veterinary College at Camden Town, England. A number of healthy dogs have been fed upon the most diseased portions of cattle which have died of rinderpest, some of the meat having been given to them raw and some in a cooked state. The result of the experiment has been that the dogs are fatter and healthier than ever.

HIGHLY IMPORTANT TO UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and prolapsus of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.

Address DR. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 16, 1866. T1hSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE NATURE. CAUTIOUS, by the long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with a remedies that have never since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 6 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits,* and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days,* and is especially recommended in those cases of *Floor Albus or Whites in Females.* The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " $2, " " $5.

The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and confidential statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us on *perfect confidence.* Send stamp for our thirty-two page pamphlet free to every lady and gentleman in the land. A SINGULAR CONTEST.—On the 4th inst., as Mr. Charles S. Taft of Sutton was passing through an open space in a piece of woods near his house, a large blue hawk made a vigorous attack upon him. It would advance from a tree upon one side of the opening, then retreat to a tree on the opposite side, hitting him at each time of passing. This offensive warfare was kept up until Mr. T. succeeded in disabling it by breaking a wing with a small walking stick. The hawk measured four feet from tip to tip of outstretched wings.—*Rutland (Vt.) Herald.*

— The late Prof. Vince, one morning, (several trees having been blown down the night previous) meeting a friend in the walks of St. John's College, Cambridge, was accosted with, "How d'ye do, sir? Quite a blustering wind this."

"Yes," answered Vince, "it is a rare mathematical wind."

"Mathematical wind!" exclaimed the other, "how so?"

"Why, replied Vince, it has extracted a great many roots."

— At Springfield, Mass., a lady sent the following volunteer toast: "Spruce bachelors. The evergreens of society."

— THERE were four good habits a wise man earnestly recommended in his counsels, and which he considered to be essentially necessary for the management of temporal concerns; and these are punctuality, accuracy, steadiness and dispatch. Without the first of these, time is wasted; without the second, mistakes the most hurtful to our own credit and interest and that of others may be committed; without the third, nothing can be well done; and without the fourth, opportunities of great advantage are lost which it is impossible to recall.

— MANNERS are of more importance than laws. Upon them in a great measure, the laws depend. The law touches us but here and there, now and then; manners are what vex or soothe, corrupt or purify, exalt or debase, barbarize or refine us, by a constant, steady, uniform, insensible operation like the air we breath in. They give our whole life form and color. According to their quality, they aid morals, they supply them or they totally destroy them.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
over Twenty Thousand Patients Cured Annually
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.

SATURDAY, JULY 21, 1866.

TENNESSEE, the Third Free State, has adopted the Constitutional Amendment for abolishing the slave basis of Representation; —and the way is now opening for her Representatives to take their seats in Congress.

On Thursday afternoon, at Washington, the Secretary of the Senate received a telegram from Gov. Brownlow, saying: "Battle fought and won. Constitutional amendment carried in the House, 43 against 11." He adds that two members present refused to vote. This intelligence soon spread among the members of Congress and evidently produced much delight.

In the U. S. House of Representatives Mr. Bingham moved to reconsider the vote by which the resolution admitting Tennessee was, some months ago, recommitted to Committee on Reconstruction. Motion to adjourn was lost, 59 to 69. Mr. Stevens moved to lay the matter on the table; lost, 31 to 91. The main question was then put, and the Vote reconsidered, 70 to 27.

Mr. Bingham then offered the following:

Whereas the State of Tennessee has in good faith ratified the amendment to the Constitution as proposed by the 39th Congress to the Legislatures of the several States, and has shown otherwise to the satisfaction of Congress by a proper spirit of obedience in the body of her people, her return to her due allegiance to the government, laws and authority of the United States, therefore

Resolved, That the State of Tennessee is hereby declared restored to her former proper political relations to the Union, and is again entitled to be represented by Senators and Representatives in Congress, duly elected and qualified, upon their taking the oaths of office required by the existing laws.

Mr. Bingham moved the previous question, and the House adjourned.

DECISION AGAINST COTTON CLAIMANTS. Several months since a large quantity of cotton was sold at New York under the confiscation act. Since then claimants of the property have moved for a renewal of adjudication of the case from the United States to the State courts, and on Wednesday Judge Nelson decided against the motion.

[This is exactly right:—but if the "policy" doctrine were true, that each State may legally seize all its old possessions and use all its powers,—then it is all wrong. But the world has rolled on, and will never roll back.]

INSURANCE—AND A BIG BLUNDER.—A telegram dated New York July 19, and published in the Boston papers of the 20th, says:

A convention of Fire Insurance Presidents was held here to-day. One hundred and fifty officers were present, and the States of New York, Massachusetts, Connecticut, Rhode Island, Pennsylvania, Ohio, Illinois and Virginia were represented, embracing a capital of 1030 millions of dollars. Resolutions were adopted looking to a reasonable advance in the rate of premiums. A national Board of Underwriters was formed, and the convention advanced the rates of insurance to 10 per cent.

The last statement is only a great blunder. The rates were probably *advanced* 10 per cent.—certainly not To 10 per cent., which every practical man would see to be wild.

THE FRY CASE in Congress was settled in the House of Representatives, Thursday, July 19. The committee review the charges and insinuations of Provost Marshal Fry against representative Conkling, and censure the course of Mr. Fry, and not only exonerate Mr. C. but praise his course as honorable, patriotic and of benefit to the Government in exposing frauds in the Provost Marshal's Department in New York. The committee show that Fry arranged with one Allen, a notorious bounty broker, to go to Utica and implicate Mr. Conkling with frauds there at all hazards.

The committee state that $54,000 were paid by order of Fry to a bounty broker fund in New York for a lot of ficticious recruits.

The committee concluded by offering two resolutions, that the statements of Fry are wholly untrue, and that his course in assailing the character of a representative originated in passion, and he (Fry) was guilty of gross violation of the privileges of the House, and merits and receives its unqualified disapprobation.

The resolutions were adopted—yeas 96, nays 4,—and Mr. Fry is "done brown."

AMERICAN BEGGARS.—A writer in the Saturday Review upon the subject of Beggars, thus speaks of "American Beggars:"

"It is very often stated, as a proof of the superiority of the manner in which American wealth is distributed among the masses, that not a beggar is to be seen in the streets of New York. Anything that adds to the comfort of honest mendicity, and protects it against the inclemency of the weather, is so much social gain; and it is a pleasure to know that while some of the beggars of the Old World have to live chiefly in the streets, *American Beggars* are, as a rule, to be found cheerily congregated in the state chambers of the President and his official advisers."

WASHINGTON ITEMS.—On Thursday the Senate Committee on Foreign Relations voted against the confirmation of Mr. Tuckerman as Minister to Greece, and instructed Mr. Sumner to offer a resolution striking the appropriation for the mission from the moneys appropriated. The Committee also reported against the confirmation of Gov. Holden of North Carolina.

The Granite Cutters' Association have formally withdrawn from the Working Mens' Convention, and the eight hour movement is about at an end. The supply of labor in Washington greatly exceeds the demand.

President Johnson only received a few visitors Thursday. Secretary Stanton was with him nearly three hours in the morning, and General Grant had a long interview in the afternoon. Among those who failed to see the President was the rebel General Forrest.

Mr. Stansbury, on arriving Thursday evening, went at once to the White House, and it is understood that he will accept the Attorney Generalship, if assured that he can be confirmed.

No Five-twenty Gold Coupons have been surreptitiously issued, as has been reported.

THE FORGED COMPOUND INTEREST NOTES.—The Treasury Department detectives have arrested Henry Holmes, alias Henry Hall, the counterfeiter of the $100 compound interest note. The back of this note was printed from an electro-plate made from a lead plate, upon which an impression of the genuine plate was made in the Treasury Department by an employee named Edwin Langton, of Hartford, Conn. There were also other impressions stolen by Edwin Langton, to be used by the counterfeiters. One of these was the $20 compound interest note, the impression of which was stolen by Langton, assisted by his father, Eli Langton. The same detectives have also succeeded in capturing the presses and plates on Staten Island, and the fact was developed that the printing was done in the house of an ex Sergeant of Police of New York city, named Abel Ware. Several thousand dollars of the counterfeits were captured and all the appurtenances of a first class counterfeiting establishment.

EXECUTION AT RICHMOND. — Isaac Chaney, a negro, was executed at Richmond on the 16th for the murder in October last of Mr. and Mrs. Gerald of Rockbridge county, having been tried and found guilty by a military commission.—The sentence was carried out by Gen. Terry. The negro confessed the murder, stating that he was induced to the act by animosity toward Mr. G.

This negro was born in Ohio in 1834, joined the Federal army during the war, being attached to Sherman's cavalry, was captured by the Confederates and sold to Mr. Gerald. In October last he murdered his master and set fire to his house, burning up Mrs. Gerald, who was asleep in the house at the time.

At the hanging, the rope broke and let him down—but a new one was put on, and he was hung the second time, successfully.

IMPORTANT CHANGES IN THE MISSISSIPPI RIVER.—From Southern sources we learn that the breach in Grand Levee on the Mississippi river is so deep that the chief engineer thinks the new levee will have to be built some distance in the rear of the old one, and must be at least thirty feet high. The breach is a mile wide.

The Mississippi is this year making several cut-offs above, which may next year seriously affect the levees below.

Twenty-five miles below Vicksburg, at Davis' Bend, there is a cut-off. The distance is twenty-eight miles around the bend and one mile across. The water has been running through the cut-off for four weeks. Six steamers can run down it abreast, and the current is so rapid that no steamer can go up through it. It is very deep.

At Palmyra Bend, a short distance from Natchez, there is another cut off, or will be in a very short time. The banks have caved on both sides till the waters nearly meet.

The Terrapin Neck cut-off, thirty-five miles above Vicksburg, was made this season. It is eighteen miles round the bend. It is now a still lake where the channel of the river was last year. These three cut-offs will shorten the river at least seventy-five miles.

Week before last a rapid rise of the Arkansas river threw out into the Mississippi a flood of water so red as to create the utmost astonishment in the minds of all who saw it. It ran a few days in this way, and then changed its color. As it mingled with the waters of the Mississippi it looked like red paint. Too superstitious say it is a sign of much sickness.

— After submitting for a long time in silence to having all sorts of agricultural circulars sent to him through the mails, the editor of the Bowling Green (Ky.) Gazette breaks out in this fashion: "We are no animal propagist; horsist we are not; as a cowist we make no pretensions; as a sheepist we claim no honors; but as a hogist we go in to a very limited extent."

SINGULAR CASE OF INSANITY.—We are informed, says the Manchester Mirror, by a gentleman from Raymond, of a singular case of insanity of a lady in that town. Some three weeks ago, the lady in question experienced religion, * since which time she has labored under the idea that some enormous sin has been committed by her in times past, and no amount of reasoning can dissuade her from the thought. Monday night she got up at a late hour, unknown to her husband or children, donned an old dress which she had not worn for years, and left the house. Her husband shortly afterwards awoke, and not finding his wife started in pursuit accompanied by several of the neighbors. They tracked her to the river, found where she had waded in, and supposed of course she had drowned herself, but shortly afterwards they discovered tracks where she had left the river some distance below where she went in. They searched for her nearly all night, but without success. In the morning she was found seated upon a large rock directly in rear of the barn, but unable or unwilling to tell where she had been, or why she went. She still insists on the enormity of her offence, and thinks she is doomed to perpetual punishment.

* Rather a sad experience, not showing that kind of religion in a very favorable light.

YOUNG THIEVES IN SAN FRANCISCO. In San Francisco the police have discovered a gang of thieves, the oldest of whom is not over sixteen or seventeen years of age, with a regular organization, who have constructed caverns underneath sidewalks in unfrequented localities, in which they burrow, and from which they construct tunnels to adjacent stores, conveying their stolen goods thence to the upper air. This gang has been in existence for several years, receiving recruits as its grown members fall off. When first brought into public notice, they resided in a large abandoned steam boiler on the water front, where they held their consultations and divided the proceeds of their plunder.

— Herr Louis Staab, formerly teacher of music in St. Louis, took out protection papers during the war to escape the service. A little while ago he went to Europe.—There he applied to the American Consul for protection papers as an American citizen, but the latter being posted, Staab could not get the protection of the stars and stripes, so he had to enter the Prussian army and fight for fatherland.

CHERRIES.—A correspondent of the Boston Journal says:—

"We cannot but notice the extortion put upon Boston people by the dealers. We were through a large fruit growing district lately, along the South Shore, and saw hundreds of cherry trees *loaded* with fruit. On asking the price paid for it to the farmers we were informed that the highest yet was three cents a pound. Somebody is making a pretty good thing of it, for dealers are asking twenty five or thirty cents per pound."

WM. TECUMSEH SHERMAN, Maj. Gen. U. S. A., had the honorary degree of Doctor of Laws conferred upon him at Dartmouth College, July 19; and in reply to Pres. Smith's complimentary remarks, the new Dr. made a very neat and pleasant speech.

GRANITE STATE MILITARY AND COLLEGIATE INSTITUTE.—This young and popular institution, located at Reed's Ferry, on the Concord Railroad, midway between Manchester and Nashua, held its Commencement on Thursday, 19th inst.

FARMERS IN VERMONT.—The Commissioner of Agriculture states that in the last four years the average yield of corn to the acre in Vermont was over 37 bushels, the highest in any State; and the value $58.80 per acre, also the highest. For wheat the average was 15 bushels, and value $20; both product and price higher than the average of other States.

— A telegram lately printed in a cotemporary paper makes it appear that the Equal Rights Association of Georgia, under conduct of Gen. Tillson, have condemned the course of Captain Bryant of The Loyal Georgian, in defending the loyal living and dead. The Secretary of the Association telegraphs to assure us that this is not the case. Capt. Bryant and The Loyal Georgian have been indorsed.—*Tribune.*

— Darius Hiatt, a German farmer, residing in Franklin county, Mo., on Tuesday last took a long butcher's knife home, cut his wife's throat, threw six thousand dollars in greenbacks into the stove, and then ended the scene by cutting his own throat. A grand-child was the only witness present.

— The new Constitution of North Carolina provides that—"No person who shall deny the being of Almighty God, or the divine authority of both the Old and New Testaments, or who shall hold religious opinions incompatible with the freedom and safety of the State, shall be capable of holding any office or place of trust or profit in any civil department of the State."

☞ Kinsley & Co.'s Express Office, 11 State street, Boston, was robbed on Thursday afternoon, about 3 o'clock, of a small trunk, containing about $2000 or $3000 in bank bills, with valuable papers, stocks and bonds. The place was full of people, yet the robbery was not perceived at the time.

— The proprietor of a drinking saloon at Grand Junction, Mississippi, on Sunday, July 8, had a quarrel with his barkeeper, and in the altercation drew a pistol. His wife, who was near, rushed in between the parties to stop the affray, when the pistol was discharged, the ball passing through Mrs. Wood, who fell to the floor a corpse.

☞ An Irishman named Ervin, aged 75 years, living in Somerville, near Gardiner, Me., shot his wife (about the same age) dead, on Tuesday evening, and then killed himself. No cause assigned.

PERRY DAVIS' PAIN KILLER.

As an internal remedy, has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, Dysentery, and Asthma, it cures in one night, by taking it internally, and bathing with it freely. It is the best liniment in America. Its action is like magic when externally applied to bad sores, burns, scalds, and sprains. For the sick headache and toothache, don't fail to try it. In short, it is a Pain Killer.

PERRY DAVIS' PAIN KILLER.—This medicine has become an article of commerce, a thing no medicine ever became before. Pain Killer is as much an item in every bale of goods sent to country merchants as tea, coffee, or sugar. This speaks volumes in its favor.—GLENS FALLS MESSENGER. Jy1—dawlm

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world. for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. Price $1.50.

Prepared by Dr. JOHN L. LYON, 106 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. Price $1.50 per bottle.

Sold by Druggists everywhere.

PURIFY THE BLOOD.—If the blood be pure, the body will be formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as if
Struck by Lightning,
Now, this can be remedied.

Local.

IN BOARD OF ALDERMEN, Thursday evening, bonds of City Marshal Johnson were accepted.

Application of B. Cheever for license for the Temple one year, was laid on the table.

Voted, that Ald. Foster be authorized to have the plans of the City Farm, drawn by A. M. Hoyt, framed.

Voted, that the Ward Room and School House in Ward 3 be built by the day, according to clause adopted and specifications to be adopted by the board.

Ald. Davis in the chair.

The Com. on City Land and Buildings were authorized to purchase the Academy for $7625—and fit the same for school house at a cost of $1500. Adjourned.

POLICE COURT, July 20.—A solemn procession under escort of the police force marched into court this morning, and ranged themselves side by side. Seven such sorry sinners are seldom seen sober except after a night's lodging with mine host Johnson.

The case of James Brown (not Commissioner Brown) for assault was continued until to-morrow, and the prisoner recognized for his appearance, in the sum of $100.

Oliver Dennett plead guilty to the charge of common drunkenness and received a sentence of 4 months hard labor in House of Correction, and to pay costs $4.80, with apparent satisfaction at the thought of once more being the recipient of neighbor Philbrick's well known hospitality.

William Horne, on account of having one horn too much, notwithstanding his yesterday's experience before His Honor, was assessed the sum of $6.86, and paid up.

John Sullivan and Henry Spinney likewise contributed $6 86 each, and were soon "conspicuous for their absence."

James Moore—much drunk—and Patrick McNally ditto, were sent to the House of Correction to work out a sentence of $6.86 each.

☞ Extensive repairs and improvements are now in progress on the School Building formerly known as the Hanover Street Chapel. The lower room is to be brought above ground, and the upper room will be elevated five feet above its recent level. The job will be considerably expensive, but the change was very desirable. In our opinion it would be better, while land is cheap in Portsmouth, to buy good sized lots, and build new schoolhouses of one story, with good room round them, than to build heavy, costly buildings, or buy old ones, on small lots.

☞ City Marshal Johnson requests us to state that all dogs found on the streets without muzzles, after the 30th of July, will be taken care of by him,—which means "Death to Dogs."

☞ A friendly game of Base Ball will come off at the Plains this (Saturday) afternoon at 3 1-2 o'clock, at the Plains, between members of the Kittery and Portsmouth clubs, if the weather is fair.

☞ Some thousand heads of early cabbage have been raised this year by Mr. F. W. Rogers, in his fields near the compact part of this city—of which the thieves have "cabbaged" a few, as they wished to get the earliest in the market—and enough are left for many dinners for honest men who would as readily buy a Portsmouth cabbag that has not travelled, as one that has been to Boston and come back.

FALSE REPORT.—A report is in circulation, and has found its way into print, that Secretary Harlan wrote a letter to the late Republican caucus, in which he elaborately detailed conversations which took place in the Cabinet, and advised the Radical members of Congress to remain in perpetual session; but there is the best of authority for stating, by request of the friends of that gentleman, that he wrote no letter and had on communication with the caucus.—*Tribune.*

— The N. Y. Express (Dem.) of Wednesday says:

"A gentleman, who knows, from Washington, assures us that Secretary Stanton will not be allowed to impose much longer upon the President, and that in a few days at most he will take either a peaceful or summary departure from the Cabinet.—Harlan is waiting to be turned out."

SUDDEN DEATH.—Miss Hyde, about seventeen years old, a daughter of Mr. George Hyde of Charlestown, died suddenly on the Newport boat Tuesday evening, at about eight o'clock, while on the passage from New York. The deceased went on board in her usual health.

☞ One of the performing elephants of Bailey & Co's Menagery, (valued at $15,000.) died at Bangor, Thursday.

☞ Gov. Morton and 6000 union Republicans held a Congressional Convention at Albany, Ind. on Wednesday.

☞ The police made a capture in New York city on Thursday, of $50,000 worth of presses, plates, dies and stock, ready to make counterfeit currency.

☞ The people of Dover have contributed $3000 in aid of sufferers at Portland.

— New Haven claims to be the only place in the country which manufactures fish-hooks, needles and steel bowed spectacles.

☞ The Fredericksburg (Va.) News says a man named J. H. Keene was arrested Saturday and taken to Richmond to be detained, according to General Grant's recent order, in military confinement until a proper judicial tribunal may be ready and willing to try him." The News says Keene gave a negro "a few cracks with a hammer," because he was impudent after Keene had thrown a quid of tobacco at him; that the magistrate to whom the negro complained refused to entertain the charge; and that Keene, "on the negro's testimony, we suppose, was arrested, taken from his business, and carried to military confinement."

☞ Godey's Lady's Book for August, has for a frontispiece, "The Toilet of Death": The Fashion Plate is elegant, and enlivened with children: The Daffodils at a Fancy Fair, is a funny article in the Partington vein.

☞ Hours at Home for August, has a good table of contents, beginning with a pleasant article on Shakspeare's Life.—Scribner & Co. publishers, N. Y. J. F. Shores, jr., Portsmouth, agent.

— Mrs. David Smith of Lebanon, Tenn., recently gave birth to four children—two boys and two girls—each weighing six lbs. The mother and children are doing well, and all are likely to live.

GOLD, Friday, 150 1-4.

TRUTH.—"Truth is mighty and will prevail." So will Herrick Allen's Gold Medal Saleratus over all others, notwithstanding so many in the trade are trying to imitate it and deceive the public with a spurious article.—Our advice is to use no other, try no other, call for no other, and be put off with no other, for we know there is no other as good. It takes less in quantity; it is far superior to soda to use with cream tartar; it is free from all deleterious substances; you can obtain much better Biscuits with it than with any other saleratus or with soda; we have. Try it, and speak from experience. 6

WHY HAS SOZODONT become the staple dentrifice of America? Simply because it is impossible to use it, even for a week, without perceiving its hygienic effect upon the teeth, the gums and the breath. 29

Elegant Residence for Sale.
[On account of removal of owner.]
The well known and beautifully situated CUTTS HOUSE, on North HILL, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath-room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.
The House is in excellent repair, having been thoroughly refitted a year or two since, while its proximity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.
The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The house is fitted throughout with Straw Matting.
The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.
If desirable, more land, adjoining, could doubtless be purchased.
The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery—and so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

Morning Chronicle.

WHIRLWIND AND CONFLAGRATION IN THE CANADA OIL REGION.—A few days since a whirlwind passed over Bothwell, C. W., which prostrated everything in its course. The new storehouse of Campbell & Pettit, enclosed and roofed, was crushed, and one of the workmen seriously injured. A newspaper correspondent says:

"The hurricane passed on from here in a south-easterly direction, ravaging everything; houses were demolished, large trees, three feet over, were knocked around as if they had no root-hold at all; derricks and engine houses stood no chance, but were destroyed by the dozen. Some were lifted off the ground altogether, and one was hurt, but the occupants found their way out in a hurry. It passed on and crossed the river above Cashmere, doing as much injury to the farmers as it did here to the oil men. It uprooted every barn and scattered all the fences for miles, and when last heard from was increasing in fury. So far there are no deaths reported, but a great many were more or less injured and some quite seriously. The damage in this district alone would perhaps amount to $10,000, counting in the fire and explosion which took place in the evening on the Pepper farm, which seemed to be the finishing stroke of the day's uproar.

About nine o'clock the Wilder well was pumping away as usual, when the gas, with which it has been much troubled lately, ignited from the open lamps, and in an instant the flames ascended the derrick, came back and proceeded down the roof of the engine house, and in less time than it takes to write it the whole fabric was enveloped in flames, which instantly connected with the tank, and away went one hundred barrels of oil, worth $7.50 a bbl. in gold on the ground. But the danger was yet to come; for the engine was running all the while; the engineer, when the fire broke out, turned on the boiler pumps, grabbed his clothes, and made his escape none too soon to save his hair. In less than half an hour from the time the fire took the boiler exploded, and being one of the large Montreal engines, the shock was terrible."

AMERICAN AND FOREIGN PATENTS

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1837,

78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to procure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful practitioners* with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their specifications in a form favorable for them as early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

SELF-FASTENING BUTTONS

(ENGEMBER'S PATENT.)

PUT ON AND TAKEN OFF in a MOMENT by any one, without sewing, eyelet, screw, rivet, or cut in the cloth. First premium awarded by American Institute in September, 1865. They can be changed from one garment to another in an instant, and as they never pull off nor tear the cloth, they are the only reliable BUTTONS FOR MEN'S AND BOYS' CLOTHING; the most convenient BUTTONS FOR LADIES, as by their use the appearance of the garment can be altered to suit the taste or occasion. For the ARMY AND NAVY they are invaluable, as they can in an instant be exchanged for a new set removed for cleaning, or changed for plain covered buttons when desired. They have been adopted by tailors and clothiers, and those who have used them will have no other. In order to let the public at once see the great advantages of these goods we offer to send by return mail, postage prepaid, on receipt of price, one set SLEEVE BUTTONS, Ladies' or Gents', Plain, 40c: Fancy, 50c per set; 1 doz. FOR JERUSALEM.—A peculiar religious movement is making in Maine, looking to emigration to Jerusalem. In 1860, Elder G. J. Adams, who has been a Methodist preacher and a Mormon preacher, and a stage actor, gained some followers in Springfield to a new theory he set up regarding the crucifixion and resurrection of Christ, who he declared was soon to come and sit on the throne of David in Palestine. Afterwards he went to Addison in Maine, where he has several hundred followers; and in connection with a merchant of that place, named McKenzie, he has purchased a tract of land in Jaffa, (Joppa) where he proposes to build a city. A barque is now fitting out at Jonesport to carry the pilgrims to their new home in the Holy Land. She has expected to sail about the middle of the coming month. They will carry with them all the enterprise and improvements of the Yankee character, and expect on their arrival there to be acknowledged by God and presided over by Christ, and to reclaim that country to the church.—*Aroostook Pioneer.*

TYPOGRAPHICAL LIBEL.—The printed reports made Mr. Darling of New York say in Congress, the other day, in his eulogy of his late colleague, Mr. Humphrey, that "his gentlemanly spirit winged its way to his Maker." So salient an instance of absurd rhetoric naturally attracted attention, and the quotation from Mr. Darling's speech has been widely copied, as an instance of vicious "fine writing." But it seems that a typographical blunder, by the omission of a single comma, did the orator gross wrong, and that what he did actually say in describing the peaceful death of his friend, was that "without a struggle or a groan the gentle, manly spirit of James Humphrey was wafted into the presence of his Maker."

— Four companies of cavalry have been sent to Memphis, probably in pursuance of the policy of General Grant, announced recently, of scattering cavalry over the South to enforce the laws and punish the guilty where the civil laws are too weak or indifferent.

— Gen. Rousseau, the imitator of Brooks, writes in a recent letter: "I never was a Republican—conservative or otherwise, and I did not vote for any of the so-called reconstruction measures referred to."

— A recontre recently took place in Charleston, Miss., between R. E. Lee and Capt. J. T. Smith, which resulted fatally to both parties. Cause of quarrel—unimportant gossip of school girls.

— A steamship, to be called the Southern Rights, is to run on the line between Charleston, S. C., and Boston.

— The Newport (N. J.) Courier says there are about one thousand of the shoemakers in that county thrown out of work by the recent attempt of employers to reduce their wages fifteen per cent.

— James V. Macomber, son of Varnum Macomber of Westport, was sunstruck while at work building a cellar wall in Providence, on Friday last at three o'clock in the afternoon, and died at six o'clock.

— Several New York cotton speculators are already at Columbus, Ga., endeavoring to get hold of the forthcoming cotton crop by offering advances freely, but planters generally avoid this class of men.

— The London papers are again "running Lord Brougham's shabby, old, checked trowsers."

— The Massasoit Insurance Company, of Springfield, have NOT decided to close their business; but to take no *new* risks, to settle with policy holders who wish to withdraw, and to ascertain precisely their condition and prospects.

MONDAY, JULY 23, 1866.

☞ The Washington correspondent of the Philadelphia Ledger says that the matter of restricting the President's appointing power, so long agitated, will not be pressed by the majority of Congress, the conclusion having been reached that any interference with the Executive power on the subject of appointments could only result disastrously in the future to the party that aimed the blow.

[Very likely there is some truth in these suggestions, as to the disaster. Nevertheless, there *ought* to be such an interference. The miserable policy of removals, without cause, was begun by the camp-followers and sutlers of the Jackson era, whose motto was "To the Victors belong the Spoils." It was adopted and made worse by John Tyler—and is now proposed for adoption and improvement (?) by the new confederation of traitors and rebels. The first six Presidents pursued no such course; they scorned such mean dishonesty.]

THE HEATED TERM.—Prof. Loomis of Yale College, who has investigated the subject, asserts that the heat of the recent period has been more intense, and the extreme heat has been longer continued, than has occurred before in 89 years, and probably for a much longer period.

The New York Post says the average temperature in July, 1845—a month of extreme and long continued heat—was 85 2-31 deg.; but in seventeen days of this month an average of 86 14-17 deg. has been reached. This is nearly 2 degrees in excess.

☞ The Commissioner of the Freedmen's Bureau in South Carolina mentions several cases where negroes are prevented from filling contracts on account of the scarcity of provisions. One case in particular is the Ramsay plantation, on Black River, near Georgetown, S. C., 146 acres of rice, 50 acres of corn, and 17 acres of potatoes, &c., are being cultivated. Sixty freedmen are employed. They were to subsist themselves but now their provisions have run out, and it lacks three months of being harvest time. Planter has no provisions to give and no money to purchase, so he asks government to furnish subsistence to laborers and take mortgage on crops as security.—*Boston Herald.*

What a foolish and wicked *policy* it would be, to cut off the channel through which this relief should flow. Thanks to Congress, that they refused to do it.

☞ The N. Y. Commercial of Friday says facts show conclusively that the cholera is now raging in certain portions of the city. It is beyond doubt that the epidemic is pursuing its incipient steps, beginning in regions most favorably disposed for its development. The facts relative to the number of cases on Hart's Island are deemed so appalling that publicity is denied. Surgeon Calhoun of that post has died of cholera, and an able corps of physicians have been sent there, and also to Governor's Island. Seven hundred recruits who were recently sent from Hart's Island for the army in Georgia had the cholera break out among them before reaching Savannah, three dying before arriving. Several cases reported in the city, Friday.

☞ A boy 14 years of age, who gave his name as Charles Newton, and stated that his mother resided at Boston, was found on board the Fall river boat upon her arrival in New York Sunday. At first he refused to give his name, but under threats of being sent up as a vagrant he did so and said that he had run away from home. His mother was telegraphed to and went to New York and brought him home. In his possession was found a carpet-bag, containing $6, a bundle of cigars and a pack of cards.

☞ From London July 10, we learn that negotiations on the Continent of Europe are progressing favorably; that Russia cautions Prussia to remember there are some great powers in Europe looking on; that the Italian army has been beaten by the Austrians; that Benedeb has been relieved of the command of the the Austrian army; and that American funds and cotton have slightly advanced in England.

☞ Alleging to the poisonous ice cream eaten at Island Creek, Abington, Mass., on the 4th, the Quincy Patriot says there is a report that the manufacturer of the creams went to an apothecary and ordered some arrow root, which he supposed he received, and put the same into the creams, as is customary with some; but it has since been ascertained that the apothecary made a mistake, and gave him sugar of lead, which is a deadly poison.

☞ On Friday, 75 convicts were discharged from Virginia penitentiary, under the recent order from the War department, directing the release of prisoners convicted by military tribunals.

☞ The Gov. of Kansas has appointed E. G. Ross (associate editor of the Law-Tribune) Senator to fill Gen. Lane's unexpired term. Major Ross has gone to Washington.

NEW HAMPSHIRE ITEMS.

—— Mr. Currier, aged 80 years, living in Concord, started Monday morning to go across a farm for about a mile, to see a daughter; but went into some bushes to avoid the heat, became bewildered, and was found Wednesday noon, lying under some bushes, much exhausted by heat and fasting.

A DUMB SENTINEL IN CONCORD.—It is difficult to discover what good purpose is served by the elegant flagstaff at the N. E. corner of the State House Square. It stands there from one year's end to another, frowning, like a dumb sentinel on a watch tower; cold, desolate, speechless and useless. Years have elapsed since the national ensign waved from its summit, and during those years the flag has been made dearer by a thousand memories. It gave no signal of rejoicing for the victories of Gettysburg or Vicksburg, neither for the surrender of Lee or of Johnston. A day or two ago, when Gen. Sherman was here, and every body was out for a holiday, the flagstaff had no sign of welcome. It is nothing but a flag-staff without a flag; as insipid and nonsensical as a wedding without a bride.

This is what comes of belonging to the copperhead party, and having no victories to celebrate, no eras of rejoicing, no consolation whatever. The flag staff will never be of any use, under the present ownership, until desertion, bounty-jumping and rebel-worshiping are regarded cardinal virtues. In the mean-time, being on the public domain, it should be transferred to the State, or removed, as a cumberer of the ground.—*Statesman.*

☞ The vote in the U. S. House of Representatives, to bury the Veto of the freedmen's bill, was said to be 130, 114, 103.—We have counted the yeas, and they are 103.—The nays were 33.—Examination of the vote shows the names of Messrs. Raymond, Kuykendall, Phelps of Maryland, and Washburn of Indiana, elected as Republicans, in the negative; with those of Hale of New York, Thomas of Baltimore, McKee and Randall of Kentucky, and the three West Virginia members in the affirmative.

☞ The son-in law of Mr. Johnson, Mr. Patterson of Tennessee, and his Private Secretary, Mr. Cooper, lately wrote letters to Tennessee, advising opposition to the proposed amendment of the Constitution, before the Legislature of that State. The rebel and copperhead element *did* oppose it, but all in vain. The loyal and true element, that stood by Gov. Johnson when the rebels tried to destroy him, now stand by Gov. Brownlow, Congress, and their own safety, when the crazy man tries to destroy them.

☞ A report of the great Insurance Meeting, as published in the N. Y. Tribune, shows that the meeting resolved that premiums in "participating" companies, should be 10 per cent. above the regular tariff. They did *not* vote to advance 10 per cent., nor to advance *to* 10 per cent., as the stupid dispatch had it; but did vote to have their agents confer with other underwriters, and establish a fair *local rate* of insurance, which of course would be an advance on recent rates. They also voted to return to the usage of waiting 60 days before paying losses,—as they think the speedy pay system has increased incendiary fires.

☞ If the Democratic leaders dare to conduct their canvass upon the principles of the Reading Convention they will go to irretrievable ruin. Montgomery Blair's speech is a threat of civil war, and an appeal to the worst passions of the worst men. The people of the loyal States will not endure to be told that if the Union candidates are elected in October the North will be the scene of civil war, begun by the defeated party and the South. Pennsylvania is not to be terrified into electing Clymer. These threats are the courage of cowards. *Tribune.*

☞ In Congress on Thursday, both Houses struck out of an appropriation bill the salary of Harvey, Minister to Portugal. His letter to Seward, denouncing Congress, caused this action.

— Gen. Grant's recent order is severely criticised by the Southern papers, and he is accused of "dubious flirtations with the Radicals."

— When Sherman recently passed through Hamilton, Ohio, he stuck his head out the car window and asked the name of the place. "Hamilton," was the reply, "and a good many Copperheads here." "Tell the Copperheads to go to Brazil, where they belong," was the general's response.

— The St. Paul (Minn.) Pioneer says that old steamboatmen declare that the signs of the past four or five years point to the permanent drying up of the Mississippi river, reducing it from a stream navigable for the largest boats the whole season, to one of uncertain navigation like the Missouri.

— The great seal of the State of Missouri, which was carried off by Claib Jackson, is reported to have been found at last, having been dug up from the bottom of a well on the premises of Judge Frazier, at Marshall, Texas, by a party of workmen who were cleaning the well. The premises were used as headquarters by ex-Governor Reynolds during the preambulations of the rebel State Government in that section.

AT NEW ORLEANS, on Friday morniug, Judge Abell, of the First District Court of Orleans Parish, was arrested on the affidavit by several citizens accusing him of treason and endangering the liberties of citizens under the Civil Rights bill. Mr. Abell was bailed in $500 to appear before the November term of the Circuit Court.

The affidavit is based on the recent charge to the Grand Jury delivered by the accused, to indict those members of the convention of 1864 who would re-convene it.

Gen. Sheridan publishes his general order forbidding the commemoration of Confederate monuments in his department, and dissolving all organizations for that purpose.

Gens. Steedman and Fullerton, of the Freedmen's Bureau, who have been investigating the conduct of agents there, left Saturday.

☞ An Albany, N. Y. dispatch of Saturday says: The troops still remain encamped in the anti-rent district, several anti-renters intimating a readiness to settle the demands. A man was discovered yesterday in an attempt to poison the well used by the soldiers, but escaped, leaving the poison on the ground.

Two negroes, escaped slaves from Cuba, arrested there some days since on a charge of stealing from their master several thousand dollars in money and jewelry, were yesterday discharged by Judge McCunn, on the ground that no treaty exists requiring their extradition, and also that the papers were irregular.

NEW YORK ITEMS.—The woods near Holbrook station, Long Island, have been on fire several days. No estimate of the damage can be made.

The cholera is spreading throughout the Metropolitan district, and has broken out among the troops on Governor's Island as well as those on Hart Island.

☞ The Galaxy for August 1st has, as usual, a choice *table of contents.* W. C. & *F. P.* Church, publishers, New York. Terms $5 per year, 25 cents a number.

☞ Harper's Magazine for *August*, is already on hand, at J. H. Foster's—showing at once the continued promptness of this excellent work, and that the summer is fleeting.

☞ Beadle's Monthly for August has an illustrated article on California and Nevada, besides a mass of other interesting reading. Published by Beadle & Co., New York, at $3 per year.

☞ The New York Weekly Magazine continues to maintain its popularity as a vehicle for light and useful reading. It may be obtained direct from the publisher, or at Batchelder's news depot, at ten cents per weekly part. Monthly parts, 50 cents.

☞ Peterson's Ladies' National Magazine for August, has a beautiful engraving, Going to the Party—and a Punchy cut, Cape May in full toilet, and Cape May in Bathing toilet: clever stories. Chas. J. Peterson, publisher, Philadelphia.

OFFICIAL PROSCRIPTION.—We cannot realize that he who was made President of the United States by the pistol of Wilkes Booth, has any moral right to remove from office those who helped make him Vice President, in order to fill their places with copperheads and ex-rebels. Even if it were clear—which it surely is not—that Presidents may justifiably remove from office those who opposed their election, in order to appoint those who supported it, we consider Mr. Johnson's case very different from that, and we deny his right to remove those who helped to office in order to appoint instead those who reviled him as one of the worst of mankind. Hence we think it right in Congress to do all in its power to save republicans in office from proscription.

Having done that, we neither fear nor deprecate his action in the premises, so far as it may be expected to exert a political influence. If he should to-morrow remove every Republican office-holder within his reach, and appoint instead Randallites and rebel sympathizers, we believe he would strengthen the party thus proscribed. Our friends in office are very quiet and reticent. Kick them out, and they will be lively as skinned eels in hot vinegar.—*Tribune.*

STOLEN CHRONOMETERS RETURNED.—Sixteen chronometers, stolen by Waddell of the British pirate Shenandoah, from New Bedford whaleships, were received in that city Thursday, to be restored to the owners.

HISTORY SET RIGHT.—We always supposed, till lately, that Gen. Hull's Proclamation to the citizens of Canada, when he invaded that country in 1812, (a piece of bombast,) was a production of his own:—but it is now said, we suppose truly, that Gen. Cass drew it up.

SOUND DOCTRINE.—In a letter, written recently by Mayor Chapman of Baltimore, he says, and every truly loyal men will approve of it:

"Men who have used every effort in their power to destroy the best government on earth, in my opinion, are not fit and should not be allowed to have any influence in the administration of its public affairs."

— The Richmond Whig has "recently heard from several sources that Northern men have approached late holders of slaves with the offer of $5 for each slave lost by emancipation," and inquires what it means. Of course it means humbug.

LOUISIANA.—R. H. Howell, President *pro tem* of the Convention which framed the present Free State Constitution of Louisiana (and which adjourned subject to call), summons that body to meet in the city of New Orleans on the 30th inst., to ratify the Constitutional Amendment adopted by the present Congress. The Governor is requested meantime to order elections in those districts which, being under rebel sway, chose no delegates to the Convention as originally organized.

We have private assurances that the Unionists of Louisiana, having endured a full year of rebel domination, are ready to dispense with any more of it. They know that they are a large majority of the entire people, and they mean to be respected accordingly. We hope for great good from the reassembling of the Constitutional Convention.—*Tribune.*

GOLD, Saturday, 149. The news from Europe, made a slight fall. A steamer brought $2,264,000 from California. Sent to Europe $335,000.

CONGRESS.—In the House of Representatives, Friday, July 20, the Resolution Reconstructing Tennessee, was passed by a vote of 125 to 12.

THE NEBRASKA SENATORS.—The Territory of Nebraska has chosen two uncompromising Republicans to represent her in the U. S. Senate, subject to her admission as a State into the Union.

—A household without the J. Monroe Taylor Gold Medal Soap always on hand is like a garden without flowers, or a family without children. We pity each and all alike, but have no sympathy with the family who does not enjoy the luxury of nice, clean, white clothes, provided this celebrated and more than excellent soap can be obtained, for these luxuries can only be enjoyed by its use; so do not cease trying until you obtain it. 7

PERRY DAVIS' PAIN KILLER,

As an internal remedy, has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, Dysentery, and Asthma, it cures in one night, by taking it internally, and bathing with it freely. It is the best liniment in America. Its action is like magic when externally applied to bad sores, burns, scalds, and sprains. For the sick headache and toothache, don't fail to try it. In short, it is a Pain Killer.

PERRY DAVIS' PAIN KILLER.—This medicine has become an article of commerce, a thing no medicine ever became before. Pain Killer is as much an item in every bale of goods sent to country merchants as tea, coffee, or sugar. This speaks volumes in its favor.—GLENS FALLS MESSENGER. Jy1—dawlm

PURIFY THE BLOOD.—If the blood be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a broken or bad blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as if

It teaches how to remove Tan, Freckles, Pimples, Blotches, Moth Patches, Sallowness, Eruptions, and all impurities of the skin; how to enamel the skin, leaving it white and clear as alabaster; how to produce the fullest development of the female form (as practised by the French,) causing the bust to grow round and full, and if the form has been lost by padding, lacing, or maternity, restoring it to more than its original fullness, firmness and beauty. It teaches how to reduce in size the hands and feet; produce corpulency or the reverse; remove superfluous hair; cure Corns, Bunions, Warts, and Moles; renew your age; cure Drunkenness, Catarrh, Dyspepsia, Nervous Debility, &c., how to fascinate and gain the love and affection of any person you may choose, together with other useful and valuable information. ☞ At a special meeting of the Board of Aldermen, Friday evening, the following preamble and resolution were read and passed unanimously:

Whereas, J. Horace Kent, Esq., having resigned the office of City Marshal, a position which he has filled for the past six months with credit to himself and to the entire satisfaction of this Board and of the citizens of Portsmouth;

Therefore, *Resolved,* that in the retirement of Mr. Kent the city loses a prompt, reliable and efficient officer: and that while we regret the loss of his services to the city, we can but congratulate him on his advancement to a more lucrative and enviable position under the general government.

The vote authorizing the purchase of the Academy was reconsidered and again passed, Yeas—Ald. Davis, Foster, Henderson, Martin and Ham, 5; Nays, Ald. Hodgdon, Wilson and Ayers, 3.

Ald. Wilson moved that the building of a Ward Room and School House in Ward 3 be postponed till another year. Ald. Henderson offered the following amendment "that the Committee on City Lands and Buildings be authorized to erect said building as soon as specifications are adopted by this Board." The amendment was adopted, Yeas—Ald. Davis, Foster, Henderson, Martin, and Ham, 5: Nays—Ald. Hodgdon, Wilson and Ayers, 3. Ald. Ayers offered an amendment "that the Com. on City Lands and Buildings, advertise for proposals to build the same by contract": rejected. Ayes—Ald. Hodgdon, Wilson, and Ayers, 3: Nays—Ald. Davis, Foster, Henderson, Martin, and Ham, 5. Adjourned.

AN OLD CONDUCTOR DEAD.—Mr. B. H. Cram, the well known conductor on the Eastern Railroad, died at his residence in Eliot, Me., on Friday, at the age of 46. He had been connected with the road from its opening, entering upon duty when he was 18 years old, and continuing for 26 successive years, when he retired about 2 years since on account of declining health. He was one of the most popular men that ever conducted a railroad train, having the fullest confidence of his employers and the public. He was careful and trusty, and always pleasant. His death will be regretted by many thousands who knew him.

The funeral services of Mr. Cram, at his residence in Eliot, occurred on Sunday, Rev. A. J. Patterson of this city officiating. A special train over the Eastern Railroad, arrived here at noon, bringing Mr. Prescott, Superintendent, and a large number of Conductors, Engineers, Clerks, Ticket sellers and employees of the Road. The train proceeded to Eliot in charge of Conductor Towle of the P. S. & P. R R.

A large concourse of the people of Eliot were present at the funeral, to show their respect for the memory of one of their best citizens. Mr. Cram at the time of his death was Treasurer of the Town. He had been in feeble health for some time past, and on Monday last, returned from a brief visit to Gloucester. He leaves a wife and three sons.

POLICE COURT, Saturday, July 21.—Col. Thomas Haley, vagrancy, sent to House of Correction for three months, and pay costs $4.80.

John Murphy, drunk, $6.86, paid.

James Brown, continued from yesterday, for assault, was discharge i.

Matthew Dame, assault, was also discharged.

☞ A special train on the C. & P. Railroad from this city to Greenland will be run on Tuesday afternoon, to accommodate passengers going to the Festival on Col. March's premises. This train will leave Portsmouth at 3 o'clock,—and the return will be with the regular evening train.

Communication.

There's buxom Health of rosy hue,
And lively Cheer, of vigor born;
The spirits pure, the slumbers light,
That fly the approach of morn.

Persons desiring to *themselves* an especial application of the above quotation are referred to an advertisement on our 2d page relative to the continuance of our Gymnasium. We are unwilling to believe that, to our intellectual reproach and bodily decension, it will be meagerly allowed to pass away,—but hope, on the contrary, an institution so generous of health, and so munificent of tranquility, will, for the benefit of ourselves and others, now and hereafter, receive a liberal and enduring support.

KEARSARGE MILLS.—At a meeting of the purchasers of the property of the Portsmouth Steam Factory, on Thursday last, it was voted to accept the new charter under the name of "Kearsarge Mills." They adopted by-laws and chose the following officers for the current year:—Directors, J. L. Little, Henry J. Gardner, William P. Jones, Frederick Kidder, Oliver Ames, James W. Emery, Josiah G. Abbott. Treasurer, William S. Eaton; Proprietors' Clerk, Ammi R. H. Fernald.

The Portland Fire has given the Water Question a new start in Concord.—Salem is rejoicing over new water-works nearly completed.

— The Union paper published at the home of Senator Cowan, of Pennsylvania, says he could not carry fifty republican votes in that county, in an election to approve his course.

— President Johnson has notified the Douglas Monument Committee that he cannot attend the laying of the corner stone of the monument at the time appointed.

— The celerity with which both branches of Congress passed the Freedmen's Bureau Bill over the veto of the President, is one of the most gratifying occurrences of the last few months.

— The Philadelphia Press says the forthcoming Convention in that city will be the third Rebel invasion of Pennsylvania. The fate of the two previous attempts indicates what will follow this.

— A Mobile dispatch states that a sloop was overhauled in the Bay by the United States cutter, with 150 negroes aboad, en route to Cuba to be sold into slavery. They had been collected at employment offices in Louisville, Nashville and Memphis.

DEAR SIR:—I am glad of the opportunity of saying that the California Wines introduced here by PERKINS, STERN & CO., seem to me of excellent quality and perfectly pure from any foreign intermixture—the kind which bears the name of California Port, in particular, meets with very general favor. Some time since I received from the Portuguese minister a box of port directly from Oporto, of very fine quality, and this California Port is nearer to it in flavor than anything I have met with since.

I am, respectfully yours,

Elegant Residence for Sale.
[On account of removal of owner.]
The well known and beautifully situated CUTTS' HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath-room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.
The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.
The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The house is fitted throughout with Straw Matting.
The out-buildings are very complete. A STABLE, with accommodations for five horses: CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.
If desirable, more land, adjoining, could doubtless be purchased.
The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

From the Portsmouth Journal

HOT WEATHER.

On nine days the present summer, the mercury has been above 90 degrees at noon, *viz:*

June 25th, 91; 26th, 91; 27th, 92.
July 7th, 94; 8th, 94; 15th, 91; 17th, 90; 18th, 94; 19th, 96.

This is the temperature at our usual place of observation, which is probably as cool a spot as any in Portsmouth. In many localities it rose several degrees higher on those days. 96 is the highest we recollect recording in the last forty years.

On the 11th of July, 1818, it rose to 97. In 1825, there were eleven days in July on which it rose to over 90.

No year in the last thirty better compares in temperature with 1866, than the year 1856, when the thermometer on eight days was above 90 degrees, as follows:

June 21st, 92; 22d, 93; 29th, 96.
July 24th, 90; 25th, 95; 26th, 90; 27th, 96; 28th, 90.

After the 28th, there was no more hot weather for the season; there were only six days in which the thermometer ran to 80 degrees. These days were July 29th, 82; Aug. 14th, 82; 18th 80; Sept. 10th, 81; 11th, 83; Oct. 10th, 81.

THE LEGISLATURE.—We inquire, of what use or benefit for one Legislature to order the voice of the people to be taken for or against constitutional amendments, when after that voice has decided in favor, under the restrictions, a succeeding Legislature decide against any measures being taken? The restrictions confined the action to the questions of an enlarged Senatorial representation; a diminution of representation in the popular branches; the provision against Catholics holding any office; and the right of soldiers absent and qualified to vote for Representatives in Congress and Electors of President and Vice President. Who can doubt the propriety, not to say the necessity, of these changes. Here for instance are twelve men in one branch, and upwards of three hundred in another! The Senate had the good sense to vote in favor of Reform, but the House said *No*. A reform will lessen to an *alarming* extent, the opportunities for *distinction* now enjoyed, under the glorious present *rotation* system. Let us "let well alone."

Another strange proceeding may be noticed. The Concord Rail Road Stock is some 25 per ct. or more above par, with royal dividends, as the stated result of excessive rates demanded for freight and passengers. The House, with but *one dissenting voice proposed a diminution*, and with but four dissenting, voted a rigid examination into the affairs of this Corporation. The Senate with its twelve members, nonconcurred the first and concurred in the second; but eventually were induced to postpone any examination! The declaration of a member of the House, that a President of a Rail Road had been heard to say that he carried the Senate in his "breeches pockets" may have some reference to the necessity of a Constitutional reform!

The subject of Common School Education—especially touching the importance of preparing young teachers for profitable instruction, was agitated in the early part of the session. The Governor and the School Commissioners appeared very desirous that *something should be done*, since all State aid had been withdrawn from the Institutes of Instruction. But we perceive no other advance has been made than the appointment of Mr. Perkins, the Senator of the 9th District, to report at the next *session*, on the subject of a Normal School. Now, a Normal School will do something; but the money appropriated to support it, applied to that of County Institutes, to be under the special instruction of, say three Commissions, *well qualified*, to be appointed, would, we are convinced, do much—for unless we had three or four Normal Schools, of which there is no hope, located in different sections of the State, not one teacher in ten would be able to avail themselves of the benefits.

THE JOHNSON CONVENTION.—The call issued at Montgomery, Alabama, for a convention to select and send delegates to the "Johnson Convention," at Philadelphia, "is signed, except in one instance, BY FORMER SECESSIONISTS AND ACTIVE REBELS!" The whole object of the Convention is nothing more nor less than to create a division in the Republican supporters of Congress against the improved *John Tyler* of the present day; who set up "my policy," and now threatens a swap, as soon as Congress adjourns, of all holding office who will not prove recreant and support said policy. This we now have through Thurlow Weed, of New York, who unfolded to Mr. Ward, a member of Congress of Alleghany Co. N. Y., the President's views. This Thurlow Weed has been a great politician in New York. He journeyed with Seward when it was expected the latter would be the candidate at Chicago instead of Lincoln. Seward supports Johnson, and Weed supports Seward. What an imposing Convention this will be, in Philadelphia! A few Conservative or Johnson Republicans, and a host of Northern Copperheads and late Southern rebels!

PRICES' ISLAND IN 1808.—We have before us a bill of Wm. Holman against the State of New Hampshire, for 5 days work each of ten men and two yoke oxen, hauling cannon and shot from John Peirce's Island to the U. S. Gun house in Portsmouth, N. H., in Oct. 1808.

It thus appears that there was a fortification there before the war of 1812, at which time the embankments now remaining were thrown up. Can any one give us the history of the first fort?

The *Father* who whipped his son to death, is now in prison, to be dealt with as the outraged laws of the land shall prescribe. Says the Christian inquirer, "the worst feature in the case is, that the Father justifies his conduct on the ground, that the child's will must be broken and subdued. The pretended obstinacy of the child was probably the result of his own depravity....Did he suppose that the infinite Father could be gratified by extorted prayers? That Father says, "My son, give me thy *heart*; not a homage offered on compulsion."

SHEPARD'S SELF-FASTENING BUTTONS

(REMEMBER'S PATENT.)

PUT ON AND TAKEN OFF in a MOMENT by any one, without sewing, eyelet, screw, rivet, or cut in the cloth. First Premium Medal awarded by the American Institute in September, 1865. They can be changed from one garment to another in an instant, and as they never pull off nor tear the cloth, they are the only reliable BUTTONS FOR MEN'S AND BOYS' CLOTHING; the most convenient BUTTONS FOR LADIES, as by their use the trimming on the garment can be altered to suit the taste or occasion. For the ARMY AND NAVY they are invaluable, as they can in an instant be exchanged for a new button, moved for cleaning, or changed for plain covered buttons when desired. They have been adopted by tailors and clothiers, and those who have used them will have no other. In order to let the public at once see the great advantages of these goods we offer to send by return mail, postage prepaid, on receipt of price, one set SLEEVE BUTTONS, Ladies' or Gents', Plain, 40c; Fancy, 60c per set; 1 doz. Suspender Buttons, 40c, or one ASSORTED BOOK containing 1 doz. each, for coats, vests, pants, and overcoats at $1.75 per box. A full descriptive list, from which any style of button can be ordered, will be sent by mail on application. Call or address W. B. WATKINS, Sole Agent, No. 481 Broadway, (corner Canal st., New York. CHEROKEE CURE,

THE GREAT

INDIAN MEDICINE,

Cures all diseases caused by selfabuse, viz:—*Spermatorrhœa, Seminal Weakness, Night-Emissions, Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Palpitation, Nervousness, Insanity, Consumption*, and all diseases that follow as a sequence of youthful indiscretions.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus or Whites in Females*. The two medicines used in conjunction will not fail to remove the disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $3, Three Bottles, $5.
" Injection, " " $2, " " $5.

The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived.* If the druggist will say they have the genuine, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

HAPPY EVERY DAY.—Sydney Smith cut the following from a newspaper and preserved it for himself:

"When you rise in the morning, form a resolution to make the day a happy one to a fellow-creature. It is easily done; a left-off garment to the man who needs it, a kind word to the sorrowful, an encouraging expression to the thriving,—trifles in themselves light as air,—will do it, at least for the twenty-four hours. And if you are young, depend upon it, it will tell when you are old; and if you are old, rest assured it will send you gently and happily down the stream of time to eternity. By the most simple arithmetical sum, look at the result. If you send one person, only one, happily through the day; that is three hundred and sixty-five in the course of the year. And supposing you live forty years only after you commence that course of medicine, you have made 14,600 beings happy; at all events, for a time."

☞ Messrs. C. L. Vallandigham, Jesse D. Bright and James C. Faulkner are reported on their way to Washington to advise President Johnson as to the reconstruction of his Cabinet. The first-named was sent to the Confederates during the rebellion; the second was expelled from the Senate as disloyal; the third came home from Europe early in 1861, and immediately joined the Confederates. Let them make a Secretary of War, and wouldn't rebels and negro killers tremble?

JOSH BILLINGS says: To parents—Probably, one ov the best ways tew bring up a boy in the way he should go, iz tew travel that way yourself, once in a while. Still there aint no sure thing; I hav seen them brought up az kerful as a lap-dog; and then go tew the devil just az soon az they could strike the right track. And then again, i hav saw them cum out ov somebodd-ys gutter and wash up like a diamond.

Raising boys iz a good deal like raising colts, if yu dont git more than one out ov ten that iz a fast one, yu are doing fust rate. A grate menny men hanker for a boy tew transmit their reputation to! i konsider this about az risky az the hen's egg bizines, there is always sum chances agin it—one is, that the eggs may be spilte before they start for market, and another iz, they may git busted in carrying.

— The following sentiment was recently given out West: "Andrew Johnson—He brought nothing into the Republican party, and can carry nothing out of it."

— The cobblers of Nantes recently struck because the name of their patron saint, Crispin, was not inscribed on the Almanack Nantais. The almanac has been corrected to their satisfaction, and the cobblers are delighted at having stuck to their saint like wax.

TUESDAY, JULY 24, 1866.

NAVAL SCHOOL IN LOUISIANA.—The Washington Correspondent of the Boston Journal says:

Doctor P. B. Randolph, an intelligent colored gentleman who has been residing for two or three years in Louisiana, engaged in establishing schools for the education of his race, is here with a proposition to found in New Orleans a normal school for the education of colored teachers for the colored schools. He had, Saturday, an interview of two hours in length with President Johnson, who desired to know the exact conditions of the colored people in Louisiana, and who gave his written indorsement of the proposition to establish a normal school for their benefit. While Dr. Randolph does not approve of the "policy," he speaks in high terms of the President's kindness, and of the interest which he manifested in the welfare of the colored people.

[Well, so far. But it would be far better as well as easier, to sit on one stool, and ride on one horse,—than to try simultaneous sitting on two stools, or riding on two horses at the same time.]

CONVENTION.—The Washington correspondent of the New York Times retracts his previous statements respecting the remarks of Mr. Boutwell, of Mass., at the recent Republican caucus. The writer states now that Mr. B. did not say he considered the President to be a traitor, nor did he speak of the President at all.—What he said was, that he had been assured by a gentleman formerly high in authority, that an attempt would be made to bring the rebels into Congress by force, and that he believed such an attempt would be just as clear an act of treason as that of which Jeff. Davis and his associates have been guilty, and he thought Congress ought to do something to defeat such an attempt.

[Mr. Raymond himself is said to be the Washington correspondent of the Times;—and his perversion of Mr. Boutwell's remarks show him to be most unreliable. He is a fit exponent and representative of "my policy."]

ANOTHER LARGE HAUL OF COUNTERFEITERS.—A young man named Thomas Wilson was *arrested in New York*, Wednesday evening, by government detectives, on suspicion of being concerned in printing bogus fractional currency and other government securities. At first he denied all knowledge of the business, but subsequently confessed his guilt, and turned over to his captors nine finely executed steel plates for printing fractional currency and ten dollar greenback notes, five steel plates for manufacturing the long fifty cent Goddess of Liberty stamps, a large quantity of dies and rolls, and a portion of a press for printing the spurious currency.

On Thursday a descent was made upon an establishment, a short distance out of New York, and a finer press than any yet taken was seized. In addition to this an elegantly executed steel plate for printing the backs of the Spinner head fifty cent notes was captured; also a large quantity of paper, ink, rolls and dies, and a trunk full of bogus money just ready for circulation. Thus far eleven of the most noted manufacturers of counterfeit national securities have been taken into custody, and the amount of plates, presses, dies, rolls and printing apparatus seized cannot be replaced by the counterfeiters for fifty thousand dollars.

"THE COBBLERS OF LYNN."—A few days since the Hon. Mr. Washburne of Illinois, a Maine Yankee, styled the Hon. John B. Alley, the able and faithful Representative from the Essex District, "the Representative of the clam diggers of Danvers, the mackerel fishers of Marblehead, and the cobblers of Lynn." The following facts taken from the record clearly show that Mr. Alley may be proud of the cobblers for their industry, patriotism and honesty: The amount of tax paid by the people of Lynn into the Internal Revenue of the United States from the 1st of July, 1865, to the 30th of June, 1866, was $954,530.07. Mr. Alley can well afford to be "hit again" by the prairie Yankee, whose sneers do not injure the thriving, loyal people of "Old Essex."

NEW HAMPSHIRE ITEMS.

—— Rev. T. H. Miller is to preach at South Hampton next Sunday, and at Atkinson Sunday, Aug. 5.

—— The Rockingham Association of Universalists, with hold their Annual Session this year at Fremont, on Wednesday and Thursday, August 22 and 23.

—— The Concord Statesman says that on Friday morning there were fires kept on board the cars on the Northern Railroad for the comfort of passengers. Two days previously the thermometer was about 100°.

A CASE UNDER THE CIVIL RIGHTS LAW.—At New Orleans, July 20, the trial of the nine men arrested at Jackson, La., under the Civil Rights bill, for "paddling" a mulatto school teacher, was deferred untill Monday.

— Mr. Poland introduced in the Senate Friday, a needed bill to prevent Southern Courts from becoming the instruments of the revenge of rebels against loyalists.

IN THE U. S. SENATE, Saturday, the Joint Resolution Reconstructing Tennessee was amended, and passed by the following vote:

Yeas—Messrs. Anthony, Chandler, Clark, Conness, Cowan, Creswell, Doolittle, Edmunds, Foster, Hendricks, Howard, Howe, Lane, Morgan, Morrill, Nesmith, Nye, Poland, Pomeroy, Sprague, Stewart, Trumbull, Van Winkle, Wade, Willey, Williams, Wilson, Yates, 28.

Nays—Messrs. Brown, Buckalow, McDongal, Sumner, 4.

It now goes back to the House, where it will probably pass, either with or without a conference.

The House went through the farce of reprimanding the big bully Rousseau, who assaulted little Mr. Grinnell,—and who has resigned his seat, but will probably be reelected.

Mr. Schenck of Ohio introduced a bill to provide transportation to discharged soldiers who have lost limbs during the war, to and from their homes to the place where artificial limbs are furnished by the Government, which was passed.

Mr. Conkling offered the following resolution as a question of privilege:

Resolved, By the House of Representatives, the Senate concurring, that the President of the Senate and Speaker of the House of Representatives on the —— day of ——, at 12 o'clock M., adjourn their respective Houses until Tuesday, the second day of October, 1866, and that on that day, unless it be otherwise ordered by the two Houses, they further adjourn their respective Houses until Saturday, the first day of December, 1866. Agreed to—59 to 54.

Mr. Rogers complained to the House that he as a member of the Judiciary Committee, could not obtain access to the testimony relative to the complicity of Jeff. Davis in the assassination of President Lincoln.

Mr. Boutwell explained that portions of the testimony had been surreptitiously obtained and printed by a New York paper; that he had given Rogers access to the testimony a few days since, who had employed a reporter to make extracts from them who was formerly editor of a rebel paper.—Whereupon he (Boutwell) again took possession of the testimony.

No action was taken in the matter, but *Mr. Finch advised Mr.* Rogers to resign *from the* Committee.

A bill was passed that the Secretary of War transfer all rebel flags captured by volunteers to the States to which the captors belonged.

NEW YORK ITEMS, Monday.—The number of confirmed cases of cholera yesterday was 14. The epidemic is increasing on Governor's Island. There were two deaths yesterday and more than the usual number of cases. Of 24 cases on the Island all were boys from 16 to 20 years of age.—On Hart's Island the average number of cases is from 20 to 30 daily, with the proportion of 10 to 15 per cent. of deaths.

There were 5 new cases in Brooklyn yesterday. A cholera hospital has been established in that city in the infected district, which is near Hamilton avenue ferry.

☞ General Howard has received voluminous reports concerning the cruelties practised by Mrs. Henry Abrahams of King Williams County, Virginia, upon her servants. The matter came to light through investigations set on foot about a month ago. The reports show that on the second of June a freed-girl named Martha Anne was brought to a hospital at Richmond.—The surgeon reported her as in a sad condition from burns, inflicted by a she-tiger of a mistress. The investigation made before the Judge Advocate at Richmond proved that this monster, Mrs. Abrahams, has within the last few years been the cause of the death of four of her negro servants.

☞ We have a story from Washington that the President is informed that the radicals intend to carry the State election in Missouri by force of arms. The story will be taken for just what it is worth. The truth is, the arms are in "conservative" hands. The bushwhackers of Platte county are not merely intending to show fight, but are actually engaged in driving off United States officers and loyal citizens. The President has promised protection against predicted radical aggression. Will he suppress actual rebel outrages?—*Cincinnati Gazette.*

☞ The Southern papers advocate the election of men who have fought for the South as delegates to the Philadelphia Convention; the Copperheads insist upon sending men who opposed the war; the conservatives, men who affirm that Congress in 1866 is as treasonable as the South in 1861. And such a body as this is to be called a Union Convention! We have yet to learn that Rebels, Copperheads and renegades can make a loyal Union of any kind.—*Trib.*

☞ An exchange tells of an editor who went a soldiering and was chosen captain. One day at parade, instead of giving the order, "Front face, three paces forward," he exclaimed: "Cash, two dollars a year, in advance."

— A gentleman who has recently passed several hours with Jeff. Davis, says that on political questions J. D. will not touch at all. The stirring news from Europe has no interest for him, and his main thoughts are religiously inclined.

— The number of applicants for admission to the Freshmen Class at Harvard, this year, is equal to any previous year, if not larger. Probably at the opening of the Fall Term the Freshmen class will number over one hundred and fifty. Eighteen have also been admitted into the Sophomore class.

☞ The Washington special of the N. Y. Tribune says: "There is a great deal of trouble on hand for the managers of the Philadelphia Convention. George Francis Train says there shall be no Copperheads admitted, and the President is being appealed to in the strongest terms not to allow Democrats to take possession of the Convention. Those claiming to be Union men say it will ruin him to have to carry the weight of democrats north and ex-rebels south; while they are just as loud in their assertions that they are the only trustworthy friends he has, and if they are not recognized as his friends, that he will have no party. The President does not yet take sides or announce what he will do. Thurlow Weed has been sent for, and it is said he is very much dissatisfied because changes and removals are not made when needed in New York. Rumor in high circles says that the clamor of the Blairs against Seward is more likely to produce his resignation, than that of democrats and ex-rebels are to remove Mr. Stanton. One of the first things the Philadelphia Convention will do will be to introduce and pass resolutions making a raid upon Sec. Stanton, he being the centre of all their fire now."

EUROPEAN NEWS, *via* Queenstown July 12.—No armistice has yet been declared. Negotiations continued. The Italian papers state that Prussia has declined an armistice.

Semi-official Vienna papers state that Napoleon has taken fresh steps, of an energetic character, to effect an armistice, and armed mediation is announced at Prussian Headquarters.

The London Globe believes that the continent is on the brink of a general European war. Prussia continues firm in her demands. The Italians are advancing in spite of French orders.

The French iron-clad squadron was ordered to Venice on the night of the 11th. The Cherbourg squadron had also been ordered to sail; destination unknown.

The Austrians are evacuating Venetia, but are leaving the fortresses there well garrisoned.

The Italians are advancing in force, and in spite of the cession of Venetia to France.

The losses of the Italians at the battle of Custozza are officially stated at 651 killed, 2909 wounded, and 4252 prisoners and missing.

The London Times correspondent's account of the battle of Sadowa says the Prussians had engaged about 250,000 men, and the Austrians nearly as many. Nearly 1500 guns were in the action, of which 750 were Prussian.

STEAM CARRIAGE.—"We last week saw the body of a steam carriage, (says the Exeter News Letter) at the Messrs. Ellison's carriage manufactory on Court street; it was made by Mr. Alfred A. Foss. The engine for this carriage is now being made at the Choate Machine Shop, which will be a matter of experiment, and will contain the power of one man. The inventor of this engine is Mr. John Smith, one of the most ingenious mechanics of this country. Mr. S. a short time since, made a sewing machine, every part of which works like clock work. The public may expect to see this new steam carriage in operation this Fall; and if it operates, as Mr. S. anticipates, then goodby old horse."

GATHERING THE FRUITS.—The New York Journal of Commerce says that to the view of most men Europe is a great automaton, with soldiers in the foreground and Louis Napoleon behind the scenes pulling the wires—or, to change the figure, while others shake the tree (do the fighting) he gathers the apples. But intermeddling in family quarrels is always a risky business, and the apples in this case may prove to be sour.

LOYALTY IN GALVESTON, TEXAS.—Flake's Bulletin of the 5th says: "We perambulated nearly every street in the city yesterday, and did not observe the national colors over any hotel, dwelling or business house. If the Declaration of Independence was read at all, it was in private."

☞ The right of Mr. Harvey, Minister to Portugal, to censure the course of Congress, was debated in the Senate yesterday, and a report making no appropriation for his salary, was agreed to. Much of the discussion concerned the publication of a private letter by Mr. Seward, or the President. The country will get along with as few ministers as Congress may wish, and if a dozen more were stricken off with Portugal we should not complain.—*Tribune.*

☞ A Washington item says: "The Chronicle editorially apologizes for the publication of that portion of Brownlow's dispatch to Forney, characterizing President Johnson as a 'dead dog.'" The apology may be well enough; but we remember Pres. J. spoke of Forney as a dead duck or dog.

— The New Orleans Picayune calls attention to the total failure of American emigration schemes in Brazil, Mexico, &c., and says the moral of these experiments may be stated in a few words—"There is no place like home." Especially is there no place for our race like this continent.

☞ Messrs. Ticknor & Fields, Boston, the conductors of "Our Young Folks," announce that they have completed arrangements for adding as a new feature to their Magazine a series of full page illustrations. These will be drawn by the first artists, engraved in the best manner, and printed upon fine tinted paper. Each number of the Magazine will contain one or more of them. The first picture of the series, to be given with the September number, is "The Wanderers," designed by W. J. Hennessy.—The colored illustrations, which were promised for the year, are now printing, and will be given in the November and December numbers.

☞ In the Lady's Friend, for August, "Harvest Time"—the harvest time of life, as well as the season—is the appropriate steel engraving of this beautiful periodical. Deacon & Peterson, Philadelphia, publishers.

THE WHOLE ARGUMENT IN A NUTSHELL. The reason why SOZODONT has supplanted all other dentifrices is, that the flourishing promises they fail to keep, this peerless vegetable preparation quickly performs. When once adopted by man or woman, it is never relinquished. 30

— Bread, Biscuit, Cakes and Puddings, going through the process of baking, change all the substance of Herrick Allen's Gold Medal Saleratus into carbonic acid gas, whic then passes away, so that there is not a particle of it remaining in the food in which it is used, thereby making it perfectly wholesome and healthy, and peculiarly adapted to weak stomachs and dyspeptic persons. Grocers and Druggists sell it. 7

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liverspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION. Sold by all Druggists in Portsmouth and elsewhere. 1ysndno—oct18

PERRY DAVIS' PAIN KILLER,

As an internal remedy, has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, Dysentery, and Asthma, it cures in one night, by taking it internally, and bathing with it freely. It is the best liniment in America. Its action is like magic when externally applied to bad sores, burns, scalds, and sprains. For the sick headache and toothache, don't fail to try it. In short, it is a Pain Killer.

PERRY DAVIS' PAIN KILLER.—This medicine has become an article of commerce, a thing no medicine ever became before. Pain Killer is as much an item in every bale of goods sent to country merchants as tea, coffee, or sugar. This speaks volumes in its favor.—GLENS FALLS MESSENGER. jy1—dawlm

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and believed to be superior to any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

PURIFY THE BLOOD.—If the blood be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as if

Reported for the Chronicle.

POLICE COURT, July 23d.—Jas. O'Neal and John Riley are Johnson men, though not supporters of "my policy." They have an inclination towards No. 2, City Hall Avenue, whenever they are confident that they can be under the immediate care of our energetic and accommodating new City Marshal. O'Neal, Riley and Hannah McCarthy were arrested for drunkenness,—and shortly after being furnished with lodgings, O'Neal assumed the role of orator of the day, with Riley and Hannah for thumb-nail claquers in the pit. Eloquence and rum ne'er furnished more striking evidence of power than over the three astronomical subjects comprising the company present. Usquebaugh affects people unpleasantly, when taken in large doses. Some conceal their disgust by an attempt at speech-making—others by singing and howling. On appearing in court this morning, Hannah and James and John were fined $6.86 each, and left the court room determined never to be caught drunk on that beverage again, as long as sufficient Angelica could be procured for first-class drunks.

Lawrence Hart, having an attack of megrim, was fined $5.42 for brawl and tumult.

PATENT REIN-HOLDER.—We have been shown what the sporting editor of the Manchester Mirror calls "a very ingenious, simple, useful and durable device for holding the reins, to prevent them falling under the horse when you alight from the carriage,—which can be attached to the dasher of any carriage. It was patented last year, comes cheap, and is the only proper article to be attached to a carriage for such a purpose. It grabs the rein, and holds it just where it takes it, lasts forever, and must come into general use."

The above neat and desirable little article can be seen at Larrabee & Sons' harness shop, where the right for this county is for sale. We understand that Messrs. Downing & Abbott, of Concord, have decided to attach it to all their carriages in future; and most men who drive horses will want one, when they see it.

☞ We understand that Mr. Phinehas Drake, the well known iron founder of this city, died while at Lewiston, Me., on business, on Sunday morning. His age was about 60 years. His body was brought to this city Monday evening.

☞ A special train on the C. & P. Railroad from this city to Greenland will be run this (Tuesday) P. M., to accommodate passengers going to the Festival on Col. March's premises. This train will leave Portsmouth at 3 o'clock,—and the return will be with the regular evening train.

☞ Second Lieut. George B. Haycock, of the Marine Corps, has been confirmed a first lieutenant in said corps, from June 20, 1866, vice First Lieut. Thomas J. McElrath, deceased.

☞ A letter from Mount Washington, July 20, says the hotels up that way have 150 to 200 guests each, tho' the season has but just begun.

☞ Rev. Jas. C. Richmond, who was murdered at Poughkeepsie, N. Y., last Saturday, was a man of eminent leading, a graduate of Harvard, 1828, and a clergyman of the Protestant Episcopal Church. His murderer, Richard Lewis, deliberately walked up to him in a field, asked him why he called L.'s mother and sister foul names, and receiving no answer, knocked him down and beat him so that he died in ten minutes. Lewis and his father are in jail, charged with murder.

— A few scientific gentlemen of this place are about forming a company for the purpose of distilling our fat pine wood by the new process, and for the sale of the products realized therefrom. From one cord so distilled, say 25 gallons of spirits turpentine, 50 gallons oil, 100 gallons pyroligneous acid, 5 gallons alcohol, 1 1 2 barrels pitch or rosin, 1 barrel tar, 800 feet illuminating gas superior to that made of coal, and 50 bushels of charcoal. The pine timber of this region will be valuable if these gentlemen succeed in their project.—*Handsboro (Miss.) Democrat.*

— The fashionable and artistic people of Paris are discussing the extravagance of a certain Madame de Paiva. In her elegant house is a grand staircase, each step composed of a solid block of malachite, and valued in itself at $100,000.

— Notwithstanding the expectations entertained in the spring that the summer travel this season would be on a more extensive scale than ever before, it is apparent now that the migratory votaries of pleasure are not comparatively numerous at any of the resorts of fashion. Here we are in the very height of the season, and the fashionable hotels at Newport, Niagara Falls, Saratoga, and among the White Mountains have an abundance of vacant rooms.

— A Maine paper suggest that each Sabbath School in the country raise a contribution for the Portland sufferers—the amounts to be sent to the religious denominations connected with each.

☞ Richard P. Mercer, of Lowell, disappeared last Wednesday evening, and his body was found floating in the factory canal there, on Saturday. It is not known whether it was accident, suicide or murder. He was an Englishman by birth, had been a factory overseer, and was a man of some property.

— Ben. Wood sued the city of New York for advertising in his paper—the New York News. At the trial, which took place Friday, the noted rebel, Roger A. Pryor, appeared as his counsel.

Ayer's Pills.
ARE you sick, feeble and complaining? Are you out of order, with your system deranged and your feelings uncomfortable? These symptoms are often the precursors of serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, re-act upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure.
For the Speedy and Certain Cure of *Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fever; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.*

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Morning Chronicle.

ONE WAY TO TELL.—A traveler called at nightfall at a farmer's house at Albany; the owner being from home and the mother and daughter being alone, they refused to lodge the wayfarer.

'How far then, said he, 'is it to a house where a preacher can get lodging?'

'Oh! if you are a preacher,' said the lady,' you can stop here.'

Accordingly he dismounted, deposited his saddle-bags in the house and led his horse to the stable. Meantime the mother and daughter were debating the point as to what kind of a preacher he was.

'He cannot be a Presbyterian,' said one, 'for he is not dressed well enough.'

'He is not a Methodist,' said the other, 'for his coat is not the right cut for a Methodist.'

'If I could find his hymn book,' said the daughter, 'I could soon tell what sort of a preacher he is.' And with that she thrust her hand into the saddle-bags and pulling out a flask of liquor, she exclaimed, 'La, mother, he's a hard shell Baptist.'

OPINIONS OF SOUTHERN UNION MEN. It is a singular and significant fact that none of the prominent Union men of the South favor the President's "reconstruction" policy. Among the opponents of that policy the names of Representatives Maynard, Stokes, Gov. Brownlow and Senator Fowler, of Tennessee, Gov. Holden, of North Carolina, and Gov. Hamilton, of Texas, instantly recur. If these men are not familiar with the condition of the South and its needs, then no persons can give competent testimony upon the state of affairs in the section to which they belong. It is conclusive against the course of the Administration that the unmistakable Unionists of the former slave States condemn it as only fostering treason and rendering loyalty odious. The whole Union party of Tennessee, to which President Johnson once belonged, is now arrayed against him; a fact that carries with it its own lesson.—*Statesman.*

— In an article praising the Philadelphia Convention, The Atlanta New Era italicises the remark that it is "not to organize a party for President Johnson."

— A new law in Connecticut now requires passenger cars to be connected by an apron to prevent passengers from falling in between them upon the track.

— An English married lady has consulted her lawyer on the question whether, having married her husband for his money, and that money being all spent, she is not a widow and at liberty to marry again. Decision reserved.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States and in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largestin New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE MEASURE OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twice rejected applications* SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

GLAD NEWS
FOR THE UNFORTUNATE.
BELL'S SPECIFIC REMEDIES
Are warranted in all cases, for the SPEEDY and PERMANENT CURE of all diseases arising from sexual excesses or
YOUTHFUL INDISCRETION,
Seminal Loss, Nightly Emissions, and Sensual Dreams; Genital, Physical and Nervous Debility Impotence, Gleet, Sexual Diseases, &c.
No Change of Diet is Necessary.
They can be used without detection, and never fail to effect a Cure, if used according to the instructions.
BELL'S SPECIFIC PILLS,
Price One Dollar per Box; or Six Boxes for Five Dollars; also Large Boxes, containing Four Small, Price Three Dollars.
From four to six boxes are generally required to cure ordinary cases of Seminal Weakness and Emissions, though benefit is derived from using a single box.
In Chronic Cases, and particularly when Impotence or Genital Debility with Nervous Prostration has affected the System,
BELL'S TONIC PILLS
Are recommended as the most Efficacious, Rejuvenating and Invigorating Remedy in the world.
A Package, Price Five Dollars, will last a month, and is generally sufficient.
In extreme cases of Debility and Impotence,
BELL'S EXTERNAL REMEDY,
Price Two Dollars, sufficient for a month, can be used to good advantage.
It gives Strength to the Organs, and, with the Pills, will restore them to their normal condition.
A Pamphlet of 100 pages, on the ERRORS OF YOUTH, designed as a Lecture and Caution to Young Men, Sent free. Ten cents required to pay postage.
CAUTION.
The above Remedies have now been before the Public many years, and their great success in the alleviation of human misery, has excited the cupidity of several parties, who use the name "Specific Pills," copy my labels, circulars and advertisements, sometimes word for word, and put up worthless compounds that disappoint the just expectations of the purchaser.
If you cannot purchase BELL'S SPECIFIC REMEDIES of your Druggist, take no other, but send the money direct to
DR. JAMES BRYAN,
CONSULTING PHYSICIAN,
319 Broadway, New York,
and you will receive them by return mail, postpaid and free from observation. Je30-eodeow-1y

MORE VALUABLE THAN GOLD!
BRYAN'S LIFE PILLS
Purify the Blood,
REMOVE HEADACHE, DIZZINESS, GIDDINESS, DROWSINESS, UNPLEASANT DREAMS, DIMNESS OF SIGHT, INDIGESTION, CLEANSE THE STOMACH AND BOWELS,
Insure NEW LIFE in the debilitated, and
Restore the Sick to Perfect Health.
Purely Vegetable.
Try them! they only cost 25 cents, and if you cannot get them of your Druggist, send the money to
DR. JAMES BRYAN,
CONSULTING PHYSICIAN,
319 Broadway, New York,
And they will be sent by return of mail, postpaid.

TO LADIES.
If you require a reliable remedy to restore you and remove Irregularities and Obstructions,
WHY NOT USE THE BEST!
Every Lady knows the slightest irregularity of nature is liable to bring on Headache, Giddiness, Low Spirits, Fainting, Hysterics, &c.; then the bloom of health fades, the appetite fails, and other symptoms more distressing commence, as—Weakness, Spinal Complaint, the Whites, Prolapsus, &c., &c.
A NEVER FAILING REMEDY will be found in
Dr. Harvey's Female Pills.
The experience of thirty years has proved they have no equal for removing Obstructions and Irregularities, NO MATTER FROM WHAT CAUSE THEY ARISE. They are Safe and Sure in every case. Upwards of 50,000 Boxes are sold annually and no complaint of their efficacy is ever heard, for they accomplish what they are represented to do.
Sold in Boxes, *containing Sixty Pills.* Price One Dollar.
Dr. Harvey's Golden Pills
Is a remedy four degrees stronger than the above, and intended for cases of long standing.
Price Five Dollars per Box.
A PRIVATE CIRCULAR to Ladies, with fine Anatomical Engravings, sent free on receipt of directed envelope and stamp.
Send for DR. HARVEY'S PRIVATE MEDICAL ADVISER, addressed to Females—64 pages—giving full instructions and information. 10 cents required for postage.
If you cannot purchase the Pills of your Druggist, they will be sent by mail, *post paid*, secure from observation, on receipt of money, by

SELF-FASTENING BUTTONS
(REMEMBER'S PATENT.)
PUT ON AND TAKEN OFF in a MOMENT by any one, without sewing, eyelet, screw, rivet, or cut in the cloth. First premium awarded by American Institute in Sept. 1865. They can be changed from one garment to another in an instant, and as they never rull off nor tear the cloth, they are the only reliable BUTTONS FOR MEN'S AND BOYS' CLOTHING; the most convenient BUTTONS FOR LADIES, as by their use the appearance of the garment can be altered to suit the taste on occasion. For the ARMY AND NAVY they are invaluable, as they can in an instant be exchanged for a new set removed for cleaning, or changed for plain covered buttons when desired. They have been adopted by tailors and clothiers, and those who have used them will have no other. In order to let the public at once see the great advantages of these goods we offer to send by return mail, postage prepaid, on receipt of price, one set "SELF-FASTENING BUTTONS, Ladies' or Gents'. Plain, 40c; Fancy, 50c per set; 1 doz. Suspender Buttons, 40c; or one ASSORTED BOOK containing 1 doz. each, for shirts, vests, pants, and overcoats at $1.75 per box. A full descriptive list, from which any style of Button can be ordered, will be sent by mail on application. Call or address W. B. WATKINS, Sole Agent, No. 416 Broadway, corner Canal st., New York. CHEROKEE CURE,
THE GREAT
INDIAN MEDICINE,

Cures all diseases caused by self-abuse, viz:—*Spermatorrhœa, Seminal - Weakness, Night - Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Insanity, Consumption*, and all diseases that follow as a sequence of youthful indiscretions.
The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.
Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,
Dr. W. R. MERWIN, 37 Waller St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Stricture of the Urethra, Dropsical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the
CHEROKEE INJECTION,
does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus or Whites in Females.* The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.
Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " " $3, " " $5.
The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us in *perfect confidence.* We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

The Chronicle.

AN OLD FABLE—GOOD AS NEW.—The Traveller's Review of the week says:

The formation of parties is going on rapidly in the United States, and we shall soon see the Republicans and the democrats arrayed in opposition to each other,—and at the head of the latter President Johnson will stand,—to be deposed in 1868, when the time arrives for making nominations for the Presidency. The democrats have stepped in, and taken charge of the Philadelphia Convention, and of the Johnsonian movement generally; and they "do nothing for nothing for nobody," as the first democrat of all said on an interesting occasion. They will appropriate the President, humor him, flatter him, and drop him. At present he is in the character of the crow that had a lump of cheese in its mouth, and, therefore, the hunker foxes are eloquent on the sweetness of his voice, and are persuading him to treat them to the delights of a solo.

THE SITUATION IN THE SOUTH.—The Valley Virginian thinks, upon the whole, "the situation" in the South is improving. Our people are working; the freedmen are beginning to understand who are their best friends, and are doing well—better than could be expected. The prospect of the grain, cotton and tobacco crops is good, and provisions will be cheap and plenty. The same kind and protecting Providence that watched over us while it dealt so hardly, as we thought, is now helping us in a thousand ways,—and in spite of the radicals, in spite of not being represented now, in spite of taxation, the South will revive and prosper. Let us all be patient, hopeful, and "pull together."

OUTRAGE ON THE FLAG.—The Nashville Press, in describing the insult to the Union flag at Gallatin on the Fourth of July by the inhabitants, says:

"The flag was not only torn down, but the blaspheming and sacrilegious Union haters actually tied one end of it to the tail of a cow and the other end of it to the tail of a dog, and then drove them pell-mell through the streets, while the sacred symbol of the country was dragged through the dirt and trodden under foot."

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1846, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Morning Chronicle.

Portsmouth N. H.

WEDNESDAY, JULY 25, 1866.

CONGRESS.—In the Senate Monday morning, Mr. Wilson called up the House resolution paying the commutation of their rations, at a cost price, to soldiers and sailors held as prisoners of war in the rebel States, which was passed, slightly amended, and sent back to the House.

At four o'clock the Senate went into executive session and acted upon a large number of nominations. No action was taken on the nomination of Gov. Randall as Postmaster General; but Attorney General Stansberry was confirmed. Gov. Holden of North Carolina, nominated as Minister to San Salvador, and Thos. W. Wells, nominated as Naval Officer to New Orleans, were both rejected.

Among those confirmed were Joseph B. Upham, Collector at Portsmouth, N. H.; Wm. A. Pew, Collector at Gloucester, Mass.; Daniel J. C. Clark, Postmaster at Manchester, N. H., and Thomas E. Hatch, Postmaster at Keene, N. H.

To be Brigadier General of Volunteers by Brevet, Col. J. M. Clough, 18th New Hampshire.

The following nominations for appointments, as Second Lieutenants in the Regular Army, and recomended by a board of officers, were among many confirmed:

In the 12th Infantry—Capt. Leander W. Fogg of the 7th New Hampshire.

In the 19th Infantry—Lieut. Colonel Ira McL. Carton, New Hampshire Artillery.

These officers will at once be commissioned as 2d Lieutenants.

The Senate also confirmed Joseph Foster of New Hampshire as an Assistant Paymaster in the Navy, and quite a number of Passed Assistant Paymasters in the navy—among them, George W. Brown of Maine; Edward H. Cushing, Ths. L. Tullock, Jr and Daniel A. Smith, Jr., of New Hampshire.

The Senate received from President Johnson the nomination of over a hundred and fifty postmasters, which were referred to the Senate Post Office Committee.—Among them are the following:

In New Hampshire—*John L. Haines at Green Falls; Wm. B. Morrill, Exeter; Henry P. Rolfe* at Concord, and Charles Eastman at Claremont.

In Massachusetts—G. J. L. Colby, at Newburyport.

At half-past seven the Senate commenced its evening session, confirming its action on bills reported from the Committee on Commerce. Among them were a bill to abolish the carrying of sheath knives by seamen in American vessels, and a bill re-enacting the law repealed a year or two since which required three-fourths of the seamen on American vessels to be Americans.

IN THE HOUSE, a resolution was offered, respectfully requesting the President to urge upon the Canadian authorities and British Government the release of the Fenian prisoners captured in Canada. Agreed to—yeas 109, nays 22.

A resolution was passed—asking the President what action has been taken upon the application of the Rebel General Rickett for a pardon: also as to the hanging of certain Union Soldiers at Raleigh for alleged desertion from the army; what part said General Rickett took in the matter, and whether efforts have been made to bring him to punishment for his crimes, if guilty.

A resolution was unanimously adopted, directing the Sergeant-at-Arms to turn over to the civil authorities of the District of Columbia Benj. F. Beveridge, and to prosecute the said Beveridge before the Criminal Court of the District of Columbia for the assault committed by him within the walls of the Capitol upon U. H. Painter, a clerk to one of the Committees of the House, and that the District Attorney of the District of Columbia be furnished with a copy of the evidence taken in the case.

After passing a post route bill the House took up a joint resolution as amended by the Senate readmitting Tennessee, and Mr. Bingham, surrendering his own preamble, moving that the House adopt that passed by the Senate. Upon the adoption of the preamble the yeas were 92, and the nays 25: [Mr. Raymond of N. Y. being the only nominal republican voting nay.]

The other Senate amendments were then concurred in, and the preamble and joint resolution passed.

The Senate bill to regulate the time and manner of holding elections for Senators of the United States was passed under the operation of the previous question.

The conference committee on the widows' and orphans' Pension bill reported. Their report was agreed to.

— The venerable Mrs. Partington once asked us if we believed that everything was foreordained before hand in advance. We were compelled to answer that sometimes we did and sometimes we didn't. She remarked that her son Isaac says he knows one thing was foreordained sure, and that is, that the J. Monroe Taylor Gold Medal Soap will supersede and run out every other kind of soap made. The old lady further remarked, that she believed so too, and was sure there was no other as good for she had tried it. S

THE OLDEST AMERICAN NEWSPAPER.

Some week or two ago, in an article upon old newspapers, we called in question the right of the Newport Mercury, in Rhode Island, to place under its caption, as it does, the words, "The oldest paper in America." In that notice we stated the fact that the New Hampshire Gazette, which still survived, was established in 1756, some two years earlier than the origin of the Mercury. Our notice added:

The earliest file of this paper in General Force's library is for the year 1770. The following is the statement printed on the corner of the paper, above the name, in the issue for Friday, September 28, 1770: "*This paper completes* the fourteenth year of the" and then follows the title—"New Hampshire Gazette and Historical Chronicle, containing the freshest advices, foreign and domestic," and beneath it, "Friday, September 28, 1770, Num. 728 weeks since this paper was first published." This would seem pretty conclusively to settle the fact that the New Hampshire Gazette, and not the Newport Mercury, is the oldest newspaper in America.

The Mercury, in its last issue, quoting from our last article, sets up defence as follows:

We think it will require but a few words to set this matter right. We have before us a *fac simile* of the New Hampshire paper, dated October 7, 1756, No. 1, and the name it bears is New Hampshire Gazette. We have also what purports to be the same paper published in 1865, which bears the name of New Hampshire Gazette and Chronicle. The Gazette "burst up" just after the commencement of the rebellion, and was purchased by Mr. Miller, of the Chronicle, who added the name of his paper to the Gazette. Therefore we claim that there was no such paper published in 1756 as the New Hampshire Gazette and Chronicle, but there was a Newport Mercury published in 1758, and is now, and has ever been since that date.

It is true, as the Mercury states, that the original name of the paper when established, October 7, 1756, was "The New Hampshire Gazette;" and it is also true, as stated in our notice, that in 1770 the name was, "The New Hampshire Gazette and Historical Chronicle." Afterward the latter portion of the name was dropped, leaving the name in its original form. It is not true, however, that the Gazette was *discontinued when, a few years since, the word* "Chronicle" *was restored* to the name. The paper at that time simply passed into the hands of new proprietors, in the usual mode of such such transfers, the new proprietor purchasing of his predecessor "the right to continue the venerable sheet," to quote the language of one of the parties to the transfer, in a letter elicited by the notice in our columns. The Gazette, therefore, has been not only continued in, substantially, its original name, but has been transmitted from hands to hands, in all its relations to the public, in the only way in which a paper can be continued in existence from generation to generation. The defence made by the Mercury is, therefore, entirely unsound, and the words, "The oldest paper in America," placed at the head of its columns, is a falsification—not intentional, we are sure—of the facts of history. The Mercury may, with quite as much propriety, urge that the change in the width of its columns, in its vignette, motto, or head-lines, is a change working the discontinuance of the life of a paper, as to urge that the mere verbal modification of the title produces that result, so long, especially (as in this case), as the leading part of the name is retained.

The Mercury, however, is lame in another particular. It does not seem to know the history of the title which has been borne at the head of its own columns. We have before us the twenty-seventh number of that paper, dated Tuesday, December 10, 1758, with the following as its caption:

"The Newport Mercury, or Weekly Advertiser,

Within this space is a vignette, entirely different in both design and form, from that used now at the head of the paper.

With the freshest advices, foreign and domestic."

The caption now is simply "Newport Mercury," which, upon the ideas of the present conductors of that paper on this point, proves conclusively that the old Newport newspaper is not now in existence. "The New Hampshire Gazette," on the other hand, is the caption now of the Portsmouth paper, and it has borne that caption at the head of its columns as its leading title since October 7, 1756. It has from that time to this numbered its volumes continuously onward, the present volume bearing the number one hundred and ten, and has, as it is justly entitled to have, the words "Oldest Paper in America" under its head. The Portsmouth Gazette is manifestly, therefore, entitled to the honor of being the "oldest paper in America," while the Mercury has the honor of being only by a couple of years its junior; and with great satisfaction we add that both the one and the other have the great credit of being under the discreet management, in these perilous and embarassing days in public affairs, of calm and intelligent men, the Gazette being "independent" in politics, and the Mercury stands by the President in his just and merciful policy.

The copy of the Mercury for 1758 before us is a handsomely printed sheet of four pages, divided into two columns, the pages being 15 1-4 inches long and 9 3-4 inches wide. At the bottom of the fourth page the printer gives us the following curious mode of stating things: "Newport, Rhode Island. Printed by James Franklin, at the printing office under the town school, by whom subscriptions and advertisements are taken in." The idea of placing the "town school" over the "printing office" was not a bad one, though in later times the printing office seems to have generally found its home in the upper lofts.

The copy of the first number of the New Hampshire Gazette, as reproduced at the centennial celebration in Portsmouth, which has been sent us recently, is much smaller than the Mercury, its pages—in two columns, like the Mercury—being but 10 inches long and 8 1-4 inches wide. The vignette is a representation of the fable of the "Fox and the Crow," the latter being perched in a tree with a piece of cheese hanging from its bill, while the fox sits upon its haunches below in the act of persuading the bird, by praising its fine vocal qualities, to sing and thus let fall its booty. The French war was then raging, but we do not precisely see the significancy of the emblem. The entire paper, excepting the first page, which is occupied with the salutatory of "The Printer to the Public," is filled with war news from the sea and from the land. The following is at the bottom of the last page: "Portsmouth, in New Hampshire. Printed by Daniel Fowle, where this paper may be had at one dollar per annum, or an Equivalent in Bills of Credit, computing a Dollar this Year at *Four Pounds* Old Tenor." To understand the meaning of this statement of the terms of the paper, it is necessary to remember that in consequence of the balance of trade always bearing so heavily against the Colonies, their paper currency was always in a greatly depreciated condition, and the legislature from time to time, in relation to the matter, introduced the use of the terms Old Tenor, Middle Tenor, and New Tenor. In 1759 a dollar in specie was worth *twenty-three dollars in Rhode Island currency*; from this *paper*, it seems that in New Hampshire in 1756 the ratio was about as one to eighteen.

[*Remarks.*—To the above, which we copy from the National Intelligencer, and which is from the pen of a New Hampshire gentleman, who knows whereof he speaks—we need add nothing. We shall only reiterate, that "*The* New Hampshire Gazette" is "the oldest paper in this country"—that it never lost or changed *that* title, (though we can't see how that would make the paper younger, even if the name had been changed,) was never stopped or suspended for a single week, and never "burst up" at all. As the Intelligencer says, we bought it of the previous owner, and it was so stated in his valedictory, and also that we should publish it the next week, as we did and still do. No, no, Mr. Mercury, you must take down that "oldest" sign, or continue to sail under false colors,—for you certainly "can't get ahead" of the old Gazette, or rather behind it.—*Eds. N. H. Gazette.*]

FIRES AT NASHVILLE, Tenn.—A special dispatch from Nashville gives an account of a fire there on the night of the 22d inst., which damaged Lewis Well's dry goods stock $10,000, and Boyce, Demorville & Wharton's drug store $1000. During the fire some incendiaries kindled another in a building formerly owned by the Government, but now occupied by Mowitt & Co. as a store for the sale of harnesses, saddles, paper and oils. Their loss is from $15,000 to $25,000; insured $10,000 in the Home of New York and Phœnix of Hartford. The man who discovered the fire was ejected from the premises, and the incendiaries poured a barrel of oil upon the flames.

POLICE COURT, July 24.—Naughty boys are requested by City Marshal Johnson to abstain in the future from interfering with the domestic peace and tranquility of a veteran misogamist and cat-ist, who complains frequently of being disturbed. One can find amusement enough when fortunately he gets a glimpse of the interior of the Castle—for there can be seen at all hours of the day "Tom cats, Mary Ann cats, long-tailed cats, bob-tail cats, blind cats, one-eyed cats, wall-eyed cats, cross-eyed cats, gray cats, black cats, white cats, yellow cats, striped cats, spotted cats, tame cats, wild cats, single cats, individual cats, groups of cats, platoons of cats, companies of cats, regiments of cats, armies of cats, multitudes of cats," nothing *but* cats—but in the future none but invited guests will be allowed to gaze on the cats aforesaid.

Joseph and Caroline Hurst partners in life, made their appearance this morning with Christian Skiller, and all three plead guilty of being drunk. When Caroline vowed to "love, honor and obey" Joseph and took him for her worse half "for richer for poorer" they twain became one mind. Together they lead a harmonious life, together they are arraigned before Judge Odell, and in default of $6.86 each, together they wend their way to the western part of the city, where Superintendent Philbrick kindly takes charge of such harmonious bipeds. The other offender quietly receives the same sentence as the Hurst family, and trudges in the footsteps of his illustrious predecessors singing "No one to love, none to caress."

EUROPEAN NEWS via Queenstown July 15. Another serious suspension—that of the Birmingham Banking Company—was announced on the morning of the 14th. Its liabilities are computed at over two millions sterling. It is a severe calamity for the large Birmingham houses.

The accounts as to the progress of French mediation are conflicting. Nothing authentic has transpired. The threatened armed *intervention of France* is not confirmed, but French vessels have gone to Venetia.

It is reported that Prussia has declined the armistice.

The French journals declare that France, Prussia and Italy have come to an arrangement upon the proposals to be made to Austria. They are upon the basis that Austria is to be excluded from the Germanic Confederation.

Benedek's army was rapidly reorganizing. On the 11th his force was computed at 160,000, exclusive of cavalry and artillery, and was daily increasing.

The London Globe regards the Prussians as within a week or ten days of Vienna.

The Bavarians assert that the battle near Kessengen had no results.

Cialdini occupied Rovigo.

A flying column of the National Italian Guard had achieved successes over the Austrians on the Stelvio.

The Vienna Presse of the 14th says that the proposed mediation of Napoleon is ended for the present, and Austria must trust to her own strength and resources. She has resolved to make the most strenuous exertions to maintain her position as a great power.

Ayer's Pills.

ARE you sick, feeble and complaining? Are your out of order, with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, re-act upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure.

For the Speedy and Certain Cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the miasma of miasmatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by all Dealers in Medicines everywhere. jy2

PERRY DAVIS' PAIN KILLER,

As an internal remedy, has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, Dysentery, and Asthma, it cures in one night, by taking it internally, and bathing with it freely. It is the best liniment in America. Its action is like magic when externally applied to bad sores, burns, scalds, and sprains. For the sick headache and toothache, don't fail to try it. In short, it is a Pain Killer.

PERRY DAVIS' PAIN KILLER.—This medicine has become an article of commerce, a thing no medicine ever became before. Pain Killer is as much an item in every bale of goods sent to country merchants as tea, coffee, or sugar. This speaks volumes in its favor.—GLENS FALLS MESSENGER. Jy1—dawim

PURIFY THE BLOOD.—If the blood

be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases at once.

Beware of Lightning,

Now, this can be remedied.

Wonderful, but True!

MADAME REMINGTON, the world-renowned Astrologer and Somnambulistic Clairvoyant, while in a clairvoyant state, delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a perfect and life-like picture of the future husband or wife of the applicant, with date of marriage, occupation, leading traits of character, &c. This is no imposition, as testimonials without number can assert. By stating place of birth, age, disposition, color of eyes and hair, and enclosing fifty cents, and stamped envelope addressed to yourself, you will receive the picture by return mail, together with desired information.

Address in confidence, MADAME GERTRUDE REMINGTON, P. O. Box 297, West Troy, New York.

FREE TO EVERYBODY!
The Guide to Health and Beauty,
JUST PUBLISHED.

It teaches how to remove Tan, Freckles, Pimples, Blotches, Moth Patches, Sallowness, Eruptions, and all impurities of the skin; how to enamel the skin, leaving it white and clear as alabaster; how to produce the fullest development of the female form (as practised by the French,) causing the bust to grow round and full, and if the form has been lost by padding, lacing, or maternity, restoring it to more than its original fullness, firmness and beauty. It teaches how to reduce in size the hands and feet; produce corpulency or the reverse; remove superfluous hair; cure Corns, Bunions, Warts, and Moles; renew your age; cure Drunkenness, Catarrh, Dyspepsia, Nervous Debility, &c., how to fascinate and gain the love and affection of any person you may choose, together with other useful and valuable information. No young Lady or Gentleman should fail to send their address to the undersigned and receive by return mail a copy of this valuable work in sealed envelope free of charge. Address

TRANSFORMATION!

The superstitions of antiquity are only "food for laughter at the present day, and yet this is an age of

Miracles,

accomplished with the aid of science. For example: grey, sandy or red hair is

CHANGED IN A MOMENT,

to the richest conceivable black or brown, by a simple application of

CRISTADORO'S HAIR DYE

PURIFY THE BLOOD.—If the blood

be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases at once.

Beware of Lightning,

Now, this can be remedied.

BRANDRETH'S PILLS

take all impure matters from the circulation, and save the general health, soon curing local affections also. BRANDRETH'S PILLS protect from tedious times of sickness and often save life.—Sold by all Druggists. Je29dawlm

☞ "Cholera, Dysentery, Coughs, Colds and Rheumatism are quickly cured by AMERICAN LIFE DROPS.

CHOLERA MORBUS, and all disorders of the stomach and bowels, are speedily cured by the use of Cook's Dyspepsia Cure, whilst indigestion or constipation are equally well governed by its use, for it is a perfect regulator of the stomach and bowels. Dyspepsia, the most horrible of all diseases, yields at once to its curative powers. It is a valuable medicine, very popular, and should be kept on hand in every household. J23—1w

Holloway's Pills.—Diarrhœa.—A sudden suppression of the evacuations frequently ends in collapse. The action of Holloway's medicines are based on a mild principle, which, by combining with the depraved humors they neutralize and expel them through the natural channel. They purify the fluids, regulate the bowels, invigorate the stomach, and by regulating the various functions restore the body to its normal state of health. Sold by all Druggists. J21

THE CASE OF EMMA JONES.—A writer in the Rochester Express, who professes to known the history of this singular woman, gives an interest account of her adventures in the recent civil war. She was the daughter of a butcher in Cambridge, and for time worked at a sewing machine in Boston. When the war broke out, she obtained the position of vivandiere in a New York regiment, and afterwards in a Massachusetts regiment stationed near Washington. In a short time the Colonel ordered her away to her relatives in Baltimore. As she insisted on being in the army and at the front instead of her proper place at the hospitals, the Secretary of War ordered her to be confined in the Old Capitol Prison, and soon after she was sent to Boston and kept in the family of Surgeon Dale. It afterwards transpired that she was acting the part of a spy, and as such she was kept in confinement till she could do no more mischief to the Federal cause. After such a romantic course it is not strange that she should become, under the promise of marriage, the victim of a German physician in New York, and ended her strange career by committing suicide upon his doorstep.

— A painter residing near the Yazoo river, Miss., complains to General Woods that he has had to arm some fifty freedmen working for him, as a protective measure against a lawless band who were stealing mules, murdering negroes, &c.

— One of the "city fathers" of New York, who had speculated profitably at the gold exchange, has recently lost the whole of his easily acquired fortune at one of the fashionable gaming places in that city. Some say that his losses will foot up in the neighborhood of $40,000.

the largest Wine Merchants in New England. Their object for this outlay is to
TELL THE PEOPLE
that they have the most extensive variety of
PURE WINES AND SPIRITS
of all kinds, which they sell in any required quantity, and warrant them to be just as represented,—and also to *arouse public attention to the fact* that the three great leading articles in their business are these,—
EXTRACT OF RYE,
DUNSTER'S LONDON CORDIAL GIN,
GOLDEN SHEAF WHISKEY.
EXTRACT OF RYE;
WHAT IS IT?
Ask the thousands who are using it. Make the enquiry anywhere from one end of this glorious country to the other. Some people call it
The Very Best

Perhaps they are right. Try it and see.
IT IS MADE FROM
RYE,
AND NOTHING ELSE,
and from the best Rye at that.
None of your musty, mouldy, heated stuff, but the
Very Best of Rye
that grows in the Cumberland Valley.
It is enough to do a man's soul good to taste it, and see how different it is from the strong, fiery stuff that people use for Rye Whiskey.
It is Made Different.
It retains, by a peculiar mode of distillation, the very
MEDICINAL QUALITIES
that have made it so popular. If you want to use
A Pure, Genuine Article of Spirit,
to stimulate a Weak stomach, or to give you renewed health and long life, use the
EXTRACT OF RYE.
It is put up in large square bottles, which contain the name of

SELF FASTENING
BUTTONS
(GENOMBER'S PATENT.)
PUT ON AND TAKEN OFF in a MOMENT by any one, without sewing, eyelet, screw, rivet, or cut in the cloth. First premium awarded by American Institute in September, 1865. They can be changed from one garment to another in an instant, and as they never pull off nor tear the cloth, they are the only reliable BUTTONS FOR MEN'S AND BOYS' CLOTHING; the most convenient BUTTONS FOR LADIES, as by their use the appearance of the garment is not altered to suit the taste or occasion. For the ARMY AND NAVY they are invaluable, as they can in an instant be exchanged for a new, removed for cleaning, or changed for plain covered buttons when desired. They have been adopted by tailors and clothiers, and those who have used them will have no other. In order to let the public at once see the great advantages of these goods we offer to send by return mail, postage prepaid, on receipt of price, one set SLEEVE BUTTONS, Ladies' or Gents', Plain, 40c; Fancy, 50c per set; 1 doz. Suspender Buttons, 40c; or one ASSORTED BOOK containing 1 doz. each, for coats, vests, pants, and overcoats at $1.75 per box. A full descriptive list, from which any style of button can be ordered, will be sent by mail on application. Call or address W. B. WATKINS, Sole Agent, No. 416 Broadway, corner Canal st., New York. DR. WRIGHT'S
REJUVENATING ELIXIR,
Or, Essence of Life,
Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course the veins, restoring the *Organs of Generation, removing Impotency and Sterility, Debility, restoring Manliness and and full vigor,* thus proving a perfect *"Elixir of Love,"* removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.
"As the Dennis rises from the ashes of its fire, emerged with new vigor and new life"—so does this Elixir restore Debility, restoring Manliness and full vigor, thus proving a *overcome disease.*
Price, one bottle $2; three bottles $5; sent by express to any address.
Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,
Dr. W. B. MERWIN, 37 Walker St., N. Y.

The Chronicle.

☞ The Portland Star gives some particulars of the shooting of Capt. C. C. Richardson at Thomasville, Ga., by one Lightfoot, who wanted to drive him from the country. It has been very generally feared that the shooting was mortal, but a letter from Capt. R. shows him to be still alive, and doing well. Capt. R., when an officer of the 12th Maine, and on duty as sub-Commissioner of the Freedmen's Bureau, had occasion to pass judgment upon this Lightfoot for an assault upon a negro. Gen. Tillson approved the sentence, and Lightfoot was committed in default of payment of fine.

When Richardson returned to Thomasville as a citizen, Lightfoot swore he would drive him out of the country. One day as the Captain was sitting on the platform of Col. Seward's office, Lightfoot came up behind him, and presenting a pistol, ordered him to leave the place or he would shoot him. The Captain caught up his chair and struck Lightfoot, at the same moment the pistol was discharged, the bullet whizzing past the Captain's ear, and the weapon falling to the ground.

Lightfoot drew another pistol from his breast pocket, and succeeded in shooting away a finger of his adversary, and was again struck by the chair. A third shot penetrated the Captain's neck, coming out near the jugular vein. Another descent of the chair was too powerful for the assassin, and he fled the field, while the hundred spectators of this singular fight wondered why the work was not completely done. Some soldiers were sent to arrest Lightfoot, but he "cut off," and had not been seen since, down to the date of the above letter, July 6th.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street,
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.

Portsmouth N. H.

THURSDAY, JULY 25, 1866.

☞ How curiously matters turn round in twenty years. Not quite 19 years ago, John P. Hale of New Hampshire introduced into the U. S. Senate, a bill to prevent riots, (copied from a law of Maryland.) A paper which had dared to propose emancipation in Washington, had been robbed, and the offices destroyed, (very much as a coppery concern was destroyed in New Hampshire last year.)

Mr. Calhoun first attacked the bill, which said he, should not be introduced "to repress the just indignation of our people from wreaking their vengeance upon the atrocious perpetrators of these crimes, or those who contribute to them, without a denunciation of the cause that excited that indignation." He hoped that he would not be "almost the exclusive defender of this great institution of the South, upon which not only its prosperity but its very existence depends." "*Delay*," this arch-agitator went on to declare, "*is dangerous on this question.* The crisis has come and we must meet it, and meet it directly; and, I will add, we have ample means to do it."

Senator Westcott of Florida next defended the mob, confessing that he was present, and then Senator Jefferson Davis of Mississippi took the floor, commencing his remarks by saying, in his impressive manner: "Is this debateable ground? No! It is ground upon which the people of this Union may shed blood, and that is the final result. If it be pressed any further, and if this Senate is to be made the theatre of that contest, let it come—the sooner the better."

Then rose the collaegue of Davis, Mr. Foote, who was looking forward to the gubernatorial chair of Mississippi, which he afterward occupied. He made one of his spread eagle harrangues, denouncing abolitionists in general, and closing with the following personal remarks to Mr. Hale. "Let him visit the good State of Mississippi, in which I have the honor to reside, and no doubt he will be received with such hosannas and shouts of joy as have rarely marked the reception of any individual in this day and generation. I invite him there, and will tell him beforehand, in all honesty, that he could not go ten miles into the interior, before he would grace one of the tallest trees of the forest, with a rope around his neck, with the approbation of every virtuous and patriotic citizen; and that, if necessary, I should myself assist in the operation."

The reader may see in these brief extracts, a picture of the Obigarchy, drawn by its own friends and members, the patrons of pro-slavery mobs, lynchings, and finally of rebellion and civil war:—all moved by the same suicidal demon that now possesses the crazy men who seek to revive this *old policy* under a new name. But now as then, "He that sitteth in the heavens shall laugh: the Lord shall have them in derision." U. T.

TROUBLE AHEAD.— The Washington special of the Boston Advertiser writes "that a decided effort is making to find an excuse for keeping the copperheads out of the Philadelphia convention, which they threaten to swallow!"—and remarks that this fact "is patent to any one observant of the signs" in Washington. To show that this view is correct, he says: "Mr. Randall and Mr. Raymond were both heard to declare today [Monday] that their admission would be its overthrow." Well; this *is* funny. If they could keep out the copperheads, there would be nothing left but a corporal's guard of Johnsonians from the North, and an army of rebels from the South:—and what is worse still, when the elections come on next fall, the policy men's votes would be "considered as scattering." If Mr. Johnson and his party refuse to take on the copperheads, they may prevent the "overthow,"—for there will be nothing worth overthrowing.

☞ At Charleston, S. C., Monday night, a large meeting, under the auspices of the leading citizens of Charleston, was held, and delegates chosen to the State Convention, to select delegates to the Philadelphia Convention. A long preamble endorsing the National Conservative movement as the *only hope* of restoration of the Union and of peace, with several resolutions, were carried by acclamation. [When we consider who the leading citizens of Charleston are, we understand their *only hope* to be in the treachery of miscalled conservatism.] At New Orleans, Tuesday evening, a meeting of the Democracy was held, and ratified the nominations of the State Committee. Resolutions were adopted that Louisiana pledges herself to honest support of Johnson's policy, and fully endorsing the Philadelphia Convention. The speakers were very severe on the radicals; secession was denounced, and the abolition of slavery fully accepted. [This does not look as if the Doolittle party would be able to keep the copperheads out of the "Church of the Noo Deposeesshun." These Southern Johnsonians, coming around, will vote them in, and *cane* the Doolittles that may try to keep them out.]

— The House has passed a resolution requesting the President to order the discontinuance of prosecutions of Fenian prisoners in the United States Courts. Only two members voted against the resolution

NEW HAMPSHIRE ITEMS.

—— Rev. Henry E. Parker of Concord has been appointed Professor of Latin in Dartmouth College, vice Professor Aiken, who goes to Princeton. Edward R. Raggles, Instructor in Modern Languages, has been appointed Professor of Modern Languages and English Literature in the Scientific Department. The annual salaries of all of the Professors have been increased from $1300 to $1500.

—— On Tuesday Mr. Ira W. Thompson, a mechanic, of Lebanon, was almost instantly killed in that town by being struck by a piece of lead thrown from a planer in a machine shop. Deceased was about fifty years of age, and leaves a wife and children. He was one of the most esteemed citizens of Lebanon.

—— Perley's dispatch from Washington, Tuesday night, says:—

Senator Cragin is not so well to-night as he was this morning. Representative Patterson has returned, after a brief visit to New Hampshire.

CONGRESS was active on Tuesday, July 24. The Senate passed the galvanized Tariff Bill, with amendments, which will carry it back to the House. This bill repeals the fishing bounties.

The Civil Appropriation Bill was considered.

Mr. Clark offered an amendment appropriating $1,500,000 for the repair of the levees on the Mississippi river.

Mr. Trumbull opposed the amendment. He said it was for the benefit of aristocratic rebels, to keep the water off their farms. They might as well make a similar appropriation to build hedges around every man's farm in Illinois to keep the cattle out.

Mr. Clark advocated the passage of the amendment. The general government was actually losing more in the general depression that prevailed and the commercial in activity than the whole amount of the appropriation.

The advocates of the appriation are Messrs. Clark, Wilson, Guthrie, Doolittle, Howard and Davis, who took *the ground* that, as cotton and *sugar* was taxed, it was *proper to protect* plantations on which it is grown, and to improve the navigation of the Mississippi river. The amendment was adopted by the following vote:

Ayes—Messrs. Buckalew, Clark, Cowan, Cresswell, Davis, Doolittle, Edmunds, Foster, Guthrie, Harris, Henderson, Hendricks, Howard, Johnson, Lane, McDougall, Nesmith, Morton, Nye, Poland, Ramsey, Riddle, Stewart, Van Winkle, Willey, Williams, Wilson and Yates—28.

Nays—Messrs. Anthony, Morgan, Pomeroy, Sherman, Sumner, Trumbull and Wade—7.

In the House, the President's Message was received, informing Congress that he had signed the Tennessee Reconstruction Bill,—and giving a variety of opinions, advice, and suggestion. The message was listened to with marked attention, as there was much uncertainty as to what he had done; but when the Clerk read the words: "I have, notwithstanding the anomalous character of the proceedings, affixed my signature to the bill," there was a sound of applause on the floor as well as in the galleries. Some of the subsequent admonitions to Congress were greeted with derisive laughter.

Mr. Thad. Stevens, when the Clerk had finished reading the message, said that he had been instructed by the Joint Committee on Reconstruction on the part of the House to report back the credentials of the members elect from Tennessee and to move their reference to the Committee on Elections.

The House so referred them: and the Committee very speedily reported all right—and Messrs. Nathaniel G. Taylor, Horace Maynard, William B. Stokes, Edmund Cooper, William B. Campbell, Samuel M. Arnell, Isaac R. Hawkins and John W. Leftwich were consequently entitled to seats as members of the House.

Messrs. Maynard, Stokes and Taylor being present, advanced to the Clerk's desk, amid the applause of the House and of those in the galleries, and took the required oaths. It is not certain that all of their colleagues can take these oaths, and if they cannot they must remain "out in the cold.

The House passed the Senate joint resolution giving $7500 to each of the captains of the ships Three Bells, Kilby and Antartic, $500 to each of the mates and $100 to each man and boy, for saving the lives of soldiers, passengers and crew of the steamship San Francisco.

Various bills of no public interest were passed.

MEXICO.—Letters from the City of Mexico contain intelligence that Maximilian has signed a treaty with Mr. Dano, the French Minister, with the following provisions:—

Seven thousand French troops will remain in Mexico under Maximilian's service. The Mexican flag is to support them for five years. France will furnish besides to the Maximilian Government $500,000 every month for five years to meet Maximilian's civil expenses. Maximilian is to give as security for the money thus advanced, and other claims, the railroad from Vera Cruz to Mexico. Maximilian's revenues are to be collected by French officers.

THE ANGLO-REBEL COTTON LOAN.—The Worcester Palladium notices thus, an interesting chapter in the history of this Rebel Cotton Loan, just published by Messrs. Ticknor & Fields, of Boston, in a volume entitled "*Four Years of Fighting*," by C. C. Coffin, widely known as an army letter-writer, under the signature of "Carleton." The author entered Richmond with the army while the city was burning, and picked up a package of correspondence between Col. Memminger, Secretary of the Confederate Treasury, and Mason, Slidell, D'Erlanger, McRae, Spence, &c., who officiated in various capacities, as agents, brokers, correspondents, manipulators, and what the French call claequers of the Confederacy.

Combining all the agencies and strength they could command, they *sponged* British capitalists out of $15,000,000; of which $700,000 went into the hands of D'Erlanger, the Jew banker of Paris and Frankfort, who officiated as agent for negotiating the Cotton Loan; and $32,000 to Spence, one of the writers for the London Times, for the influence of that delectable paper in *writing up* the Confederacy, and *writing down* the American Republic—a transaction that in all future time will burn with shame the cheek of every Englishman who hears it, and blister the tongue that attempts for it a vindication or apology.

These British fundmongers had the consummate effrontery, not long ago, to write to Secretary Seward, urging upon the government at Washington *to guarantee payment of the Confederate Cotton Loan!* It is understood that while large quantities of Confederate cotton were sent from the South to England by way of Nassau and other professedly neutral ports, but a small portion of it ever went to the account of the Cotton Loan; so that when the Confederacy collapsed, the $15,000,000 bonds were all in the hands of the simple-minded gentlemen and ladies who had given British gold for the paper promises of Jefferson Davis & Co.

The body of the British public, acting under the advice of the great commoners, John Bright, Richard Cobden, and their associates, did not "burn its fingers" by touching the Cotton Loan. The confidence given to it by the aristocratic class in England was all quite natural. They never had any faith in the DEMOCRATIC PRINCIPLE in government, or in the ability of the American Republic to sustain itself under the pressure of adverse circumstances. It had always been their belief that the Union would in time fall to pieces; and consequently when the rebellion came along, they fancied they saw the "handwriting on the wall," and they translated it into "the doom of the Kingdom and the fall of its might;" and they felt that it would be all-important to Great Britain to get the control of the great cotton-fields of the Southern Confederacy; and so *they loaned their money!*

Probably the history given of the Rebel Cotton Loan in this volume, is as truthful as any that can be written, as it is founded upon the correspondence of the Confederate Administration with its agents abroad.

[If the "National Union (Johnson) Club Convention" could be successful, it would pave the way for the *payment* of these rebel bonds. But the loyal people will take care of this new party!]

WASHINGTON ITEMS.—The Boston Journal's Washington special of Tuesday says, the institution there for educating young colored men for the ministry, had a very creditable public examination last evening.

Horace Maynard arrived there Monday direct from Nashville. He was present when the Tennessee Legislature adopted the amendment, and vouches for the fairness of the proceedings.

It is reported that the President has appointed Gen. Dix Minister to the Hague in place of Gen. Sickles, resigned.

George Francis Train made a spread-eagle and Hibernian-harp speech last night at the presentation of a cane by the Fenians to Representative Rogers of New Jersey.

RUSSIA.—The Moscow Gazette of July 16th contains the following highly important announcemet:

Russia does not desire any change in the present state of things in Europe. If Austria and Prussia desire to render themselves tools of France, Russia can no longer depend on them as heretofore. Venetia without Rome would constitute no progress for Italy. The submission of Austria to France is not advantageous but dangerous to European equilibrium. The supremacy of Prussia in Northern Germany narrows that of Russia in the Baltic. Russia's love of peace does not sanction efforts to attain supreme power. England's interests may make her seek an alliance with France and Austria in the Eastern question, but the Dictatorship of France in Austria and Germany cannot meet with her support.

— The President has approved the bill making appropriations for Legislative, Executive and Judicial expenses; the bill extending the time within which States may select lands for agricultural college purposes; and the bill fixing the number of Judges of the Supreme Court of the United States and to change certain judicial circuits.

☞ The Boston Herald's Washington correspondence of Monday says:—

There is an important conference here to-day of politicians. Messrs. Weed, Raymond, Doolittle and Niblack are discussing the propriety of keeping Fernando Wood out of the Philadelphia Convention.

Can this be so? Is the happy family to be broken up before it gets to housekeeping?—Alas! the best laid schemes of men and mice, oft gang agley.

— While congratulating those who have the good fortune to be born beautiful, we on the other hand, pity the household who has not had the good fortune to obtain a paper of Herrick Allen's Gold Medal Saleratus. Go immediately to your Grocer and get paper, and, our word for it, you will never use any other. It has been analysed by one of the most distinguished chemists in the country, and pronounced perfectly harmless, and to produce one-eighth more Bread or Biscuit from the same barrel of flour than can be procured with any other; besides it only takes about one half the quantity. Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-erupt,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for those discolorations, which is at once prompt, infallible and harmless.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. Price $1.50.

Prepared by DR. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (inclosing stamp,) concerning all private diseases and female weaknesses. Price $1.50 per bottle.

PURIFY THE BLOOD.—If the blood be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as if

☞ The Festival at the March estate in Greenland, on Tuesday afternoon, in aid of the Exeter Episcopal Society, was a very enjoyable social occasion; and with the large attendance, not only from that, but from all other persuasions, of our citizens and those of Exeter, Greenland and other towns, the result must net quite a good sum for the cause.—The weather was perfect as ever the blue days of June; and the carriages and people grouped about the fine grounds formed a charming picture. The sunset view, from the hills not far off, on the Bay Road to Newington, looking across the lovely Great Bay, and to the distant purple mountains far beyond, was exceedingly beautiful.

NEW MUSIC STORE.—We understand that our townsmen, Messrs. E. A. Joy and E. A. Tilton, intend shortly to open a new Music Store in this city. The advantages of an establishment in which the necessities of the market will be carefully studied by experienced persons will, we trust, be fully appreciated.

These gentlemen have been long and favorably known in Portsmouth, and their professional experience will go far to supply a deficiency which has some time existed. They propose to offer a large stock of new and popular sheet music, together with a superior class of musical instruments, and to undertake the usual repairs incident to the business. For the present they will be located in Odd Fellows Block, No. 5 Daniel Street. We recommend them to the musical public.

Mr. Joy will resume his Singing Schools in September, at Mercantile Hall.

☞ Among the confirmations by the Senate, are the nominations of Joseph B. Upham as Collector at Portsmouth, and Joseph Foster as Assistant Paymaster, and T. L. Tullock, jr., Passed Assistant Paymaster in the Navy—both of this city.

☞ Two splendid new cars, of the Monitor pattern, built by the Wason Manufacturing Co., of Springfield, passed through from Boston yesterday, on Conductor Hobbs' train over the Eastern Railroad.

For the Chronicle.

MOONLIGHT EXCURSION.—On Tuesday evening a select company of about two hundred ladies and gentlemen, under the care of Messrs. Leighton and Clark, embarked on the Steamer Pioneer for a moonlight excursion to the Shoals, and the adjacent islands in the harbor. The Portsmouth Cornet Band furnished such music as was well adapted for this occasion. All was peace and harmony on board, and the happy party arrived safely at the wharf about 11 o'clock, much pleased with their short sail in and around Portsmouth Harbor. T.

☞ In our Tax List the following name was accidentally omitted in copying: Jos. P. Morse $52.08.

☞ A Galveston letter of the 14th inst. mentions the return to that city, from the interior, of Gens. Steedman and Fullerton, and says that they express themselves well satisfied with the management of the Freedmen's Bureau in Texas, though some of the subordinates are not quite up to the standard they have fixed. They were not able to find that ex-Commissioner General Gregory did anything at working plantations. They speak highly of the new Commissioner.

☞ The President has directed that the officials elected on the 25th of last month in Texas shall not be installed at present, and the present officers will continue to discharge their duties till further orders are given. The insurrection has never yet been formally declared at an end in the State, but a proclamation announcing its close and relieving Gov. Hamilton will probably be issued next month.

☞ The Atlantic Monthly for August is before us, with a good substantial table of contents. Prof. Agassiz contributes another graphic article on the Physical History of the Valley of the Amazon. "Griffith Gaunt" is continued, and fine poems are furnished by James Russell Lowell and Bayard Taylor. Ticknor & Fields, publishers.

☞ The Herald of Health for August, contains lots of good essays and items, too numerous to mention. Miller, Wood & Co. publishers, New York.

— Two scoundrels entered a schoolhouse in Waterford, Conn., one day last week, while the school was in session, and grossly abused the teacher, a high respectable young lady, by using vulgar and obscene language in her presence. They also took a boy by the name of Lynch out of the school and turned a quantity of poor rum down his throat.

— The Rome correspondent of an English paper says of the Pope in a recent ceremony: "He looked very pale and thin; his fine voice was weak; and, in intoning the belief, he was obliged to stop after the first words to take breath."

MURDER AND SUICIDE.—The Laporte (Ind.) Union says that Christian Bruner, residing near Reynolds, White county, Ind., shot his wife and then shot himself. Bruner died in about two hours and Mrs. Bruner in seven hours. Bruner was a German, and until quite recently acting superintendent of the New Albany & Salem Railroad. He was much addicted to intemperance, and was in that condition when he committed the deed.

A DANGEROUS PRACTICE.—It is a very general custom among those who use kerosene for illuminating purposes to extinguish their lights by blowing down the chimney. This is a dangerous practice, and will almost inevitably result in an explosion if there is any defect in the wick or burner. A case of the kind occurred in Boston a few evenings since, and came near resulting in a serious conflagration.

GOLD, Wednesday, 150. Sent to Europe nearly a million dollars.

— Rosa Bonheur it is said is anxious to see a live buffalo, and therefore contemplates a visit to the United States.

— The income of Wm. B. Astor last year was $1,163,459, which is about $150,000 less than the previous year. There was a general falling off of incomes in New York the past year.

— A little boy in Webster, Mass., was taken sick a few days since, and in a violent fit of vomiting threw up a small green lizard. It is presumed he had swallowed the reptile while drinking water.

— A chemical investigation has failed to throw any light on the ice cream poisoning at Island Grove, Abington, on the 4th of July. One more death is reported—a young lady of Quincy: the other sufferers are recovering.

— A member of a fashionable church in New York electrified a music dealer the other day, by inquiring for "Solomon's Song," saying his rector had spoken of it as a production of great genius and beauty, and he wanted his daughter to learn it.

— Gen. Sherman, on his journey through Vermont, paid his respects to the widow of Col. Freeman B. Ransom, who fell at Chepultepec, and mother of Gen. Ransom and two other sons who gained distinction in the army.

— The convicts in the State Prison at Charlestown, Mass., have contributed $200 to the aid of the Portland sufferers. Mr. Tucker, one of the contractors, added $150 to this amount. The amount thus far received by the Mayor of Portland foots up $205,727.

Holloway's Pills.—Diarrhœa.—A sudden suppression of the evacuations frequently ends in colinpse. The action of Holloway's medicines are based on a more rational principle; by combining with the depraved humors they neutralize and expel them through the natural channels. They purify the fluids, cleanse the bowels, invigorate the stomach, and by regulating the various functions restore the body to its normal state of health. Sold by all Druggists. J21

Morning Chronicle.

DANGEROUS FRUIT.—Certain parties in New York have suggested to the Health Commissioners the propriety of suppressing the sale of peaches, bananas, pineapples, and other unripe fruit, daily offered for sale along the streets. They say if any one would inquire into the cause of the great increase of deaths in the city during the heated term, they would find that seventy-five per cent. of it would be traceable to diarrhœa, which many physicians call cholera, superinduced by eating unripe fruit. New potatoes are also placed in the category of dangerous articles.

DRUMMING UP RECRUITS.—The Boston Journal suggests that the managers of the Johnson Convention, which is to be held in Faneuil Hall next month, knowing full well that in the great majority of towns in the Commonwealth there are not enough voters who sympathize with their project to furnish the officers for a caucus to choose delegates, attempt to remedy the difficulty by suggesting that where no meetings are called for the choice of delegates, any gentleman, so inclined, can vote himself a delegate and attend, and he will be received. Even with the doors thrown thus widely open we fear the number of "volunteers" will be small. Perhaps, if the committee should offer a "bounty" in the shape of free tickets on the railroad, they might yet succeed in getting a small representation from the rural districts.

— The horror of sunshine has more to do with the fear of discolored curtains and carpets than it ought to have, especially among the rich. What signifies the flying of a few colors easily replaced, compared to giving a proper welcome to the great colorer himself—the sun that makes all things beautiful?

They can be used without detection, and never fail to effect a Cure, if used according to the instructions.
BELL'S SPECIFIC PILLS,
Price One Dollar per Box; or Six Boxes for Five Dollars; also Large Boxes, containing Four Small, Price Three Dollars.
From four to six boxes are generally required to cure ordinary cases of Seminal Weakness and Emissions, though benefit is derived from using a single box.
In Chronic Cases, and particularly when Impotence or Genital Debility with Nervous Prostration has affected the System,
BELL'S TONIC PILLS
Are recommended as the most Efficacious, Rejuvenating and Invigorating Remedy in the world.
A Package, Price Five Dollars, will last a month, and is generally sufficient.
In extreme cases of Debility and Impotence,
BELL'S EXTERNAL REMEDY,
Price Two Dollars, sufficient for a month, can be used to good advantage.
It gives Strength to the Organs, and, with the Pills, will restore them to their normal condition.
A Pamphlet of 100 pages, on the ERRORS OF YOUTH, designed as a Lecture and Caution to Young Men, Sent free. Ten cents required to pay postage.
CAUTION.
The above Remedies have now been before the Public many years, and their great success in the alleviation of human misery, has excited the cupidity of several parties, who use the name "Specific Pills," copy my labels, circulars and advertisements, sometime word for word, and put up worthless compounds that disappoint the just expectations of the purchaser.
If you cannot purchase BELL'S SPECIFIC REMEDIES of your Druggist, take no other, but send the money direct to
DR. JAMES BRYAN,
CONSULTING PHYSICIAN,
819 Broadway, New York,
and you will receive them by return mail, postpaid and free from observation. Je30-eodeow-1y

TO LADIES.
If you require a reliable remedy to restore you and remove irregularities and Obstructions,
WHY NOT USE THE BEST!
Every Lady knows the slightest irregularity of nature is liable to bring on headache, Giddiness, Low Spirits, Fainting, Hysterics, &c.; then the bloom of health fades, the appetite fails, and other symptoms more distressing commence, as—Weakness, Spinal Complaint, the Whites, Prolapsus, &c., &c.
A NEVER FAILING REMEDY will be found in
Dr. Harvey's Female Pills.
The experience of thirty years has proved they have no equal for removing Obstructions and Irregularities, NO MATTER FROM WHAT CAUSE THEY ARISE. They are safe and sure in every case. Upwards of 50,000 Boxes are sold annually and no complaint of their efficacy is ever heard, for they accomplish what they are represented to do.
Sold in Boxes, *containing Sixty Pills.* Price One Dollar.
Dr. Harvey's Golden Pills
Is a remedy four degrees stronger than the above, and intended for special cases of long standing. Price Five Dollars per Box.

SELF-FASTENING BUTTONS
(ENGLISH PATENT.)
PUT ON AND TAKEN OFF in a MOMENT by any one, without sewing, eyelet, screw, rivet, or cut in the cloth. First premium awarded by American Institute in September, 1865. They can be changed from one garment to another in an instant, and as they never pull off nor tear the cloth, they are really reliable. BUTTONS FOR MEN'S AND BOYS' CLOTHING; the most convenient BUTTONS FOR LADIES, as by their use the vexatious difficulty of sewing can be altered to suit the taste or occasion. For the ARMY AND NAVY they are invaluable, as they can in an instant be exchanged for a new set removed for cleaning, or changed for plain covered buttons when desired. They have been adopted by tailors and clothiers, and those who have used them will have no other. In order to let the public at once see the great advantages of these goods we offer to send by return mail, postage prepaid, on receipt of price, 70 cts. for SLEEVE BUTTONS, Ladies' or Gents', Plain, 60c; Fancy, 50c per set; 1 doz. Suspender Buttons, 60c; or one ASSORTED BOOK containing 1 doz. each, for coats, vests, pants, and overcoats at $1.75 per box. A full descriptive list, from which style of button can be ordered, will be sent by mail on application. Call or address W. B. WATKINS, Sole Agent, No. 416 Broadway, opposite Canal st., New York, Box 5368. Please state where you saw the advertisement. Show this to your friends.

Price $2 each; $18 per doz.

CHEROKEE PILLS,
Or Female Regulator,
Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-Headache, Giddiness*, and all illnesses that spring from irregularity, by removing the cause and all the effects that arise from it. They are perfectly safe in all cases, *except when forbidden by directions*, and are easy to administer, as they are nicely sugar-coated. They should be in the hands of every Maiden, Wife, and Mother in the land.
Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which females are subject.—Thirty-two page pamphlet, in a sealed envelope, free.
The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.
N. B.—Cherokee Pills No. 2 are prepared for *special cases*, when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S
REJUVENATING ELIXIR,
Or, Essence of Life,
Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course the veins, restoring the *Organs of Generation, removing Impotency and Debility, restoring Manhood as at the spring and full vigor*, thus proving a *cosmetic disease.* perfect "*Elixir of Love*," removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.
Price, one bottle $1; three bottles $5; sent by express to any address.
Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money, but the deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any diseases, or the causes of which we are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.

THE EXACT TRUTH.—Some Republican papers, inclined to uphold President Johnson, (says the Boston Transcript) complain because the other Republican papers—almost the entire Republican press, in fact—are opposed to him. By why are the latter opposed to him? For two plain reasons. He has violated his own freely given pledges, contradicted his own most emphatic assertions; and he has revealed a violent and despotic temper and an insincerity of character which have produced universal distrust of the man. It may be doubted whether those who believe in his policy, really believe in him. He has brought things to such a pass that loyalty to Republican principles, the principles for the maintenance of which the North has suffered so terribly, demands opposition to the White House. The plain proof of this no Republican journal can fail to see. It blazes out in the fact that all rebels and all sympathizers with rebels, all opposed to the war, are quick and eager to claim and eulogize Andrew Johnson. The truth is a sad one—but it is nevertheless a truth, that the great difficulty just now is utter distrust of the Executive and his chief advisers.

REJUVENATED TO DEATH.—The Milwaukie News says: "Mr. William Burton, an old citizen of North Prairie, Waukesha county, killed himself on the 1st inst., by experimenting a Turkish bath. He had conceived the idea that by subjecting himself to intense heat he could regain the elasticity and buoyancy of youth and the beauty which usually appertains to that period of life. He had been experimenting for some time previous, for the purpose of attaining this object, and on the night of his decease had got up a high temperature; and on the following morning he was found lifeless, the flesh upon his limbs being literally cooked. He was an excellent mechanic, a bachelor, and about forty-five years of age."

☞ The New York Post and The Times think that the movement for a Philadelphia Convention might prove a very good affair, if only suspicious hangers-on (the Vallandighams, Woods, &c.) were excluded. The Times expresses its readiness to bolt, if it can only bolt into company of average respectability. But did ever sound or sober politician think before of gathering grapes from thistles?

Did ever any one dream of getting up a party to support the President's policy without the largest aid from Copperheads and Rebels? Now, the problem is, how to make such a party and to make it "radical," free-trade, conservative, revolutionary, rebel, and what not, at the same time. For further particulars, see Times, Post, and the Richmond papers.—*Tribune.*

THE LAST COW IN THE BARN!
To Dealers and Country Traders
We offer peculiar inducements, as we are fully resolved to get rid of the Goods, let the Sacrifice be ever so great.
☞ There will be much loud talk and chafing about this time among Retailers who are *Overloaded with Goods*, at high prices, about selling *Dry Goods at Less than Cost*, but the safest way for all buyers is to call and get
A. Q. LEACH & CO.'S PRICES,
to take around in their pockets and compare.
MAKE A NOTE OF THIS.
Many City Retailers would do well to call some fine morning and see the RUSH and WALTZ go on; they would soon be convinced that it does not require Elegant Stores or a life-long Residence to sell Dry Goods, when they are sold at three-fourths of their value.

FRIDAY, JULY 27, 1866.

DISCHARGED.—The Concord Monitor says G. M. Delany, a recruiting agent from Augusta, Maine, who in the summer of 1865, was tried by a military court at Washington, for alleged frauds upon the Government, and sentenced to pay a fine of $45,000 and to be confined in our State Prison, has been unconditionally discharged by order of the President, and his fine remitted. Delany come to Concord, virtually without a guard, and on reaching the prison, put on the convict's garb and worked three months in the cabinet shop, when his health become impaired and he was sent to the hospital. The Warden then learned that the prisoner had previously studied medicine, and upon his recovery gave him full charge of the hospital, where he labored faithfully and successfully until discharged. Warden Mayo speaks in the highest commendation of the prisoner's gentlemanly conduct while confined, and of his kindness to the sick, and says that the officers and inmates of the institution regard his departure as a personal loss to them. The friends of Delany consider that he was unjustly dealt with and wrongfully sentenced, and they are much rejoiced at his early release.

ENGLISH ITEMS.—The Derby policy toward Ireland is represented to be designed to put down both discontent and emigration, except of Fenians, whose society the government has no love for.

About the middle of the present month a physician at Brighton poisoned his third wife, and, on being suspected, took his own life with prussic acid. He was considered a most respectable man—a man of property and standing, and a model husband, but it is now believed that he poisoned all his wives, whose property he inherited and whose lives he had insured.

The weather has been warm in England, but the prospects of good and heavy crops of every kind are very flattering.

NEWS FROM EUROPE, via London, July 16.—Sanguinary conflicts took place on the 14th between the Prussians and Federals near Aschaffenburg. The former were entirely successful. The town was in flames, and the Federals were retreating. The Prussians were marching on Frankfort, which town the Federal troops had evacuated, and the diet removed to Augustenburg, where the Foreign Representatives were expected to assemble.

The headquarters of the Prussian army under the King had been advanced to Brunn. Iglau was reported in possession of the Prussians.

Cialdini had occupied Padua and Vicenza—towns on the line of the railroad to Vienna. The Austrians in Venetia, except those in Venice, had no railroad communication with Vienna, so that unless Cialdini be dislodged the Austrians cannot render aid in the impending battle with the Prussians.

The Times of the 16th says: "Whatever forces the Austrians may have succeded in gathering around Vienna, it is still doubtful whether it will itself be equal to the task of withstanding the victorious Prussians, who according to all calculations, should assemble before Vienna to-morrow or the day after.

In the diplomatic circles of St. Petersburg it was declared that Russia had no present intention of abandoning its policy of neutrality, and that only in the case of the active intervention of a foreign power in the German conflict would she make declarations and take up an attitude corresponding with her interests.

The Moscow Gazette expresses its entire sympathy with the Italian cause, and favors the annexation of Rome to Italy.

Advices from Lunberg state that all the soldiers on furlough in Russia have been called in, and that military trains start every day from Warsaw to the frontiers of Galicia and Silecia, and Russian troops were marching from Podolia to Bessarabia.

The Spanish government has prohibited the sale of newspapers in the public streets.

AT NEW YORK, July 25, twenty-four seamen of the ship St. Mark were arrested, charged with breaking into the cargo.

John Brim was arrested, and about $100,000 worth of counterfeiting presses and other material were seized by the revenue officers. Brim was taken to Jail.

The distillery frauds have been settled by the proprietors paying fines and duties.

— John C. Breckenridge is stopping at the Queen's Hotel in Toronto. He denies having offered his services to the Canadian government in resisting the Fenians, and says he only desired to defend his home at Niagara against their attack. [A very nice distinction: the Fenians will hardly be able to see the difference.]

— On Wednesday four Fenians were discharged from custody at Toronto. The The Canadian Militia, it is officially announced will be armed with repeating rifles.

DARTMOUTH COLLEGE.—The correspondent of the Manchester Mirror furnishes a table of statistics of the Graduating Class, from which we take the following:—The number in the Graduating Class the present year is 42. The greatest number in Class at any one time, 41. The least at any one time, 36. Whole number connected with the Class during the four years, 59. Number that entered in '62 that still remain, 28. Number admitted from other Colleges, 6. Average age of the Class, 23. Oldest man, 28 3-4. Youngest man, 18 3-4. Average weight, 144 1-2 lbs. Sons of farmers, 16; of lawyers, 4; of clergymen, 4; of merchants, 2; of physicians, 4. Number intended to enter Law, 14; Theology, 8; Medicine, 8; Business, 6; Teacher, 1; Farmer, 1; undecided, 4. Seventeen are from New Hampshire, 9 from Vermont, 8 from Massachusetts, 2 from other Eastern States, and the remaining 6 from the Middle and Western States. Number who use tobacco, 18. Wine, ale or cider, 34. Other liquors, 22. Who smoke, but do not drink, 3. Who drink, but do not smoke, 7. Who neither drink nor use tobacco, 5.—Rather a poor record on temperance.

GRANITE STATE MILITARY AND COLLEGIATE INSTITUTE.—The First Annual Examination, Exhibition or Commencement of this new institution for "teaching the young idea how to shoot," literally as well as metaphorically, took place last week at Reed's Ferry, Merrimack, N. H. The mingling of military with academical studies is a new thing among us, and many were gathered there from the surrounding towns to witness the exercises.

The examinations of the various classes passed off in a manner satisfactory to all present. In the afternoon, classes in French and Algebra occupied the first hour, after which the time was occupied in declamations and the reading of compositions. The exercises closed with Military Parade and Skirmish Drill. The Company Drill showed the excellent instruction they had been under. The firing was particularly noticeable. The orders were all given by the bugle call. The next term commences on Sept. 12th, 1866.

OFFICIAL REPORT ON UTAH.—The House Committee on Territories, in their report on Utah affairs, say the U. S. laws are defiantly violated; that armed force is necessary to preserve peace, but they do not deem it advisable to divide the territory and annex it to adjacent States and territories. Nor do they favor a military government, but propose to postpone any recommendations until December next. Witnesses testified that hostility to the U. S. is taught by Brigham Young and those faithful to him. Gen. Connor believes that the leaders authorize and justify homicide. A special order issued by Brigham Young was put in evidence, directing that 80 teamsters belonging to Johnston's command should be massacred. Fortunately, the man designated to execute the order revolted at the atrocity, and placed the original order in the hands of a Federal officer.

MRS. ABRAHAMS, THE MURDERESS.—An investigation into the charge made against Mrs. Abrahams, now in custody in Richmond for cruelly beating, roasting and torturing a negro girl, shows that she has murdered four of her slaves within a few years, and that her custom had always been to exercise cruelties such as has seldom if ever been put on record. If she escapes the gallows after the charges made against her are proved—and there seems to be no difficulty about that—there can be no sense of justice in the jury before which she will probably be tried.

THE MONARCH OF THE SEAS.—The hopes entertained for the safety of this vessel, which left the Mersey for New York on the 19th of last March, with 639 cabin and steerage passengers on board, have been at length dispelled by the discovery of a boat, pitched up on the coast of Kerry, on Saturday, the 7th inst., and which is believed to have belonged to the vessel, together with a number of dead bodies. The Monarch of the Seas was an American built ship, and 10 years old. The prevailing opinion among experienced captains in the New York trade is that she foundered among the icebergs.

AN UNFORTUNATE.—A real German Count, who came to New York some time ago, and whose family was known to but a few, died in the streets of that city this week from drunkenness and debauchery.—He had for some time previously been supported by a colored paramour connected with a low dance house, but his habits were disgusting even to such as frequented the place, and he was kicked out and died as above stated.

EXPULSION OF MEMBERS OF THE TENNESSEE LEGISLATURE.—On Tuesday last Messrs. Porter, Foster, Martin and Williams, members of the Tennessee House of Representatives, were expelled. Speaker Hickskell, of the House, was relieved from duty for the remainder of the term at his own request, and Judge Norman was elect-Speaker *pro tem.*

CONGRESS is very busy, as both Houses have voted to adjourn on Saturday.

In the Senate, July 25, E. G. Ross was sworn in as Senator from Kansas vice Mr. Lane. Joseph S. Fowler after presentation of his credentials, took the oath as Senator from Tennessee; and both found seats on the republican side.

The Senate unanimously confirmed Lt. General Grant to be General, under the law creating that rank. Governor Randall was confirmed as Postmaster General, 33 to 5. Admiral Farragut was confirmed unanimously.

The only important measure now pending is the bill to increase the regular army to forty thousand men. A committee of conference is at work on a new bill which will be acceptable to both Military Committees and probably to both Houses.

In the House, Messrs. Cooper and Leftwich, from Tennessee, were sworn in, and took seats.

Mr. Rice, from the Committee on Naval Affairs, reported back the House bill to prevent officers of the navy from being deprived of their regular promotion on account of wounds received in battle, with amendments. The amendments were agreed to, and the bill passed.

The bill giving Commissioners appointed by the Circuit Courts the same powers as are given to justices of the peace, was passed.

The bill declaring the rights and immunities of citizens in all States, and providing for the protection of the same, was postponed until the second Tuesday in December.

The bill regulating the appointment of clerks, etc., by United States Judges, was passed.

The bill restoring to the possession of loyal owners the land confiscated by the rebel authorities was passed.

The bill amendatory of the national currency act was taken up.

The Currency bill, after debate, was postponed until December.

Mr. Banks reported from the Committee on Foreign Affairs a bill in reference to the neutrality laws. Ordered to be printed, and its consideration postponed until Thursday.

Messrs. Raymond and Patterson made a minority report, recommending that a joint committee be appointed to report next session.

A conference committee was appointed on the Army bill.

An order was passed to pay the Tennessee members their pay and mileage from March 4, 1864.

A conference committee was appointed on the Tariff bill.

TIT FOR TAT.—George Francis Train, whom Vallandigham and his copperhead associates voted out of doors at the Chicago Convention, is now in Washington as "delegate from Nebraska" to the Philadelphia Convention, and is earnestly protesting that the copperheads shall be excluded from that body. He will find that as at Chicago they will be too strong for him, and he will have to go to the wall again. Vallandigham, Wood & Co. will attempt to manipulate the Philadelphia Convention so that its action shall be an endorsement of their policy during the war, and with the help of their "Southern brethren" from the Confederate army, who will be members of the Convention, they will very likely to be successful.

☞ There were seven hundred and sixteen deaths in Philadelphia last week—an unprecedented number for that city. Of these 168 were from cholera infantum, 44 from sunstroke, 50 from the effects of heat, 25 from dysentery, 14 from diarrhea, 21 from congestion of the brain, 10 from cholera, and 36 from convulsions, or in all 368 from diseases more or less resulting from the extraordinary heat. The deaths for the corresponding week last year were not so many by 273.

— No vocabulary can furnish language sufficiently strong in commendation of that excellent and indispensable article known as the J. Monroe Taylor Gold Medal Soap. The lady having ought to do in any household department, from the washtub to the finest needlework, should not fail to supply herself with a year's stock. It only requires a person to use it once to use it their whole life. Most of the grocers sell it. 9

☞ "Cholera, Dysentery, Coughs, Colds and Rheumatism are quickly cured by AMERICAN LIFE DROPS.

CHOLERA MORBUS, and all disorders of the stomach and bowels, are speedily cured by the use of Coe's Dyspepsia Cure, whilst indigestion or constipation are equally well governed by its use, for it is a perfect regulator of the stomach and bowels. Dyspepsia, the most horrible of all diseases, yields at once to its curative powers. It is a valuable medicine, very popular, and should be kept on hand in every household. J22—1w

Holloway's Pills.—Diarrhea.—A sudden suppression of the evacuations frequently ends in collapse. The action of Holloway's medicines are based on a more rational principle; by combining with the depraved humors they neutralize and expel them through the natural channels. They purify the fluids, cleanse the bowels, invigorate the stomach, and by regulating the various functions restore the body to its normal state of health. Sold by all Druggists. J21

PERRY DAVIS' PAIN KILLER.
As an internal remedy, has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, Dysentery, and Asthma, it cures in one night, by taking it internally, and bathing with it freely. It is the best liniment in America. Its action is like magic when externally applied to bad sores, burns, scalds, and sprains. For the sick headache and toothache, don't fail to try it. In short, it is a Pain Killer.
PERRY DAVIS' PAIN KILLER.—This medicine has become an article of commerce, a thing no medicine ever became before. Pain Killer is as much an item in every bale of goods sent to country merchants as tea, coffee, or sugar. This speaks volumes in its favor.—GLENS FALLS MESSENGER. Jy1—dawlm

Wonderful, but True!
MADAME REMINGTON, the world-renowned Astrologist and Somnambulistic Clairvoyant, while in a clairvoyant state, delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a perfect and life-like picture of the future husband or wife of the applicant, with date of marriage, occupation, leading traits of character, &c. This is no imposition, as testimonials without number can assert. By stating place of birth, age, disposition, color of eyes and hair, and enclosing fifty cents, and stamped envelope addressed to yourself, you will receive the picture by return mail, together with desired information.
